

LOCAL AND OTHER MATTERS.

Mr. James White is Collector of Customs for the Province, in place of the late Mr. Robert Gordon.

Personal.—Lieut. Hazard, R. N., arrived here on Wednesday last. He is on a visit to his friends.

A large lot of Waltham Watches, in solid silver cases, at \$20 and upwards, warranted as usual, by W. W. Welton.—4 in.

The Spring Court of Canada met for the first time, at Ottawa, on Thursday the fourth of November. The Judges were sworn in.

LAWYER.—On Friday Morning last, the Superior Judge sentenced Frank Mackay to six months imprisonment with hard labor, for larceny.

The Grand Closing-out Sale of gold and silver watches, jewelry, clothing, pictures, etc., continued at A. McNeill's Auction-room every evening this week.

At the Union House, 28 Queen Street, is the largest and best stock of Meerschaum, pipe and fancy pipes, wholesale and retail, and fresh Bedouze Oysters. 3 in

Dalhousie College.—The Professor's scholarships of Dalhousie College, were won by George W. McQueen, of New Glasgow, N. S., Academy, and Isaac McLean, of the Island.

A SINGULAR WOMAN.—A woman was arrested by the Customs officers at St. Albert, on Saturday, on arrival of the Montreal train. She had 400 yards of black silk on her person.

ANOTHER STEAMSHIP LINK.—We learn that a vigorous effort is being made to establish a regular line of Steamships between the ports of Halifax, Sydney, C. B., and St. John's, N.B.

THE PREMIER.—In his speeches at Halifax and St. John the Premier very prudently avoided allusion to topics of local interest, and confined himself to matters of general importance.

We learn that Mr. Pope is to load three or four vessels with oats this season. As the shipping season is short, farmers should be well to send in their oats as soon as possible.—Summerside Journal.

DISBURSEMENT.—Whose business is it to look after the old Burying Ground? It is a disgraceful condition. It must be most painful to those who have relations buried in that graveyard to see it turned into a cow pasture.—Patrol.

PROCES SALES.—Messrs. James Duggan & Son sold at auction, to-day, portions of the cargo of the schooner "J. R. Stewart," from P. E. Island, consisting of 120 bushels potatoes, at an average rate of 25 cents, and 160 bushels turnips at 22 and 24 cents per bushel.—Herald, 4th inst.

WEST.—Mr. Cyrus R. McKinlay—late of the office of Messrs. Alley & Davies, of this city, and Assistant Clerk of the County Court—is now in San Francisco.

We are glad to learn that he is doing well. He is law reporter for a prominent legal firm and is reading law in the office of R. G. McLennan.

ISLANDERS ABROAD.—In the "South Pacific Times," of the 28th Sept, it is reported that Francis A. Kelly, third son of Hon. Francis Kelly, has been appointed British Vice Consul at Pabellon de Pica and Puno de Lobos, Peru. He has been for the last sixteen years, in the employ of the Peruvian Government.

GOLD.—We had the pleasure of handling a bar of gold, weighing over 80 ounces, worth about \$1500, the result of the last crossing by the "Stonewall" company, Fifteen Mile Stream. This is from the celebrated Jackson lead, considered one of the richest leads yet found in the Province.—New Glasgow (N. S.) Chronicle.

RESIGNED.—We learn that Mr. Roper has resigned his position as Accountant to the Railway, and is about proceeding to Ontario Short, comparatively, as has been the time he stayed among us, his departure will be regretted by many friends—won by his affable manners and kindly acts. His place is to be supplied by Mr. Williams, late of the Intercolonial Railway.

CHARLOTTETOWN DEBATING CLUB.—Something like the old time enthusiasm seems again to possess the members of the Charlottetown Debating Club, and there are prospects that the ensuing session will be of a very improving and successful one. We understand that a course of popular lectures under the auspices of the Club, is to be one of its features.

A SAD TRAGEDY.—Halifax papers contain an account of a tragedy that has happened in England lately. One of the actors was the daughter of the late Wm. Twining of Halifax, and grand-daughter of the late Dr. Twining of the same place. It appears that while in a fit of insanity her husband shot her with a revolver. The murderer had the revolver still in his hand when a person entered the room, grasped the weapon, and in the struggle that ensued it was discharged, causing his death.

MR. LEWIS YEO OF LOT 16 had a narrow escape from a pistol shot yesterday evening in this town. Mr. Robert Lee also from Lot 16, and Mr. Yeo was examining a revolver in the Alma House Yard. As they both thought the revolver was empty, they passed it between them carelessly. When in Mr. Lee's hands, the revolver which happened to be loaded, went off the ball grating Mr. Yeo's ribs, but happily without doing further injury. Revolvers should be handled with caution.—Journal.

LAND COMMISSION.—The Court reopened on Monday last. Evidence respecting Mrs. Montgomery's estate, the estate of H. J. Cundall, Esq., the Kenzie estate, the estate of E. J. Hodgson, Esq., and the Wright estate was heard during the week. J. S. Carvell, Esq., was arbitrator for Mrs. Montgomery and Mr. Cundall; Chas. Palmer, Esq., for Mr. Kenzie; Chas. Gregory, Esq., for Mr. Hodgson; Mr. Calhoun, for the Misses Wright. Owing to the death of Hon. E. McEachern, Commissioner of Crown Lands, the Court adjourned on Saturday, shortly after the opening.

FISHERY COMMISSION.—The first meeting of the Commission to arrange the fishery claims between Canada and the United States, took place at the Victoria Hotel last evening. Mr. Ford, the agent of the British Government, and Hon. A. J. Smith, Minister of Marine and Fisheries, with Mr. Whitaker, Commissioner of Fisheries, met the Counsel appointed by the Canadian Government—Mr. Doure, Quebec. Mr. Weatherbie, Nova Scotia, Mr. Davies, P. E. Island, Mr. S. R. Thomson, counsel for New Brunswick, is absent in Gloucester County. The meeting last evening was merely introductory and formal. The Commission will resume its sitting to-day and continue until the business to come before it is finished. This is quite extensive and will embrace much time and research.—St. John News 5th inst.

CORRESPONDENCE.

COMMUNICATION WITH P. E. ISLAND.

To the Editor of the Halifax Chronicle:

Sir,—I have watched with a good deal of interest the discussions and letters in your paper about the proposed arrangement of the "P. E. Island Steam Navigation Company," and I could not help admiring the ingenuity with which the defenders of the company have endeavored to evade the real question at issue. The Premier of the company, in one or two letters, dwelt very forcibly upon the necessity of going to Cape Breton, the possibility of employing another boat without loss, the necessity of the Railway to run a special train. One thing, however, his letters did not tell. He did not say, as he might have done, that it is not in the power of the company to afford a special train would give, and that without giving any route on which they would run a special train. A special train, however, is not in the power of the company, and it is not in the power of the company to afford a special train would give, and that without giving any route on which they would run a special train.

When complaints are made that passengers start at 5 a. m., and then have to wait 6 hours in Pictou, the inevitable reply is, "We have to do this to go to Cape Breton." Certainly the company render a good deal of service, not looking into matters for themselves, when they give that reason. Let us test it: The steamer which leaves Charlottetown at 5 a. m., will with an ordinary passage, reach Pictou at 9:30 a. m. Now, the time-tables show that all summer the train from Halifax did not reach Pictou until about 2 p. m., and until this train does arrive the boat never leaves for Cape Breton. Evidently, then, if the steamer left Charlottetown at 8:30 a. m., she would be in a simple time to leave for Cape Breton, and passengers would start at a convenient hour and the delay at Pictou would be only for about 2 hours. Why is this not done? Because to do so would require the company to bring their coal over from Pictou to Charlottetown and take it in there; so that the 5 a. m. start and the 6 hours delay is caused solely by the determination of the company to coal at Pictou. You are a man of a discreet science; they observed all along on this point, and I imagine they will continue silent.

All this summer the press of Halifax and Charlottetown have been crying out but the Government, about the having it perfectly in their power to make the desired change, have done nothing. No expression of public opinion influences them, so other means must be tried. And this, at the next session of Parliament some one will call attention to the matter. Shortly before the Parliament meets I may ask you to allow me again to bring the leading facts to public notice, in the form that some one may be found who is absurd to suppose that a contract is given absolutely to any company, that all considerations of public convenience must yield to the interests of the company. For years the people of these two Provinces have been put to the greatest inconvenience, and their trade very materially restricted, and this company might be saved the freight of their coal from Pictou to Charlottetown. Surely it is time for this to stop. A. P. E. ISLANDER. Charlottetown, Oct. 27, 1875.

MISS SULLIVAN'S LETTER TO THE LONDON TIMES

To the Editor of the Times: Sir,—As the largest proprietor in Prince Edward Island, and the principal supplier of the Land Purchase Act, so justly commented upon in your leading article of Saturday, will you allow me to offer a few observations on the story made by Mr. Childers and the Island Commissioner, Mr. Jenkins, in my case? This award amounted to a sum in full and currency equal to £16,745 11s. 4d. for 66,000 acres 43,000 of which are under lease or agreement, and were in every respect excellent land; the proportion therefore, is 5s. 1d. per acre, and not 7s. as stated.

I may add that in 1871 the amount offered me even by the Government of the Island exceeded the present award by 1s. 6d. per acre. I need hardly observe, with reference to the award made to Mr. Childers and Mr. Halliburton, the Commissioner for the proprietor, refused to sign it, although his dissent was immaterial, through the provision of the Act, which required that every tenant not only secured a large remuneration, but also obtained the right to purchase at fifteen years' rent, and 3,050 acres have been purchased under the provisions of that Act. Proprietors were then assured that, by consenting to that Act and giving up much that had long been considered as for ever settled. Although I am advised that there is no appeal from this unjust award, I cannot help regretting that the trust expressed by Lord Carnarvon in the House of Lords, on the 26th of July—viz., that this Bill would be as much in the interest of the proprietors as in the interests of any other class of the community—has in no respect been realized. Apologizing for the length of this letter, I remain Sir, Your obedient servant, CHARLOTTE SULLIVAN, Broome-house, Fallmouth, Oct. 2.

PASSENGERS.

Per str. Worcester from Boston.—Messrs. Mitchell, E. Naudie, James Matheson, R. A. McLean, M. Sawgan, Thomas Kellin, J. Smith, Messrs. Kate Gillis, Jesse Gillis, Anne Trainer, Kate Robertson.

Per str. Worcester to Boston.—Maggie McKenzie, Mrs. McDonald, Wm. Stewart, Lemona, John King, Kate McMillen, Mary Kelly, Maggie Auld, Patrick O'Brien.

DIED.

At Granville, New London, on the 27th Oct., at asthma, after a long and protracted illness which he bore with christian resignation to the Divine Will, David Corbett, aged 77 years and 7 months.

At the same place, on the 7th Oct., of cancer, Barbara, wife of the late David and Georgina Corbett, aged forty-five years.

At Brackley Point Road, on Thursday, 28th Oct., of whooping cough, Mary Lauretta, eldest daughter of Jonathan McWilliams, aged 17 years and 3 months.

At Murray Harbor South, on the 2nd inst., after a few months illness, Mr. Peter Robertson, leaving a wife and eight children to mourn their loss.

At Pictou, on Wednesday, the 27th inst., Jane, the beloved wife of Donald S. McNutt, Esq., and daughter of the late Hon. Peter McNutt, of Dalrymple.

At Truro, on the 6th inst., after a few days illness, Jane the beloved wife of Wm. Hayward, leaving a husband and three children to mourn their loss.

At Summerside, on the 2nd of October, of malignant scarlet fever, Henry Havelock, son of William and Ann Havelock, aged 5 years and 3 months.

DRY GOODS & CLOTHING Wholesale and Retail, FALL AND WINTER, 1875-1876.

We have received part of our Fall Stock, comprising a General Assortment in every Department. Further supplies to arrive fortnightly till close of navigation. PRICES UNUSUALLY LOW THIS SEASON FOR CASH. ROBERT ORR & CO.

SHIPPING.

PORT OF CHARLOTTETOWN.

Nov. 2.—Sch Trial, Henry, Port Hawkesbury, 2,334 bush potatoes, 254 do turnips, 250 do butter, 200 do wool, 1,000 do flour, 1,000 do sugar, 1,000 do coffee, 1,000 do tea, 1,000 do rice, 1,000 do corn, 1,000 do peas, 1,000 do beans, 1,000 do lentils, 1,000 do chick peas, 1,000 do vetch, 1,000 do clover, 1,000 do hay, 1,000 do straw, 1,000 do wood, 1,000 do bark, 1,000 do tannin, 1,000 do sulphur, 1,000 do saltpetre, 1,000 do soda ash, 1,000 do potash, 1,000 do lime, 1,000 do plaster, 1,000 do cement, 1,000 do bricks, 1,000 do tiles, 1,000 do pipes, 1,000 do iron, 1,000 do steel, 1,000 do copper, 1,000 do brass, 1,000 do zinc, 1,000 do lead, 1,000 do tin, 1,000 do silver, 1,000 do gold, 1,000 do platinum, 1,000 do palladium, 1,000 do rhodium, 1,000 do iridium, 1,000 do osmium, 1,000 do selenium, 1,000 do tellurium, 1,000 do arsenic, 1,000 do antimony, 1,000 do bismuth, 1,000 do mercury, 1,000 do cadmium, 1,000 do strontium, 1,000 do barium, 1,000 do calcium, 1,000 do magnesium, 1,000 do sodium, 1,000 do potassium, 1,000 do lithium, 1,000 do rubidium, 1,000 do cesium, 1,000 do francium, 1,000 do actinium, 1,000 do thorium, 1,000 do uranium, 1,000 do radium, 1,000 do polonium, 1,000 do astatine, 1,000 do tennessine, 1,000 do livermorium, 1,000 do flerovium, 1,000 do oganesson.

Nov. 2.—Brigt, Assured, Morris St. Johns, N.B., 2,334 bush potatoes, 254 do turnips, 250 do butter, 200 do wool, 1,000 do flour, 1,000 do sugar, 1,000 do coffee, 1,000 do tea, 1,000 do rice, 1,000 do corn, 1,000 do peas, 1,000 do beans, 1,000 do lentils, 1,000 do chick peas, 1,000 do vetch, 1,000 do clover, 1,000 do hay, 1,000 do straw, 1,000 do wood, 1,000 do bark, 1,000 do tannin, 1,000 do sulphur, 1,000 do saltpetre, 1,000 do soda ash, 1,000 do potash, 1,000 do lime, 1,000 do plaster, 1,000 do cement, 1,000 do bricks, 1,000 do tiles, 1,000 do pipes, 1,000 do iron, 1,000 do steel, 1,000 do copper, 1,000 do brass, 1,000 do zinc, 1,000 do lead, 1,000 do tin, 1,000 do silver, 1,000 do gold, 1,000 do platinum, 1,000 do palladium, 1,000 do rhodium, 1,000 do iridium, 1,000 do osmium, 1,000 do selenium, 1,000 do tellurium, 1,000 do arsenic, 1,000 do antimony, 1,000 do bismuth, 1,000 do mercury, 1,000 do cadmium, 1,000 do strontium, 1,000 do barium, 1,000 do calcium, 1,000 do magnesium, 1,000 do sodium, 1,000 do potassium, 1,000 do lithium, 1,000 do rubidium, 1,000 do cesium, 1,000 do francium, 1,000 do actinium, 1,000 do thorium, 1,000 do uranium, 1,000 do radium, 1,000 do polonium, 1,000 do astatine, 1,000 do tennessine, 1,000 do livermorium, 1,000 do flerovium, 1,000 do oganesson.

Nov. 2.—Brigt, Assured, Morris St. Johns, N.B., 2,334 bush potatoes, 254 do turnips, 250 do butter, 200 do wool, 1,000 do flour, 1,000 do sugar, 1,000 do coffee, 1,000 do tea, 1,000 do rice, 1,000 do corn, 1,000 do peas, 1,000 do beans, 1,000 do lentils, 1,000 do chick peas, 1,000 do vetch, 1,000 do clover, 1,000 do hay, 1,000 do straw, 1,000 do wood, 1,000 do bark, 1,000 do tannin, 1,000 do sulphur, 1,000 do saltpetre, 1,000 do soda ash, 1,000 do potash, 1,000 do lime, 1,000 do plaster, 1,000 do cement, 1,000 do bricks, 1,000 do tiles, 1,000 do pipes, 1,000 do iron, 1,000 do steel, 1,000 do copper, 1,000 do brass, 1,000 do zinc, 1,000 do lead, 1,000 do tin, 1,000 do silver, 1,000 do gold, 1,000 do platinum, 1,000 do palladium, 1,000 do rhodium, 1,000 do iridium, 1,000 do osmium, 1,000 do selenium, 1,000 do tellurium, 1,000 do arsenic, 1,000 do antimony, 1,000 do bismuth, 1,000 do mercury, 1,000 do cadmium, 1,000 do strontium, 1,000 do barium, 1,000 do calcium, 1,000 do magnesium, 1,000 do sodium, 1,000 do potassium, 1,000 do lithium, 1,000 do rubidium, 1,000 do cesium, 1,000 do francium, 1,000 do actinium, 1,000 do thorium, 1,000 do uranium, 1,000 do radium, 1,000 do polonium, 1,000 do astatine, 1,000 do tennessine, 1,000 do livermorium, 1,000 do flerovium, 1,000 do oganesson.

Nov. 2.—Brigt, Assured, Morris St. Johns, N.B., 2,334 bush potatoes, 254 do turnips, 250 do butter, 200 do wool, 1,000 do flour, 1,000 do sugar, 1,000 do coffee, 1,000 do tea, 1,000 do rice, 1,000 do corn, 1,000 do peas, 1,000 do beans, 1,000 do lentils, 1,000 do chick peas, 1,000 do vetch, 1,000 do clover, 1,000 do hay, 1,000 do straw, 1,000 do wood, 1,000 do bark, 1,000 do tannin, 1,000 do sulphur, 1,000 do saltpetre, 1,000 do soda ash, 1,000 do potash, 1,000 do lime, 1,000 do plaster, 1,000 do cement, 1,000 do bricks, 1,000 do tiles, 1,000 do pipes, 1,000 do iron, 1,000 do steel, 1,000 do copper, 1,000 do brass, 1,000 do zinc, 1,000 do lead, 1,000 do tin, 1,000 do silver, 1,000 do gold, 1,000 do platinum, 1,000 do palladium, 1,000 do rhodium, 1,000 do iridium, 1,000 do osmium, 1,000 do selenium, 1,000 do tellurium, 1,000 do arsenic, 1,000 do antimony, 1,000 do bismuth, 1,000 do mercury, 1,000 do cadmium, 1,000 do strontium, 1,000 do barium, 1,000 do calcium, 1,000 do magnesium, 1,000 do sodium, 1,000 do potassium, 1,000 do lithium, 1,000 do rubidium, 1,000 do cesium, 1,000 do francium, 1,000 do actinium, 1,000 do thorium, 1,000 do uranium, 1,000 do radium, 1,000 do polonium, 1,000 do astatine, 1,000 do tennessine, 1,000 do livermorium, 1,000 do flerovium, 1,000 do oganesson.

Nov. 2.—Brigt, Assured, Morris St. Johns, N.B., 2,334 bush potatoes, 254 do turnips, 250 do butter, 200 do wool, 1,000 do flour, 1,000 do sugar, 1,000 do coffee, 1,000 do tea, 1,000 do rice, 1,000 do corn, 1,000 do peas, 1,000 do beans, 1,000 do lentils, 1,000 do chick peas, 1,000 do vetch, 1,000 do clover, 1,000 do hay, 1,000 do straw, 1,000 do wood, 1,000 do bark, 1,000 do tannin, 1,000 do sulphur, 1,000 do saltpetre, 1,000 do soda ash, 1,000 do potash, 1,000 do lime, 1,000 do plaster, 1,000 do cement, 1,000 do bricks, 1,000 do tiles, 1,000 do pipes, 1,000 do iron, 1,000 do steel, 1,000 do copper, 1,000 do brass, 1,000 do zinc, 1,000 do lead, 1,000 do tin, 1,000 do silver, 1,000 do gold, 1,000 do platinum, 1,000 do palladium, 1,000 do rhodium, 1,000 do iridium, 1,000 do osmium, 1,000 do selenium, 1,000 do tellurium, 1,000 do arsenic, 1,000 do antimony, 1,000 do bismuth, 1,000 do mercury, 1,000 do cadmium, 1,000 do strontium, 1,000 do barium, 1,000 do calcium, 1,000 do magnesium, 1,000 do sodium, 1,000 do potassium, 1,000 do lithium, 1,000 do rubidium, 1,000 do cesium, 1,000 do francium, 1,000 do actinium, 1,000 do thorium, 1,000 do uranium, 1,000 do radium, 1,000 do polonium, 1,000 do astatine, 1,000 do tennessine, 1,000 do livermorium, 1,000 do flerovium, 1,000 do oganesson.

Nov. 2.—Brigt, Assured, Morris St. Johns, N.B., 2,334 bush potatoes, 254 do turnips, 250 do butter, 200 do wool, 1,000 do flour, 1,000 do sugar, 1,000 do coffee, 1,000 do tea, 1,000 do rice, 1,000 do corn, 1,000 do peas, 1,000 do beans, 1,000 do lentils, 1,000 do chick peas, 1,000 do vetch, 1,000 do clover, 1,000 do hay, 1,000 do straw, 1,000 do wood, 1,000 do bark, 1,000 do tannin, 1,000 do sulphur, 1,000 do saltpetre, 1,000 do soda ash, 1,000 do potash, 1,000 do lime, 1,000 do plaster, 1,000 do cement, 1,000 do bricks, 1,000 do tiles, 1,000 do pipes, 1,000 do iron, 1,000 do steel, 1,000 do copper, 1,000 do brass, 1,000 do zinc, 1,000 do lead, 1,000 do tin, 1,000 do silver, 1,000 do gold, 1,000 do platinum, 1,000 do palladium, 1,000 do rhodium, 1,000 do iridium, 1,000 do osmium, 1,000 do selenium, 1,000 do tellurium, 1,000 do arsenic, 1,000 do antimony, 1,000 do bismuth, 1,000 do mercury, 1,000 do cadmium, 1,000 do strontium, 1,000 do barium, 1,000 do calcium, 1,000 do magnesium, 1,000 do sodium, 1,000 do potassium, 1,000 do lithium, 1,000 do rubidium, 1,000 do cesium, 1,000 do francium, 1,000 do actinium, 1,000 do thorium, 1,000 do uranium, 1,000 do radium, 1,000 do polonium, 1,000 do astatine, 1,000 do tennessine, 1,000 do livermorium, 1,000 do flerovium, 1,000 do oganesson.

Nov. 2.—Brigt, Assured, Morris St. Johns, N.B., 2,334 bush potatoes, 254 do turnips, 250 do butter, 200 do wool, 1,000 do flour, 1,000 do sugar, 1,000 do coffee, 1,000 do tea, 1,000 do rice, 1,000 do corn, 1,000 do peas, 1,000 do beans, 1,000 do lentils, 1,000 do chick peas, 1,000 do vetch, 1,000 do clover, 1,000 do hay, 1,000 do straw, 1,000 do wood, 1,000 do bark, 1,000 do tannin, 1,000 do sulphur, 1,000 do saltpetre, 1,000 do soda ash, 1,000 do potash, 1,000 do lime, 1,000 do plaster, 1,000 do cement, 1,000 do bricks, 1,000 do tiles, 1,000 do pipes, 1,000 do iron, 1,000 do steel, 1,000 do copper, 1,000 do brass, 1,000 do zinc, 1,000 do lead, 1,000 do tin, 1,000 do silver, 1,000 do gold, 1,000 do platinum, 1,000 do palladium, 1,000 do rhodium, 1,000 do iridium, 1,000 do osmium, 1,000 do selenium, 1,000 do tellurium, 1,000 do arsenic, 1,000 do antimony, 1,000 do bismuth, 1,000 do mercury, 1,000 do cadmium, 1,000 do strontium, 1,000 do barium, 1,000 do calcium, 1,000 do magnesium, 1,000 do sodium, 1,000 do potassium, 1,000 do lithium, 1,000 do rubidium, 1,000 do cesium, 1,000 do francium, 1,000 do actinium, 1,000 do thorium, 1,000 do uranium, 1,000 do radium, 1,000 do polonium, 1,000 do astatine, 1,000 do tennessine, 1,000 do livermorium, 1,000 do flerovium, 1,000 do oganesson.

Nov. 2.—Brigt, Assured, Morris St. Johns, N.B., 2,334 bush potatoes, 254 do turnips, 250 do butter, 200 do wool, 1,000 do flour, 1,000 do sugar, 1,000 do coffee, 1,000 do tea, 1,000 do rice, 1,000 do corn, 1,000 do peas, 1,000 do beans, 1,000 do lentils, 1,000 do chick peas, 1,000 do vetch, 1,000 do clover, 1,000 do hay, 1,000 do straw, 1,000 do wood, 1,000 do bark, 1,000 do tannin, 1,000 do sulphur, 1,000 do saltpetre, 1,000 do soda ash, 1,000 do potash, 1,000 do lime, 1,000 do plaster, 1,000 do cement, 1,000 do bricks, 1,000 do tiles, 1,000 do pipes, 1,000 do iron, 1,000 do steel, 1,000 do copper, 1,000 do brass, 1,000 do zinc, 1,000 do lead, 1,000 do tin, 1,000 do silver, 1,000 do gold, 1,000 do platinum, 1,000 do palladium, 1,000 do rhodium, 1,000 do iridium, 1,000 do osmium, 1,000 do selenium, 1,000 do tellurium, 1,000 do arsenic, 1,000 do antimony, 1,000 do bismuth, 1,000 do mercury, 1,000 do cadmium, 1,000 do strontium, 1,000 do barium, 1,000 do calcium, 1,000 do magnesium, 1,000 do sodium, 1,000 do potassium, 1,000 do lithium, 1,000 do rubidium, 1,000 do cesium, 1,000 do francium, 1,000 do actinium, 1,000 do thorium, 1,000 do uranium, 1,000 do radium, 1,000 do polonium, 1,000 do astatine, 1,000 do tennessine, 1,000 do livermorium, 1,000 do flerovium, 1,000 do oganesson.

Nov. 2.—Brigt, Assured, Morris St. Johns, N.B., 2,334 bush potatoes, 254 do turnips, 250 do butter, 200 do wool, 1,000 do flour, 1,000 do sugar, 1,000 do coffee, 1,000 do tea, 1,000 do rice, 1,000 do corn, 1,000 do peas, 1,000 do beans, 1,000 do lentils, 1,000 do chick peas, 1,000 do vetch, 1,000 do clover, 1,000 do hay, 1,000 do straw, 1,000 do wood, 1,000 do bark, 1,000 do tannin, 1,000 do sulphur, 1,000 do saltpetre, 1,000 do soda ash, 1,000 do potash, 1,000 do lime, 1,000 do plaster, 1,000 do cement, 1,000 do bricks, 1,000 do tiles, 1,000 do pipes, 1,000 do iron, 1,000 do steel, 1,000 do copper, 1,000 do brass, 1,000 do zinc, 1,000 do lead, 1,000 do tin, 1,000 do silver, 1,000 do gold, 1,000 do platinum, 1,000 do palladium, 1,000 do rhodium, 1,000 do iridium, 1,000 do osmium, 1,000 do selenium, 1,000 do tellurium, 1,000 do arsenic, 1,000 do antimony, 1,000 do bismuth, 1,000 do mercury, 1,000 do cadmium, 1,000 do strontium, 1,000 do barium, 1,000 do calcium, 1,000 do magnesium, 1,000 do sodium, 1,000 do potassium, 1,000 do lithium, 1,000 do rubidium, 1,000 do cesium, 1,000 do francium, 1,000 do actinium, 1,000 do thorium, 1,000 do uranium, 1,000 do radium, 1,000 do polonium, 1,000 do astatine, 1,000 do tennessine, 1,000 do livermorium, 1,000 do flerovium, 1,000 do oganesson.

Nov. 2.—Brigt, Assured, Morris St. Johns, N.B., 2,334 bush potatoes, 254 do turnips, 250 do butter, 200 do wool, 1,000 do flour, 1,000 do sugar, 1,000 do coffee, 1,000 do tea, 1,000 do rice, 1,000 do corn, 1,000 do peas, 1,000 do beans, 1,000 do lentils, 1,000 do chick peas, 1,000 do vetch, 1,000 do clover, 1,000 do hay, 1,000 do straw, 1,000 do wood, 1,000 do bark, 1,000 do tannin, 1,000 do sulphur, 1,000 do saltpetre, 1,000 do soda ash, 1,000 do potash, 1,000 do lime, 1,000 do plaster, 1,000 do cement, 1,000 do bricks, 1,000 do tiles, 1,000 do pipes, 1,000 do iron, 1,000 do steel, 1,000 do copper, 1,000 do brass, 1,000 do zinc, 1,000 do lead, 1,000 do tin, 1,000 do silver, 1,000 do gold, 1,000 do platinum, 1,000 do palladium, 1,000 do rhodium, 1,000 do iridium, 1,000 do osmium, 1,000 do selenium, 1,000 do tellurium, 1,000 do arsenic, 1,000 do antimony, 1,000 do bismuth, 1,000 do mercury, 1,000 do cadmium, 1,000 do strontium, 1,000 do barium, 1,000 do calcium, 1,000 do magnesium, 1,000 do sodium, 1,000 do potassium, 1,000 do lithium, 1,000 do rubidium, 1,000 do cesium, 1,000 do francium, 1,000 do actinium, 1,000 do thorium, 1,000 do uranium, 1,000 do radium, 1,000 do polonium, 1,000 do astatine, 1,000 do tennessine, 1,000 do livermorium, 1,000 do flerovium, 1,000 do oganesson.

Nov. 2.—Brigt, Assured, Morris St. Johns, N.B., 2,334 bush potatoes, 254 do turnips, 250 do butter, 200 do wool, 1,000 do flour, 1,000 do sugar, 1,000 do coffee, 1,000 do tea, 1,000 do rice, 1,000 do corn, 1,000 do peas, 1,000 do beans, 1,000 do lentils, 1,000 do chick peas, 1,000 do vetch, 1,000 do clover, 1,000 do hay, 1,000 do straw, 1,000 do wood, 1,000 do bark,
