

CITY SCHOOLS.

Among the visitors were His Honor the Lieut.-Governor and Mrs. Macdonald, Dr. Anderson, Mr. LePage, Mr. Oxenham, W. E. Dawson, Esq., Mr. L. H. Davies, M. P., Hon. Mr. L. H. Davies, M. P., when delivering his prizes, made a few timely remarks upon the importance of the art of reading, and advised scholars to practice it carefully at home before their parents and friends, as well as in the school. His Honor the Lieut.-Governor complimented the school on the progress made apparent by the examination, and the scholars generally on their good behaviour in the school and on the street. Dr. Anderson and Rev. J. M. McLeod followed with complimentary speeches upon the school, and supplemented the remarks made about good reading. Hon. D. Ferguson referred to the flourishing condition of the school, and alluding to the prizes awarded for knowledge of current history, spoke of the advantage of being trained to take an interest in what is going on throughout the world, and said that he would give prizes next year to those who knew most about passing events. All the speakers were warmly applauded by the boys.

A Chicago man has written a book called "Twenty years of Hustling." As he was neither a newspaper reporter nor the pastor of a country church, it is hard to believe that he has that extensive knowledge of his subject that either of those two professions could have given him.

St. John's Lecture.

THE attendance at the lecture of Governor St. John, in Market Hall last evening, was not very large; and it is safe to say that nine-tenths of those who were present are convinced already. It is a pity that the committee had not thrown the doors open and made the lecture free to the multitude; for in that case it might have done more good. Among those present were Hon. David Laird, who presided, Rev. Dr. Hole, of St. Paul's, Halifax, Rev. Dr. Fitzgerald, Rev. James Caruthers, Rev. Fred. E. J. Lloyd, Rev. J. J. Gillis, Rev. J. M. McLeod, Rev. J. Harrison, and other out and out temperance men among the clergy and laity. St. Peter's School Band played nicely several good selections, and the lecturer began happily by referring to them and to boys everywhere as the hope of the world, the hope of the temperance cause; for if the boys learn to restrain their appetites and to live soberly it blows that the evils of drunkenness must cease. The lecturer did well to begin with the boys; and he did well to find the basis for his argument in the Holy Scriptures. But, though the lecture was interesting throughout, abounding with lively stories and illustrations, there was little of it to lighten the path of the man who is sincerely desirous of stopping the evil of the liquor traffic. Decidedly the best feature in it, was the statement of the results of legal prohibition in Kansas; for if the boys of Kansas never saw a drunken man—if the liquor evil there has been practically stamped out by means of legal prohibition, the use of the same means ought to stamp it out here also! According to the lecturer, however, Kansas possesses an important factor of which this community is destitute, viz.: temperance men who have the metal in them and the pluck to provide sufficient means for the enforcement of the laws which they, by their ballots, have demanded and obtained.

The lecturer's reasons why a Third or Prohibition Party should be formed are funny, but not calculated to convince the understanding of the serious thinkers of Canada. The see-saw illustration of procedure in Canada, lies in each of the present parties selecting as its candidates for election to Parliament men of known and established temperance principles—not temperance ranters, but men who may be trusted to frame reasonable laws for the restriction and suppression of the liquor evil. If this were done, it would not matter, so far as the interests of temperance are concerned, which political party obtained office; for the Temperance Party would always have a majority in the House of Commons.

After the lecture, the Chairman and Rev. Dr. Hole made a few remarks.
