IN MEMORIAM

MRS. PATRICK MCCARTHY

On March 8th, at St. Michael's Rectory, Iona, there passed away Mrs. Patrick McCarthy in her 88th year. She had resided with her son, Father Charles, Parish Priest of Iona, for several years, following the demise of her husband, Captain Patrick McCarthy, their home being formerly at Souris West, where Captain McCarthy carried on a successful Maritime Merchantile Schooner trade from the Port of Souris.

The late Mrs. McCarthy was born at Souris West, her maiden name being Margaret Ellen Kichham, only daughter of the late John Kichham, who emigrated from Ireland, County of Mullahone. She was the last survivor of a family of ten, nine brothers having predeceased her.

Of her immediate family, she leaves to mourn four sons and one daughter, Sister Edeltrude of Sion, of Saskatoon, Saskatchewan, Father Merlin, Parish Priest, of Killam, Alberta, Father Charles, Parish Priest of Iona, Loyola of St. John's, Newfoundland and Frank of Sydney, Nova Scotia, three children having predeceased her, one son in infancy and two adult daughters, Molly and Margaret.

The late Mrs. McCarthy was of an unassuming disposition but her home was a model Christian home. Her charity and kindness was the signal to help nourish and clothe families in less fortunate circumstances in a measure equal to that which she and her family shared. Her home was ever a haven of rest, food and comfort for those in need. She will be long remembered because of her kindness to children, now grown up, as well as a host of people who knew her because of her kind, charitable disposition and the guidance of her exemplary life, the fine qualities which she possessed of heart and mind.

Her funeral took place from the residence of her nephew, T. J. Kichham, to St. Alexis Church, Rollo Bay, where a Solemn Requiem High Mass was celebrated by Father Charles McCarthy. May her soul rest in peace.

an important discovery in the relief of pain!

DISPRIN

Science progresses... for 50 years we have used little white tablets—acetylsalicylic acid—for relief of pain. Today this familiar pain killer is available in a new form without the disadvantages of acid, insolubility and bitter taste. It is called DISPRIN and is sold as drugists everywhere.

DISPRIN is soluble and substantially neutral. When taken in water as recommended, it enters the stomach as a true solution and not as undissolved particles. It is therefore less liable to cause stomach discomfort.

DISPRIN is readily absorbed. Because it definitely dissolves (not merely disintegrates) DISPRIN permits speedy absorption and gives quicker relief.

DISPRIN is palatable. Even children will take it readily.

DISPRIN is now available in new drugists. Bottles of 26 tablets Handy Pocket Folders of 8.
