(of whom there are 30,000 in New York) for general protection, and to bring the subject of the miserable pay received by them before the public. It was not realized in the community that so deplorable a state of facts existed. The girls did not receive enough to board decently, and in instances where there were children or aged parents to support the hardship was terrible. Resolutions were passed for a union of the working women in order to an *enhancement* of the prices of labor, and another meeting of two delegates from each shop in the city was to be held.—*Boston Journal, Nov. 17.*

COLONIAL NEWS.

BERMUDA AND THE BRITISH WEST INDIES.—The R. M. S. *Alpha* arrived at Halifax, as we learn from the *Reporter*, on the 2nd instant.

The *Gazette* says Col. Jervoise's report will recommend adding materially to the fortifications of the Bermudas. A new line of steamers has been established between Liverpool and the B. W. I. Islands. *It is stated that* either the Marquis of Normanby or Sir R. G. Macdonnell will be the future Governor of Jamaica. Provisions are reported abundant and cheap at Barbadoes, and that crime is also decreasing in that island. The Confederate steamer *Georgia* was seen on the north side of Jamaica, Sept. 20, and the same evening was observed to attack another steamer, (*an old story*), and when last seen had the other *in tow*. H. M. S. *Megara*, trooper, arrived at Demerara from Sierra Leone, Oct. 14, with colored troops, and left again, 23d, for Trinidad. The steamer *Flora* arrived at Bermuda, 18th ult., cotton laden from Washington.

THE GALE IN HALIFAX.—Alluding to the great gale, which was experienced here with considerable severity on Wednesday week last, the Halifax *Reporter* of the 3d instant thus describes its effects in Halifax:

"The frosty weather of Tuesday resolved itself into a hard gale during that night and the following morning, and blowing with increased violence yesterday forenoon. The wind was well from the westward, and at intervals the puffs were comparable to a young hurricane. No injuries were sustained by the shipping at the wharves, the same being of course sheltered by the elevation of the city, and vessels in the stream held gallantly on by their ground tackle — the ships of war off H. M. Naval Yard bravely riding with two anchors ahead and top-gallant masts struck; but little damage resulted on shore, except some havoc among loose shingles, decaying branches, and insecure board fences. The greatest loss experienced, so far as could be learned, was that of a large balsam poplar tree, probably *one hundred years old*, at Maynard Place, the residence of Rev. J. C. Cochran, which parted company with its roots, but fortunately without crushing either buildings or bodies in its fall. It is much to be feared, however, that we shall hear of considerable losses and suffering at sea and on the coast, from the effects of what must be classed a whole gale of wind. Had the wind been from the south-east, the vessels at the wharves would not have escaped so well as they did; for the want of a harbor-master, whose chief duty would be to see that vessels were properly berthed and secured prior to a gale, is sadly felt in Halifax Harbour on such occasions."

WE learn from the Halifax *Sun*, of the 2d inst., that thirteen schooners, laden with potatoes, oats, &c., arrived at Halifax from this Island on the 1st instant.

SYDNEY, C. B., ITEMS.—We are glad to find that *the old town of Sydney is stirring itself up*, and making considerable improvements. A fine new Schoolhouse has recently been erected, which is said to be quite a credit to the town. Each room is fitted *with* new style patent school furniture, *similar* to that used *in similar institutions* in the States and other countries where education is really valued. A bell has been provided and placed in the belfry.—Lieut. Col. Read, Inspecting Field Officer, was on a visit to Richmond to inspect the various regiments of that county.—We are glad to learn that the Sydney Mechanics' Institute is in a very prosperous condition. James P. Ward, Esq., Proprietor of the *News*, is President.

NEWFOUNDLAND.—The recent official survey of the coast of Newfoundland has proved the existence of a shoal hitherto unknown. Captain Orlebar, R. N., conducting the survey, reports that a shoal fifteen miles long, and five broad, and with fifteen fathoms of water on it, extends from about seven miles off Cape Race. The depth of water on the shoal gives but little fear of vessels touching the ground, but in the ordinary course of navigation it will be a great assistance to shipmasters, having, we understand, good anchorage.

CANADA. — It will be remembered that a few months since a man named Greenwood was arrested in Toronto on a charge of first strangling a woman and child in an otherwise unoccupied dwelling-house, and then setting fire to the bed on which the bodies lay, with intent to destroy all traces of the crime. The flames were fortunately discovered by passers-by in time to frustrate the horrible design, and the bodies were easily recognised. Evidence was found sufficient to implicate Greenwood in the matter, and he was arrested. The trial came off week before last, but, in consequence of some legal technicality, the prosecution failed, although the general impression seemed to be that he was the guilty person. Greenwood is again to be tried for arson, which is still a capital crime in Canada; and if the act can be brought home to him, he will probably suffer the full penalty of the law.

A rock salt mine has been discovered in the county of Leeds, C. W., and a company formed with a capital of $500,000 for the purpose of working the same. Sanguine hopes are entertained of the unbounded success of the enteprise.

The Toronto *Globe* learns that the new contract between the government and the Montreal Ocean Steamship Company, was signed last week by the Postmaster-General, subject to the approval of Parliament. The contract is for five years. The amount payable by government is £54,5000 currency ($218,000) per annum — £52,00 being for the regular service, and 2,500 for sundry services incidental to the contract, about which differences have heretofore existed, but now settled. The contract provides that all new vessels brought into the line by the company shall be at least equal in power and capacity to the Hibernian. It also provided that the vessel shall slacken speed or stop whenever danger is feared from fog or icebergs; and time thus lost is not to be regarded as default on the part of the contractor. It has also been very properly made a condition of the contract that the steamers shall not approach Cape Race in bad weather. The *Globe* is persuaded that a rigid adherence to these conditions will speedily win back for the company all its lost ground.

CAPT. EVANS AND CAPT. LUND.—We are gratified to learn that Captain Evans, at present in command of the Steamer *Westmorland*, has been engaged by the P. E. Island Steam Navigation Company to take command of their new Steamer, now building at Carleton, near St. John, N. B. Capt. Evans has been always a great favorite with the travelling public, on account of his zeal, industry, caution, perseverance, and courtesy to all around him; and he has been singularly fortunate in his command of the *Westmorland*, never having met with any accident to life, limb, or property, while in charge of that vessel, although often exposed to the most tempestuous weather. —We shall be glad to learn that Capt. Lund is also engaged for the new Steamer. His great experience and skill as a pilot contributed, perhaps, more than anything else to the success by which the career of the *Westmorland* has been so distinguished. We think that some public testimonial, to evince the high opinion in which they are held, should be given to those worthy seamen on their retirement from the good old Steamer, on board of which they have so long faithfully served the public and their employers.

The new Brig *Pekeha*, Captain Campbell, from this Port for New Zealand, lies at the Three Tides, waiting a favorable opportunity to sail. She has on board as *passengers, bound to* that distant country, the following persons:—Messrs. Charles Bell, Charlottetown; John Mountain, Cascumpec; John Haywood, do.; Hon. G. Bagnall and family, New Glasgow; John Darrach, Esq., and family, do.; Thomas Slater and family; Thomas Marshon, Murray Harbor; P. R. Blatch, Wheatley River; D. Ross and family, New Glasgow, N. S; Lemuel Bagnall, and wife, New Glasgow; Capt. A. Campbell and wife, formerly of Pinette; John Drummond (cook & steward) and family, Charlottetown; James Robertson, St. Peter's Road, 1st mate; Roderick McLeod, Orwell, 2nd mate. There are about three dozen passengers, all told. Mr. Bell, merchant tailor, of this City, goes out as far as the Cape *of Good Hope in her, and purposes* returning to the Island again next Summer. He has on board an assorted cargo, which he intends disposing of at the Cape. We wish them all a safe and speedy voyage.—*Isl.*

Steamer Chesapeake plying between Portland and New York was seized on Monday morning off Cape Cod by sixteen Southerners, who had taken passage at New York. Second engineer was killed and mate wounded. Crew numbering 16 and 6 passengers were landed at St. John, N. B., this morning, by a Pilot Boat.

The Chesapeake came to off Partridge Island (at the entrance of St. John Harbour) about midnight, and sailed soon after. She is commanded by Lieut. Parr, one of Morgan's men Ship and cargo valued at $180,000.

DECEMBER 11—P. M.

New York Times' special despatch says, Mead's army quietly encamped in Culpepper County, on the South Bank of the Rappahannock. Lee occupies old position at Orange Court House, his advance line guarding Rapidan fords. Pickets again on friendly terms, though Bushwhackers begin to swarm on Union flanks. Deserters represent Lee's army not over 35,000, and erecting winter huts along Rapidan. President Davis delivered annual message to Confederate Congress on Monday—its tone reported mournful. Gen. Meade will soon be relieved of command, his successor not yet named. The army is to be reorganized. Large amount of stores gone forward to relieve Union prisoners at Richmond.

☞ THE Thanksgiving Holidays ordered by His Excellency the Lieut. Governor, for the late bountiful Harvest, was observed with the usual decorum on Thursday last. The day was very stormy, and business was generally suspended.

THE Musical Festival in preparation for the Christmas Holidays, is, we understand, progressing very favorably. The Programme will, we believe, comprise many novelties and musical effects which have never yet been given here, besides including selections from the most celebrated composers—Hayden, Verdi, Bishop, &c.; and the Choir has even already attained considerable perfection in several Chorusses, Glees, Trios, &c, under the able instruction of its highly talented musical director, to whose unseen exertions we were on a former occasion indebted for a most pleasurable musical evening.—COM.

I AM CURED.

"I have taken six dozen of Radway's Pills, of three pills each, in six days; they cured me of Constipation, Indigestion and Dyspepsia. I have taken B——th's, A——r's, and many other pills for years, and I could only obtain temporary relief. *It I stopped the use of these pills for a week* my old complaint would appear. Six doses of Radway's Pills cured me."

"STEPHEN BENNEIT, U. S. C. S."

"I have suffered with Dyspepsia and Liver Complaint for seven years—have used all sorts of pills—they would give me temporary comfort, but was compelled to take them all the time. I have used one box of Dr. Radway's Pills, I am cured, I have not taken a particle of medicine in six months. C. M. CHILDS, Roxbury, Mass."

Dr. Radway's Pills always cure, no straining, tenesmus, false calls to the water closet follow their use—they purge freely and cure rapidly.

Holloway's Ointment and pills.—Bad Legs.—Any unnatural discharge from the skin is at all times disagreable, but in hot weather it becomes irritating—some times offensive. Bad legs, old wounds, scrofula, and scorbutic eruptions are cooled, soothed, and cured by Holloway's Ointment. It at once arrests all diseases of the surface by purifying and regulating the circulation in their neighbourhood, by giving energy to the nerves of the affected part, and by expelling all poisonous and noxious matters. It ejects the seeds of all virulent eruptions and ulcerations, and thus confers no partial or temporary boon, but a complete and permanent cure. By means of these remedies all sufferers may aim at attaining health, and will invariably succeed.

THE NEGRO AT HOME.—Mr. Gerard, the famous lion hunter, has written a long letter to the Duke of Wellington, in which he gives twenty days experience at Kava, where the king of Dahomy was staying. Gerard witnessed a review of the army, comprising 12,000 women, 1000 men of the body guard, and 2000 archers. The King is tall, well built, has a head like a bull dog, and his face is expressive of cunning and cruelty. In the market place numerous dead bodies were exhibited, all of them horribly mutilated but not beheaded. An enormous pool of blood covered the ground beneath the scaffold upon which the corpses were hanging. Everything around bore the evidences of human sacrifices. Gerard and the French Consul were also favoured with a sight of the king's riches passing in procession, the latter consisting of a few old carriages and chairs carried by men. One thousand women carried each a bottle of liquor on their heads, a brass basin *to* receive the blood of human victims on the day of the king's banquet; an image of the Virgin; buckets filled with human skulls; an image of St. Lawrence; and finally the drum of death. He also witnessed a review of the Amazons, who manoeuvred with the precision of a flock of sheep. The steps of the market place were each ornamented with a dead body, &c. On this occasion the king had daubed his face with coal. The ceremony terminated by a mad dance, in which the king and his ministers joined. And this is the man from whom many expect so much towards the ultimate regeneration of Africa.

IT CAN BE DONE.—Rev. J. P. Tustin, Charleston, S. C., writes—"By the use of Mrs. S. A. Allen's World's Hair Restorer and Zylobalsamum my white hair is changed to its original color, and new hair coming in. I consider them very valuable preparations.

HEALTH AND PURE BLOOD ARE INSEPERABLE.

Recollect that all sickness arises from impurity of the blood, and that Judson's Mountain Herb Pills will as surely find out and cleanse these impurities from the system, that disease cannot exist. So simple and innocent are the herbs and plants that compose them, that it is not necessary to have them sugar coated in order that the stomach can bear them. In most cases, Pills are sugar coated because the materials of which they are made are so griping and malignant, that otherwise a delicate stomach could not bear them.

These Pills deal with disease as it is, and will not only cure by removing the cause, but will build up and restore the broken constitution. There are many who have so trifled with their constitution that they think medicine cannot help them; let not even these despair; incredulity and scepticism is overthrown by a mass of testimony which is truly irresistible. At first the virtues ascribed to the MOUNTAIN HERB PILLS were deemed fabulous. The public had been so often deceived that they could not believe the simple truths advanced by their discoverer. Yet facts undeniable, attested by witnesses of the highest character and respectability, have proved, and are proving each day, the virtues of this "mighty healer." They mark by their miraculous efficacy and power a new era in medicine.
