We insert the following advertisements GRATIS. Though the Committee of the Society, through gross political partiality, declines to patronize our paper—we being the ONLY Journalist in the town who do not receive its money—we still think the information contained in its advertisements ought to be afforded to those who, by their taxes and subscriptions, keep the society in being. Farmers will duly appreciate the motives of the Compact-riden society in refusing to pay us for our services as other Printers are paid.—

REGULATIONS:

The Colts and Fillies to be Island bred. No imported Stock to be allowed to compete, unless previously 12 months on the Island.

No animal having formerly obtained a first premium, will be allowed to compete at this show.

No animal to compete for more than one prize.

No competitor to exhibit more than the required number of animals in each class.

No prize to be awarded, unless the opinion of the Judges there be sufficient competition.

The Judges will begin their inspection of the Stock at 12 o'clock precisely, and all persons having Stock competing for a Premium, are particularly requested not to interfere in any way with the Judges during their inspection. No person will be allowed to exhibit Stock for competition, unless he be a Subscriber to the Society, or to one of the branches established under its direction.

Small Premiums will be given for improved Implements of Agriculture manufactured on this Island, provided the specimens exhibited are considered by the judges deserving of the same.

BLAKE'S

Patent Fire-Proof PAINT.

THIS most singular substance, in a few months after applied turns to *Slate* or *Stone*, forming a complete coat of MAIL, protecting whatever it covered from the action of *Fire* and *Weather*, it has now been tested more than Six Years, and shows that *TIME* and the *ELEMENTS* only seem to *indurate* or *harden* the substance, it seems to be a perfect *DECIDERATUM* for all outside Painting that has for centuries been sought in vain. For all descriptions of Buildings, either Brick, wood, or roofs of Wood or Metal there is nothing equal to it, so highly are its *Fire-Proof* qualities appreciated in Akron, Ohio, where it is best known, that all the Insurance Companies have published that they will insure Buildings well covered with it at a much lower premium than those covered with Tin or Zinc, as it has been tried in several fires there and stood much longer than either. For Rail-Road Depots, Bridges, Steam-boat and Car Decks, for all kinds of Iron as it forms a coating nearly as hard as the iron itself and never *cleaves off*. Purchasers should be particular and see that my brand is upon every package, as there is any amount of worthless counterfeit stuff in the market, no one can deal in or use the genuine article obtained of others without infringing my patent.

The Genuine constantly on hand at the Store of

Patent Artificial Slate,

AND UNCHANGEABLE METALLIC PAINTS;

Proof against Fire & Water.

MANUFACTURED BY THE PATENTEE, IN COLCHESTER, NOVA SCOTIA.

THE ARTIFICIAL SLATE is the product of a mixture of mineral substances known to be the best non-conductors of heat as well as the most indestructible; the Chemical affinity of which, converts the surfaces of materials covered into a *Coating of Actual Slate—Proof against FIRE and WATER*. Thus the laws of nature are made to accomplish results, as surprising as they are useful, by rendering wooden fabrics as durable as Brick or Stone, and less impervious to moisture, and consequently preventing decay and destruction from corroding influences hitherto supposed unattainable.

The principal ingredients are Alumina, Silica and the Oxides of Iron. The adhesive quality of the latter, not only binds but attracts the particles together, but the substance covered also. The longer exposed to the weather the more powerful the attraction, and consequently the harder the *Slate*. As various shades of colour are obtained, Brick Buildings may be made impervious to moisture and the fashionable colours of either *Free Stone* or *Granite*. The oil must be evaporated by the action of the weather before it is *Fire proof*, which will take from nine to twelve months.

The METALLIC PAINTS, *Purple* and *Red*, are offered as *Weather and Water proof* solely. Their base being Iron, secures them from Galvanic action, so fatal to lead and other Paints on Iron work—and their chemical combination makes it impossible that any change should take place from atmospheric influence or the action of Salt Water and Sulphurated hydrogen, so prevalent in Sea Ports and tidal Harbours. They surpass all Paints yet discovered in *Cheapness and Durability*, which render them preeminently adapted to the covering of all kinds of Iron work, such as Shipping, Mills, Bridges, Steam Machinery, Railway Cars, and Iron Railing. The Metallic Paints have been analysed by Professor Hays, of Boston.

The following is an extract from his certificate:—

"As a permanent pigment, this mineral must rank with the most indestructible and unchangeable bases.

For covering Metallic Ware, its composition shews that it is eminently fitted.

"Signed,

"AUGT. A. HAYS, State Assayer."

DIRECTIONS.—*Artificial Slate*: Mix the powder with pure Boiled Lined Oil and a little Spirits of Turpentine, to the consistency of very thick Paint, and applying with a common Brush, being careful to keep the mixture well stirred while putting it on. One pound will cover ten square feet with two coats.

The Metallic Paints are mixed and put on like an ordinary Paint.

JOHN ROSS, Patentee.

The above new and really valuable Compounds will on trial, be found to sustain the characters given of them; large sales of each have been, and are being made, in the United States of America, as also in New Brunswick where paints are extensively used for coating Ships generally; and are acknowledged as being particularly well adapted to covering the bottoms of sea-going vessels.

The extreme cheapness and unequalled qualities of these indisputably valuable materials, commend them to individual interest and general adoption. They are for Sale at Mr. Kenneth M'Kenzie's Pownal Street, by

ANDREW MITCHELL,

Agent at Charlottetown, for the Patentee. July 20. 6w.

To be Let,

THAT pleasantly situated Mansion in the vicinity of Government House, and now in the occupation of the Hon. the Chief Justice, consisting of Twenty-one highly finished apartments, with Coach House, Stable, Kitchen, Flower Garden, and a never failing Spring of Pure Water on the Premises.

Valuable Real Estate.

FOR SALE at Wilmot Creek, Bedeque, the Fee Simple, of that very Valuable Property, owned and occupied by the Subscriber, consisting of One Hundred Acres, with all the Buildings, Stores and Valuable Improvements thereon. The whole of the Land has been reclaimed, and upwards of Fifty Acres under cultivation this year. The immense quantity of Sea Manure and Mud on the premises, and always accumulating, renders it a most desirable property for a Farmer, while its position as a Commercial Mart, renders it equally deserving the attention of the Merchant. For further particulars, application to be made in Charlottetown to the Hon. T. Haviland, or Daniel Brennan, or on the premises to

JOHN DUGGAN.

N. B.—A part of the purchase money may remain for some years bearing interest on the property if required.
