Grain

WINNIPEG, July 12-(CP)-Coarse grain prices took on an easier tone in moderately active trade today on the Winnipeg Grain Exchange.
The lower trend was influenced by an expansion of local selling and hedging sales, and also by favorable crop reports and further evidence of good rains over the prairie grain belt.
Commercial buying came out on the recessions but prices generally closed lower.
Rye came in for some aggressive buying by American houses, but was overshadowed by local selling which sent prices downward. Declines in United States markets also influenced the trend here.
In the export business reported, Belgium purchased 170,000 bushels of Canadian wheat. The Republic of Ireland took 250,000 bushels, and Colombia 50,000.
Class two wheat prices advanced one cent from yesterday.
