

Savage Harbour

Mr. Freddie Mosher, well known veteran of World War II, was a weekend visitor to Georgetown, where he was the guest of Mr. and Mrs. J. A. B. McConnell.

Mr. and Mrs. Ralph Pigot of Savage Harbour were business visitors to Charlottetown on Friday.

The many friends of Mrs. Lester Gunn, Savage Harbour, will be happy to learn that she has fully recovered from her recent illness and is now able to be around and about her household duties as usual.

One of the real busy spots in this area is the Community Potato Warehouse at Douglas, where manager Wilfred Coffin has a number of men engaged in grading the season's potato crop. Prices are a bit more encouraging than were those of last season and hence everybody is happier.

Mr. and Mrs. Sterling Pigot and young daughter, Mable of Savage Harbour, have taken up residence in Mt. Stewart for the winter months.

Miss Francis Coffin, nurse-in-training at the Prince Edward Island Hospital, is enjoying a brief holiday at Savage Harbour, where she is the guest of her parents, Mr. and Mrs. Wilfred Coffin.

Mrs. James Doyle of Mt. Stewart, who has been under treatment at the Charlottetown Hospital, returned to her home during the week. It is pleasing to note that Mrs. Doyle is feeling much better.

Supervisor Gordon M. Rice of Charlottetown made his semi-annual visit to Savage Harbour School during the week. Mr. Rice has the happy faculty of being able to do a good job in a nice way. Hence, pupils and teachers alike have come to look forward to his visits with pleasure.

The large suction dredge No. 12, owned by the Federal Department of Public Works, which has been operating at Savage Harbour for the past number of weeks, has completed her activities for this season and crewmen are now busy engaged in making the necessary preparations for her winter lay-up. No. 12 will remain at Savage Harbour during the winter and will resume work on the new harbour in early spring. It is understood that Captain and Mate will remain with the dredge throughout the winter.

Rapid progress is being made towards the completion of the fine large barn being built for Mr. Russell Gunn of Savage Harbour. Mr. John MacAdam, well known carpenter of Canavoy, is the foreman in charge. Mr. Gunn had the misfortune to lose his barn the night Edna was around but he immediately set up plans for something bigger and better and today from the ruins of the old rises the grandeur of the new.

Mr. and Mrs. Lewis Moore and daughter Dianna of Savage Harbour, have moved to Charlottetown, where they will reside throughout the winter months.

During the week workmen aided by a bulldozer have been engaged in removing a heavy growth of thorn bushes from the sides of the road leading to the wharf at Savage Harbour. These have long been the source of much trouble and inconvenience during the winter and early spring to those who had reason to use the road.

The long stretch of cribwork being built at Savage Harbour is now nearing completion. Starting at Gull Island, it is being built towards the MacPhee shore. This cribwork is one of the cogs by which it is hoped to turn the "new harbour" into something workable and real. Mr. Parker Lund of Charlottetown is the efficient foreman of the work.

A skunk, with ambitions to become a leader among skunks, set up living quarters under the local institution of learning. His stay was brief but his memory lingers long. The Feehan brothers, Ray and Reuben, trappers of fame and renown, despite their early teens, caught him on the first set.

All those attending the married couples dance at Savage Harbour School, sponsored by the local Women's Institute, had a most enjoyable time. The music was furnished by MacKinnon's Orchestra and this fine group of musicians considered tops in their field, gave of their very best. A delicious lunch was served to all.

Extensive repairs are being made to the cook house and other buildings of the Savage Harbour Packing Company's plant at Savage Harbour. The work is being done by Mr. James MacKay. It is understood that the wharf at Savage Harbour will be extended from 75 to 100 feet this spring. Such an addition will mean much to the fishermen served by this wharf. —C.H.
