PRINCE EDWARD ISLAND,

Information for Tourists and Others Time Tables, etc.

Prince Edward Island has many attractions for tourists, and it is expected that this season the influx of visitors will be very large.

HOW TO GET TO CHARLOTTETOWN

The steamer Halifax leaves Boston for Charlottetown every Saturday at noon and will be due at Charlottetown on Monday night. On the following Tuesday at one she will leave on return to Boston. Halifax and Port Hawkesbury are called at every trip. Passengers may take the steamer at any of the ports mentioned. The Halifax will be supplemented by the Grand Duchess later in the season.

The steamer City of Ghent plys between Halifax and Charlottetown each week, calling at several ports en route. She is due here every Thursday.

The steamers Coban, Bonavista, Campana, Tiber and Polino, of Montreal, also make Charlottetown a port of call.

Passengers for this Province coming by way of Pictou are brought to Charlottetown by the steamer Princess. Those coming by way of Point Du Chene connect with the steamer Northumberland, and may come through to Charlottetown by the mail special which leaves Summerside each evening immediately after the steamer reaches that port.

HOTEL AND OTHER ACCOMMODATION.

ST PETER'S SCHOOL.

Annual Closing - The Prize List.

The annual distribution of prizes in St. Peter's Boys and Girls schools took place last evening. There were in attendance a large number of parents and friends of the children. His Lordship Bishop Courtney occupied the chair; Rev. James Simpson was Master of Ceremonies; and there were, besides, on the platform Mr. Justice Hodgson and Hon. F. Brecken.

Rev. James Simpson gave a report of the schools, comparing the work done during the year just ended with that of previous years. The girls prizes were then distributed. Mr. Justice Hodgson then delivered a short address, complimenting the boys of his class on the trust which he had found it possible for him to place in them, and finding great fault with the Canadian History at present authorized to be used in the public schools. The boys prizes were then distributed.

This interesting part of the programme being over, Hon. Frederick Brecken and Bishop Courtney delivered short addresses, contrasting the present school-day methods with those gone by, exhorting the boys especially to thoroughness, and urging the parents not to allow their children to become namby-pamby.

A prize to the value of \$5 offered at the last closing by Sir Louis H. Davies for the best reader—not a stage reciter but one possessing the ability to read aloud in a room, to a sick person for instance—was awarded to Miss Ethel McLean.

Two songs were sung by the children of both schools under the direction of the Head Master, Rev. T. H. Hunt; and the proceedings were brought to a close by the singing of the National Anthem.

ST. PETER'S BOYS' SCHOOL.

PRIZE LIST.

N. B. The prizes are given as a rule on the results of the two examinations held during the school year. There was however a good deal of sickness during the winter and in some cases it has been thought better to award the prizes on the results of the examination just concluded.

Artificial Teeth on Metal Plates

A dentist who knows his business, and one that has any regard for his patients will always advise them to have a metal plate.

PROF. MELVILLE B. BUCKLEY, Instructor Boston Dental College, Boston Mass

In view of the vast amount of injury done to the mouths of wearers of rubber or vulcanite plates, by the retention of undue heat, owing to the non conductivity of rubber, and as aluminum is now so cheaply produced, and making as it does a rigid, light, clean, unobjectionable plate there seems no reason why any person should wear a rubber or vulcanite plate. Not only this, but better results in fit and adhesion are obtained in difficult cases, than in the use of rubber.

L. P. HASKELL D. D. S. Chicago Ill Dental School

The above quotations are from hundreds by eminent dentists whose close observation in many years experience in plate work has learned them the many advantages of metal over rubber.

Many persons who are compelled to wear artificial teeth on a plate find that the ordinary plate causes heating of the mouth, bad taste, shrinkage of the gums, etc., finally causing the plate to get loose, sometimes sore lips, sore mouths and sore throats, and caused directly from the wearing of an ordinary plate.

We recommend a metal plate either of Gold, Platinum, Aluminum.

It is a conductor of heat and cold, it is non-irritating, and is thinner, lighter, and stronger than any other plate. We have testimonials from persons for whom we have made metal plates—not one would wear an ordinary plate again. You can have your impression taken, and a metal plate made same day, fully guaranteed because we make them ourselves, and know all about the material used. Call and see specimens of our work.

Every piece of work done by us must give entire satisfaction to the patient, else we will not allow it to leave our office.

See our artificial teeth without plates.
