**SIR CHARLES' VISIT.**

FROM a telegram received by Hon. Senator Ferguson on Saturday evening it is learned that the great Liberal-Conservative chieftain, Sir Charles Tupper, will in addition to the Charlottetown meeting on the 4th of September address a meeting in Summerside on the evening of the following day. It is expected that the Leader will be accompanied by his distinguished lieutenants, Messrs Foster and Hugh John McDonald. It is also expected that the Liberal-Conservative Convention for East Prince will meet the same day.

**THE DUTY ON CORN.**

QUANTITIES of the oats of last year have lately been brought to market and sold at 28 cents per bushel. While it is pleasing to note that many farmers have oats to sell at this season of the year—after having fed horses and cattle all winter—it is much to be regretted that the price is so low;—and the cause is worth while enquiring into.

As one of their few concessions to Free Trade, the Laurier-Tarte Government took the duty off corn. The consequence was that upwards of seven millions of bushels of corn were imported into Canada from the United States the year before last, and a considerably greater quantity last year.

Every bushel of this corn took the place of a bushel of oats in the Canadian market, and so our farmers were left with their oats on their hands, or were compelled to accept the low price warranted by the demands of a foreign market three or four thousand miles away.

If our oats had had access to the United States market in Boston and New York the case might not, perhaps, have been so bad; for we might then, possibly, have sent some oats there to supply their local wants. But the United States maintained a prohibitive duty upon Canadian oats while Canada lets United States corn in free!

This is the chief reason why the thrifty farmers of New Glasgow and Beauséjour and other settlements are hauling their oats to Charlottetown and Summerside in the month of August and selling it at 28 cents per bushel.

Fortunately the far-seeing and progressive men of Sir John McDonald's administration established the dairy business in this country before Sir Wilfrid Laurier and Tarte came in. Our farmers have now a profitable source of money needed to meet their bills apart from the grain they raised. But for this they would be in a bad way.

**ONE POLICY FOR ALL.**

SIR CHARLES TUPPER's latest remarks on the subject of the sending of the troops to South Africa are in keeping with his conduct from the first, remarks the Montreal Gazette. He was among the first of the public men in Canada to offer his support to the government if it would put this country in line with the Australasian colonies. He not only spoke from the platform in Nova Scotia in favor of the action that was taken, but he telegraphed

the Premier the assurance of his help in parliament in carrying any vote to meet the expense that the despatch of a contingent would entail. Should the government be attacked anywhere for its action in the matter it would be his duty to declare his sentiments, and he has done so in a manner that will win him credit wherever people respect principle and those who act upon it. Neither is the present the only occasion on which Sir Charles Tupper has spoken in antagonism to the presumed ideas of certain sections of the country, when he thought the public interest required it. He is, as the Gazette points out, an opponent of the ideas of the legislative imperialists who seek to establish a parliament or council at London to direct the general affairs of all sections of the empire. He does not see how a workable plan, that would be fair to all parties, could be devised. He went to Quebec and declared his views, which are shared by many in this province. Then he went to Toronto where the federation idea is presumed to be strong, and spoke just as he had done in Quebec. He confounded some of his enemies, who had been condemning his utterances in Quebec as intended only for French-speaking electors. They had tried to measure him with too narrow a gauge. The incidents are instructive, says the Gazette. They show the strength as well as the breadth of the man. If all politicians had his sense and courage, the petty religious and race cries that are raised by second-rate self-seekers would soon drop out of sight with those who profit by them.

**KINDERGARTEN METHODS.**

DEAR SIR,—At the N. B. Provincial Institute of Teachers which met at Moncton in June much interest was aroused with regard to the Kindergarten and the kindergarten methods in primary schools, and it was decided to ask the Educational Review for space for the discussion of kindergarten principles and methods. The Review gladly consented, and Miss Watken, who has been appointed Director of the Charlottetown Kindergarten, has taken the initiative and has written a bright practical article in the August Review, which should be read with interest not only by primary teachers and kindergarten but by country teachers who have little ones coming to school for the first time—little ones who have been used to the beautiful outside world of your lovely island, and who are now being confined within the four walls of the schoolroom. Thanking you for space.

M. A. HAMILTON,  
Director Dartmouth Kindergarten.

Boots and shoes reduced 30 per cent to half price at: W. H. Stewart & Co's. old stand. Sale conducted by G. H. Bros.

In the public schools of Baltimore the eyes of 53,067 pupils were examined by the tests ordinarily used, and the results are interesting and suggestive: 9,051 pupils were found to have some defective eyesight as to most school work unsafe: 53 per cent. of the children were not to be in the enjoyment of normal vision, but curiously enough the percentage of defective eyesight decreased with the age of the pupils. The report recommends yearly examinations of the pupils' eyesight. The large percentage, nearly one-fifth of the total number, found to be in no condition to do school work at all, is a warning to parents and school authorities all over the country. It shows great negligence and ignorance on the part of parents, where the responsibility rests in the first place, and where periodical examinations of the pupils' eyesight by school authorities will place it at last.—Philadelphia Inquirer.

**MATTHIAS SMITH ADDRESSED**

Previous to Leaving Bradalbane For St. Dunstan's.

On Wednesday evening, Court Strathcona gave a royal send off to Matthias Smith who has been appointed to a position on the teaching staff of St. Dunstan's College. The regular business of the Court was concluded and the evening was spent in honor of Mr. Smith, who has been a valued teacher at Bradalbane. After the presenting of the address, speeches, songs, etc. were given. A sumptuous supper was served, at the conclusion of which the Brethren joined in singing, "For He's a Jolly Good Fellow," etc. The following address was presented to which Mr. Smith made the appended reply.

BRADALBANE,  
Aug. 22nd, 1900.

TO MATTHIAS SMITH,—We the undersigned on behalf of the members of Court Strathcona, No. 3730, I. O. F. having learned that you have decided to become a resident of Charlottetown in the near future and thus become separated from us as an active member of this Court. We therefore desire to express our opinion of the great loss our branch of the I. O. F. Society will thereby sustain.

We have realized from the institution of our Court up to the present moment the very deep interest you have manifested in the good and welfare of our Noble Order and especially of Court Strathcona. Your conduct in and out of office has been that of a gentleman and a fine brother Forester. And, Sir, rest assured that we look with pride at the fact, that your ability as a teacher has been fully proved and recognized throughout the length and breadth of our fair Province and in common with your many friends we rejoice that you have been so fortunate in securing a still higher position, that of teacher in one of our best institutions, viz: St. Dunstan's College. We feel that our loss will be their gain, intellectually, socially and otherwise. In bidding you farewell our earnest wishes are that health, wealth and prosperity will be your lot.

Signed, { D. A. MCKAY, Chief Ranger.  
NEIL CAMPBELL, Rec. Sec'y.

CHIEF RANGER AND BRETHREN.

I am at a loss to find words to give adequate expression to the deep gratitude I feel towards you for the sentiments of good will and earnest wishes for a bright future which you have set forth in the complimentary address just presented to me. My gratitude is the more deeply rooted since I realize the fact that I am not deserving of such honor at your hands. It is true that I am a charter member of Court Strathcona, a fact of which I am doubly proud on account of the honored name it bears, but I regret that being often prevented from attending the regular meeting, the trifling assistance which I could otherwise have rendered, has been materially lessened. I can assure you, however, that I have always felt happy in promoting anything for the good of the Order and of Court Strathcona in particular. My social relations with the brethren during my intercourse with them have been of the pleasantest kind, and are the outcome of that spirit of True Forestry which should prevail throughout the Order.

It is something to be very grateful for and which I can look back to as time rolls on, that I am leaving this community, bearing the good wishes of the brethren of this Court. No matter where my course may be directed in that future which is so dark and uncertain to all of us, I will long cherish the pleasant memories of my associations amongst you. In thanking you, dear brethren, for your kindness to me, it is my earnest wish that true Forestry may continue to flourish wherever it has taken root, and nowhere more abundantly than in our own Court Strathcona.
