The children who will take part will provide life and beauty, and the musical portion of the entertainment will we can assure our readers be of a high order.

Truckman Injured. — Mr. Stephen Toole, truckman, was severely injured yesterday while unloading coal from a schooner at Peake's wharf. It seems that while Mr. Toole was tipping coal into his cart he missed the swinging tub used in discharging, and fell backward on the wharf. After Mr. Toole fell his horse started and one of the wheels of the cart passed over his legs.

The Lost Tribes.—We understand that Mr. John Ross is now out on his fall lecturing campaign, and is prepared to deliver his lecture wherever requested. Notes of Shipping.—The barkentine Meteor left Summerside for Gloucester, Eng., yesterday. She took 39,000 bushels of oats, valued at $10,000. The Messrs. Lefurgey were the shippers.

The steamer Elliott left this morning for Placentia Bay, Nfld. Her cargo consisted of 8,000 bushels of oats and 100 tons of hay, shipped by Carvell Bros.

Seven horses were shipped from Summerside in the Northumberland yesterday. They were for different parties in New Brunswick.

Moved to Halifax.—The Woodstock Dispatch says: "Mr. A. Ernest Mellish, who has for the past four years occupied the positions of teller and accountant of the Merchants' Bank of Halifax, left yesterday to take a position in the head office at Halifax. He will be succeeded by Mr. Charles Neill, of Fredericton, whose reputation as a rifle shot is known throughout the Dominion. Mr. Mellish made hosts of friends while in Woodstock and his departure is generally regretted, while his friends are, on the other hand, glad that his moving means deserved promotion." Mr. Mellish is a son of J. T. Mellish, Esq., of Charlottetown. His many friends here are pleased to learn of his promotion.

They Were Well Pleased.—The Truro News referring to the lecture on "Bits of Tartan" given in that city on Tuesday evening by Rev. D. Sutherland of Charlottetown says: Beginning with a description of the language "spoken in Eden," and passing on to treat of the customs, superstitions, traditions and character of the dwellers in the Highlands of Scotland, the speaker wove a web of rare beauty, sparkling with gems of eloquence and rich humor. It was an hour of rich enjoyment not unmixed with profit, to those who desire to know more of the race of strong men and true women, who, nursed in the land of mountain and flood, have made their name respected and their influence felt in every land where the sun shines on civilization.

Gone to Jail.—Last evening Mrs. John McKinnon, Duncan McMillan and Patrick Trainor were committed to jail for violating the Scott Act. There are now seventeen persons in jail for this offence.

Police Court.—This forenoon James Cummings, summoned for two third infractions of the Scott Act, was convicted and sentenced to four months' imprisonment. A third offence summons against Angus Darrach was dismissed. The cases against Isaac Murley, Owen Trainor and Alfred Downing were adjourned for further evidence.

Mass of Requiem.—A Solemn High Mass of Requiem for the repose of the souls of the deceased members of St. Joseph's Sodality and the benefactors of the institution was celebrated at St. Joseph's Convent this morning. Dr. Morrison was the celebrant, with Father Ignatius Macdonald deacon and Father Johnston sub-deacon. The singing was by the choir of the League of the Cross. Mr. George Hennessy presided at the organ.

Accident to the St. Lawrence.—Last evening about seven o'clock as the steamer St. Lawrence was coming up to her dock a strong southerly wind drove her against Poole's wharf, causing some damage to the vessel and necessitating the landing of her passengers there. Mr. Owen informs us that the steamer's hull was not injured in any particular by reason of the accident. He says that the tide was high at the time she struck and the wharf being low she ran over the piles and tore her sponsons, and in towing her off her guard was also torn by the piles. Some one fearful of fire sent in an alarm, and a hose-reel was soon on the spot, but there was no necessity for its service. The St. Lawrence proceeded to her own wharf shortly after the accident. She will be laid up until necessary repairs are made. The inspector is expected here this evening, and the Navigation Company think that the Princess will be ready to go on the route on Saturday.

MARRIED AT MONCTON.

The residence of Mr. Charles Rowe, Lutz street, was the scene of a very interesting event at nine o'clock this morning, when his grand-daughter, Miss Ina Rowe, was united in marriage to Mr. W. A. Hutchieson, a well-known merchant of Charlottetown, P. E. I. The nuptial knot was tied by Rev. W. W. Brewer, pastor of Central Methodist Church, in the presence of the immediate friends of the contracting parties. The bride who was unattended, looked charming in a brown travelling suit. After the ceremony the company partook of a sumptuous repast. The bride, who is a daughter of Mr. J. A. Rowe, of Charlottetown, has a host of young friends in Moncton where she has lived with her grand-parents. She was the recipient of a handsome array of presents, evidencing the high esteem in which she is held. Mr. and Mrs. Hutcheson leave on the 13.10 train on a bridal trip to Boston and other New England cities before taking up their residence in Charlottetown. Mrs. Hutcheson will be followed to her new home by the best wishes of her many Moncton friends. "INFLUENCE OF THE PEERS."

It would be a mistake to minimize the importance and value of the aristocratic rule by which the government of England was graded down from the high exercise of royal power under the Tudors and Stuarts to that beneficial exercise of royal influence which marks the close of the present period. To the aristocracy of these two centuries is mainly due the fact that the growth from paternal government and personal rule to direct popular administration with a gradual development, though occasional scenes of storm and stress, instead of being a constant succession of revolutions alternating with civil war. Somers and Godolphin, Walpole and Chatham, Pitt and Shelburne, Eldon and Canning, Grey and Liverpool, Wellington and Durham, Melbourne and Palmerston were all of this class, though varying degrees of rank and title. They filled the chief place in the government of the country during a period when the people were being slowly, and perhaps painfully, trained in the perception and practice of constitutional and religious liberty At the best such processes are difficult, and often prove bitter tests of national endurance; but it was well for Great Britain that these two centuries produced a class of able and cultured men who—though naturally Tory at heart—were upon the whole honestly bent upon furthering the best interests of the masses. And this despite the mistakes of a Danby or a North."

Invest Your Spare Dollars in

British Columbia Mines.

A Few Dollars invested now may make you rich

The Buffalo Gold Mining Company have acquired and paid for in full, three claims, The Buffalo, Ontario and Great Britain No 1, each 1,500 ft square, are situated on O. K. Mountain about three quarters of a mile from the famous O. K., the great free-milling property of Trail Creek, and about three miles from the town of Rossland. On the Buffalo claim, there are two leads, one of quartz, from four to fifteen feet wide, and cropping for 800 feet, from the surface of which assays have been taken running from $8 to $12 in gold per ton. The other is an immense iron cap nearly 30 feet wide

On the Ontario only prospecting work has been done, consisting of stripping a fine ledge which crops out through the claim

On the Great Britian No 1 there is a white quartz lead running through the property from which free gold has been obtained. This is confidently expected to prove up well when further work has been done.

Taking everything into consideration, having three full claims, the numerous ledges, (and especially the free milling ledge), cheap transportation, the stock in this company should prove a paying investment and well worthy of your attention

Four men are now working and more will be added to keep up quick and continuous development.

A limited number of shares of the treasury stock will be placed on the market at the remarkable low price of 5 cents, and no more will be sold at this price after the first issue. Address all letters to
