TALL PEOPLE.—Tudo has for a citizen a young lady who stands six feet six inches. We are informed that the father of the young lady is much taller. They are Nova Scotians.—Headlight.

THE STANLEY TO-day drifted westward with the ice from her position between Little Sands and Pictou, where she is expected, to about half way between Good Islands and Caribou. The ice around her is very heavy, and it will probably be some time before she will be clear.

ROBBERY A CARDINAL.—A man named Louis Pare is under arrest at Quebec charged with burglarizing Cardinal Tachereau's palace. A stolen silver presentation service was found in his possession. Pare had been employed at the palace.

IN THE months of March, April and May the blood should be purified and the system strengthened, so that it is able to withstand the debilitating effects of the changing weather, and resist the attack of disease. The most reliable medicine to take to bring about the desired result is Kie-ey's Iron Tonic. For sale by all druggists. ml dw lm

WANT CIGARETTES TAKEN.—The Superintendent and Assistant Superintendent of the Baltimore Public Schools, together with many principals, have memorialized the Legislature to put a prohibitory license on cigarettes. They declare that they have had a fearful effect upon school boys.

LECTURE.—The Hon. E. J. Hodgson lectures in the Y. M. C. A. this evening on "Things one ought to know." We understand the lecturer intends his remarks chiefly for the benefit of young men and will speak generally on subjects of general information. Admission is by ticket only but the tickets are free and may be obtained on application to the Secretary.

MONEY STOLEN.—A young man belonging to the western section of the Province had \$40 stolen from him at Pictou a few days ago while on his way home from the Maine lumber woods. He accused a young man who slept in the room with him at the time of Pictou of taking the money, but that individual promptly and emphatically denied the charge. At latest accounts the lumber man was still minus the \$40.

THE housewife pins her faith to it, and well she may. He had to use the old washing powder that destroyed her clothes. She had to use chemical compounds which made everything a dirty yellow. Then "Lessive Phenix" came along with its incomparable virtues. It takes the terror out of the work, for it makes the water soft and the clothes beautiful, and saves 50 per cent in soap. Then it cleans everything in the house from the silverware to the pots, pans and the bath.

DEATH OF AN ISLANDER.—The Boston Globe reports the death at East Boston, on the 16th ult., of Mr. John McLaren, a native of Montserrat in this Province. Mr. McLaren has been a resident of Boston for about twenty-seven years, during which time he has been engaged in the building business. He was well and favorably known, and at the time of his death was one of the leading contractors in the city. He was a prominent member of the Calcuttan Club, and was for some years chief of Clan Cameron.

DO YOU want to make a wash day a pleasure? Do you wish to keep your hands nice and soft? They will buy Lessive Phenix that is the new washing solution that makes the water soft, and makes white clothes whiter, and that cleans brass and glassware, and windows and in fact, about everything. It won't cause injury to anything. After a few washings you will be astonished at the immense improvement in your clothes. Ask your grocer for Lessive Phenix.

THE PULPIT.—It is a matter of some significance that the preacher who has been taking the place of Rev. C. H. Spurgeon in the Tabernacle is a Presbyterian. This minister, Rev. Mr. Pierson, is said to be the choice of the congregation for their future pastor. The trust deed, however, requires the selection of a Baptist, and a despatch says that Mr. Pierson will probably join the Baptists and become Mr. Spurgeon's successor. If these reports are correct the congregation and the pastor make very little account of the distinctions of creed between the Baptist and Presbyterian church.

NOT DEAD AND NOT FORGOTTEN.—A friend who intended to bequeath to the Baptist Church of this city, by will, some funds, and who has been watching its struggles and work, the other day called in the pastor, Rev. J. A. Gordon, and paid over \$200 in hard cash toward the building fund, and a gentle hint that this is not all which will come from the same source at least for denominational work. So as the days roll away, the prospects of the church are brightening in every way.

DAY after day the evidence accumulates that the "Virtue Navy" is the people's favorite tobacco. The demand keeps increasing, and from every new circle of consumers who have been induced to try it the evidence is emphatic in its favor. Its genuine qualities always hold the friends they have once made. These qualities will be kept up to their full standard by the manufacturers of it. It is to these qualities and the reasonableness of the price that they attribute their marked success. To the quality they will adhere at all cost, and also to the price if that be possible.

PUBLIC MEETING.—The public meeting in Zion Church on Tuesday evening, in connection with the W. M. S. convention, was very well attended. Rev. Mr. Sutherland presided. The meeting was opened with prayer, singing and scripture readings. Interesting and instructive addresses on mission work were made during the evening by Miss Hunter, late of Persia, and Rev. Messrs. Sutherland, Tufts, Hamilton and Dickie. Mrs. Ritchie and Miss Furquharson each sang a solo, and the meeting was closed with the doxology and benediction.

BREEDERS ASSOCIATION.—A number of gentlemen favorable to the formation of a Breeders Association, held a meeting in the office of A. B. Warburton, Esq., last afternoon. The chair was occupied by Mr. Joseph Wise, and Mr. A. B. Warburton acted as secretary of the meeting. The other gentlemen present included Dr. D. G. Dr. Dr. T. Jenkins, J. J. Davis, John Newson, R. B. Fitzgerald, L. B. Miller, B. F. Longworth, E. R. Brow and Geo. Match. A ter some time was spent in discussing the object of Breeders Associations and the many benefits to be derived from such an organization, the meeting adjourned until Tuesday next when the association will likely be formed. Before adjournment a committee of three composed of Dr. Jenkins, A. B. Warburton and L. B. Miller, was appointed to draft a constitution to lay before the next meeting.

TROTTERING MATCH.—The trotting match on the ice for a sweepstake did not take place yesterday as advertised. The owners of only three of the four animals entered made an appearance and only two were made an appearance and the other two did not consider their horses in thorough condition for the race. In order to give them a sufficient time, the race was indefinitely postponed. It is a matter frequently commented upon that there is generally some hitch in trotting matches to take place on the ice, and a start is rarely made before the patience of the public is soured. This practice is deserving of condemnation, and the parties usually responsible should be disciplined by some recognized authority to deal with such matters.
