Be Comptroller for a day

The CADRE in conjunction with Hallowe'en (and due to the high price of masks these days) presents to you the Comptroller mask. Cut out along the dotted lines. For best results, glue the mask onto a piece of cardboard (or on a paper bag in which case you can

simply place it over your head). Punch holes through the points marked A & B. Tie an elastic between the two holes, and place the mask over your head. Then do your tricks.
