

# Tentative Agreement Reached On City Dump

In an effort to solve the common problem posed by the present city dump, a joint committee representing Charlottetown and the Village of Parkdale yesterday tentatively agreed to share the cost of a traxycator and the maintenance of a common dump to be located in an area to be designated later by the provincial government.

The presence of the two 5th Queens representatives in the local House, Hon. J. David Stewart and Alban Farmer, Q.C., gave rise to speculation that some assistance might be given by the Island government.

Councillor Gerald R. Foster, chairman of the Charlottetown council's committee on public property said the three-day meeting resulted in "most happy" relations being established.

**MEETINGS HELD**  
Councillor Foster and Councillor Elmer MacRae first met with village commissioners Alex MacLean and Frank MacDonald. This meeting was followed by a get-together with Hon. J. David Stewart and M. Alban Farmer.

Mr. Stewart, who is a former mayor of the city and at one time chaired the public property committee, was quite familiar with the problem. With his colleague, he promised to bring the matter before the government at an early date.

Concerning the meeting, Chief Commissioner MacLean said, "we in Parkdale are delighted that something will be done in regard to the city dump. It is certainly a new approach when we can sit down with members of the council and discuss matters of mutual interest." He had high praise for

## Kinsmen Hallowe'en Party Is Set For Saturday Night

Charlottetown Kinsmen were working at top speed last night getting ready for the big Hallowe'en party at the Community Centre on Stewart Street slated for Saturday night.

Following their regular meeting the Kinsmen rolled up their shirt sleeves to package the treats for the hundreds of youngsters expected to whoop-it-up at the Centre on Hallowe'en.

In addition to the usual treats, there will be films and prizes for the best costumes. The party gets underway at 6 o'clock. Andy Humphrey is chairman of the party committee.

At their meeting the Kinsmen discussed and approved a budget for 1959-60 which was presented by Brian Scott.

Club president Ned Dooley reported on the district council meeting in New Glasgow, N.S., and which had been attended by the national president, Dr. A.S. Schwartz of Montreal and national vice-president, Dick Miller of Moncton.

**AWARDS WON**  
National awards were presented for 100 per cent efficiency in the district and the Charlottetown club was the winner of one of these awards, it was reported. The national officials reported on their recent visit to a world council of young men's associations held in Malmo, Sweden.

A report on the national convention of Kinsmen Clubs held last summer at St. Andrews, N.B., was presented by Stuart Ives. He stressed the importance of younger members attending these conventions.

## Professional Theatre Renaissance Is Seen

HALIFAX (CP)—Canada is experiencing a renaissance in the professional theatre, Richard MacDonald of Ottawa, national director of the Dominion Drama Festival, said here Thursday.

Mr. MacDonald said in an interview the upsurge of Canadian theatre began near the start of the century, "disintegrated" because of the First World War and received a new stimulus with the development of talking pictures. Amateur groups kept theatre alive in the depressed period of professional theatre.

"The biggest growth has been during the past 10 years, particularly since the founding of the Stratford Theatre."

Mr. MacDonald's current Canadian tour may have a major effect on Canadian theatre for generations to come. With his drama festival work, he is combining a Canada Council-sponsored survey "of the needs of the community theatres."

At the halfway mark of the survey the need for directors is particularly noticeable.

"This was one thing that came up at every meeting," he said. "The group want instructional assistance in direction."

To provide such assistance on a national basis would be difficult so the answer might lie on a regional plane.

"There are a number of other ideas submitted to me through which the groups feel they could improve." He declined to elaborate pending completion of his study and submission of a report.

## Fleming Reply 'Astounding'

OTTAWA (CP)—The joint action committee of federal civil service organizations Thursday described as "astounding" Finance Minister Fleming's reply to its charge of double-standard in wages paid government employees.

It said it agreed with Mr. Fleming's contention that employees of Crown corporations are not civil servants in the strict sense and that the government does not control wage rates in these corporations.

But it expressed wonder at his reply to a committee statement Tuesday that there appeared to be a double standard when Crown corporation employees have been granted wage increases but civil servants were not. Mr. Fleming replied this is "a very good question that should be addressed to those Crown corporations concerned."
