Blake's Metallic Fire Proof Paint, OR, ARTIFICIAL SLATE.

THIS admirable article has been tested for some years and proved very valuable, becoming a perfect slate, as hard as marble in a few months, completely protecting whatever is coated with it from the action of the weather and fire—a better fire-proof than tin or zinc. Several Insurance Companies certify they will insure buildings covered with it at a cheaper rate, than if covered with those metals. It is of two colors, the black is best for roofing—the chocolate the best thing ever discovered for sides of either brick or wood, forming a perfect stone coating of a handsome stone or chocolate color, can be easily changed by a little white lead or other coloring matter to suit the taste. There is nothing equal to it for steamboat and car decks, and all kinds of iron as it forms a coating nearly as hard as the iron itself, and never cleaves off.

BWARE OF WORTHLESS COUNTERFEITS.

As the popularity of my paint has induced scores of unprincipled individuals to grind up, and offer as fire-proof paint, all kinds of worthless stuff, much of it nothing but rotten stone that has no cohesive attraction, is held on only by the oil with which it is applied; consequently as soon as the action of the atmosphere destroys the oil, it will wash or rub off like Chalk or Whiting, nothing can yet be known of its lasting qualities, as it is but little over a year since they got them up, whereas mine has been tested about seven, and where first applied is now like a stone.

The original and genuine article can be obtained of PATRICK STEVENS, Orwell, my authorized Agent for the Island.

PROFESSOR A. G. BARRY'S TRICOPHEROUS or MEDICATED SYRUP.—Truth loves an incredulous audience, for if they listen, they are sure to become converts. If there is any man or woman who challenges the statement that Barry's Tricopherous is a specific for cutaneous diseases and injuries, and the best preparation for the hair extant, all that is asked is that he or she will try one twenty-five cent bottle of the fluid, and read the pamphlet in which it is enclosed. Read and make the trial. Truth will then force conviction upon the mind, that all, and more than all, that has been claimed for the preparation by the inventor, is as palpable a fact as the existence of the sun, or changes of day and night. Referring the reader to the thing itself, and the accompanying treatise for a solution of all his doubts, if he entertains any, we will here briefly state what the Tricopherous will do. It will remove scurf and dandruff; it will restore, preserve and beautify the hair; it will prevent it from becoming harsh or gray; it will dispose the hair to curl and render it glossy; it will relieve inflammation, itching and all irritation of the skin; it will cure bites and stings of insects; it will take away the pain of cuts, burns, bruises and sprains; it will allay the pain of rheumatism and cure headache. For these reasons, it ought never to be absent from the dwelling of any family, and no one should travel without it. Sold in large bottles, price 25 cents, at the principal office, 137 Broadway, New York. For sale by the principal merchants and druggists throughout the United States and Canada. Beware of the counterfeit, sold at one dollar per bottle. For sale by

JUST PUBLISHED, PRICE 2s.

THE SCIENCE OF LIFE;

or How to Live and What to live for; with ample rules for Diet, Regimen, and Self-Management; together with Instructions for securing Perfect Health, Longevity, and that sterling state of Happiness only attainable through the judicious observance of a well-regulated course of life. By a PHYSICIAN.

OPINIONS OF THE PRESS.

"There is a vast deal of good sense in this little volume. The rules relating to the 'important operation of eating' are admirable. The moral rules are as good as the physical, and the writer is well entitled to be heard."—Atlas.

"The work before us is written in a plain homely style, and the information which it contains in connection with all matters relating to health and diet, is of an extremely valuable and useful kind."—Sunday Times.

"A little book abounding in sound, sensible, and practicable advice for the management of health from infancy to old age. The writer's instructions are eminently judicious. This is a manual which every household should possess, and which young and old will read with profit."—Critic.

Here we have sure and practical rules laid down for adoption, which if followed accurately, will tend to the comfort, if not to the longevity of life. As a manual for general use, it is so prepared, as to avoid every thing that is offensive, whilst treating upon topics requisite to be considered."—Bell's Weekly Messenger.

"The design of this essay is extremely laudable, it being intended to promote a most useful and important study—the study of diet and morals which is at present too much neglected. There are, scattered through the work, several useful and important observations."—Weekly Times.

"A little work which appears to us to possess much merit, and to be suited to the capacities of all who can read. On such a subject it is often difficult to avoid the use of language which is offensive to delicate ears; but in the volume before us, the author has treated in the most familiar way, and yet without ever being led into the commission of an unguarded expression."—Mining Journal.

"A book written in the spirit of the nineteenth century by a man of the world, with a keen eye to all the 'comforts and conveniences of this life,' and on his guard against its material and discomfiting issues. We have rules for eating, drinking, and sleeping; but it strikes us that a man must have at least £500 a-year, before he can practise them, for which class, we believe, the author intended his labors."—Tablet.

"The book abounds with admirable maxims for the preservation of health, as dependent upon the choice of food, abstinence from excess of all kinds, the contrivance of the passions, air, exercise, and other matters which form the usual staple of sanitary admonition."—Emigrant.
