The Nova Scotia Railway Syndicate Bargain.

To Nova Scotia a system of railways is of very great importance. But, hitherto there has been no system; and the Local Government have for years had infinite difficulty with the various disconnected railways and railway companies existing in the Province.

To solve the difficulty and to make provision for the building of connecting links and extensions, involving a railway system for the Province with its maintenance in perpetuity, was the exceedingly difficult task set themselves by the Government led by Hon. Mr. Holmes.

With this view, they have concluded an agreement—subject to ratification by the Legislature—with Mr. Edward Albert Plunkett, representing a company of capitalists.

Under this agreement, the Company are (for its part) to purchase from their present owners, all the railways in Nova Scotia, except the Intercolonial; to work and maintain them under a tariff to be approved by the Government; to complete the unfinished lines and to extend new lines between Canso and Louisbourg, or some other Atlantic port, between the town of Pictou and some point on the Intercolonial Railway, between Windsor Junction and the town of Dartmouth; to lodge with the Government as security \$250,000; and to pay to the Government, for its interest in the existing railways, the sum of \$1,350,000 in cash.

The Government, for its part, is, on the completion of the Nictaux line, to pay to the Company the balance of the subsidy unexpended on that work—some \$300,000; to give to the Company certain grants of land for the construction of the Cape Breton road; to give the Company rails for the line to Pictou town; and to guarantee payment of the interest of the Company's bonds.

If the Company be reliable and careful, there seems to be no doubt whatever that the bargain is a good one. The danger lies in the failure of the Company to pay the interest on its bonds. Should this happen, the Government would have to pay yearly a large sum of money.

The following figures, supplied by the Halifax Herald, will afford a good idea of the amount of increased liability to be assumed by the Province under the terms of the contract:

Table with 2 columns: Description of liability and Amount. Includes Provincial liability by guarantee bonds of 4 million dollars, interest on \$1,350,000, and other financial details.

So that the net increase of liability to be assumed by the Province will be \$73,062 per annum. The work to be done by the Company, and the advantages which will accrue to the Province, should the agreement be ratified, are both very great, and Mr. Holmes and his colleagues are to be congratulated on having grappled, in a statesmanlike way, with a very important and very difficult question.

THE Montreal Gazette says: The appointment of Baron Von Scholzer, who for nearly twelve years has held the position of German Minister at Washington, to the position of Minister of Germany to the Vatican, is regarded as an omen of the existence of a better understanding between Prince Bismarck and the Pope. Baron Von Scholzer was formerly Secretary of Legation at Rome under the celebrated Harry Von Arnim, and he is now returned there because the Chancellor finds it once more possible to establish not merely diplomatic, but friendly relations with the Pope, Baron Von Scholzer, who is a favorite in Rome, and especially at the Vatican, has been selected as the most capable person to advance this friendly understanding between the Vatican and the German Chancellor. In communicating the departure to Rome of Baron Von Scholzer, the Washington correspondent of the New York Herald says that a fair trial of the May laws, so called, against the Catholics has evidently convinced both the Prussian authorities and the authorities of the Vatican that these regulations are not practical, and Prince Bismarck is understood to be ready to modify them. It is the mission of Baron Von Scholzer to the Vatican to arrange the terms of such changes as shall be mutually agreeable to Prussia and the Holy See, and as the first steps towards a friendly agreement were secured by the secret negotiations conducted by Baron Von Scholzer last summer, there is little doubt that this important reconciliation, mutually desirable and advantageous, will be completed in time to receive the ratification of the Prussian Parliament.

It is satisfactory to know that the business of the Dominion last year was so fairly well conducted and so generally remunerative that the number of failures was very much below the previous year, and that the amount was also far below. There were in 1881 a total of 633 failures out of 59,116 persons in business, and the amount of the liabilities was \$5,751,297. In 1880 the failures were 907 out of 57,000 persons in business, and the amount of the liabilities was \$7,983,077. Thus 1881 shows the failures to be 86.9 per cent. of every 93 persons in business, against 1879's one out of every 63 persons. 1881 shows the liabilities to be \$2,236,000 less than those of 1880. Canada's showing is much superior to that of the United States, where there was an increase of failures of 847, and an increase in liabilities of fifteen and a half millions of dollars, in 1881 as compared with 1880.

According to the annual official returns of the British Army just published, the average effective strength of our regular army last year was 188,986 men, consisting of 17,516 cavalry, 33,643 artillery, 5,551 engineers, and 132,276 under the heading of "other arms." Of these there were in Ireland 20,584, and abroad 97,099. The total of the reserve forces was 444,170.

Marriage of Mr. Montague Aldous.

(Ottawa Free Press.)

St. John's Church was this afternoon the scene of a very pretty ceremony which united in marriage Mr. Montague Aldous, of the Department of Interior, to Miss Bate, daughter of one of Ottawa's most prominent citizens, Mr. H. N. Bate. The great popularity enjoyed by both bride and bridegroom sufficed to fill the church to overflowing. While, as a matter of course, all brides look charming, of this one it may safely be said that she looked so in an especial and particular manner. Her dress was of cream watered silk, trimmed with Brussels lace, prettily wreathed with orange blossoms, whilst the soft folds of her embroidered veil set forth to full advantage the exquisite sweetness of a charming face. The bridesmaid was Miss Katie Bate, who, attired in a most becoming dress of nuns' veiling trimmed with Spanish lace, and hat of lace with cream feathers, looked a fitting companion to her fair sister. Mr. Joseph Pope attended the groom as his best man. The bride's presents were both numerous and beautiful. The happy couple left by the afternoon train on their wedding tour carrying with them the best wishes of their many friends. We understand that Mr. Aldous intends taking up his residence in Winnipeg, having been appointed to take charge of the surveys branch of the land department of the Hudson's Bay Company.

This report will have been read with interest and pleasure by many of our readers—friends of the bridegroom in the case—who will also be glad to learn that Mr. Aldous stands at the top of his profession and is a great favorite in the best society of Ottawa. Mr. Aldous has been offered by Mr. Bridges, and has accepted, the important and responsible position of Inspector of Surveys for the Hudson's Bay Company; and we learn that his consequent resignation of the office he held under the Government is greatly regretted by the Surveyor General, and by his official comrades. We heartily congratulate Mr. Aldous on the auspicious event here recorded, and trust that under changed and happier conditions he may continue to prosper, as he has prospered since he left the Island.

Sackville Academy Destroyed by Fire.

SAKVILLE, Jan. 8. About four o'clock on Sunday morning, the Mount Allison Male Academy was discovered to be on fire, which was supposed to have caught near the stove in the kitchen. In a short time the entire building was burned to ashes. No other buildings were burned. The school is going on in other buildings. Insurance is said to be in the vicinity of eighteen thousand dollars.

OTTAWA, Jan. 8.

The Quebec Government has accepted the proposition of Rev. Fathers Labell and Lacasse to organize a Provincial Lottery of one million dollars, with two annual drawings of five hundred thousand dollars each. The Government take it under their patronage and receive 10 per cent. of the profits, which they will devote to the various charitable institutions of the Province. The balance of profits will be devoted to colonization. Mr. Chapleau defends it on the ground of national and charitable objects promoted, and also on the ground that some fifty thousand dollars are annually sent out of the Province to purchase lottery tickets in the United States.

Mr. Chapleau denies that Sir Hugh Allan made an offer for the Occidental Railway and expresses surprise that Sir Hugh Allan had not denied the published statements to that effect.

The appointment of Senators Skead, McKay, Ogilvie and McInnis is gazetted; also of Lindsay Russell, as Deputy Minister of the Interior, vice Dennis, superannuated.

TORONTO, January 9—10 a. m. Fresh to strong southwesterly to westerly wind. Cloudy, mild weather, with rain areas.

The unnecessary panic among some of the stockholders of the Sugar Refinery has quite subsided, and there is an evident return of the usual confidence on all sides. The annual meeting will shortly be convened, at which the disclosures will, without doubt, show up a much better condition of the company's affairs than was at one time anticipated. We have no hesitation in asserting, and advisedly so, that a certain individual who pretends having stock for sale at 5 1/2 p. c., cannot show a single share at those figures, or even at 90c. The present stockholders are not so situated that they are compelled to sell at any less than par. | Ha. New Era.

Ordination at East Point.

To the Editor of the Examiner.

DEAR SIR,—Under the above heading, and over the signature of D. G. McDonald, there appeared in the EXAMINER of Jan. 5th, a report of the ordination of R. B. Kinley by the Baptist Church. Mr. McDonald says that R. B. Kinley "was for some time a preacher in the denomination known as Bible Christians; but having discovered that infant baptism—to say nothing of infant sprinkling—is not taught in the Bible, and that, therefore, the practice of it is inconsistent in a Bible Christian, he identified himself with the Baptist denomination, and in October last was called to the pastorate of the above mentioned church," that is the East Point Baptist Church.

Inasmuch as this is calculated to mislead the public mind in relation to Mr. Kinley's connection with the Bible Christian Church and his discontinuance of that connection, it becomes necessary in the interest of truth and justice that I should state what were the relations between Mr. Kinley and the Bible Christian Church.

Mr. R. B. Kinley never had any kind of connection or standing with the Ministry of the Bible Christian Denomination, but he has been for several years a local or lay preacher on the West Cape Circuit. He occupied the same rotation as a preacher to the Church there as does Mr. Joseph Knight to the Bible Christian Church of Charlottetown, or Mr. George Milner to the Methodist Church.

In the year 1875, R. B. Kinley, offered himself as a candidate for the Ministry of the Bible Christian Church. The Conference did not accept this offer. In 1879 Mr. Kinley again presented himself as a candidate for our ministry, again the Conference rejected the application. In 1880, by, and with the consent of Mr. Kinley, a third application was made, and a third time the Conference informed him that he could not be accepted as a probationer for the Ministry. During the summer of 1880 the quarterly meeting of the West Cape Circuit was desirous of obtaining some additional labor beyond what the regular pastor could perform. They requested the Conference authorities to permit them to employ Mr. Kinley for the year as a hired Local Preacher. When the reply came it was to the effect that the Conference could not recognize Mr. Kinley as a preacher in any hired capacity, but as the arrangement was purely local, and would end in a few months, there was no disposition to interfere with it.

I regret that I have to make public these matters, but the unseemly rejoicing of Mr. Kinley's newly found friends over what they appear to regard as a great triumph of the Baptist Church over the "denomination known as Bible Christians," and of adult immersion over infant baptism by sprinkling, has rendered it necessary.

I do not blame Mr. Kinley, if, when his way to the ministry of his own church was closed against him, if he still felt it his duty to enter the ministry, he sought to enter the Baptist or any other ministry, and if he can succeed I shall rejoice. At the same time I cannot allow the public to be misled concerning the reasons which induced Mr. Kinley to withdraw from the Bible Christian denomination.

In the latter part of the report, Mr. McDonald states that "Brother Kinley is deservedly beloved by this warm-hearted people, and his prospects are most hopeful." Bible Christians will be unfeignedly glad to know that one of their ordinary local preachers has at once stepped to almost the front rank in the Baptist ministry in this Province, and that he has so promptly received a call to one of the largest Baptist churches on this Island. I hope Mr. McDonald will visit East Point occasionally during the winter, for unless Mr. Kinley is changed for the worse recently, he would soon teach him that sneering at "the denomination known as Bible Christians," or any other church that does not require so much water in the baptism of infants or adults as he does, "is not taught in the Bible," and that, therefore, the practice of it is inconsistent in any man having a regard for the injunctions of that Sacred Book.

JOHN HARRIS.

Charlottetown, Jan. 7th, 1882.

OLIVE LOGAN, writing of the Marquis of Lorne as he appeared as an after-dinner speaker, recently, in England, says:—"The young Scotch noble has greatly changed since he left these shores to assume the viceregency of the domain to the north of us. His bearing at that time was that of a shy, aristocratic, almost frigid, youthful noble, whose only conception of a fine manner is an essentially cold and unimpassioned one. Now, on my word, he seems like an American 'of ours.' He is jovial, hearty, off-hand—I had almost written slap-dash. The Princess seemed to take the greatest pride in his success as a speaker, and gave him many loving smiles of approval as he expatiated on the evils of smoke."

THE Boston Advertiser reports a curious suit which has just ended in the United States Circuit court in New York. The action was brought by Michael McDermott against the Pennsylvania Railroad Company. McDermott's boy, aged eleven years, with another boy, crawled through a hole in the company's docks in Jersey City, for the purpose, as is alleged, of getting some iron bolts or spikes, and were returning when McDermott fell into the water, and, being heavily freighted with iron spikes was drowned. His father brought suit against the company to recover damages for the loss of his son, alleging that his death was caused by the negligence of the company in not having the hole under the dock closed. The jury rendered a verdict awarding six cents damages.

MANY a house among the honest poor will have matter for wonderment when their inmates read of the merry times the convicts in the Kingston Penitentiary had on New Year's Day. A Whig reporter tells us that on his visit to that establishment he found a dozen persons most energetically employed in fixing up 200 geese—one to be divided among every four convicts,—650 very fine wine cakes, and 800 large apple pies, besides many other palatable edibles. As, were provided, we are informed, at the convicts' own expense.

THE regular meeting of the Charlottetown Land League will be held this evening, 9th inst., at 8 o'clock in St. Patrick's Hall. A full attendance is requested.

The main objects the promoters of this Company have in view is to establish in the Dominion of Canada, under our admirable Insurance Law, a purely Mutual Life Insurance Company, wholly for the benefit of the insured.

THE MUTUAL PRINCIPLE is the only one by which the participating members of a Life Insurance Company can receive full equivalent for their money. It gives Insurance at net cost, while the soundness of the principle and the stability of such institutions are proved by the fact that the largest and most successful Life Companies in the world are mutual. It has no stockholders to deplete its Treasury by enormous annual dividends, and its directors are always selected from the very first citizens in the community, while its Executive propose to conduct its affairs with the strictest economy, consistent with the efficient management and prosecution of its business, confidently anticipating that results as successful, proportionally to those attained by mutual companies in other countries, will be realized in Canada by a prudently managed company.

This Company issues three classes of policies: First—Ordinary Life and Endowment with Profits. Second—Tontine Savings Fund Policies (deferred profits), Life and Endowment. Third—Industrial Class Policies, Life and Endowment.

The Ordinary Life and Endowment Policies of this Company provide the greatest amount of Insurance for the least amount of money, and the best possible security for a family against want, should the bread winner be removed by premature or untimely death.

The Tontine Savings Fund, or Tontine Investment Policy, offers to all who have a reasonable prospect of being able to continue their payments, results which are incomparably better than the ordinary plans of Insurance. To all possessed of a reasonably certain income there are few investments more attractive in their results.

The Industrial Plan of Insurance of this Company offers special advantages to the working classes, and persons of small means, who by monthly quarterly, or half-yearly payments can secure a risk of from \$100 to \$500 on their lives, payable within twenty-four hours after death.

All Policies incontestable after three years from date for unintentional errors, mistakes or omissions in application.

GOOD VENTILATION,

And Good Health follows.

THE undersigned has purchased the exclusive right of the D. F. & L. VENTILATORS, manufactured by R. M. & T. ALLAN, Yarmouth, Nova Scotia, for this Province. This Ventilator recommends itself at sight, and is indispensable for Rooms, Kitchens, Cellars, Closets, Pantries, and all places where pure air is required. It does not interfere with the raising or lowering of the windows; it is simple in construction, durable, water-tight, absolutely noiseless, and ornamental. Physicians recommend it for sleeping and sick rooms. Scientific men declare it the best ventilator ever invented. It is equally adapted for dwellings and public buildings. Windows can be secured against drafts of cold air, and thus secured from attempts of burglars. Can be equally adjusted to double or single windows, and easily regulated. It is peculiarly desirable for steam boats, railway cars, and street cars, being unaffected by situation or motion, frost, storms or rust.

The Ventilator has received numberless testimonials from medical doctors in Canada and the United States.

Circulars giving full explanation of its working can be obtained from the undersigned, who is prepared to fill all orders for it.
