

Local and Other Items.

St. Joseph's Bazaar closes to-night. Football at Victoria Park to-morrow at 3.30. Go and get a bargain at St. Joseph's Bazaar to-night. Young Ladies Journal for November at the Diamond Bookstore. The cheapest Fancy Goods at St. Joseph's Bazaar to-night. How do you do? Do what? Common question, but all nonsense. Toronto is reaping a rich harvest on account of the plague in Montreal. St. Pierre, Miquelon, reports the largest catch of codfish for twenty years. The storm signal was ordered up this forenoon for a fresh to a heavy gale from an easterly direction. Capt. Thomas S. Taylor, of the bark Monie Carmichael, is visiting the city. He is staying at the Rankin. McDonald on the Floor. There are three hundred and eighty Angus McDonalds in Antigonish County, N. S. Of Rev. Joseph Cook, the Dean of Canterbury says: "The lectures are remarkably eloquent, vigorous and powerful." The potato crop of New England and New York is fully one-third below the average, and a trifle smaller than last year. Capt. Collins, of the Gospel Army, announced in the meeting last night that there would be a reinforcement from Toronto at Wednesday evening's meeting. At the Stipendiary Magistrate's Court this forenoon, a nuisance case was disposed of and J. J. Trainor was sentenced to two months imprisonment for a breach of the Scott Act. At Quebec the experiment of working the electric light by motive power from Montmorency Falls has been so successful that the company are now working all their lights from that source. The habit of allowing vehicles to remain obstructing the passageway on the various street crossings is too prevalent. A little thought on the part of the driver would convince him of the great disadvantage pedestrians are subjected to by being compelled to wade through mud in order to cross the street. In 1859, Gloucester, Mass., owned 80 fishing schooners. Now she owns 400, employing 5,000 men, half of them Nova Scotians, sweeping the seas from Cape May to Iceland. In 1840, the whole product of its fishery was under \$400,000. This year, one firm alone, John Pew & Son, have done a business aggregating \$763,000. The valuation of the town in 1840 was \$800,000; this year it is \$12,000,000. Dr. H. D. Johnston will commence the practice of his profession at Eldon, Belfast. He has secured the office lately occupied by Dr. McSwain, which is conveniently situated. Dr. Johnston is a graduate of McGill University, where he passed a splendid examination in all branches. He has had charge of Falconwood Asylum during the absence of Dr. Blanchard in England, and has shown himself to possess fine qualities as a physician. We wish him success. The market Tuesday was well attended and stocked. Prices were as follows: Beef (small) 7 to 10 cts per lb; do per quarter 5 to 6 cts; mutton, 4 to 5 cts; plums per quart, 10 to 14 cts; pork (small) 6 to 7 cts; lamb, 4 to 6 cts; ham, per lb, 12 to 14 cts; fowls, each, 30 to 40 cts; butter (fresh), 18 to 20; do (tub) 17 to 18 cts; eggs, per doz, 18 to 19 cts; ducks, per pair, 50 to 60 cts; flour per 100 lbs, \$2.60 to \$2.75; oatmeal, do, \$2.35 to \$2.40; oats, 32 to 34 cts; hay per 100, 40 to 50 cts; potatoes, 16 to 18 cts. A STRANGE PHENOMENON.—Capt. Hanson, of the bark Pauline, at Quebec from Cardiff, recounts a strange phenomenon. In lat. 65 west, long. 46 north, September 20, during a rain storm, a brilliant ball of fire lodged on the deck by way of the mainmast, and for a few minutes played about from cabin to fore-castle, prostrating the captain and two seamen. The fiery visitor, with a loud report, disappeared as suddenly as it had appeared without damaging the vessel. Few people have any idea of the care with which tobacco has to be attended after it is grown. It will imbibe odors of almost any kind if placed near the source of them. A pig style, for instance, near the place where the planter stores his crops will impart a disagreeable flavor which no care afterwards will divert it of. Among the precautions taken to obtain a faultless leaf for the 'Myrtle Navy' brand, is to ascertain carefully the methods which every farmer adopts with his crops in the sections of Virginia where the 'Myrtle Navy' is grown. THE "REVERE" PICTOU.—The Pictou News says: "Mr. C. L. Rood has bought the Carroll property next his hotel, and intends to proceed at once to erect a further addition to his already large and commodious hotel. Arrangements are being made to have the entire house heated with hot water, and with the additions now contemplated the 'Revere' will be one of the most complete and convenient hotels in the Province. The patronage of the travelling public, of which Mr. Rood already possesses a large share, will no doubt be more liberally bestowed in the future, and we can assure every one that the genial and obliging proprietor will, in the future as in the past, do all in his power to accommodate his patrons." CHIEF ENGINEER LARGE of the Fire Department yesterday tested one thousand feet of the various brands of hose in use in this city. After a severe test it was found that the Maltese brand was the only hose to stand the pressure. Those hose are manufactured by the Gutta Percha and Rubber Manufacturing Co., of Toronto, of which Mr. Frank McIlroy is the representative. They have given satisfaction to the Fire Department here for the past ten years. On the recommendation of the Chief Engineer, the City Council gave an order for five hundred feet of the Maltese brand of hose last evening.

TELEGRAPHIC NEWS.

(SPECIAL DISPATCHES TO THE EXAMINER.) A Terrible Shipwreck. SAN FRANCISCO, Oct. 12. The survivors of the crew of the wrecked whaling barque Napoleon, of New Bedford, were brought here by the U. S. revenue cutter Corwin. The crew consisted of 36 officers and seamen. After it was ascertained that the vessel was in a sinking condition, four boats were manned, with nine men in each, there being scarcely time to get them lowered from the davits, and no time to procure provisions. During the furious gale, and while enveloped in fog on the second day, they separated, and on the morning of the fourth day they were picked up, one of the boats with eight persons alive and one dead. In the afternoon another boat was picked up, with six of the occupants alive. The other two boats have not been seen since, and it is supposed they were lost. Their sufferings from cold and hunger were intense. Twenty-two of the crew perished, among them the first and third mates. A Plan for Settlement. LONDON, Oct. 12. The Standard's Berlin correspondent says Germany, Austria and England have proposed a plan for the settlement of the Bulgarian question, that the following principles be observed: 1st, that Greek and Servian demands be rejected; 2nd, that Turkey be advised to complete her military preparations so as to be ready to interfere in the event of Greece and Servia moving to enforce their demands. Lastly, that the union of Bulgaria and Roumelia under Prince Alexander, the latter allowing the suzerainty of the Sultan, be recognized.

A Lament.

Lament in rhyme, lament in prose, We'ant tears trickling down your nose. —Burns. Merchants with their bills are calling, Autumn leaves bestrew the ground, Crabbed wives, and children squalling, Balfie's sneak like foxes round. Winter stern axes is coming, And to crush unhappy man Prosecutors sharp and cunning Sly y captured Mary Ann. Once our hearts were strong as thunder, Thinking not of grief or care; Time was spent in sport and slumber, And our means in drink and wear. Heavy gloom has settled o'er us, Gone, alas! the foaming can, And the jovial, swelling chorus, Fall of joy for Mary Ann. High domestic strife prevailing Forced us off to "the scratch," Still our wives, by dint of railing, Proved themselves an overmatch. Vexed by this unhappy treatment, For to spite them off we ran, Sunny smiles and flowing tankards Hid us then to Mary Ann. Whiskey gone and social pleasure, Greater ills can scarce be told; Life with cares a brimming measure Presses hard on every side. But we will await their coming, Trying every wily plan Known to Pettifoggers cunning To restore us Mary Ann. HICKMAN. St. Peter's, October, 1885.

Great Fire.

FREDERICTON, Oct. 12. John A. Morrison's saw mill, a mile below the city, a half dozen tenement houses, occupied by twice as many workmen, and their families, eleven cars loaded with lumber on the wharf were destroyed by fire this evening. From the mill the fire spread to the tenements across the railway track consuming everything in its way. The families burnt out lost most of their effects. There were twenty thousand dollars insurance on the mill. The mill was built in 1872 at a cost of forty thousand dollars, and had every modern improvement. The Eastern Troubles. BELGRADE, Oct. 12. The war fever runs high throughout Serbia, and actual preparations are going on to enforce Servia's demand for extension of territory. English, French and Austrian firms have been tendered contracts by the Government to supply complete outfits for 25,000 troops, and all the contracts have been allotted, also one for 35,000 horses. The London Bank war loan has been raised to \$5,000,000.

Murders Disposed Of.

BATTLEFORD, Oct. 12. The trial of the two persons charged with the murder of George Hill, of Bristay, was concluded on Saturday. The prisoners were convicted and sentenced to be hanged. Sixteen Indians were arraigned. Minor charges connected with the rebellion were discharged on good behaviour. The Court adjourned till next Thursday.

The Nationalist Leader.

LONDON, Oct. 12. Parnell, previous to his departure from Cork, addressed a large crowd assembled on the street. It has been decided that Parnell and John Deasey will offer themselves for election to Parliament for the City of Cork.

Greece Warlike.

ATHENS, Oct. 12. Demonstrations in favor of war are being held throughout Greece. The army is being rapidly mobilized. The King has called out 40,000 reserves.

Smallpox in Montreal.

MONTREAL, Oct. 12. During the first nine days of October there were 457 deaths from smallpox in Montreal and suburbs.

BIRTH.

In this city, on the 12th inst., the wife of C. I. Morrison, of a son.

DIED.

On Tuesday, the 13th October, in Charlottetown, Alexander Jarvis McDougall, the only surviving son of the late Anselm McDougall, of Orwell, having survived his father only three weeks, aged 59. His health was declining for the last few years. His end was hastened by wet and exposure while engaged at the late exhibition. May he rest in peace. [Funeral from his late residence, Rockford's Square, on Thursday, at 8.30 a. m.] At Black River, Queen's County, P. E. I., William P. Leadwell, aged 86. At Souris, King's County, P. E. I., Mrs. Cox, widow of the late J. B. Cox, of Morell, King's County P. E. I., aged 66.

GRAND Colonial Exhibition in London, Eng., 1886.

FIFTY-FOUR THOUSAND FEET RESERVED FOR CANADA. FIRST ROYAL EXHIBITION COMMISSION SINCE 1862.

THE COLONIAL AND INDIAN EXHIBITION to be held in LONDON, England, commencing MAY 1st, 1886, is intended to be on a scale of great magnitude, having for object to mark an epoch in the relations of all the parts of the British Empire with each other. In order to give becoming significance to the event, a Royal Commission is issued for the holding of this Exhibition for the first time since 1862; and His Royal Highness the Prince of Wales has been appointed President by Her Majesty. The very large space of 54,000 square feet has been allotted to the Dominion of Canada by command of the President, His Royal Highness. This Exhibition is to be purely Colonial and Indian, and no competition from the United Kingdom or from foreign nations will be permitted, the object being to exhibit to the world at large what the Colonies can do. The grandest opportunity ever offered to Canada is thus afforded to show the distinguished place she occupies by the progress she has made in Agriculture, in Horticulture, in the Industrial and Fine Arts, in the Manufacturing Industries, in the Newest Improvements in Manufacturing Machinery, and Implements, in Public Works by Models and Designs; also in an adequate display of her vast resources in the Fisheries, and in Forest and Mineral wealth, and also in Shipping. All Canadians of all parties and classes are invited to come forward and vie with each other in endeavoring on this great occasion to put Canada in her true place as the premier colony of the British Empire, and to establish her proper position before the world. Every farmer, every producer, and every manufacturer, has interest in assisting, it having been already demonstrated that extension of trade always follows such efforts. By one, JOHN LOWE, Sec. of the Dept. of Agriculture. —AGENTS FOR P. E. ISLAND— RICHARD HUNT, A. McNEILL. Ottawa, 1st Sept., 1885—sep23 2wks
