Bridge

The New Bridge is coming and so are the dry streets and roads. Then you will need something nice in footwear.

We Have a fine Selection
Selling Very Low

J. H. BELL

The Bargain Boot and Shoe Store.

IMITATION IS THE SINCEREST FORM OF FLATTERY.

The best proof that

MINARD'S LINIMENT

has extraordinary merits, and is in good repute with the public, is that IT IS EXTENSIVELY Imitated. The imitations resemble the genuine article in appearance only. They lack the general excellence of Genuine

This notice is necessary, as injurious and dangerous imitations, called WHITE LINIMENT, &c., liable to produce chronic inflammation of the skin, are often substituted for MINARD'S LINIMENT by Dealers, because they pay a larger profit.

They all Sell on the Merits and Advertising of MINARD'S.

Insist upon having the genuine MINARD'S LINIMENT, which simply is a lie.

INSIST UPON HAVING

THE DAILY EXAMINER

JULY 27, 1900.

DOMINION EXPENDITURES.

The money votes passed by the House of Commons during the last session of Parliament amounted to \$56,312,526. This big sum is apart from the amount that may be drawn as railway subsidies, the outstanding possible claims in connection with which reach \$5,000,000. The outlay of the Government for the current year will, therefore, be largely in excess of the record. In the nine years named below the totals of Government expenditures were:—

1891.....	\$40,793,208
1892.....	42,272,136
1893.....	40,853,727
1894.....	43,008,233
1895.....	42,872,338
1896.....	44,096,383
1897.....	42,972,755
1898.....	45,334,281
1899.....	51,542,635

A comparison of these figures with those of the present year will show the rapid increase of expenditures and the necessity of putting out the Tarte-Laurier Government.

NOTES AND COMMENTS.

—The further rains in the corn belt are considered to have practically assured a good crop of that cereal.

—A series of big political picnics is to be held in Ontario in September. Sir Charles Tupper, Hon. Geo. E. Foster and Hugh John McDonald are to be the principal speakers.

—Premier Dunsmuir, of British Columbia, promises to impose a tax of 5 cents a ton upon coal and coke produced in the province. This, it is said, will cost Mr. Dunsmuir as coal magnate \$35,000 a year.

—American girls who have had the good luck to marry Canadians may be pleased to learn that by the decision of the United States court they have become full-fledged Canadians in a legal sense as well as a matrimonial one.

—The British supplementary estimates necessitated by the prolongation of the war in South Africa amount to £11,500,000, making a total of £34,500,000 voted for this purpose, and bringing the total army estimates up to £70,309,153.

—The Halifax Chronicle says that "It would be a most valuable thing for the whole Province if the farmers of one section could mingle more freely with those of another." Yes, we agree with The Chronicle, that an occasional holiday would pay the farmers, taking it in improved health and in the new ideas that would be gathered and carried out.

—It is reported that the hay crop in New England this year is considerably below the average. The exceedingly dry weather has worked great injury to the old and worn-out fields. The haying season is now well advanced. Most farmers report that potato bugs are more prevalent than for the last few years. Apples promise to be a good crop, pears also fair, plums light and cherries are generally a very poor crop.

—Li Hung Chang's statement to the effect that while the foreigners were alive they would all be killed immediately the allied forces entered Peking is regarded by those who credit the reported survival of the foreign ministers as an indication that the latter are held as hostages and that their lives will be made the subject of negotiations by the Chinese. Hence Li Hung Chang's anxiety to keep the powers from Peking as long as possible.

—It is reported that an electrical process for smelting iron ore has had a trial on an extended scale in Italy; no less than \$180,000 having been invested in a plant for the manufacture of 4,000 tons of iron a year. The works are at Camonica, in the north of Italy, where water power is very cheap, an electrical horsepower for a year, of 8760 working hours, costing only about \$10.50 to generate. The iron ore is ground to a fine powder and intimately mixed with ground coke and limestone. The mixture is ground into small briquettes with a suitable binding material, such as tar, and heated by the electric current in suitably designed furnaces. A continuous output results, the slag and iron being drawn off from time to time. As compared with the old process, wherein the heat is supplied by burning coke in a blast furnace, the cost is reduced nearly \$12 a ton for the finished product, which is a high carbon manganese steel of great purity. Of course the figures given are based on the cost of coke etc., in Italy.

Canadians and the Prince.

MONTREAL, July 25.—The Prince and Princess of Wales inspected thirty-five Canadian invalids at Golden Hill Convalescent Home, at Hampstead. Major Thomson introduced each invalid to the Prince, who inquired about their health and wounds and hoped all would soon be better. He took great interest in the French-Canadian invalids.

HUMORS, boils, pimples, eruptions are due to impure blood, and by purifying the blood with Hood's Sarsaparilla they are CURED.

THE GRAIN QUESTION

Opinions as to This Year's Wheat Crop in Manitoba.

There is a divergence of opinion regarding the prospects of the wheat crop of Manitoba, and the authorities whose opinions differ widely are reliable men, and give their views according to the best information they have been enabled to cull. A dealer writing from Winnipeg under date of July 14, says: "I am of opinion that the damage to our wheat crop has been greatly overdrawn. For instance, a party recently returned from the Manitoba section said to me: 'I saw lots of fields of wheat that were not much above half as high as they were last year at this time, and consequently there was only half a crop.' Now, here is an individual who gauged the outcome of the crop by the length of the straw and what the farmers told him. Others again, who have been through the same sections since the rain came, are confident there will be considerably over half a crop. To give some idea of the different estimates of the crop of Manitoba, I may state that they range all the way from 15,000,000 bushels to 25,000,000 bushels. Another authority, writing to his correspondent here, says: 'Before the rain came I had made up my mind that we could not possibly have over 15,000,000 or 16,000,000 bushels, but now I think it safe to calculate on 18,000,000 to 20,000,000 bushels, and very likely more; but just mark my words, and you will see that the territory will make up a good deal of Manitoba's deficiency.'

OBITUARY.

St. Joseph's Parish, Kelly's Cross, once more mourns the loss of an honorable and estimable young man, in the person of Mr. James B. Gorman, eldest son of James and Mary Ellen Gorman. This young man, consigned to so early a grave, at 23 years of age, was from boyhood a worthy example to his comrades, who in life loved him, and who are called on today to mourn the loss of an affectionate and loving friend. With few opportunities he succeeded in obtaining a teacher's license and for a brief period taught school at Brae, Prince County, when the shadows of a shattered life began to appear on the horizon. Not to be vanquished by the hovering Angel of Death, two years ago he turned his face towards the "Golden West," and in company with other "Island boys," robust and rugged for western life in Colorado and solicitous for their well-beloved weaker brother, found for a time relief and change for the better. But, alas! the grim harvester would have his victims. Words could not describe the sufferings he underwent on the tedious, harrowing homeward journey, to die under the loving eyes of parents, brothers and sisters. He was accompanied home by his faithful friend, Mr. James Duffy, of Maplewood who stood by him as a brother, and put forth every exertion to comfort him under such trying circumstances. On Saturday, the 21st of July, just one week from his arrival on his native Island, he breathed his last, fortified by the last rites of his church, administered by the pastor of Kelly's Cross, Rev. D. B. Reid. What consolation must be intermingled with the grief and sorrow of his parents, that even with the slender thread between their beloved son and eternity almost severed they were granted the extreme privilege and joy to gaze on his face, and to be thrilled with his voice, before his soul fled to its everlasting home! His funeral, one of the largest ever witnessed in this parish, took place from his father's residence, on Monday, 23rd inst., to St. Joseph's Church, where a Mass of Requiem was offered up for the repose of his soul by the pastor, after which the remains were interred in the cemetery, near by, there to await the resurrection. The pall-bearers were Messrs James Duffy, J. D. McGuigan, John Monaghan, Willie McGuigan, John F. Monaghan and Leo Atkin. To his parents and friends we extend our sympathy in the hour of their sad bereavement.

The Astor Incident.

New York, July 25.—A special to the Journal from London says: An altogether new complexion has been put upon the Astor-Milne controversy by the discovery that the ex-American multi-millionaire compelled the Baronet to leave his house on the night of the memorable concert a fortnight or so ago because he objected to Sir Archibald's suit for the hand of his only daughter, Pauline.

It was Miss Astor who invited the Baronet to the entertainment, but without her father's knowledge or approval. It is wrong, therefore, to state that Sir Archibald was at Carleton House Terrace without an invitation. Moreover, his encounter with Mr. Astor did not take place as he was entering the salons. It was after a tete-a-tete between himself and the heiress in a secluded corner of the Winter Garden—a tete-a-tete which was suddenly interrupted by the infuriated father.

The Ocean Record.

New York, July 25.—It is announced that the steamship Deutschland arrived at Plymouth, England, at 8:30 yesterday, thus breaking the record by 2 hours and 14 minutes, despite the fact that for two entire days she encountered a heavy fog and consequently had to run at a comparatively slow speed. The Kaiser Wilhelm der Grosse of the North German Lloyd line, previously held the record of five days, 16 hours and 10 minutes made in October, 1897.

Boiling Hot —AND— Still Heating

Everybody kicking about the heat we don't blame you for that, but we do say there would not be half so much of it done if you would come to the Big Store and find how much we can do to

Keep You Cool

We'll first sell you a feather weight lustre coat at \$1.25, better ones if you wish.

Next

Will be a crash hat or cap which will allow the sea breezes to play tag with your hair, hats cost 25c and 50c. Caps cost 25c.

Next

Is a nice soft night shirt, Pique cotton, or silk front; the 50c ones are very nice but the dollar ones are cheaper.

Next

Will be a suit of summer Balbriggan underwear, at 40c 75c, \$1.00 the suit, if you prefer the handmade all wool it's \$2.00 and \$3.00 the suit.

Next

A half dozen washing ties, don't care whether you soil them or not they look just as well after being washed, cost only 5c, 10c, 15c or 25c each as you please.

Next

A straw hat, we've a lot of Americans, we're selling at half price, now here's a chance to get \$1.00 worth of comfort at half a dollar. They're the latest styles too.

Next

We've a lot of feet comforts in the way of thin half hose; they are thin, and the price is thinner, but the wear is there just the same; if you wear them your feet will carry you better in return.

Be comfortable look after yourself or nobody else will except

Prowse Bros.

What trade we have we'll hold, and what we haven't we're after.
