to have medical attention. All wish him a speedy recovery.

The recent mild weather has cleared our highway of ice and snow and motorists enjoy summer driving conditions, especially on the new pavement which runs through our districts.

Bob Platts, Bill Platts, Eddy Bertram, Myron Weeks, June Moore, Margaret MacLure and Helen Miller motored from Charlottetown on Sunday afternoon and were the guests of Miss Ireta Stevenson who is convalescing at her home in Fredericton.

Misses Lottie and Velda Houston entertained the Young Peoples Group on Friday evening. There was a splendid attendance of young folk. Following the worship, study and business periods a social evening was enjoyed by all. Lunch was served by hostesses assisted by committee in charge.

The mild winter has robbed the ice racing fans of their usual winter sport and many would welcome colder weather. Mr. Arnold Weeks is now the proud owner of three lovely race horses, and almost every day one can see Mr. Weeks exercising his trotters. Recently he has purchased, from the western county, a very promising young mare, Bonnie Bell. If weather conditions are favorable, we can expect some good racing at Milvale and Stanley

Saturday evening saw the opening of the Fredericton rink. Quite a number were present when Springfield and Fredericton played a friendly game of hockey. The game ended with a score 3-2 in favor of Springfield. Credit is due our young boys who financed and built this outdoor rink, also to Mr. Knud Jorgenson on whose land the rink stands

On Friday evening a number from Fredericton attended service

HON. EUGENE CULLEN
Minister of Industries and National Resources

In Hunter River United church when Dr. Florence Murray, recently evacuated missionary from Korea was guest speaker. She described Korea as a mountainous country about the size of our Maritime Provinces, N.B., N.S., P.E.I. In this small country live thirty million people, with only about one fifth of their land tillable. She explained how the North Korean army was composed mainly of Manchurian and Siberian soldiers whose training was communist. A graphic picture was painted of the escape of one million christians from the north to the south. She told how the Communists dominated the rich mines, forests, and electric power in the north, and of the terrible poverty in the south. How the Communists offered help to the students in the colleges and of the desperate struggle the Christian faces in a Communist dominated land. She gave a glimpse of the overcrowded conditions in Asiatic countries, where so many millions

WELCOME

The Province of Prince Edward Island is honored to have in its midst the delegates from five Provinces who are attending the 5th annual East Coast Fisheries Conference.

We are always happy to welcome visitors to our shores and are doubly pleased when such visitors are connected with one of our primary industries. Fishing is our second largest industry, ranking next to agriculture. We in this Island Province are vitally interested in the welfare of our fishermen. Such meetings as the East Coast Fisheries Conference can be very beneficial to those engaged in the fisheries of the Atlantic Provinces.

We cordially welcome the delegates from Quebec, Newfoundland, Nova Scotia and New Brunswick to the Confederation Province. We hope that your stay among us will be a pleasant one, that your deliberations will be successful, and that you will come back again to see us.
