Not only do they steal the fruit, but break large branches and injure the trees, and such acts would be severely punished. The sentence was allowed to hang over until a second offence.

A PLEASANT EXCURSION.—The Patrons of New Dominion Dairying Company had a very enjoyable time at their excursion on Wednesday night. About two hundred excursionists from West River, South Shore and Canoe Cove went on board the steamer Southport at McEwen's and Rocky Point wharves, and steamed slowly to St. Peter's bar and returned to the more placid waters of the harbor. The fall harvest moon shone at its brightest in a cloudless sky while the many lads and lasses tripped the light fantastic to the sweet strains of violin and pipes until about midnight when all were safely landed, feeling that they had spent a very enjoyable time. At the close three cheers were given for Capt. McDougall and his obliging crew.

THE WORLD OF SPORT.

Voyaging. A New York despatch says that never in the history of the America's Cup has a yacht calculated to defend that precious piece of bric-a-brac been so beset with bad luck as the new speed defender, Bolts, canner, fever and appendicitis have afflicted the men in charge of her, delays and anxieties have marked her construction, and accidents of all imaginable kinds have hampered her performance. And yet, in spite of all these ills and a consistent propensity to stick in the mud, she is to-day the unconquered queen of American waters. Great credit is due her managers for their plucky and persistent efforts in the face of many adversities.

The Valkyrie came to anchor in Horseshoe Harbor, just off the Government pier, on Sandy Hook, on Monday afternoon. The crew stowed her sails and prepared to go aboard the City of Bridgeport. Her new steel boom was in place and seemed to work nicely. H. Matland Kersey replied to a question as to whether the Earl would bet on the Valkyrie. "Well, I guess he would if anyone asked him to, but I would not like to say how much he would bet. I think, however, he would wager ten or fifteen thousand pounds on the result, at odds of 5 to 4." "I'll tell you what he will do," added Mr. Kersey. "He will bet that look-a-though the Earl had confidence in the Valkyrie, doesn't it?"

The Tour. The three-minute class, for a \$200 purse, at Calais, Me., on Wednesday, was won in straight heats by a Nova Scotian horse, J. R. Lamy's Minota. Be time, 2:25.

The special race for \$1,000 between John H. Gentry and Joe Patchen, at Belmont park, Philadelphia, on Wednesday afternoon, was a lamentable failure. Nearly 3,000 people were in attendance, but over one-half of them left before the race was concluded. In the first heat Gentry took the lead and was closely attended all the way round to the distance flag by Patchen, where the latter broke. Gentry coming home well within himself in 2:04, the fastest mile ever made by a harness performer on this track. In the second heat Gentry again went out in front. In the third heat there was a flagrant exhibition of trying to win on the part of Carry, Patchen's driver. Patchen was full of go and in the journey down the stretch to the wire, and fifty yards from home, he looked a sure winner, but to the surprise and regret of the spectators C. Carry ranked him off his feet and let Gentry win. The judges declared it no heat and Carry was admonished by the judges to go out and win. In the fourth heat Patchen held Gentry safe all the way round, winning in 2:11. The latter, apparently on the next heat had the race won, but Carry again pulled Patchen off his feet. The judges again decided "no heat" and called Carry into the stand. The judges selected Dickerson to drive Patchen in the 6th heat. The half was won by Patchen in 1:01. Then Henry pulled up and Patchen walked home in 2:15, McHenry pulling up Gentry after passing the half on the 7th heat and Patchen coming home by himself in 2:32. After the races the judges held a meeting, the result of which was that Carry was fined \$300 and another \$100 was taken out of his share of the purse to pay Dickerson for driving the last two heats.

Cricket. The season's cricket in Canada will practically be brought to a conclusion this week with two matches, in one of which the best eleven in Canada will try conclusions with a representative eleven from the two great English universities and with the team representing the United States. The people of Canada have in the past not shown much interest in England's national game, but during the present season, in Toronto at least, it has attracted more attention than ever before, the change being no doubt largely due to the fact that a great improvement has been manifested in the strength of the representative Canadian cricketers. The people are no longer indifferent to the attractions of the game, and if the performances of the international eleven are up to the expectations of the critics, the boom in cricket which has characterized the present season will continue during the next, a consummation which is devoutly to be wished.

The Wheel. E. C. Salmon won the one mile C. W. A. championship of New Brunswick and P. E. Island at the electric light sports in St. John on Wednesday night in 2:51.15, and Harley Davidson went an exhibition mile, flying start, in 2:18.45.

The C. W. A. chief consul at Windsor issues the following: "The C. W. A. racing boards of the maritime district have placed W. P. Mitchell, of Guelph, in class B, all class A riders are cautioned not to make pace for or have paces made by or compete with any class B rider without special permission, as it will place them all in class B."

The Ring. Corbett and Fitzsimmons met again in a tussle pool at Baltimore on Sunday last. Both were stripped, but each maintained what might be described "an armed truce," and after a few not friendly glances at each other Corbett jumped in, and Bob having finished, left the place.

Amateur. The English team to compete with Yale and the New York Athletic Club for international honors, arrived at New York on Sept. 4, are in good health.

Fifty baskets Canadian grapes received this morning at Beer & Goff.

ATTRactions OF CHARLOTTEOWN.

Mr. Rolston, of the Vermont Times, visited Charlottetown a few days ago, and has already recorded his impressions of the place. He says that the entrance to the harbor is "a most charming panorama of the loveliest scenery artist eye could wish for, the red sandstone shores with the luxuriant green foliage surmounting them making a combination of rich coloring which I have not seen surpassed."

Continuing he declares that Charlottetown is "beyond question the best laid out town or city in the maritime provinces, indeed, I think I may say one at least of the best in America. The streets are wide and at right angles with excellent roadways and fine sidewalks on the principal thoroughfares. The public buildings are substantial structures presenting a fine architectural appearance. In the City Hall there is a useful combination, the basement being an engine house and the upper part the Town offices. They have an excellent public market, which on market days is one of the best supplied in the provinces. The town has a good water supply, and a fine fire service, but still lacks sewerage. A most attractive feature in Charlottetown is the public squares which come upon in walking or driving through the city. They were put there apparently when the city was laid out, and these with the wide streets give the place a fine appearance. They also have a really beautiful Public Park in which the people take a most justifiable pride. The people, he says, are talking about a tunnel or subway to connect the island with the mainland. It is said to be by no means an impossible piece of engineering though it involves a very large expenditure of money. Charlottetown has a good and increasing population, and the necessity of a street railway is much felt, but I understand the prospects of an electric railway being built are excellent."

CHALLENGE ACCEPTED. Dear Sir,—By a late issue of THE EXAMINER I see a challenge to all comers from a City team for a "tug of war" during the Charlottetown Exhibition for any sum from \$5 to \$25. The Kensington team is prepared to meet the City team and will put up \$20, but we think your exhibition association should give \$20 in addition to the winners taking the whole purse, in all \$60, and will try conclusions any day during the Exhibition you will name.

While we have no hesitation in meeting the City team, we cannot well afford going to Charlottetown, paying our entrance fees, and at the same time supplying half the purse also.

An early reply would oblige us, as failing to make an arrangement with your Association, we shall try and make arrangements with the Summerside Company and invite the Charlottetown team to meet us there.

Yours truly, (Sgd.) Hiram McLeod, Captain.

LOOK AT THIS and be convinced. Every man should be well dressed. There's only one way to carry out this idea. No matter what you pay for a ready made suit, it's only a ready made suit after all. Men differ too widely in form and figure for the same clothes to fit a regiment. Only your merchant tailor can fit you, and we are the merchant tailors of the best fitted men in Charlottetown. Don't wear clothes that can only make other people wonder where you borrowed them, but come to us for something admirable in fit and workmanship, and more reasonable in price than any other house in the trade. Our stock of Fall Suitings and Overcoats is now complete, and at prices never touched in this city.

Bicycle Tournament, SEPTEMBER 2nd.

This is going to be the grandest event that has been held on the Island for years. No one can afford to miss seeing the great parade and the races at the Trotting Park.

It's a strange coincidence that this great event should happen in the same year that we started what promises to be one of the finest Custom Tailoring business in the Dominion of Canada. It is wonderful the strides we have made since the first of May. Not one dull day in our business this season, and at the present time we cannot get our work out on time. We want four good Coat Makers.
