PORK.—Pork in the carcass has been brought to town for shipment to the United States in very large quantities lately; and the continued soft weather has not by any means improved its appearance or quality. Some hundreds of hogs lying round Reed's Point Wharf and in the freight house look black and uninviting. A great portion of this has come from P. E. Island. We heard that some brought down the railway lately had to be buried as unfit for use.—[St. John 'Globe.'

TROOPS TO THE FRONTIER.—A Company of the Royal Artillery left Montreal on Monday afternoon to garrison Isle-Aux Noix, a military post on the Richelieu River, near the New York border.

It is rumored in Montreal that two regiments of infantry will be sent to Canada at once, if not more. The number of regulars at present in Great Britain and Ireland is nearly eighty thousand, and five regiments are on their way home from New Zealand, so that strong reinforcements can easily be spared, if necessary.

Seven tons of iron ore were shipped from Baie St. Paul to Montreal a few days ago. It is said to be the richest discovered in Canada, bearing 70 per cent.

An inquest was held at Amherst, Cumberland, last Sunday week, over the body of Benj. Rogers, blacksmith, late of P. E. Island. Verdict "Died from exposure, whilst in a state of intoxication."—*Halifax Reporter, Dec. 5.*

COUNTERFEIT GREENBACKS.—We learn from the Montreal *Telegraph* that counterfeit "greenbacks" of every denomination, from one dollar up to one hundred dollars, have lately been passed in that city. It is asserted that the produce buyers from the other side are the chief instruments of this circulation.—*Pat.*

We learn that the Major commanding the troops at present stationed in this City, has received instructions by Telegram to hold them in readiness for removal when relieved by others. It is believed that the Regiment to which they belong, at present in New Brunswick, is under orders for Canada, hence the telegrm above referred to. The season is so late, however, that we think it very doubtful whether others can be forwarded to relieve them.—*Ib.*

FATAL ACCIDENT.—On Tuesday evening last, after the steamer *Heather Belle* arrived at Mount Stewart Bridge, and several of the passengers had proceeded homewards, an alarm was given that a man and woman fell off the wharf, when, happily for the man, he was rescued by the mate of the boat. After a long and careful search for the woman, the body of a Miss Feehan, of Savage Harbor, was discovered, a short distance below the wharf, dead. It is supposed she must have been killed by the fall, as no moan or sound of any kind was heard. The night was extremely dark and stormy, rendering it unsafe for persons unacquainted with the locality to get along at all, which must account for the accidents above referred to.—*R. Weekly.*

On Tuesday last, after a protracted period of fine weather, the wind set in from the North West, very frosty and blowing quite a gale. In consequence, the Steamer *Princess of Wales* was unable to make her accustomed trip to Shediac, having laid at the wharf since Tuesday afternoon, up to this morning. Our harbor is already quite full of ice, and there is every prospect of navigation closing for the season.—*Summerside Journal, Dec. 7.*

The fine copper-fastened, juniper Brig *Daniel Brenan*, lately launched from the shipyard of John A. McDonald, Esqr, took on board during the last two days 17,000 bushels oats, and was towed out of this port by the Steamer Princess of Wales, this morning, bound for Charlottetown, to complete her cargo.—*Ib. Dec. 7.*

A TRIAL PROVES IT.—Words cannot describe the gloss, the silkiness, the luxuriance, the flowing wavy beauty of the hair that is dressed with MRS. S. A. ALLEN'S World's Hair Restorer and Zylobalsamum, or Hair Dressing. They keep alive the roots of the hair, fill them with nourishment, moisture, and produce a magnificent growth. Every Druggist sells them.—W. R. Watson, Agent for P. E. Island.

The City of Nashville, Tennessee, acquired an unenviable notoriety during the war. Scarcely a morning dawned upon the city that one, two, or more murdered bodies were not found upon its streets. Its citizens would seem solicitous to sustain its reputation, for almost every mail brings news of some pistol or knife butchering affray upon its streets.

From some statistics made up at the American War Department, it appears that eight Major-Generals and seventeen Brigadier-Generals were killed outright in battle, while two Major-Generals and nine Brigadier-Generals died of wounds received in action, and seventeen Generals of the two ranks died of disease. In the year 1862, losses of general officers in battle were very heavy, numbering no less than fifteen, while during the present year, or from the end of 1864 to the close of the war, but one General was lost, though the fighting was most decisive. There is abundant material for reflection in these facts.

A few nights ago, as the River du Loup train came into the depot at South Quebec, two men were overtaken walking on the narrow track west of the wharf. They were unable to get far enough aside to be out of the way of the train, and were struck down by the first car, which precipitated them down on the beach below. *Le Journal* says one was killed on the spot, and the other was reported as dying from his injuries.

Spain has at last taken active measures to provide for the abolition of slavery; and, as the first step in this great reform, the Spanish ministry have reported to the Queen that it is the imperative duty of the government to seek the extinction of the slave trade. The American copperhead Democrats evidently intend to be the last to give up the institution.

A jealous wife in Paris poured sulphuric acid over the face and neck of her rival, horribly disfiguring her for life. It was done while, at the wife's invitation, they were drinking wine together in token of reconciliation.

It is said that there are unclaimed deposits, to the amount of $40,000,000 in the Savings Banks of New York. These millions have been accumulating for upwards of a century, and are now regarded as part of the capital stock of the banks.

John Franklin Chandler, now on exhibition at Richmond, Va., has a head measuring four feet in circumference, and out-weighing the rest of his body. He has required a new cap every day or two since he was born. He is lifted about by his mother.

It is reported that a large number of emigrants are now going from Southern Italy to Egypt. They are said to be of an intelligent, energetic class, and they are attracted by the liberal policy of the Viceroy and the abundant reward which the fertile soil of Egypt promises to the skilful husbandmen.

Sir Morton Peto is truly one of the great powers of Europe. It is believed that he controls the employment of 100,000 men, quite a respectable army of laborers. His railroad operations extend to Russia, Austria, Italy, New Zealand, Australia and Peru, and he contemplates further extending his operations so as to embrace the Celestial Empire, the East Indies, Canada and America. In Austria alone he has no less than 8,000 men in his employment.

Nashville papers say that the city is full of thieves, robbers and murderers, and rampant crime goes almost unchecked. "No wonder," says one of them, "that vegetables are so high in the market, when gardeners only visit the city at the risk of their lives."

The Lord Mayor of London has received a letter which contains the following:—"I hope you will read this and remember the danger you stand in. You are never safe now. Any day the papers may be full of your death, like that of President Lincoln. Many a better man than you has had to die suddenly. May the Lord have mercy on your poor soul. Time is near."

A newspaper reporter says of a very elegant female pickpocket: "She rarely speaks to any one; is always quiet, gentle, smiling and genteel—comes like a sunbeam, and, like it, steals noiselessly away."

The daughters of old John Brown—whose "soul is marching on"—are having their revenge upon Gov. Wise for hanging their father because of his anti-slavery raid, for they are teaching a freedmen's school in his confiscated mansion.

A dashing young bachelor lately appeared in the Central Park with two dashing ponies, whose tails were done up like a lady's waterfall and cooped up in small fish nets. The resemblance was capital, and the team created a great sensation.

THE PRESIDENT'S MESSAGE.

RELATIONS SATISFACTORY WITH FOREIGN GOVERNMENTS EXCEPT GREAT BRITAIN—COMMISSION ON ALABAMA CLAIMS DECLINED—RECIPROCITY TREATY LEFT TO THE ACTION OF CONGRESS.

NEW YORK, Dec. 6.—The President's Message, delivered in Congress yesterday, is dignified and amicable in tone towards the late rebellious States. In reference to the propagandism of Republicanism, the President thinks it no part of our policy. He would have the United States do what Washington sought to impress upon his countrymen, preserve our system of Government for a blessing to ourselves and an example to be imitated by the world; but if the Monarchies of Europe insist on challenging Republicanism to a trial on this Continent, he does not believe the people of this Country will hesitate to meet the issue.

Our Foreign relations are satisfactory, save with Great Britain. The proposal of Earl Russell to submit claims mutually agreed upon to a commission, was declined, because the very matter in dispute was persistently left out.

The municipality of law of Great Britain, with its domestic interpretation, the President proclaims, will not be assented to by this Government as public law for the conduct of neutrals, but he permits the subject, with this protest, to rest where it is, simply insisting that, "for the future friendship between the two countries must rest on the basis of mutual justice."

The correspondence between the United States and France, in reference to questions which have become subjects of discussion between the two Governments, will at a proper time be laid before Congress.

No reference is made to the Reciprocity Treaty, except that he leaves it entirely in the hands of Congress.

FROM NEWFOUNDLAND.

The R. M. Steamer *Delta* arrived at Halifax on the 3rd inst. from St. John's, N. F., via Sydney. By this arrival we are in possession of late Newfoundland papers. We were not a little surprised, says the Halifax *Express*, in looking over the returns of the elections recently held there, to see so many representatives returned in favor of Confederation. It will appear from the subjoined that a large number returned are in favour of the movement, and it will be seen from the following that Confederation is gaining ground in the Colony. We would not be at all surprised to see the question carried at the next meeting of the Legislature. The *Chronicle*, a paper hostile to the measure, gives the following list of members:—

For Confederation—Hon. Messrs. F. Carter, A. Shea, J. Bemister; Messrs. Rorke, Leamon, Evans, Kielly, Barron, Knight, Prowse—10.

Against Confederation—Hon. Mr. Kent, Hon. Solicitor General; Messrs. Green, Whiteway, Randall, Wyat, March, Hogsett, Furey, Kavanagh, Parsons, Renouf, Talbot, Casey, Glen, Kearney—16.

Our contemporary adds:—

"We do not know how the following gentlemen will vote, and therefore we set them down as doubtful—Messrs. Warren, Bennett, Burton, and Oakley—4. * * * We think we are justified in the statement that Mr. Bennett will not vote for the Union, nor will Mr. Prowse until a modification of the Quebec resolutions is had."

The Newfoundland *Express* says:—

But the *Chronicle* has been so frequently mistaken that he ought to be more cautious. He would have it that the supporters of Confederation would require to recant to be elected, which, as honorable men, they would never do. What has been the result? they avowed their honest convictions, and where all, with one exception, in the District of Ferryland, returned by large majorities, and in the Ferryland District the candidate who found it necessary to give way, states that "the objection to Confederation was only partially operative in his defeat." We repeat if these members were not returned because of their being Confederationists, their support of Confederation did not operate against them, and we refer to the published lists of the state of the polls to show the correctness of this view. And as to a feeler being put forward early in the session, we are satisfied the Confederation leaders never thought of such a course.—And why should they? Notwithstanding all that has been said and written against Confederation, much of which was allowed to go forth uncontradicted, *the question is gaining ground*, and its supporters can afford to wait. Besides, the Imperial Government are its active supporters, and they have never yet failed in carrying out their Colonial policy, since they learned wisdom by the loss of the Continental Colonies erected into the United States. There is wisdom in waiting, and the supporters of Confedration know it. We regret it should have opponents, although we know that they are becoming fewer as time rolls on.

We regret to see that matters look very bad in our sister Colony, judging from the following extract from a letter of the 23rd ult., dated from Twillingate:—

"Not only will some of our smaller houses close up here, should the fisheries continue bad, but report says some of the larger ones, as they don't care to lose money. We have scores here without a cake of bread for the winter."

FROM EUROPE.

ARRIVAL OF THE "CITY OF NEW YORK" AT NEW YORK—THE GOVERNMENT GARRISONING THE FORTIFICATIONS ABOUT DUBLIN.

NEW YORK, Dec. 6.—The steamer *City of New York*, with dates to the 23rd ult., has arrived.....The London *Times* has reason to believe that at a Cabinet Council held on the 18th, it was determined to address an energetic remonstrance to the Spanish Government against the conduct of the Admiral commanding the Spanish fleet off Valparaiso, and against the measures taken by Spain to enforce her demands against Chili.....A Dublin telegram of the evening of the 20th, to the *Morning Post*, says that Pigeon House Fort, commanding Dublin Bay, has been garrisoned since the 18th by a large military detachment. All the guards have been doubled, the guns double shotted, and the men held under arms all night. During all that day—the 20th—four General officers were in the fort, and the gates and bridges were closed.....The Underwriters and Marine Insurance Companies of London and Liverpool are reported to have lost half a million sterling, by the destruction of three New Orleans cotton ships at Key West.....Victor Emmanuel, in his speech at the opening of the Italian Parliament, said that time and the force of events would solve the question pending between Italy and the Papacy.....The reported arming of the Pigeon House Fort at Dublin, is confirmed. Rumor accounts for it by the alleged appearance of a doubtful vessel in the Channel. Magazine Fort, Phœnix Park, Dublin, is similarly strengthened. It is alleged that these movements are not attributable to Fenianism, but to increased discipline under Sir Hugh Rose.....Public meetings are taking place in Manchester to demand from the Government the most searching investigation into the proceedings in Jamaica.

FROM HAYTI.

NEW YORK, Dec. 5, p. m.—The steamship *Liberty*, from Havana 29th, has arrived.... News from Cape Haytien confirms the accounts of its bombardment by the British. The rebels there have scattered, and most of the rebel chiefs have been shot. Six or seven persons, who took refuge at the British Consul's during the bombardment, were seized by the rebels and shot. The rebel General Hiedrew, with 500 men, surrendered to the Government, and Geffrard is now master of the situation. Most of the foreigners fled to the American war vessel at Cape Haytien during the bombardment. The triumph of the Government was commemorated by festivities at Port au Prince and Jacmel.....The cholera at Guadaloupe and Martinique has been so fatal that all vessels from there are refused Pratique at St. Thomas.....Havana is healthy and full of strangers.....Lord Russell has sent a letter complimenting the Governor General of Cuba for his exertions in putting down the slave trade.....Gold 148.

MOTHERS, DURING YOUR CHILD'S SECOND SUMMER you will find MRS. WINSLOW'S SOOTHING SYRUP an invaluable friend. It cures dysentry and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. In almost every instance, where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the Soothing Syrup has been administered. Do not fail to procure it.

Hunnewell's Eclectic Pills.

THE TRUE CATHARTIC AND FAMILY PILL.

The importance of this development of the true and *Natural Cathartic* cannot be over estimated. To have a Pill which never requires over *two*, and seldom but *one* for a dose, acting on the Bowels without the *slightest Griping*, or irritation, can be used with the *greatest freedom* by all who have suffered the trouble of long constipated tendency, and to check which has oftentimes ended in the opposite extreme of bowel weakness, will be found the true feature of the Eclectic Pills. Their true character creates the expression of experienced *Apothecaries*, that long experience has never found their equal; from *Physicians* who have used *Thousands* in their practice, that the true idea of a *Perfect Cathartic* has never before been realized, and by thousands who have used them in their families, that they are the only true *Family Pill* they have ever seen.

Without descending to the clap-trap form of unmeaning puffs, or false testimonials, confidence is asked to test them in *Biliousness, Indigestion, Dyspepsia, Worms, Loss of Appetite*, as a Spirng Medicine, all derangements of the system caused by a disordered stomach, and a general *Family Pill.*
