SQUAW BURNED TO DEATH.—A squaw of the Micmac tribe, 82 years of age, named Margaret Butmen, was burned to death at Fort Lorne on Wednesday last. Those with whom she was camped left her in charge, while they went but a short distance away. On returning they found the poor old woman in flames, and before they could be extinguished she was so shockingly burned that she expired a few hours later, after suffering great agony. It was thought she was taken with a fit, and while in that state fell or rolled into the fire.—Ez.

THE steamer City of Washington, which arrived at Havana from Vera Cruz, and which was to sail for New York on Saturday, is kept isolated and under observation in the harbor owing to the fact that there are twenty-seven sick persons among her passengers and crew. One death occurred in the passage from Mexico. The character of the sickness is not well defined, but it is believed to have been caused by drinking water taken on board Vera Cruz. When the steamer left the port there was no sickness on board. When she touched at Progress five or six cases of sickness were reported and the number increased to twenty-six on the passage to Havana. The Board of Health has declared the sickness on board the steamer City of Washington to be yellow fever. The sufferers have therefore been sent to the hospital. All the patients belong to the crew except two who were passengers. The ship's baker and doctor died last night. The person who died at sea was the machinist. The steamer has been fumigated and will sail to-morrow for New York.

Sir Hector Langevin has been inspecting public works at Toronto.

TELEGRAPHIC NEWS.

[SPECIAL DESPATCHES TO THE EXAMINER.]

The Telegraph Operator's Strike.

St. JOHN, N. B., July 21. The Telegraphers strike, so far as the operators in St. John are concerned, continues. Mr. Robinson said last night that business was going on as usual, though the operators at work had to work longer hours than usual.

NEW YORK, July 21. Resolutions were adopted at the meeting of the Central Labor Union to-day, endorsing the strikers, and offering financial assistance to the Telegraphers.

CHICAGO, July 22. The day force of messenger boys employed by the Western Union Telegraph Co., left the office in a body this afternoon, thus stimulating the striking operators. A force of fifty operators is on duty at the Western Union office to-day, and business is reported clear and little delay. It is rumored the check clerks will strike to-morrow.

BOSTON, July 22. Reports from different points say the Telegraph Companies have sufficient force to handle business.

Caught in a Tornado.

MILWAUKEE, July 22. A train on the C. & W. Railroad was caught in a tornado, yesterday afternoon, fifteen miles south of Green Bay, and nearly wrecked. The rain poured through the cars and drenched the passengers. The darkness was so great that the engineer could not see out of the cab. The storm passed over to the north and west.

Cholera in Egypt.

ALEXANDRIA, July 21. Seven deaths from cholera occurred at Damietta yesterday, 23 at Mansurah, 14 at Chobar, 12 at Samanoud, 44 at Thirbin, 28 at Thizeh, 146 at Cairo and 26 at eight small villages.

Telegraph Notes.

The French Consul at Palma deMajorca denies the recent statement that cholera had broken out at that place.

There were 140 deaths from cholera at Cairo on the 19th inst. Two regiments of British troops have gone to Suez.

The Burmese embassy has arrived at Venice, where they are undergoing quarantine. La France asserts that they will make a formal appeal for a French protectorate over Burmah.

In the House of Commons on the 20th Campbell Bannerman, secretary of the Admiralty, in reply to a question by Mr. Bartlett, declined to speak concerning the movements, size and number of the men-of-war which have been ordered to Mauritius or Madagascar. He described the question as an improper one. His answer was received with cheers.

The very exciting contest for the Kolar Cup, which always brings to the fore the crack shots of the contending parties, was concluded on the 18th. There were five competitors, and the shooting between Canada and the Mother Country was so even as to cause the greatest amount of excitement. England, however, proved too strong for her hardy offspring, and carried off the coveted prize with a score of 698. Canada came next with 679, only nineteen behind. Jersey was third with 636, followed by Guernsey with 621, and India took the "wooden spoon" with a score of only 514.

The Standard's correspondent at Cairo says that unless the English authorities promptly take the direction of affairs, the checking of the spread of cholera will be hopeless. Even the simplest sanitary arrangements are neglected. The funeral system is most obnoxious. Corpses encased in very tight coffins are carried through the crowded streets on men's shoulders. The clothes of persons dying in hospitals are often stripped off and taken for wearing purposes by relatives. While a man stricken with cholera was on his way, yesterday, in a cart to the hospital the driver stopped at a cafe and gave the invalid a drink from a water bottle used by customers of the place. A few minutes afterwards the sick man died. The only precaution taken in this case was to sprinkle a little chloride of lime on the corpse.
