

The "Albert" Toilet Soap Co's Baby's Own Soap makes youngsters, clean, sweet, and fresh.

It keeps their delicate skins in good order. Made entirely from vegetable fats, it is an emollient as well as a cleanser, and is as useful on a lady's toilet as in the nursery. Faintly but exquisitely aromatic.

Beware of imitations.

Mayoralty Election.

A meeting of supporters of the undersigned, for the purpose of organization, will be held in the room adjoining the Market Hall, in the Market House on Monday evening the 22nd inst., at 7.30 p. m.

A full attendance is requested.
JAMES WARBURTON.

COKE! COKE!

Fool Luck.
"You can bet it is always a fool for luck," said the man who has had his nose to the grindstone all his life.

"Now, there was Jack Shane of Tennessee, who drew \$25,000 in a lottery. Jack didn't know enough to go in out of the wet, but he had a little money, and he bought a ticket that won, while I got ten and didn't fetch a cent. The winning number was 42, and when I saw Jack I asked him how he happened to take that number. 'Well,' he said, 'you see, it was this way: I had a dream one night, and I dreamed that the door of my room opened all of a sudden, and a big number seven walked in. Then right after it came other sevens and more and more till the room was chucked full and I was about smothered under them. Then I woke up and began thinking it over. I knowed that one seven wasn't the number to draw nor 77 nor 7,777, for there was a million of them, and no lottery had that many numbers. But I figured awhile and at last made up my mind that seven times seven was 42, and 42 was the number, so I drewed that one. That was all there was to it.'

"Now," concluded the talker, "if that isn't a case of a fool for luck what the dickens is it?"

Savage Crabs.

The most savage specimen of the crab species is found in Japan, seeming to dream of nothing but fighting—to delight in nothing half so much. The minute he spies another of his kind he scrapes his claws together in rage, challenging him to the combat. Not a moment is wasted in preliminaries, but at it they go, hammer and tongs. It sounds like two rocks grinding against one another as their claws rattle against the hard shells. The sand flies as the warriors push each other hither and thither until at last one of them stretches himself out in the sun, tired to death.

But he does not beg for mercy or attempt to run away, only feebly rubbing his claws together in defiance of the foe. That foe comes closer, and, with his claws trembling with joy at his victory, the conqueror catches hold of one claw of the vanquished crab, twists it until it comes off, and bears away the palpitating limb as a trophy of his prowess. Such is a battle between warrior crabs.

A Rat Story.

"One day not long ago," said a brick manufacturer, "one of my workmen saw three rats carrying a straw across the brickyard. It seemed such an unusual sort of proceeding that he stopped his work to watch them. Two of the rats held the straw at opposite ends while the third supported the center. They were making straight for the river which flowed by one side of the yard. When they arrived at the bank, they laid down the straw and took a long drink. Then they proceeded to take up the straw again in the same manner as before and returned by the same way they had come.

"This so interested the workman that he determined to watch if they would come again. And sure enough, at about the same time the next day, they appeared, carrying the straw exactly as before. Having provided himself with a gun, he shot all three to see if possibly he might thereby solve the mystery. He discovered that the rat in the center was blind and therefore concluded that this was the animals' kind method of leading their afflicted comrade to the water to drink."—Philadelphia Inquirer.

IT'S TOO RISKY

To undergo an operation for itching. Piles when Dr. A. W. Chase's Ointment is a surer, cheaper, easier way to cure.

Cruel, barbarous methods belong to the dark ages of the past. There was a time when a surgical operation was considered the only possible cure for piles. Not so now. Occasionally there is still found a physician who adheres to this dangerous and expensive method, but to every one who still believes in using the knife, nitric acid and nine recommend the use of Dr. Chase's Ointment.

Dr. C. M. Harlan, writing in The American Journal of Health, said: "We know that 'Dr. Chase's Ointment' meets all the requisitions of the highest standard of worth, that it will be held in high esteem wherever it is used, and consequently we endorse it to every reader."

By force of merit alone Dr. Chase's Ointment has won its way into this wide, wide world, until it has made the name of Dr. Chase familiar in almost every home, and won for the venerable discoverer the title of "America's Greatest Physician."

Dr. Chase's Ointment has never been known to fail as a cure for piles. It matters not whether blind, itching, bleeding or protruding, Dr. Chase's Ointment is an absolute and perfect cure.

Dr. A. W. Chase's Ointment is the discovery of the author of Dr. Chase's Recipe Book, whose portrait and signature is on every box of the ointment. All dealers, or Edman, Bates & Co., Toronto.

Colds ON THE Chest

are dangerous; they weaken the constitution, inflame the lungs, and often lead to Pneumonia. Cough syrups are useless. The system must be given strength and force to throw off the disease.

Scott's Emulsion will do this. It strengthens the lungs and builds up the entire system. It conquers the inflammation, cures the cough, and prevents serious trouble.

50c. and \$1.00, all druggists. SCOTT & BOWNE, Chemists, Toronto.
