LLOYD AFFLECK,
Secretary.

Bank Of N. S. To Increase Capital Stock

The Bank of Nova Scotia has decided to increase its capital stock by allotting pro rata to all its shareholders 300,000 shares at $30 a share. As a number of the shareholders are residents of the United States, it is necessary to file a registration statement with the United States Securities and Exchange Commission, and, subject to this registration statement becoming effective, notices of allotment will be mailed on July 3rd, 1951, to all shareholders of record on June 30th, 1951.

The last issue of capital stock of the Bank was in 1929 when the paid-up capital was increased from $10,000,000 to $12,000,000, at which time the total assets of the Bank were under $300,000,000.

The total assets of the Bank are now in excess of $800,000,000. The new issue will result in increasing the paid-up capital of the Bank from $12,000,000, to $15,000,000, and the Reserve Fund from $24,000,000, to $30,000,000.

In recent years, Canada's economy has developed rapidly. The expansion in production and trade and the rise in prices and national income have brought corresponding increases in the Bank's loans and deposits which make it desirable to expand the Bank's capital funds in order that it may better serve the growing needs of its customers.

The growth in the more important phases of the Bank's business during the last decade is illustrated in the following table: (In millions)

Fiscal Year-End	Deposits	Investments	Loans	Total Assets
1940	$275.5	$131.1	$118.1	$328.6
1941	303.8	132.1	127.6	380.3
1942	345.5	160.5	131.3	410.4
1943	426.7	210.3	135.1	493.1
1944	472.8	254.6	132.7	542.4
1945	541.3	309.8	145.7	613.5
1946	617.5	360.5	172.2	696.1
1947	640.6	289.7	257.8	714.4
1948	680.1	297.9	293.4	749.6
1949	749.1	289.1	340.3	806.3
1950	749.0	270.1	354.6	818.1

Subject to the registration statement to be filed with the Securities and Exchange Commission becoming effective, shareholders of record on June 30th, 1951, will be allotted one share of the new stock for each four held. No fractions of shares will be allotted. Shareholders will have until October 5th, 1951, to accept their allotments. The allotments will be transferable after acceptance. If allotments are accepted the calls may be paid in full on or after July 5th, 1951, or alternatively in ten monthly payments of $3 per share commencing October 5th, 1951, as provided by The Bank Act.

Predicts Tighter U. S. Steel Supply

CLEVELAND, O., June 10 — (AP) — The third quarter of 1951 will see the tightest steel supply of the current war emergency, Steel magazine predicts today.

Demands of defence production will leave only about 30 per cent of the available supply for manufacture of civilian goods, the weekly publication estimates.

A related problem approaching the steelmakers is the Controlled Materials Plan, which goes into effect July 1. Steel says the C.M.P. will only "warm up" during the third quarter, with complete transition from the priorities system unlikely before the fourth quarter at the earliest.

Preparing for the change, steel control authorities have been issuing additional regulatory orders on production and distribution. Third quarter use of iron and steel in most consumer durable goods is restricted to 70 per cent of base period consumption.

Automobiles are controlled under a separate regulation which will cut third quarter output about 37 per cent under the same period in 1950.

Steel production held at 103 per cent of theoretical capacity last week.

New York Stock Market Prices Up Last Week

NEW YORK, June 10 — (AP) — With little incentive and practically no interference, the stock market last week climbed a small notch higher.

The market lacked volume. The average day's business was a little more than 1,000,000 shares a day. The average so far this year runs better than 1,700,000 shares daily.

Monday's market was off sharply. But there was little Wall Street surprise and no alarm, because volume was so low—only 1,100,000 shares.

The Associated Press average of 60 stocks closed the week at $92.80, 40 cents higher than the previous week, and $3.40 above the year's low.

In the 20 most active stock list for the week, there were 11 issues advancing, six declining, and three remaining unchanged.

At the top of the list were these: Northern Pacific up 1 at 42, International Telephone up 1/2 at 16, General Motors down 7/8 at 48 1/2, New York Central up 1/4 at 17 3/4, and National Power & Light down 3/16 at 15/16.

Battle In House Of Commons On War Pensions

OTTAWA, June 9 — (CP) — A Canadian Legion spokesman was told recently it is "an outrageous presumption" to assume that the Government will grant no further across-the-board increases in war pensions if Parliament adopts a current proposal to help a minority of pensioners who can't work.

The statement was made by Maj. Leslie Mutch, parliamentary assistant to Veterans Minister Lapointe. It came as the clash between the Government and the Legion over what should be done to help pensioners financially provoked four hours of running battle in the Commons Committee on Veterans Affairs.

Exchanges between Dr. C. B. Lumsden of Wolfville, N.S., first vice-president of the Legion, and Liberal members of the committee were unusually forthright.

Throughout them, with support from Progressive Conservative and Social Credit members, Dr. Lumsden stuck to the Legion's basic argument that the proposal to pay an unemployability supplement to pensioners who can't work represents a new pension principle, introduces the means test and is unacceptable.

More than once the question was put to him: would the Legion take the $2,000,000-a-year supplement or leave it?

A one-armed pensioner from the First World War, Dr. Lumsden's answer was that the committee should go back to the Commons and ask for wider terms of reference so it could bring in a recommendation for an across-the-board increase in the whole schedule of pension rates.

Tom Goode (L—Burnaby-Richmond), a former sergeant, asked: "Would you refuse the unemployable pensioner this help in the meantime?"

Dr. Lumsden said "We are not responsible for what the Government does."

The Government's case, as put by Maj. Mutch and others, is that there is an urgent situation now for those 10 per cent or so of pensioners who can't take advantage of current high wages by working. To these would go an unemployability supplement of $40 a month for a married and $20 for a single man. Thus a married, childless 100 per cent disability pensioner who can't work would get $125 pension plus $40 supplement.

Dr. Lumsden's point was that in accepting a "palliative" the Legion would be selling out pensioners. It would jeopardize the whole principle that pensions are awarded as of right. It would be adoption of an alternative which in the future would decree that further help would be awarded on a need basis rather than a basis of right.

At this point Maj. Mutch said that it "is an outrageous presumption to say that by accepting a 'palliative' you are closing the door to any basic increase in the pension in the future. What basis have you for that assumption other than pure conjecture?"

Dr. Lumsden said the difficulty the Legion was having in arguing for a basic increase now — before the supplementary payments went into effect—indicated that the job would be even tougher once they went into effect and the principle underlying them was established.

Maj. Mutch's retort was that "whatever is done ultimately for basic increases, there is an urgent need now that needs action... this is no subterfuge. It is stupid to suggest it is anything resembling one."

Maj. Howard Green (PC — Vancouver - Quadra) suggested that never before has pensions law experienced the intrusion of a proposal that violated the principle that pensions are awarded as of right.

"There is nothing that interferes with that principle," said Maj. Mutch.
