IN THE HOME WORKSHOP

MAKE THIS RUGGED PLYWOOD BOAT PATTERN 220

The man who likes to spend his holidays cruising lakes or rowing in shallow trout streams will be delighted with this sturdy boat. It is light enough to carry on top of a car. Two panels of marine plywood 3-8-inch thick and 12-foot long are used for the shell. One panel is 34-inches wide and one is 37-inches. The frame members are of oak with pine used for the inside work. The first step in boat building is to make an erecting frame, or strongback, on which the shell is constructed upside down. A pattern showing each step from making the frame to the final finish is included in the Sportsmen's Packet which is \$1.50 postpaid. Or the boat pattern may be ordered separately for only 35c. Apply: The Workshop Department, The Guardian Publishing Co.

Charlottetonians Receive Degrees At Wolfville

WOLFVILLE, N. S., (CP)—Dr. John E. Grant told the annual summer school convocation of Acadia University Tuesday that the advance of science so far in the 20th century has had a greater impact on civilization than any previous period in history.

The Rockefeller Foundation associate director of medicine ranged over the field of conflict between communism and democracy. "It seems that the subsequent shape of a new atomic civilization will depend on which of the two succeeds in becoming attractive to the two-thirds of the world population which at the moment is neither democratic nor totalitarian," he said.

Dr. Grant, a 1912 graduate of Acadia, was awarded an honorary doctor of science degree during the ceremonies. Other degree-winners included: Nancy Colpitts, Moncton, bachelor of arts; James MacNeill, Charlottetown, bachelor of science; Donald Webster and David George, both of Charlottetown, applied science certificates; and Nancy Colpitts, Moncton, secretarial science diploma.

PEI Scouts Included In Sub Camp Atlantic At World Jamboree

When Scouts of the world gather at Niagara-on-the-Lake in August, 1955, for the 8th. World Jamboree they will be bringing all their own camping equipment, including canvas, and will live in ten sub camps, each a tented city of 1000 Scouts. They will do their own cooking over charcoal fires.

British Columbia will be responsible for Sub Camp Pacific; Rocky Mountain Sub Camp will be the responsibility of Alberta; Saskatchewan and Manitoba will operate Prairie Sub Camp. Ontario will conduct four sub camps: Great Lakes, Timberlands, Hudson Bay and St. Lawrence; Quebec will call its Sub Camp, Bonaventure, while New Brunswick, Nova Scotia, Prince Edward Island and Newfoundland will combine forces to operate Sub Camp Atlantic. Sub Camp Alouette will be under the direction of La Federation des Scouts Catholiques de la Province de Quebec.

Report Four Per Cent Live Births In Canada Illegitimate

TORONTO, (CP)—More than four per cent of all live births in Canada are illegitimate, the 1954 report of the board of evangelism and social service of the United Church of Canada said yesterday.

"This means of an estimated 400,000 live births this year, some 16,000 to 17,000 will be born out of wedlock," said Mrs. H. L. Luffman, chairman of the board of Victor Home for Girls, who prepared the report. "Family life has changed," she said. "Home in many instances has become just a dormitory where meals can be had. Social drinking, the cocktail lounge, lack of housing, the automobile, cheap, trashy literature and advertising, all take their toll."
