ANOTHER SAD TIGER STORY.—A correspondent of the *Times of India* writes as follows:—"I regret to have to record another frightful tiger accident. It appears that Capt. Curtis, 6th Dragoons, Capt. Bradford, Sillidar Cavalry, and another gentleman, were out on a shooting excursion in the vicinity of Sehore, where they fell in with a tiger, which had previously been wounded by some other sportsman, and was in a state of furious madness. Capt Bradford raised his gun, but it unfortunately would not go off. At the same moment the brute caught sight of the party, and, giving a hideous roar, charged down upon them with the utmost ferocity, singling out Capt. Bradford, who was in the act of scrambling up a tree; the tiger made a dash at him with a tremendous bound, and caught and dragged him to the ground. Poor Bradford having raised his hand to protect his head, the brute seized his arm, crunching it between his terrible jaws as if it had been so much rotten wood, breaking and splintering the bone, and lacerating the flesh in a frighful manner. Meantime his companions were not idle; but, as they were afraid of hitting their friend if they fired at any distance, they advanced boldly up to the brute, and poured shot after shot into him, till at last he was rolled over by the eleventh bullet. Ferocious to the last, the brute never relinquished his hold, and fell dead in the act of aiming a blow with his enormous paw at the head of his victim.

Poor Capt. Bradford was carried into Sehore in a pitiable condition, mauled all over, and it was found necessary to amputate his arm at the shoulder-joint. By last accounts he was in a very precarious state. The tiger was of monstrous size, and is said to be the largest ever seen in these parts."

A FAMILY OF SEVEN PERSONS DROWNED.—A shocking catastrophe occurred on Sunday morning in Black River township, Lorain County, Ohio. Mr. Herwig, with his wife and five children, set out about 8 o'clock in the morning in their wagon to attend church at a neighbouring town. About an hour afterward, as some men were crossing a bridge at Beaver creek, they saw two horses struggling in the water. The neighbours were alarmed and the horses extricated. When the carriage was drawn out, the bodies of Mr. Herwig, his wife and the five children, comprising the entire family, were found in it quite dead. It is supposed that in crossing the bridge the horses became frightened and backed off into the river, where, becoming entangled in the carriage, all the seven were drowned. The oldest of the children was a girl of about fourteen years of age.

A project is maturing, called the Cape Race Electric Telegraph and Light Company. Its object is to build and station a lightship near Cape Race, to intercept the American mail steamers. This lightship is to be 600 tons burthen, and fitted with 100 horse power engines. When this ship is stationed, there will be less danger of making Cape Race, and will give three days' later news from America. It is intended to lay down a submarine electric cable from the ship to the land.

CURIOUS MARRIAGES.—A story is told of a young couple who went into the study of a judge of the Supreme Court some thirty years ago, who, as justice of the peace was, authorized to solmenize marriages, and desired him to marry them.

'Very well,' said his honor, 'pass your certificate, and you may go.'

The man handed a certificate that the bans were published, but remained.

The judge continued his employment until the impatient bridegroom again announced the intention of his visit.

'Very well,' said the judge, and again pursued his task.

After some further delay the neglected applicants once more reminded his honor of their desire to be married.

'Why, go home,' said the magistrate; 'you were married this half hour.'

It seems the law only required then a declaration of intention of marriage before the official, and the recognition of it by him.

Another is related of an old squire who resided in one of the central counties of New York. He had just got comfortably smuggled into bed, one dreary November night, when all at once there came a thundering rap at the kitchen door. He slept in a recess divided from the room only by a curtain. Leaping out of bed, for he thought some of his married children must be very sick, he caught up some of his garments and hurried to the door. Putting his trowsers only half on, he opened the door with a crack, and exclaimed in a nervous voice:

'What do you want?'

'We want to be married,' was the reply from without.

'Go home and go to bed; you are married enough?'

The old squire dashed the door to, in the faces of somebody, whether white, black or red, he did not know, and dropping his pants, bounded into bed.

At another time, this same squire had started out early one morning with his cradle on his shoulder for the wheat field. Just as he had reached it, a clattering of hoofs caused him to turn round. Close behind him, on foaming horses, were a young man and woman with faces as red as 'pinies.' Reining in their steeds, the man cried out:

'Be you Squire I——?'

'I am.'

'Wal, we've ben up to your house, and your old wife told us you'd gone down this road, and she thought we'd catch you if we tried hard. You see, squire, Sally here and I want to get married, and were in sumthin' of a hurry 'cause we want to go to Syracuse and get home before night.'

'Very well,' said the old man; 'turn back to the house, and I will be there very soon.'

'Couldn't you do it just as well out here? You see we're in sumthin' of a hurry.'

'Yes, I suppose I can. Get off, and I'll make you one in less than no time.'

'Won't it be just as strong on horseback! You see, squire, wer'e in sumthin' of a hurry.'

'I reckon it will; just hitch up to Sallie and get hold of her right hand.'

The young man did so, and then and there the old squire, with his cradle on his shoulder, the stump of his pipe in one hand, his whetstone in the other, clad in homespun overalls and frock, performed the ceremony.

A Dutch farmer, just clad in the ermine of a justice of the peace, had his first marriage in this way. He first said to the man:

'Vell, you wants to be marrit, do you?'

'Yes,' answered the man.

'Vell, you lovesh dis voman as good as any voman you have ever seen?'

'Yes.'

Then to the woman:

'Vell, do you lovish dis man so better as any man you have seen?'

She hesitated a little, and then he repeated:

'Vell, vell, do you like him so well as to be his vife?'

'Vell, dat ish all any reasonable man can expect; so you are both marrit. I pronounce you man and vife.'

The man then drew out his pocket book and asked the justice what there was to pay.

'Nothing at all, nothing at all; you are welcome to it if it will do you any good.'

The Liverpool and London FIRE AND LIFE INSURANCE COMPANY.

THE Agent for the above first class English Fire Insurance Company begs to call the attention of the public to the advantages offered by this Company, in respect to the security to the assured, and promptness to pay losses, which, without disparaging other Companies, may be safely asserted to be superior to those afforded by any other Company in the Island. The Liverpool and London F. & L. Insurance Company has been in successful operation since 1836, with agencies all over the world, and has paid in losses about two millions and a quarter sterling. Its subscribed capital is £2,000,000 sterling, and its invested funds alone amount to £1,312,000 stg.; and the fire premiums for 1861 amount to £360,130 19s 9d; and in addition to this very large capital, the Company, having been established before the recent Limited Liability Act, the individual fortunes of each of the shareholders, comprising some of the wealthiest merchants in Liverpool and London, are liable for the losses, should the whole of the capital be swept away. In this respect it differs, it is believed, from any other Company established here.

And lastly, the Agent being appointed by Power of Attorney directly from England, is authorised to draw Bills the moment a loss occurs, and without referring to the Home Company, to the extent of one thousand pounds sterling.

With these superior advantages, the Company is not disposed (though it might be well justified) to ask a higher rate of premium than other English Companies, which do not present the same advantageous features, and the Agent has been advised that an uniform rate has been agreed upon by the Directors of this Company and the "Queen's," and that the Agents here should, in this respect, "act in concert."

[EXTRACTS FROM NEWSPAPERS.]

On reference to a return made to Parliament, and ordered by the House of Commons to be printed, 7th June, 1861, it will be seen that the increase of Duty for the year, paid by the "QUEEN," was £2567, being upwards of £1000 more than paid by any other office ever yet established in this City.

[From Gore's General Advertiser, Oct. 24, 1861.]

"Indeed, we believe that we are perfectly justified in saying that no other Company, within the same period, ever attained so large an income in either the Fire or Life Departments as the Queen Insurance Company. In making this statement, we make no exception even in favor of our older local companies, namely, the Liverpool and London, the Royal, and the Lancashire Insurance Companies."

[From the Civil Service Gazette, Nov. 2, 1861.]

"Among these important institutions stands eminent for its solidity, as well as for its success, "the Queen Insurance Company," which last week held its annual meeting of proprietors in Liverpool. A reference to the ample report in another page will fully satisfy every reader of the signal progress made by this association since its foundation. Such success is, indeed, rarely attained; and it attests at once the excellence of its management, and the public confidence in its constitution."

[From the Liverpool Mercury, Nov. 2, 1861.]

"It must be gratifying to the public generally, and especially to the proprietors, to find that its income during the past three years has increased at the rate of £20,000 per annum. We believe that no other Company, within the same short period, ever attained so large an increase either in the Fire or Life Department. This speaks highly for the activity and zeal of the management, while the promptness with which all the claims, arising out of the late disastrous fire in London were met, testifies to their financial ability and the care and prudence which marked the investment of these funds."

UNION BANK OF PRINCE EDWARD ISLAND.

Incorporated by Act of Colonial Legislature.

Capital Thirty Thousand pounds Currency, in 3,000 shares of Ten pounds each, payable by instalments in three years.

PROVISIONAL MANAGING COMMITTEE.

C. Palmer, Chairman,	Hon. W. W. Lord, M.L.C.

Henry Haszard, Esq.,	Geo. F. C. Lowden, Esq.,

James D. Mason, Esq.,	Thomas Dodd, Esq.,
Alfred Phillips, Esq.,	Wm. R. Watson, Esq.,
J. A. Darcy, Esq.,	Owen Connelly, Esq.
George Davies, Esq.,	

THIS BANK is formed to supply an addition to the money circulation of this Island, the want of which has for some time been sensibly felt. It is the natural consequence of an increasing population, an expanding Commerce, and of the enlarged production of an industrious and energetic people. Incredible as it may seem, until the year 1855, there never was a Bank established in this Island; in that year, under the pressure of a similar necessity, the Bank of Prince Edward Island was called into existence; and while it has facilitated the trade and commercial business generally, it has largely contributed to the developement of the resources of the Country, and its results are supposed to have been satisfactory to the Shareholders, having for some years past paid them an annual dividend of ten per cent.

The increase in the population since the year 1855, the large addition to our trade and commerce, the increasing Revenue, the breadth of arable land cleared and cultivated, the growing increase of farming stock, the augmented export of grain and agricultural produce of all kinds, have rendered further Banking operations in this Island absolutely necessary.

It appears from the census of 1860, and from other authentic sources, that in the preceding five years the increase in the population of this Island was 9 361 persons; increase of breadth of land under cultivation 45,000 acres; increase in the quantity of roots and cereals exported 842,000 bush. That in the year 1861, the Imports amounted to £314,902, currency; the Exports, including shipping, to £343,421, currency, (showing a balance of trade in favour of the Island.) That in twenty years, from 1839 to 1859, the revenue more than doubled itself, the figures being, in 1839 £17,011; in 1859 £41,000.

Whilst to carry on this additional trade, the public Banking accommodation up to 1855 was nil, and since that time it has never exceeded £52,000 per annum, or about thirteen shillings per head for the population, a sum so small as to be almost incredible; while the Banking accommodation of the neighbouring Province of New Brunswick, it is believed, amounts to thirty shillings per head.

The effect of the large additions above referred to, has been an increasing annual demand for Discount, and for a larger amount of Circulation or Floating Capital; but as the Bank of Prince Edward Island did not provide this, the Public in their necessity were driven to the private discounter for accommodation, at very heavy rates, and it has been estimated that at these rates a sum nearly equal to the Capital of the proposed Bank is annually discounted.

Deeply impressed with the importance of this evil, and feeling that there is in this Island an ample field for the secure and profitable action of a second Bank, the promoters have set on foot the proposed Establishment; and in submitting this prospectus to the Foreign as well as Island Capitalists, as a safe and profitable investment, they beg to refer to the Act of Incorporation of the Union Bank, now before the Legislature, and to those parts of it especially intended for the security of Shareholders and the public generally, namely, Section 18th, whereby Stockholders are declared personally liable for redemption of all Bills issued by the Corporation, and all debts due thereby in proportion to the Stock they respectively hold; but no Stockholder shall be liable for any sum exceeding twice the amount of his Stock, in addition to the Stock held by him.

And also Section 20, wherein it is enacted that the total amount of debts (deposits excepted) which the Bank shall at any time owe, shall not exceed three times the amount of the Capital Stock paid in. The Directors being made liable in their private capacities for any excess.

Subscription lists for Stocktakers (already largely subscribed for) are in the hands of each of the provisional committee.

The Sufferer's Best Friend!

HOLLOWAY'S PILLS.

All Disorders affecting the Liver, Stomach and Bowels.

These Pills can be confidently recommended as the most simple and certain remedy for indigestion, flatulency, acidity, heartburn, colic, constipation, and all the many maladies resulting from disordered stomach or bowels. In all diseases it is of primary importance to set the stomach right. These Pills are purifiers, alteratives, and strengtheners of the stomach. They may be taken under any circumstances. Though powerfully tonic, and satisfactorily aperient, they are mild in their operation, and beneficial to the whole system.

Weakness and Debility, Nervous Irritability.

The wholesome effect exercised by these admirable Pills over the blood and fluids generally, is like a charm in dispelling low spirits and restoring cheerfulness. Their general aperient qualities well fit them for a domestic medicine, particularly for females of all ages and periods of life. They never betray any disagreeable irritating qualities; they quickly eject all impurities from the system, and regulate every function of the body, giving wonderful tone and energy to weak and debilitated persons, while they brace and strengthen the nervous system in a most extraordinary manner.

To regain Health, Strength, and Vigour.

Whenever persons find themselves in that state termed a "little out of health," and there are so many causes at work to shorten life, it is necessary that Holloway's Pills, the finest purifier of the blood ever known, should be at once taken, as they not only rid both solids and fluids of all morbid matters, but regulate all disordered actions, and strengthen the frame in a most extraordinary manner.

Old Coughs, Colds and Asthmatical Affections.

These Pills, assisted in their action by rubbing Holloway's Ointment very effectually twice a day upon the throat and chest, and keeping those parts covered with the preparation, will be found the most effective remedy for asthma, coughs, colds, bronchitis, and influenza. These remedies tranquilize the hurried breathing, soothe the irritated air-tubes, and assist in dislodging the phlegm which stops up the air-passages. This treatment has proved wonderfully efficient in not only curing old settled coughs and colds, but asthma of many years standing, and even when patients who were in so bad a state as not able to lie down on their beds lest they be choked by phlegm.

Derangement and Distension of the Bowels, Flatulency, Diarrhœa and Dysentery.

Any symptoms of the above complaints should be immediately met by appropriate doses of these Pills, according to the printed directions: delay may be followed by disastrous consequences. These Pills are a certain remedy for all the ailments of the alimentary canal, they secure the thorough digestion of the food, and act most kindly on the stomach, liver, bowels, and kidneys. As a household medicine they are unrivalled, and should always be at hand.

Very Important, of Costiveness Beware.

Rarely but little notice is taken of costiveness, yet, at certain periods, it is a sure sign that danger is near. All who are seized with apoplexy and paralysis, have previously suffered from costiveness. In the former case, the blood flies to the head, a small vein is ruptured on the brain, and we know the rest. Let wives counsel their husbands, and husbands their wives, never to go to bed a second night, if the bowels have not been properly moved during the day, particularly if they feel heavy and drowsy. A few gentle doses of these fine Pills will regulate the circulation of the blood, and remove all dangerous symptoms.

Holloway's Pills are the best remedy known in the world for the following diseases:—

THE NEW FRENCH REMEDY.

By Royal Letters Patent, under the special sanction on Her Majesty's Government, and the Chiefs of the Faculte de France.

THERAPION:—or CURE OF CURES, This successful and highly popular medicament, as employed in the continental hospitals by Rostan, Jobert, Velpeau, and others, combines all the desiderata to be sought in a medicine of the kind, and surpasses everything hitherto employed. Devoid of *taste, odour,* and *appearance* of medicine, it can be left or carried anywhere, and taken from time to time without exciting suspicion Each package contains full instructions for every case.

THERAPION, No 1, in three days only removes gonorrhœa, gleet and all discharges, effectually superseding injections, the use of which does irreparable harm by laying the foundation of stricture and other serious diseases. In dysentery, piles, irritation of the lower bowel, cough, bronchitis, asthma, and some of the more trying complaints of this kind, it will be found astonishingly efficacious, affording prompt relief, where other well-tried remedies have been powerless.

THERAPION, No. 2, for syphilis, disease of the bones, sore throat, threatened destruction of the nose and palate; impurity of blood, scurvy, pimples, spots, blotches, and all diseases for which it has been too much a fashion to employ mercury, sarsaparilla, &c., to the destruction of the sufferer's teeth; and ruin of health. Under this medicine every vestige of disease rapidly disappears; and the skin assumes the pleasing softness of infancy.

THERAPION, No. 3, for relaxation, spermatorrhœa, and all the distressing consequences arising from early abuse, excess, residence in hot, unhealthy climates, &c. It possesses surprising power in restoring strength and vigour to the debilitated. To those who are prevented entering the marriage state by the consequences of early error, it will render essential aid by subduing all disqualifications; and restoring the lost tone to the system. Therapion may be procured at 11s, and 33s per package, through all medicine vendors, or in £5 packages for foreign shipment, direct from London only, by which £1 12s. are saved: and £10 packages for the more inveterate cases, by which a still greater saving is effected. In ordering the above, the purchaser should state which of the three numbers he requires.

HER MAJESTY'S HON. COMMISSIONERS have graciously permitted the Government stamp, bearing the word "Therapion" in white letters, to be attached to each package; thus insuring the public against fraudulent imitations, and securing to the proprietor the sole right of supply throughout her dominions; and any infringement of which they will prosecute with the utmost severity.

AGENTS FOR ENGLAND, Thomas & Co, 7, Upper St. Martin's-lane, London; Raimes & Co, Liverpool; Apothecaries Comp, Glasgow; Ferris & Co, Bristol; Cornish & Co., Plymouth; Rowe, Devenport; Randall & Co., Southampton; and obtainable through all medicine vendors in the known world, or in case of difficulty, by enclosing a draft or order for £5 or £10, according to the nature of the case, payable in London to Messrs. Thomas & Co., as above, a large package will be sent by return mail, carefully secured from observation or accident.

PREMATURE DECAY OF THE SYSTEM, and its perfect restoration, whether arising from youthful imprudence or the excesses of adult life, infection, climate, &c. Observations on marriage, the prevention and removal of certain disqualifications. Rules and numerous prescriptions for self-treatment. Sufferers who are prevented from matrimony by the consequences of imprudence should read this work, as pointing out the sure way to restoration of health. Sent post free in an envelope on receipt of 3s, by Mr. Lawes, Medical Publisher, 14, Hand Court, London.

THE MEDICAL ADVISER on the modern treatment of mental and physical incapacity, syphilis, stricture, &c.; with unfailing rules and prescriptions for the speedy cure, by very simple means, of all the more common diseases and supposed incurable maladies of the sexual system. By Dr W DE ROOS, M. D., M. R. C S., L. S. A., &c., *of the Ecole de Medicine, Paris, Graduate in Medicine, Surgery and Midwifery; Licentiate of the Royal Society of Apothecaries, &c.*

REVIEWS AND NOTICES.

"To be your own counsel or your own doctor, entails risks that have become proverbial to a degree that prevents much good resolution from taking any benefit or advantage when reasonably offered. Suspicion begets irresolution, and where there is no confidence good results seldom follow. Medical books are a field for the faculty alone, and the public act wisely in refraining from their study. 'Drink deep or taste not the Pierian spring,' is good advice where the uninformed mind, listening to its own apprehensions is oftener ready to imagine than use its cool judgment. There is one class of medical lore, however, that stands in a position somewhat exceptional to our remark, and which treats on disorders and irregularities in which morality is offended. For this reason the patient too often suffers in secret, or pursues in ignorance practices that daily bring him into a more hopeless condition for want of friendly advice. To such we recommend a perusal of the 'Medical Adviser' of Walter De Roos, M. D., of London, an established Physician, graduate and licentiate of all the regular institutions of London and Paris; and who has made nervous disorders and their baneful origin his particular study, and obtained such a practice in this branch of therapeutics, as qualifies him to be a safe and competent adviser.—*County Chronicle, May 7th, 1861.*

"The **MEDICAL ADVISER**, by WALTER DE ROOS, M. D., for the class of diseases upon which it treats is undoubtedly the best and most soundly practical book which has come under our notice The author is a man of most enlarged experience."—*Derby Telegraph, June 29th, 1861.*

To those who contemplate marriage its perusal is especially recommended.—The knowledge it imparts must come *some* time, and happy they who do not possess it too late.—Cure is certain in every curable case, and few indeed are they which are not so.—It is calculated to effect a complete revolution in the treatment of these complaints.—Simple and inexpensive, every sufferer may cure himself speedily, privately, and at the least possible cost.

From long practical observation of the treatment pursued in the most famous Institutions of this country and the continent, for those diseases referred to in the above work, the Proprietor has had somewhat unusual facilities for acquiring that uniform success which has hitherto characterized his practice, in which the distressing consequences resulting from the injurious employment of mercury, capivi, sarsaparilla, and similar dangerous medicines are entirely obviated. Lasting benefit in these cases can only be reasonably expected at the hands of those who devote their chief attention to such diseases; and to such only can confidence be safely extended. Dr. De R. refers with pride to the numbers he has been instrumental in restoring to health and happiness, whilst to all who need such aid he offers every assurance of speedy restoration.

FOREIGN RESIDENTS can be successfully treated by correspondence, on sending the detail of their cases, with a Bank note or Bill on a London house for £5 or £10, in order that a package of medicines to meet the exigencies of the case, may be sent out by next mail, thus avoiding the protracted suffering and unnecessary loss of valuable time, which must otherwise occur.

DR. DE ROOS' GUTTÆ VITÆ OR LIFE DROPS; *Protected by Royal Letters Patent of England; Seals of the Faculte de France; Royal College of Prussia, &c*, have in numberless instances proved their superiority over every other advertised remedy for Spermatorrhœa, languor, lassitude, depression of spirits, irritability, anger, excitement, needless fear, distaste and incapacity for society, study or business; indigestion, pains in the side, palpitation of the heart, giddiness, noises in the head, impotency, impediments to marriage, &c. This medicine strengthens the vitality of the whole system, gives energy to the muscles and nerves, thus speedily removes nervous complaints, renovates the impaired powers of life, and invigorates the most shattered constitution. For skin eruptions, sore throat, pains in the bones, and all those diseases in which mercury, sarsaparilla, &c. are too often employed in vain, to the serious detriment of health, its surprising efficacy has only to be tested to be appreciated.

As these complaints if neglected become chronic or incurable, sufferers will do well before they waste valuable time in seeking aid from instruments, and other absurdities professing to supersede medicines, to make fair trial of a remedy, which concocted on unerring scientific principles, cannot fail, and may be carried about the person, or left upon the toilet table, without exciting a suspicion of its nature. Price, 11s, and four times the quantity at 33s per bottle. The £5 packages containing twelve 11s quantities, by which a saving of £1 12s is effected, will be sent from 25, Bedford Place, only on receipt of the amount per draft on a London house or otherwise.

Extracts from letters which can be seen by any one. "I am happy to say that I am now quite well, thanks to you and your medicine of medicines."—*D. P. St. Asaph.* "I am happy to say that I shall not require more, thank God, and I hope He will reward you for what you have done for me."—*A. C., Hartlepool.* "If my tongue could speak, or my pen could write to express my gratitude to you I should feel happy, but neither tongue nor pen of mine can do so."—*H. A. Birmingham.* "Without you I should have been in my grave, but now I am a happy man again."—*D F. F., Inverness.* "I can never thank you sufficiently; had I never read of the Guttæ Vitæ, where or what I might have been now, I cannot tell."—*W. G., West Pelton.*

PAINS IN THE BACK, GRAVEL, LUMBAGO, GOUT, RHEUMATISM, DISEASE OF THE KIDNEYS, BLADDER, &c. DR DE ROOS' COMPOUND RENAL PILLS are a most safe and speedy Remedy for the above dangerous complaints. Discharges and Diseases of the Urinary Organs generally, which too frequently harass the sufferer over the best years of life, and end only in an agonizing death. They agree with the most delicate stomach, and in three days effect a cure when capivi, cubebs, &c., have utterly failed. 2s. 9d., 4s. 6d., 11s., and 33s. per box. The superiority of these celebrated medicines over everything of the kind, is universally acknowledged, and the extraordinary demand for them without precedent.

Many there are, who from natural diffidence, or fear of discovery, would silently bear their afflictions rather than apply for aid to those from whom they may reasonably expect relief. With the above remedies the sufferer may without the knowledge of a second person, cure himself speedily, privately, and at the least possible expense.

"I have taken your Pills and always derive great benefit from them."—*W. W. H., Queen's College, Cambridge.* "I have taken your Pills with the most happy result."—*B. H., Cork.* "Your Pills do me great good, I feel better this last twelve months than for years before."—*F. G., Worsham, Ashford.* "Your Pills did me more good than anything I have taken."—*M. J Dursley.* "I have tried your Pills and derived the greatest benefit therefrom."—*V. G., Navy Hotel, St. Helier's.*

McCoubrey, Esq., St. John's, Newfoundland; Thomas Walker & Sons, St. John, New Brunswick; Lymans & Co., Toronto, of whom also may be had "THE MEDICAL ADVISER," or should difficulty arise in procuring any of the above, enclose the amount by draft or otherwise, to 25 Bedford Place, Bloomsbury Square, London, W.C., and they will be sent securely packed per return.

CAUTION.—There being highly injurious imitations of the above, sufferers should guard against the recommendation of other medicines by dishonest vendors, who thus obtain a larger profit. TO PROTECT THE PUBLIC AGAINST FRAUD, HER MAJESTY'S HON. COMMISSIONERS *have directed that the words* "WALTER DE ROOS, LONDON," *be printed in white letters on the Stamp affixed to the above, to imitate which is felony.*

MOFFAT'S LIFE PILLS AND PHŒNIX BITTERS.

THESE Medicines have now been before the public for a period of THIRTY YEARS, and during that time have maintained a high character in almost every part of the globe for their extraordinary and immediate power of restoring perfect health to porsens suffering under nearly every kind of disease to which the human frame is liable.

IN MANY THOUSANDS

of certificated instances, they have even rescued sufferers from the very verge of an untimely grave, after all the deceptive nostrums of the day had utterly failed; and to many thousands they have permanently secured that uniform enjoyment of health, without which life itself is but a partial blessing. So great, indeed, has their efficacy invariably and infallibably proved that it has appeared scarcely less than miraculous to those who were acquainted with the beautifully philosophical principles upon which they are compounded, and upon which they consequently act. It was to their manifest and sensible action in purifying the springs and channels of life, and indulging them with renewed tone and vigor, that they were indebted for their name.

Unlike the host of pernicious quackeries which boast of vegetable ingredients, the LIFE MEDICINES are purely and solely vegetable; and contain neither *Mercury* nor *Antimony* nor *Arsenic* nor any other mineral, in any form whatever. They are entirely composed of extracts from rare and powerful plants, the virtues of which, though long known to several Indian tribes, and recently to some eminent pharmaceutical chemists, are altogether unknown to the ignorant pretenders to medical science; and were never before administered in so happily efficacious a combination.

The first operation is to loosen from the coats of the stomach and bowels the various impurities and crudities constantly settling round them; and to remove the hardened fæces which collect in the convolutions of the small intestines. Other medicines only partially cleanse these, and leave such collected masses behind as to produce habitual Costiveness with all its train of evils, or sudden Diarrhœa with its imminent dangers. This fact is well-known to all regular anatomists who examine the human bowels after death; and hence the prejudices of these well informed men against the quack medicines of the age. The second effect of the VEGETABLE LIFE MEDICINES is to cleanse the kidneys and the bladder; and, by this means, the liver and lungs, the healthful action of which entirely depends upon the regularity of the urinary organs. The blood, which takes its red color from the agency of the liver and lungs, before it passes into the heart, being thus purified by them, and nourished by food coming from a clean stomach, courses freely through the veins, renews every part of the system, and triumphantly mounts the banner of health in the blooming cheek.

The following are among the distressing variety of human diseases in which the VEGETABLE LIFE MEDICINES are well known to be infallible.

DYSPEPSIA, by thoroughly cleansing the first and second stomachs, and creating a flow of pure healthy bile, instead of the stale and acrid kind; *Flatulency, Loss of Appetite, Heartburn, Headache, Restlessness, Ill-Temper, Langour,* and *Melancholy,* which are the general symptoms of Dyspepsia, will vanish, as a natural consequence of its cure.

COSTIVENESS, by cleansing the whole length of the intestines with a solvent process, and without violence: all violent purges leave the bowels costive within two days.

DIARRHŒA and CHOLERA, by removing the sharp acrid fluids by which these complaints are occasioned, and by promoting the lubricative secretion of the mucuous membrane.

FEVERS of all kinds, by restoring the blood to a regular circulation, through the process of perspiration in such cases, and the thorough solution of all intestinal obstruction in others.

The LIFE MEDICINES have been known to cure *Rheumatism* permanently in three weeks, and *Gout* in half that time, by removing local inflammation from the muscles and ligaments of the joints.

Dropsies of all kinds, by freeing and strengthening the kidneys and bladder: they operate most delightfully on these important organs, and hence they have ever been found a certain remedy for the worst cases of *Gravel.*

Also *Worms,* by dislodging from the turnings of the bowels the slimy matter to which these creatures adhere.

Asthma and *Consumption,* by relieving the air vessels of the lungs from the mucous which even slight colds will occasion, and which, if not removed, becomes hardened, and produces those dreadful diseases.

Scurvy, Ulcers and *Inveterate Sores,* by the perfect purity which these LIFE MEDICINES give to the blood, and all the humors.

Scorbutic Eruptions and *Bad Complexions,* by their alternative effect upon the fluids that feed the skin, and the morbid state of which occasions all eruptive complaints, sallow, cloudy, and other disagreeable complexions.

The use of these Pills for a very short time will effect an entire cure of *Salt Rheum,* and a striking improvement in the clearness of the skin. *Common Colds* and *Influenza* will always be cured by one dose, or by two even in the worst cases.

PILES. As a remedy for this most distressing and obstinate malady, the VEGETABLE LIFE MEDICINES deserve a distinct and emphatic recommendation. It is well-known to hundreds in this city, that the former proprietor of these valuable Medicines was himself afflicted with this complaint for upwards of THIRTY-FIVE YEARS, and that he tried in vain every remedy prescribed within the whole compass of the *Materia Medica.* He, however, at length tried the Medicine which is now offered to the public, and he was cured in a very short time, after his recovery had been pronounced not only improbable, but absolutely impossible, by any human means.

FEVER AND AGUE.

For this scourge of the western country these Medicines will be found a safe, speedy, and certain remedy. Other medicines leave the system subject to a return of the disease—a cure by these medicines is permanent—TRY THEM, BE SATISFIED, AND BE CURED.

Bilious Fevers and Liver Complaints.

General Debility, LOSS OF APPETITE, AND DISEASES OF FEMALES—these medicines have been used with the most beneficial results in cases of this description:—KING'S EVIL and SCROFULA, in its worst forms, yields to the mild yet powerful action of these remarkable Medicines. NIGHT SWEATS, NERVOUS DEBILITY, NERVOUS COMPLAINTS of all kinds, PALPITATION OF THE HEART, PAINTER'S COLIC, are speedily cured.

MERCURIAL DISEASES.

Persons whose constitutions have become impaired by the injudicious use of MERCURY, will find these Medicines a perfect cure, as they never fail to eradicate from the system all the effects of Mercury infinitely sooner than the most powerful preparations of Sarsaparilla. A single trial will place them beyond the reach of competition, in the estimation of every patient.

BE CAREFUL OF COUNTERFEITS.

Several have lately been discovered, and their nefarious authors arrested, both in the city of New York and abroad.
