THE MAIL ROUTE.—This morning the Postmaster was instructed that the Capes' mail service would be discontinued after to-day. The Stanley being the only remaining means of transport, the Postmaster telegraphed to Ottawa asking that the Capes' route be utilized until some certainty could be felt regarding the Stanley's regular trips. Answer has been received ordering the transfer and to-morrow the Stanley will endeavor to make round trips, which, if possible, will be continued daily. A train will leave Charlottetown for Georgetown this evening to connect with the boat.

BLACK PILOT.—Mr. Benj. Dockendorff, North River, leaves home this afternoon for Georgetown, to cross by the Stanley to-morrow with his celebrated stallion, Black Pilot, for Annapolis, N. S., to make the season there, at the request of the leading horsemen in that locality. He will return to the Island early in July next. It goes without saying that Black Pilot is one of the greatest sires of trotting and carriage stock in the Provinces. His son, Pilot, Jr., has lowered the record for the Maritime Provinces to 2.21, and has given ample evidence that during the coming season he will lower his own record at least several seconds.

CHARGED WITH BURGLARY. — Sergeant Bradley and Officer Campbell yesterday found some of the liquor stolen from the premises of Herbert Stanway on Monday night. They visited several places in search, but were unsuccessful until they reached the house of the well known character, Frank McAtee, North River, on land owned by Edward Hurry, about four miles from the city. Here they first found two bottlees of liquor in an outside shed under some straw, and then proceeded to the house. It was locked and nobody inside, but they soon forced an entrance. In a part of the house formerly used as a horse stable, they found some full flasks of whiskey, and tearing up a board from the floor found the empty case and an empty bottle. On a table was a pint measure, three-parts full of the liquor. On their way to the city in the afternoon they met McAtee on the ice and well intoxicated. He denied all knowledge of the affair, but was taken in charge and brought to the city. This morning he was remanded to jail until the 15th inst., on a charge of larceny.

Great preparations are being made in anticipation of the visit to America of the Rev. Mathits Raus, superior-general and rector major of the Redemptorist order, or, as it is more familiarly known in this country, the Congregation of the Most Holy Redeemer. Rev. Mr. Raus is very near the Pope, and is a higher dignitary than Mgr. Satolli. This will be the first visit to this country of an officer of such rank. The American branch of the Redemptorist order was founded in 1812, but this will be the first occasion that it has been inspected by one of its chief heads, and the event calls for elaborate preparations.

MOVEMENTS OF THE STANLEY.

SIR,—The lobster packers have all gone west who own factories in that section. The trawls along South Shore, up to Sable, are about all out. The gulf seems by this to be clear of ice.

The mails are ordered by the Stanley. But so far the ruling power of this great iceboat has not been able to make the boat reach Charlottetown. I fear that a tri-weekly mail will be a poor canvass for our Government candidates. I would suggest that when the mail is transferred to day to the SS. Stanley that the mail boat's crew be also transferred to that steamer, and allowed to pilot her into Charlottetown, as we fear that nervous prostration has seized the Captain and heads of that boat. They are the largest paid crew when compared with the service and endurance of the Capes men, and it would be nothing but fair that those Capes men should finish the grand season's work of carrying the mails on board the Stanley with the pay of the present crew of said ship.

It seems almost incredible, but is given out as true, that a man in a neighboring village of Newport, Me., who for many years has kept house with his sister, one day quite recently went to a neighbor's and related that his sister was having a fit of the "sulks," that she had lain on the sofa for two days, and refused to speak when spoken to, or to move when pinched. The man had declared that he proposed to let her lie there and "sulk" it out, but the neighbor concluded to investigate for himself, with the result that the woman was found dead, having lain in that condition for two days.

MEETING AT KINKORA.

The meeting at Kinkora on April 8th was organized by appointing John T. Murphy, Esq., to the chair. The meeting was called with the object of petitioning the Dominion Government to extend the dairying industry of the Island the usual patronage.

Peter Duffy, Esq., spoke strongly in favor of fostering our infant industries, and regretted the idea of strangling an industry which they have only begun to foster. On account of our isolated position, and many other causes, we should have all the encouragement possible.

Mr. Craig, President of Kinkora Dairying Association, spoke in favor of sending a petition to the Government, asking them not to withdraw their support from the dairying industry.

Mr. McKenna, secretary-treasurer of the Association, regretted exceedingly the action of the Government and the motive which prompted the withdrawal of protection.

After speeches from Messrs. P. J. Smith, Thomas McCabe, Peter Duffy, Esq., and others, the following resolution was moved by Thomas McCabe, seconded by P. J. Smith, and carried amid great enthusiasm:

Whereas, The Kinkora Dairying Association learn with regret that it is the intention of the Dominion Government to withhold from the new companies, proposing to operate the coming season, their usual assistance;

Resolved, That a petition from said Association be immediately forwarded to the Governor-General in Council, and that all new associations be asked to join with us in petitioning the Government to reconsider a decision so calculated to discourage the industry in this Province.

Secretary.

To J E McDonald, D D S, Summerside, P E I

Dear Doctor,—I am so well pleased with the work you have done for me, that I will take it as a special favor if you will give publicity to this letter. I positively assert that after an experience extending over twenty-two years under the hands of many dentists, you are the only one who ever extracted a tooth for me ABSOLUTELY WITHOUT PAIN. The TEN teeth you removed for me at one sitting did not hurt a particle, as Mr James Dawson of Tryon, who was present at the operation, heard me testify, The man who invented your method should be knighted.

I am yours, gratefully,
