### HER CHAFING DISH.

When Fanchon to her chafing dish  
Repairs and lights the alcohol,  
We look for miracles and wish  
That fate may let us share them all.  
Though not to gluttony inclined,  
We laugh with gastronomic glee,  
And each lays plans with secret mind  
To eat tidbits enough for three.

For Fanchon is a cook supreme  
Of dainties which the dish may hold,  
A gracious goddess of the steam  
Whose bounties please us more than gold.  
Her finnan haddies and croquettes  
Are poems of deliciousness,  
Her oysters and her omelets  
Achieve the climax of success.

And yet I wonder can it be  
That Fanchon's skill is so unique,  
I know what avarice all for me  
Are her bright eyes and glowing cheek.  
Well, Fanchon, enter to the men  
And to the maids whom men desire,  
But don't get scorched, young lady, when  
You're playing with the dainty fire.  
—Chicago Record.

### SAFE BEHIND IRON DOORS.

How a Brooklyn Sacrament Service Is Protected From Thieves.

It is generally accepted as a fact that the most expensive and elaborate tabernacle for the services in this country is that belonging to St. Augustine's church, Brooklyn. Formed entirely of gold and silver and studded with precious stones, it would prove a rich haul for the daring but sacrilegious marauder. This fact was fully appreciated by the church authorities, who have devised a plan of protection which is as near perfect as can be. It is an electric system, unique and effective, and now when the congregation arrives the tabernacle is in full view, but as soon as the congregation is dismissed the tabernacle disappears completely, apparently without human aid.

Two great, heavy harveized iron doors, which have been covered with gold leaf, roll forward at the press of an electric button and completely conceal and protect the costly chancel. These folding doors meet in a dome at the top to afford protection in that direction. The motion of the doors is slow and easy, special apparatus being devised for the purpose, the doors moving on heavy roller bearings. The motion is imparted to them by means of a system of gears, actuated by an electric motor installed directly beneath in the cellar. In order that no one should have access to the actuating push buttons these are placed in a regulation fire and burglar proof vault of massive construction, the combination to which is known only to the rector and his associates. All the wires leading to the motor from the source of supply are connected at various points to the local police and burglar alarm service, so that should any one tamper with the wires notification would be given immediately. The safe doors are so constructed that should any one attempt to drill through them other electric circuits would be closed and the alarm given. When the doors before the tabernacle are closed, it is completely inclosed in heavy iron on all sides, so that it is much safer than if an armed guard stood watch before it.—Cleveland Plain Dealer.

The only soap which the Hindoos of the orthodox type employ is made entirely of vegetable products. But soap is little used in India, being almost an unknown luxury with the natives.

### A DOMESTIC EPISODE.

A Cautious Wife Prevents a Sour Stomach Disturbance.

Dodd's Dyspepsia Tablets to the Rescue—They Cure Sour Stomach or Acid Dyspepsia and Thus Prevent Suicide in Many Cases.

"Ugh! I've been tortured by a sour stomach ever since dinner and it has made me utterly good for nothing," grumbled the head of the family as he sat down with the evening paper after his day's work.

"Papa, what does 'sour stomach' mean?" questioned his young heir, aged ten.

"Don't bother me!" growled his father irritably.

"Let papa alone," cautioned the wife and mother, who knew what "papa's" disposition was on occasions like this, when he was suffering from "sour stomach."

New, if the father had known that the disease which the doctors name Acid Dyspepsia is hidden under the comparatively harmless name "sour stomach," he would have taken means to check and cure it. To do this he would, of course, have used Dodd's Dyspepsia Tablets, for nothing else can cure it.

Acid Dyspepsia is a dangerous ailment, for from it springs mental depression, which develops into the state known as "melancholia," and which drives hundreds of persons to suicide every year.

Acid Dyspepsia is caused by food which the stomach cannot digest, remaining in the stomach, fermenting, then rotting, and creating poisonous gas.

Dodd's Dyspepsia Tablets cure the complaint by digesting the heavy mass of food, and stimulating the bowels to carry off the poisonous matter that has been formed.

Besides doing this, Dodd's Dyspepsia Tablets tone and strengthen the stomach and enable it to carry on properly the work of digestion. They are the only remedy known that can do this, and they never fail!

Dodd's Dyspepsia Tablets are sold by all druggists at 50¢ a box, six boxes \$2.50, or sent, on receipt of price, by the Dodd's Medicine Co., Limited, Toronto, Ont.

New York has a shop in which Bibles and rum are sold side by side. The place is at the foot of Washington street, not far from the Syrian colony, and its patrons include Syrians, Armenians, Turks, Russians and Irish longshoremen. The Bibles, together with other books of a religious character, are kept in a case at the end of the bar.

A man may dress as well as his own good judgment and the assistance of an artist tailor may direct. He may take his "tubs" but if his digestive organs are out of order, he will have an unwholesome appearance. His complexion and the white of his eyes will have a yellowish cast. His tongue will be coated, appetite poor, his teeth rusty, his breath abominable. He is one big, unmistakable sign of constipation. The quickest, surest, easiest way to cure this trouble is to take Dr. Pierce's Pleasant Pellets. They are made of refined, concentrated vegetable extracts. Nothing in the least harmful enters into their composition. They hunt down all impurities, and "make them move on." They are the product of many years' study and practice. Dr. Pierce cannot afford to put forth a worthless article.

### Business College Writing Academy

Let these aright of practice illuminate the dark places of Theory.

**THOROUGHLY** Progressive Practical Institution, in which young men and women are not only taught Book-keeping (with its applications to commerce) both in single and double entry, but are trained how to do business, by actual business transactions. The students act as buyers, sellers, traders, bankers, book-keepers and accountants, in actual business operations, and the currency issued by the College Bank and the note issued from the Emorium, are used in bona fide business transactions, just the same as in mercantile and banking houses. Book-keeping in itself may be learned at home, but a knowledge of how to transact business cannot be thus acquired. That our course system of training is eminently practical is proved by testimonials from business men, and from students who are now holding lucrative & responsible positions.

**SUBJECTS:**  
Book-keeping by single and double entry (theoretical and practical), Actual Business Practice, Business Penmanship, Business Correspondence, Commercial Arithmetic, Commercial Law, Railroading, Steamboating, Banking, (actual practice in the College Bank) Typewriting, Shorthand and Navigation.
