Although well advanced in years, his addresses were full of earnestness and evangelical truths.

TELEGRAPHIC NEWS.

The Overwhelming Stroke Soldiers Eager for the Fray.

SUPPLIES AMPLE, France on the Situation.

LONDON, Sept. 4.

It is reported here that Wolsley intends to make his decisive attack upon the forces of "Arabi" to-morrow. The cautiousness displayed by the General has greatly added to his brilliant reputation, and the present concentration of British troops in the country surrounding Maxama, Tel-el Kebir, Ismailia, and Zagazig, bespeak the purpose of Wolsley's endeavor to crush the overwhelming rebellion at one masterly stroke. The enemy are evidently aware of this. The strong entrenchments at Meks have been nominally evacuated, and works upon them have closed. Arabi's chief aim is to meet Wolsley's concentration by counter-concentration, and to fight the chief battle of the campaign at the present theatre of war. He has given orders for the withdrawal of over six thousand troops from Meks, and to hurry on to the present entrenchments near Zagazig. A telegram received here to-day from Wolsley highly eulogizes the troops at the seat of war. He says that they are in high spirits, and are eagerly waiting and begging to be led forward to the fray. The telegram also gives the lie to the reports that the General was waiting for supplies from England. The General says "the supplies at the front are ample." The Paris paper Temps publishes to-day a notable article on the situation. It advocates friendship with England, and concert in the military action. The article is bitterly hostile to Germany, and says that German omnipotence can only be opposed by Anglo-French alliance.

A Threatened Strike of Miners, English Harvest Damaged.

LONDON, Sept. 4.

The Miners' Association at Manchester, England, held a meeting and decided to demand an increase of wages. They demand the increase on account of the increase of cost of living, and the increase of the value of outputs. A general strike is threatened throughout the kingdom if the advance is refused. Heavy gales have visited several parts of England, and have succeeded in checking harvesting operations, and in seriously damaging the crops. The loss to the farmers and the country will be considerable.

NEWS FROM IRELAND.

Hynes to be Executed Troops Charge the Mob. Prospects of a Settlement.

DUBLIN, Sept. 4.

The Lord Lieutenant of Ireland has decided not to interfere with the course of the law in the case of Hynes, who was convicted of an atrocious agrarian murder. The plea was to set aside the verdict, on the ground that some of the jurymen were drunk on the night before the rendering of the verdict. The Lord Lieutenant expressed himself satisfied that the trial was a fair and just one, and that the law must be made a terror to evil-doers. The execution has been fixed to take place on September 18th. Rioting was renewed last evening at Dublin. The troops were brought out and charged the mob, scattering the people in all directions, but effectually clearing the streets. The police sent a memorial to the castle, regretting the conduct of the force. The Lord Lieutenant promised the fullest consideration of the case if the men returned to their duty. There is now a fair prospect of the settlement of the difficulty.

Safety of the "Lake Nepigon."

GENERAL CABLE NEWS.

ST. PETERSBURG, Sept. 1. A desperate attempt was made recently to release a political prisoner confined in prison at Saratoff. During the hour allowed the prisoner for exercise, a cart containing two men drove up to the jail and made a signal to the prisoner, who was walking within the prison enclosure guarded by the jailer. The prisoner threw sand in the eyes of the jailer and ran to the wall, while the men in the cart fired revolvers and mortally wounded the jailer. The liberated prisoner and the rescuers drove off, but were stopped by persons who had witnessed the occurrence, and after a desperate struggle, in which one of the liberators was killed, the other

two men were captured. The crowd tried to lynch them, but were prevented. The captured liberator states that he is the son of a landed proprietor.

ATHENS, Sept. 1. It is stated that the British minister here has made strong representations to the Greek Government against the continuation of hostilities on the frontier.

NOTICE.

THE Charlottetown Gas Light Company have imported a fresh supply of Bony's Patent Burner's, especially made to consume only three feet of Gas per hour with the tap turned full on. These Burners are intended for use in Halls, Bedrooms, Kitchens, and other places where a light from a small consumption of Gas only is required. By regulating the tap, the Gas consumed can be reduced to any desired quantity less than three feet per hour. These Burners are so scientifically made that they will give a light equal to about 10 candles at a cost of three quarters of one cent per hour. The price of these Burners to consumers of Gas will be ten cents each. (19 19 eod pd
