## Churchill Summons

The sharp British-American policy clash was one certain topic at the Eden-Churchill discussions Saturday night and Sunday.

## DISCUSS ALTERNATIVE

But Eden forecast Britain's probable course when he arrived Saturday by plane. He told reporters that "we are still hard at work on attempts to bring about an agreed settlement which could be a prelude to peace in the Far East."

"We shall resume that effort on Monday," he added firmly.

One question likely to be decided at the cabinet meeting is what line Britain will take if, despite her conciliatory efforts, the Geneva conference breaks down.

If all chance of agreement is clearly gone, Britain almost certainly will agree to join in collective defense measures for southeast Asia. But continued wait-and-see policy is expected while Eden makes new mediation endeavors next week.
