The undersigned confidently believe that there will be no difficulty in collecting their proportion of the expense,—that the City's proportion will be very inconsiderable, and that should your Worships be pleased to give a favorable consideration to the matter in the course of your present session, the improvements of the Square may be completed during this summer and the ensuing autumn.

All which is respectfully submitted by your Worship's obedient and very humble servants,

J. Barret Cooper, Chairman,
W. Murphy,
E. Whelan,
Bertram Moore,
Artemas Sims,
Frederick LePage,
Archibald McNeill, Secretary.

Charlottetown, 5th July, 1864.

The Chairman of the Committee subsequently received the following communication and enclosure:

Charlottetown, 5th July, 1864.

Sir:

I am directed by His Worship the Mayor to transmit to you the accompanying Copy of a Resolution this day passed by the City Council, upon the petition of the Committee appointed by the inhabitants residing in the vicinity of Hillsborough Square, asking permission to level, fence, and plant with Ornamental Trees the said Square.

I have the honor to be, Sir,
Your most obedient Servant,
Peter Macgowan, City Clerk.

J. Barret Cooper, Esquire, Chairman of Committee for ornamenting Hillsborough Square, &c. &c. &c.

(COPY.)

At a meeting of the City Council,
Tuesday, 5th July, 1864.

Present:
His Worship the Mayor.
Councillors:

A. H Yates,	Theoph. Desbrisay,
J. H. Gates,	James Reddin,
John Brecken,	James Desbrisay,
John Scott,	Alexander Brown,

His Honor the Recorder.

Read a petition, presented by a Committee appointed at a public meeting of the inhabitants residing in the vicinity of Hillsborough Square, requesting permission to level, fence, and plant with ornamental trees the said Square, and praying the City will undertake the cost of erecting the said fence.

Resolved, That permission be granted to the citizens residing in the neighbourhood of Hillsborough Square to level, fence, and plant with ornamental trees the same in accordance with the petition this day presented, and that the sum of Twenty Pounds be granted by this Council in aid thereof.

Peter Macgowan, City Clerk.

BAZAAR AT SUMMERSIDE.

The Bazaar and Tea Party, in aid of the Episcopal Church, came off at Summerside, and was a complete success. From all parts adjacent, poured in a constant stream of carriages, filled with youth and beauty, eager to participate in the enjoyments of the day. On entering the Bazaar Rooms a dazzling and magnificent array met the eye; every one was there, excepting the young people of Charlottetown, who might have left their homes at 4 o'clock, enjoyed a delightful trip in the splendid Steamer *Princess of Wales*, landed at Summerside at 8 o'clock, and visited St. Eleanor's with its lovely fields and gardens, and cottages hid in lilachs and juniper—inspected the bee-hives and fed on the honey abounding—viewed the dark waters of Richmond Bay, and its score of islands—taken in at one glance the towers and hills of Miscouche, Indian River and Malpeque, and then joining at the tea, and admiring the assemblage there gathered, unequalled for attractiveness in P. E. Island, they could then, at 6 p. m.—entrusting themselves to the skilful pilotage of Capt. Evans—be landed safely in Charlottetown at 10 p. m., pleased and invigorated with their excursion. It is impossible to describe or particularize respecting the Bazaar and Tea, or to single out those to whose exertions they were got up, suffice to say all were glad.—*Com.*

LATEST NEWS FROM THE STATES.

BY TELEGRAPH.

New York, July 2, 1864.

Ninety-two dead bodies have been taken from the wrecked train at St. Hilaire.

Secretary Seward officially contradicts the charges that the Federal Government has had anything to do with recruiting outside the United States.

Army correspondents predict a great battle near Richmond soon. The destruction of Lee's railway communication south and west, it is believed, will compel him to accept battle.

Flour, which has been going up, declined today 50 to 75 cents. Wheat 15 cents.

Gold ranges 225 to 255 with small sales.

New York, July 4.

Gen. Wilson had reached Grant's headquarters with the main force, after severe fight, in which he lost twelve guns and a portion of his waggon train. He fully succeeded in destroying rebel railroads, as telegraphed on Saturday.

At daylight Sunday morning a rebel force in three columns, was discovered marching on Martinsburg, and the Baltimore and Ohio railroad, near Harper's Ferry. Gen. Seigel gave them battle with the small force under his command, and after five hours' fighting, he was compelled to fall back. Seigel holds Maryland Heights and Harper's Ferry. There is great excitement at Hagarstown and Harper's Ferry. It is thought the strength of the enemy is greatly exaggerated.

A newspaper despatch says eight of the guns captured from Wilson were subsequently retaken by a portion of the Sixth Corps, who defeated the rebels.

A Washington despatch says the President will call out half a million more men immediately after the adjournment of Congress.

Mr. Fessenden accepts Treasury portfolio.

Portion of United States Armory in Springfield, Mass., was destroyed by fire on Saturday night. Loss $50,000.

Boston, July 5, p. m.

The alarm in Maryland and Pennsylvania, caused by a report that the rebels had crossed the Potomac, is subsiding.

It is believed that the reported battle with Gen. Siegel, &c., was greatly exaggerated. The object of the rebels supposed to be to steal horses and provender.

Several fires occurred from fireworks in New York yesterday, destroying property estimated at $250,000.

NEWS BY SATURDAY NIGHT'S MAIL.

The following despatches give some later items of news from the seat of war in the States:—

Boston, July 7.

The New York Tribune's special despatch says, Petersburg is covered by over one hundred Federal guns, and an order from Grant would destroy that city in a few hours.

The occasion of suspension of Habeas Corpus in the State of Kentucky was caused by anticipated trouble in enforcing the draft and enlistment of slaves.

Reports of rebel demonstration in Maryland and Pennsylvania are very contradictory. One account says 20,000 Confederates had crossed the Potomac River, at Point of Rocks.

Another account states that the force does not exceed 5,000 men. It is believed that these stories are exaggerated purposely, in order to induce Grant to weaken his force in front.

Governor Curtin has called out 12,000 additional Pennsylvania reserves.

Gold—250 is asked.

New York, July 7.

Advices from Harper's Ferry state that rebels in that vicinity had destroyed all the railroads and telegraph property, and large quantities of forage.

Reports *via* Baltimore continue to assert that rebels are in force at Hagerstown, and that great alarm pervades all the surrounding country.

Expected Gen. Hunter will reach vicinity of Harper's Ferry to-night.

Advices from New Orleans *via* Cairo report all quiet.

The Mississippi was navigable with safety.

The bombardment of Petersburg is steadily doing its work, many buildings having already been destroyed.

Gold unsettled; ranging from 268 to 271.

New York, July 8.

Despatch from Baltimore last night says reliable accounts from London County, Virginia, state there have been no rebels in that County except Mosby's band of 200 or 300 men, about half of whom crossed the Potomac at the Point of Rocks. After plundering the inhabitants they recrossed.

General Lee's personal property has been condemned by the United States District Court, and will be sold at Alexandria on the 19th inst.

Baltimore newspaper despatches continue to assert that Hagerstown has been occupied by rebels, and that they were advancing on Frederick.

Army of Potomac advices are to Wednesday morning; frequent skirmishing but no battle.

Gold, 276 asked.

Boston, July 8.

New York, 8th, p.m.—Fire at Louisville, Ky., destroyed Government stores to the value of eight hundred thousand dollars.

The passes of several army correspondents for the press have been revoked by order of the Secretary of War.

Despatches from Baltimore to-day say rebel raiders in Maryland have been defeated by Gen. Wallace near Frederick, and the latter is in close pursuit.

Gov. Seymour, of New York, instructs the District Attorney to enforce the laws against Gen. Dix for suspending the *Journal of Commerce* and *World*, without regard to the order of the President to Gen. Dix to resist process of the court.

The Governor has ordered the Militia force of the State to be increased to 75,000 men by draft.

Despatch this p. m. from Frederick, Md., says rebels are retreating and will probably be intercepted by Hunter.

Gold—270 asked.

The Confederates who were marching into Western Maryland, moved in three columns, one towards Shepherdtown, one on a parallel road crossing the Potomac above it, at Falling Waters, and one on a parallel road crossing below at Leetown. They are said to be commanded by Gen. Ewell. The southern column was the only one at all opposed. Sigel made some opposition but retreated hastily to Harper's Ferry, and then to Maryland Heights, which he held at last accounts. The Confederates, comprising infantry, cavalry and artillery, attacked Harper's Ferry on the 4th, and occupied the Virginia side of the town. The Federals burned the trestle work of the iron bridge over the Potomac to prevent them from crossing. The Government stores had previously been removed. A party of seventeen members of the Treasury Department who went on an excursion to Harper's Ferry, were shelled by the Confederates, but all but three escaped. Their boat was destroyed. Mosby appeared at Point of Rocks, Maryland, with cavalry and artillery, burned a boat, and fired into a railroad train. A Federal force is guarding the great railroad bridge over the Monocacy, three miles from Frederick. Citizens were leaving Frederick in crowds, and the turnpike leading to Baltimore is filled with wagons and teams of refugees from the Western counties. The Confederates were conscripting all males between the ages of 16 and 60, taking all the horses, and robbing indiscriminately. Sigel succeeded in saving his wagon trains, which were passing through Frederick. On the 25th, the Confederates were preparing to attack Maryland Heights.

Despatches from Philadelphia dated the 6th, state that a Confederate brigade entered Hagerstown, Maryland, that afternoon. The Federals fell back on Greencastle, Pennsylvania, which they held at 9 o'clock that night. The Confederate force is Gen. Bradley Johnston's brigade. A small body of Confederates was at Middletown, 8 miles from Frederick, the same day, and also at Shapsburg. The Federal troops were concentrating at Chambersburg, Pa. The Potomac river is unusually low. The Government of Pennsylvania calls for troops additional to the 12,000 previously called out. The Boston *Post* looks upon these movements with anxiety. It says:

"If Maryland Heights are no better arranged in their fortifications than they were in March and April, 1863, and the rebels have got quiet possession of Harper's Ferry, the power of dislodging them by shot or shell is very small. With the knowledge of these facts and the fact that Grant's army is so far removed, and the means for shifting positions so difficult, we may well feel apprehension for the result. The relative positions of both armies is such as to render an advance of the rebels in force into Maryland much more easy than in 1863, when Hooker's army was but a few miles distant."

The Steamer *Commerce* arrived here on Saturday morning from Boston, via Halifax. She sailed again to-day for the same places.

M. B. Daly, Esquire, son of Sir Dominick Daly, late Lieut. Governor of this Island, has been appointed Private Secretary to the Lieut. Governor of Nova Scotia, Sir Richard Graves McDonnell.

CHILLS AND FEVER.
CHILLS AND FEVER.
CHILLS AND FEVER

One teaspoonful of Radway's Ready Relief in a wineglass of water, taken on rising in the morning and repeated every three hours, will break up this formidable complaint. This remedy is a better safeguard against Fever and Ague, Bilious Fever, and all other Fevers, Cholera, Dysentry, Diarrhœa, than all other medicines in use. One dose has frequently expelled the Ague and Fever poison from the system, and in case of Rheumatism, Neuralgia, Diptheria, Influenza, Hoarseness, Colds, Strains, Sprains, Cramps, Spasms, Swollen Joints, Lameness, Spinal Complaints, there is nothing in the world that will relieve the patient so quick or cure so rapidly as Radway's Ready Relief. Price 25 cents per bottle. Sold by druggists everywhere.

A Beautiful City.—Batavia—the capital city of the Island of Java—according to the description of a newspaper correspondent, is a brilliant specimen of oriental splendor. The houses, which are as white as snow, are placed one hundred feet back from the street, the intervening space being filled with trees, literally alive with birds, and every variety of plants and flowers. Every house has a piazza in front, and is decorated with beautiful pictures, elegant lamps, cages, &c., while rocking chairs, lounges and ottomans of the nicest description, furnish luxurious accomodations for the family, who sit here mornings and evenings. At night the city is one blaze of light from the lamps. The hotels have grounds of eight or ten acres in extent around them covered with fine shade trees, with fountains, flower gardens, &c. Indeed, so numerous are the trees, the city almost resembles a forest. The rooms are very high and spacious, without carpets, and but few curtains. Meals are served up about the same as at first class hotels at home, although the habits of living are quite different. At daylight coffee and tea are taken to the guest's room, and at eight o'clock light refreshments. At twelve the breakfast is served; and at seven, dinner. Coffee and tea are always ready day and night. No business is done in the streets in the middle of the day on account of the heat. The nights and mornings are cool and delightful; birds are singing all night. The thermometer stands at about 82 degrees throughout the year. The island of Java contains a population of nearly 10,000,000. It abounds with tigers, leopards, anacondas, and poisonous insects of all kinds. The finest fruits in the world are produced in great profusion.

Holloway's Ointment and Pills—The Joys of Home.—How often does it happen that happiness is driven from our hearths by illness?—sickness and sorrow are constant companions; though in most cases their tenure is short when Holloway's remedies are used to dispossess them. These medicaments can be confidently and heartily recommended to all invalids as the most easy, safe, and certain means of preserving all that is good, and casting out all that is corrupt, externally and internally. They are universally applicable by both sexes in every disease. Holloway's medicaments do not deteriorate by being kept, nor are their properties changed by climate; they can be purchased everywhere, and the price at which they are sold is moderate.

Died.

[From the Richmond Whig.]

The Charleston 'Courier' makes a timely suggestion in recommending the attention of our government to the naturalization and cultivation of Calisaya, for the preservation of the health of our soldiers. This article has a peculiar effect upon the liver, and guards the system against disease by exposure and irregular diet. It is said that the great success of the Plantation Bitters of Dr. Drake, which, previous to our unhappy difficulties was found in most Southern homes, was owing to the extract of Calisaya Bark which it contained as one of its principal ingredients.—"In confirmation of this, we have heard one of our most distinguished physicians remark, that whenever he felt unwell from ordinary dietetic or atmospheric causes, he invariably relieved himself by Plantation Bitters. Now, that these Bitters cannot be obtained, a substitute should be prepared.—We understand our government has opened negotiations with Dr. Drake through a secret agent, but with what truth we do not know." * * * *

We are exceedingly obliged to the Richmond 'Whig' for its remembrance of "Auld Lang Syne," but we can assure "Our Government" that the Plantation Bitters are not for sale to any "secret agents," North or South. There is probably several other things that "Our Government" will yet want

We know that we have the best and most popular medicine in the world. We are not afraid to show what it is composed of.

Physicians are compelled to recommend it.

Calisaya Bark has been celebrated for over two hundred years, and was sold during the reign of Louis XVI, King of France, for the enormous price of its own weight in silver. It is remarkable for Dyspepsia, Fevers, Weakness, Constipation, &c.

Cascarilla Bark.—For Diarrhœ, Colic, and diseases of the stomach and bowels.

Dandelion.—For Inflammation of the Loins and Dropsical Affections.

Chamomile Flowers.—For enfeebled digestion.

Lavender Flowers.—Aromatic, stimulant and tonic—highly invigorating in nervous debility.

Wintergreen.—For Scrofula, Rheumatism, &c.

Anise.—An aromatic carminative; creating flesh, muscle and milk; much used by mothers nursing.

Also, clove-buds, orange caraway, coriander, snake-root, &c,

S.—T.—1860—X.

Another wonderful ingredient, of Spanish origin, imparting beauty to the complexion and brilliancy to the mind, is yet unknown to the commerce of the world, and we withhold its name for the present.

Humbugs and quacks howl about the Plantation Bitters; but the following is what's the matter, and they know it:

PLANTATION BITTERS WILL CURE
Cold Extremities and Feverish Lips.
Sour Stomach and fetid breath.
Flatulency and Indigestion.
Nervous Affections.
Excessive Fatigue and Short Breath.
Pain over the Eyes.
Mental Despondency.
Prostration, Great Weakness.
Sallow complexion, Weak Bowels.
LIVER COMPLAINT AND DYSPEPSIA.

Very particularly recommended to Clergymen, Merchants, Lawyers, and persons of sedentary habits. Also for delicate females and weak persons who require a gentle stimulant, free digestion, good appetite and clear mental faculties.

Sold by all respectable Physicians, Druggists, Grocers, Hotels, Saloons, Country Stores, &c.

Be particular that each bottle bears the fac simile of our signature on a steel plate label, with our private government stamp over the cork.

NEW ADVERTISEMENTS.

Advice to the Farmers of P. E. Island.

AS the season for Harvest operations is approaching, and as the crops promise to be unusually abundant, the undersigned begs to remind Farmers throughout the Island that he has just received an Invoice of his Stock of

Manny's Celebrated and Wonderful Mowing and Reaping Machines,

which save immense time, labor and money to those who use them, as is proved by the well established fact that they will enable a Farmer to save his crops four or five weeks sooner, and at less than half the cost, than he could do the work by the old fashioned Hook and Scythe, now rapidly going out of use, with the older and still more useless Flail. No enterprising or temperance Farmer should be without one of those wonderful Machines; the cost is comparatively trifling, and no man who is able to bear the cost should think of hiring one, as before it came to his turn to hire one of the Machines that might be in his neighbourhood, he would, perhaps, lose the chance of securing or selling his crop to advantage.

The Mowing and Reaping MACHINES were never in greater demand in the United States than at present. The scarcity of manual labor in that country, caused by the number of Farmers killed and wounded in the present War, renders such LABOUR-SAVING MACHINES more desirable than ever, and it will be almost impossible to secure a sufficient supply hereafter for the use of the agriculturaists of this Island. Now is the time to secure them. The undersigned, knowing that they would be in great demand, ordered a considerable number of them for the use of the Farmers of this Island, but could not get more than half he required, which he is prepared to sell for Cash or approved credit, for one or two years, if they are ordered before the 25th inst.

The following Agents will act for the Subscriber in selling those extraordinary and beautiful MACHINES which are so well adapted for saving labour and money; and the Subscriber hopes that they will send their orders immediately and use their best exertions to promote their sale, and thereby advance the best interests of the Colony. The Machines have just arrived in the Steamer "Commerce," and one of them, together with some patent ploughs, will be on exhibition at the North American Hotel, where an office will be opened for the sale of all such goods, during the season by PATRICK STEPHENS,

Of Orwell Cheap Store,
