

There are people  
in your community  
who can not  
read and write.

Please set up a literacy  
project at U PEI.

Frontier College, a national non-profit literacy organization, is helping university and college students to set up volunteer literacy programs on campuses across Canada. The program is called Frontier College: Students for Literacy.

Almost 100 years ago, students from Queen's University travelled to the "frontier" to teach rail gangs to read and write. Today, McGill University students have taken up the challenge to go out into their community to teach adults basic literacy skills. Someday, there will be a literacy program on every campus in Canada.

# UPEI DEBATING SOCIETY

Ever wanted to join a debating society where you have:

- no really boring research
- a society whose schedule fits yours
- the chance to socialize with a dynamic group of people who are interested in real issues?

Relax!! The U.P.E.I. debating society is a laid-back place where you can enjoy *interesting* debates and discussions on topics that everyone knows something about. You don't have to cancel everything to attend either — we have two meeting times each week so you can pick the one that is best for you (or come to both if you want!). As for the people you'll be meeting, debaters come from many different faculties and groups on campus, so the discussions can involve just about anything.

The debating society also gives you a chance to improve your public speaking skills in a group where constructive criticism is all you'll find. Plus, you'll have an opportunity to participate in tournaments where universities from all over Canada or North America will be showing off their debating talents.

So make this the year that you try something new. Check out the debating society in room 01 in the Alumni Gym basement.

**First meeting Monday, September 13 at 4:30 P.M.**
