Annie Hughes, No. 262 University St. Montreal, Canada says: "Munyon saved my life and made a new woman of me. I was a great sufferer from female trouble accompanied by pains all through the body, very severe headaches, hot and cold sensations, nervousness, restlessness, sleeplessness and severe pains in the back, accompanied by weakness and dizziness. Besides consulting local doctors and taking medicines, I was treated at the hospital, but could get no relief. I am now well, thanks to Munyon, and am feeling better than I have felt for years."

Testimonial

DEAR SIR,—I do not wish to return to Montreal without expressing my gratitude to you for the very excellent Bell Piano that you placed at my disposal for my recital. I have tried many Canadian Pianos of different manufacturers and must say that, considering the size of the instrument, I have never found one to equal it for depth and brilliancy of tone. The action is quite as elastic and responsive as in American Upright Pianos of the highest grade. Again thanking you, very sincerely,

I remain, Yours, FRED. E. MORRIS. P. E. Island Agency, C. P. Fletcher Opera House Building J. C. P. Yeo, Agent at Summerside.

THE TRUTH ABOUT IT.

What Is the Use of Living If You Can't Be In It?

Yes, Erastus, we have noticed that article in a scientific journal advising people to sleep more in order to live long, and to tell you the truth we take but little stock in it. We notice that Tesla, the great electrician, claims that a man might live to be 200 years old if he would only sleep most of the time. And suppose he should. What would a man amount to sleeping like a fat dog in the summer? For all practical purposes a man might as well be dead as to be asleep, with this advantage in the way of being dead—he isn't in anybody's road.

Suppose a man lived for 200 years and slept 160 of it. He can only figure out when the thing is through that he has really lived 40 years, and in that 40 he neither cuts as much ice nor has half the fun the man has who passes in his checks at 60 and out of the 60 has only slept 20 years. Is there any particular object, my boy, in simply lying round asleep for 150 years, wearing out bed-clothes and saving a trifle on funeral expenses? We think not. All there is in life worth living for you get while you are awake. All the time you ought to spend asleep is just enough to enable you to keep awake the rest of the time.

Sleep is a necessary evil, just so much good time that you have to give up in order to keep your stomach, liver and other organs in fair shape. Of course we have read a good deal about beautiful dreams, when angels hover overhead and all that, but our experience is that this talk is almost altogether rot. When you are in good physical condition, you don't dream. When you dream, the angels aren't in that vicinity. It is when you have filled your interior with fattened swine and boiled cabbage that you retire to sleep, perchance to dream. To dream—aye, there is the rub!—when you feel a four headed dog sitting in your vitals and know that the horns and cloven tailed whangdoodle from the barren mountains of Hepsidam is or wing upon you, breathing smoke and fire, and you are paralyzed, or you seem all at once to find yourself in the midst of some gay and cultured assembly with no clothing on your person except perhaps a paper collar and a pair of hose supporters and utterly unable to explain to the ladies and gentlemen present why you are there in this decollete costume or to take your departure.

There is nothing angelic or heavenly about the average dream. On the contrary, it is hades and repeat. The young man who has to be routed out of bed at 9 or 10 o'clock in the morning may live a good while, but the chances are that he won't amount to as much in life as a three legged dog in a jack rabbit chase. The proper thing, young fellow, is to sleep less and get a hump on yourself, even if you should pass out before you are 50. One year of life spent in knocking rich, ripe, luscious persimmons is worth five sleeping in the shade with the worms crawling over your person and the timber bugs trying to roll you out of their way.—Tom McNeal in Topeka Mail.

Our Canadian Women. And Their Many Troubles.

Paine's Celery Compound a Life-giver.

For the many serious ills that women are heir to Paine's Celery Compound is truly an invaluable blessing. It speedily purifies the blood, and banishes backaches, headaches, tired feelings, languor, nervousness and heart troubles. No other medical discovery ever given to suffering women can boast of such a record of cures. Mrs. Legault, St Andre Street, Montreal, says:

"I cannot help telling all sufferers what Paine's Celery Compound has done for me. I would have been a lost woman had I continued six months longer in suffering. My case was a bad one. Headache, insomnia, nervous prostration and loss of memory made up my troubles and I feared they would lead to insanity. I went to several doctors who treated me with all their skill, but I did not get any better. As I am the mother of seven children I became disheartened with failures and being obliged to spend so much money. My friends advised me to try Paine's Celery Compound. The first bottle gave me little relief, but the second began to work miraculously on my nerves. I continued using the compound, and after taking nine bottles I can positively say I am cured."
