

HOW TO OBTAIN DESIGN BOOK

The latest design book entitled "Canadian Guide to Home Planning and Design" is now available at the offices of The Guardian and The Evening Patriot for \$1, tax free.

available from Masonite Corporation, 111 W. Washington St., Chicago, 2; request Plan No. AE-313 "Playhouse". Or a booklet "Playhouses (No. L73), is published at 25 cents by the Popular Mechanics Press, 222 E. Ontario St., Chicago 11; available at some building supplies dealers, paper-back book dealers, or from the publisher.

This handsome Colonial Design would be the ideal home for a large family. All rooms are larger than average especially in the four bedroom arrangement. However, there is an optional arrangement for the upper floor showing five bedrooms. Note that in both plans the master bedroom has a separate washroom and a huge walk-in closet. It will be noted that all bedrooms have

CLEANING VENT PIPE QUESTION: You have any suggestions for cleaning the vent pipe leading from the kitchen vent fan to the roof? We can clean the fan and the immediate opening, but the pipe to the roof looks dirty. It's about a six-inch diameter. —Milwaukee, Wis.

ANSWER: Remove any cover at the roof end of the pipe, also unfasten the fan, so you'll have unobstructed opening room. If the pipe is short enough, you could make a modified ramrod, by securing a wad of rags or household sponge over one end of a long pole. If you have a old-fashioned bamboo fishing pole around, this could be used. Pushing this through the pipe should get results. If the pipe is too long for a pole, fasten a weight, like a stone or heavy fishing sinker, to some cord and drop down from the roof opening. When it comes through into the kitchen, fasten the rope end to stronger cord (such as clothes line or 25-pound line) and then secure it to the same type to wad or sponge. Then with a helper in the kitchen and you at the roof end, you can draw the cleaning wad back and forth the length of the pipe.

WATERPROOFING QUESTION: We would like to paint our basement with water resistant paint. We have been advised by a paint store, that the paint will be ineffective because our basement walls were previously painted. Is there any water resistant paint that I should apply over the old paint? Is there any other manner of treating painted concrete walls to make them water resistant? —Columbus, Ohio.

ANSWER: There is a clear finish coating which can be applied over painted concrete which will waterproof and protect the old paint. I suggest you inquire at other paint dealers; or consult your classified telephone directory under "Waterproofing materials".

SOOTY FIRE BRICK QUESTION: How can I clean and remove soot from the fire brick inside the fireplace? ANSWER: Fire brick, being soft and absorbent, will be difficult to clean completely. Brush off as much of the soot as possible with a stiff brush. Then experiment in an obscure corner with the following method: Wet the brick with clear water and scrub with mechanic's hand soap containing fine sand and plenty of hot water. Or try roughly with clear water. Or try a cleaning and etching preparation, following label directions carefully. If results are not successful, it may be necessary to go over the dry brick surface with coarse sandpaper. (Note: All correspondence should be addressed to: Roger C. Whitman, Toronto Star Syndicate, 80 King Street, W., Toronto, Ontario.)

SAFE BIRD CAGE PAINT QUESTION: Is there a paint or spray I can use to paint a bird cage without harming the bird? —Milwaukee, Wis.

ANSWER: Use any top quality fast-drying enamel, not containing lead, in either brush type or in spray cans; follow manufacturer's label instructions for application carefully. If you spray paint on, be sure to protect surrounding surfaces from spatters.

SMOKE ODOR IN CABINET QUESTION: The wood cabinet of a secondhand sewing machine we purchased has a strong odor of smoke. I have tried washing and waxing to no avail. What do you advise to get the odor out of the wood? —Milwaukee, Wis.

ANSWER: If possible, try airing the cabinet outdoors in the sun for several days. Or try placing a saucer of white vinegar inside the cabinet. This is frequently successful in getting rid of this kind of odor.

PLAYHOUSE PLANS QUESTION: Where could we get plans for a playhouse for children? We would like to see it now so we could start to get some of the materials now. —St. Joseph, Mo.

ANSWER: Free plans are available from Masonite Corporation, 111 W. Washington St., Chicago, 2; request Plan No. AE-313 "Playhouse". Or a booklet "Playhouses (No. L73), is published at 25 cents by the Popular Mechanics Press, 222 E. Ontario St., Chicago 11; available at some building supplies dealers, paper-back book dealers, or from the publisher.

MRS. SARAH MacINNIS

Inserted by her daughter.

There entered into her eternal rest after receiving the last rites of the Catholic Church by her pastor, Reverend Father Bennett MacDonald, at the home of her daughter and son-in-law Euphemia and Howard MacDonald, Jan. 4th, 1965, Mrs. Sarah Macinnis in her ninety-fourth year. She was the daughter of the late Angus MacKinnon and Euphemia MacKinnon of Gardigan Road. She married Daniel Macinnis of Greenwich, P.E.I. She lived there for a number of years. Her husband predeceased her by forty-eight years.

Sarah as she was familiarly known was beloved by all both young and old.

In her younger days she was a member of the C.W.L. and a devoted church member. Even in her last year of life here, she attended church to receive our Lord. To get to the church was always one of her happiest moments. Although we cannot hear her voice or see her we know that she is happy with God.

She leaves to mourn one daughter Euphemia, two sons John and Harold all of St. Peter's. One son, Frank, predeceased her at age two years, twelve grandchildren and nineteen great grandchildren.

She lived with her daughter and son-in-law, Howard and Euphemia for thirty-four years and was dearly loved and respected by their family, Bernadette, Patricia, Harold, Daniel and Alan. They sadly mourn her passing and will find an empty spot in their home when they visit there.

Funeral was held from her late residence to St. Peter's Church, St. Peter's, where Requiem High Mass was celebrated by Rev. Bennett MacDonald, who also conducted service at the grave. Pallbearers were: Harold MacDonald (grandson), William Macinnis (grandson), Norbert Hughes (grandson-in-law), Francis MacKinnon (nephew), Francis Steele and Brent Gillis. Interment was in the church cemetery.

Wreaths and Sprays — Howard and Euphemia; Norbert and Bernadette; Harold and Noene; Floyd and Patricia.

Masses and Messages of Sympathy — Howard and Euphemia, St. Peter's; John and Lilian, St. Peter's; Harold, St. Peter's; Mr. and Mrs. Norbert Hughes and family, Bear River (2); Mr. and Mrs. Floyd Jay, Leavick, Ont.; Mr. and Mrs. Deane MacDonald, Hamilton, Ont.; Mr. and Mrs. Harold MacDonald and family, Montreal; Mr. and Mrs. Daniel Macinnis and family, St. Peter's; Mr. and Mrs. Elsie Eldershaw, Morell; Mr. and Mrs. William Macinnis and family, St. Peter's; Miss Amy Macinnis, Charlottetown; Mr. and Mrs. Raymond Sanderson, Burlington, Ont.; Mr. and Mrs. Daniel Wilson, St. Peter's; Mr. and Mrs. Francis Steele, St. Peter's; Ronald Macinnis and family, St. Peter's; Mr. and Mrs. Alban MacAulay, St. Peter's; John W. MacDonald, St. Peter's; Mr. and Mrs. Douglas McEwen, Morell; Mr. and Mrs. Temple O'Hanley, St. Peter's; Miss Margaret Lewis, St. Peter's; The Thompson Family, St. Peter's; Mr. and Mrs. Maclellan MacDonald and family, St. Peter's; Henry MacAulay, St. Peter's; Mr. and Mrs. Archie MacAulay and family, St. Peter's; Mr. and Mrs. Arthur Burke and family, Rollo Bay; Mr. M.D. MacAulay, St. Peter's.

Mr. and Mrs. Joseph Lewis and Willie, St. Peter's; Mr. and Mrs. Daniel Wilson and Michael, St. Peter's; Raymond MacKinnon, St. Peter's; Harold and Hilma Lewis, St. Peter's; Joseph Lewis, St. Peter's; Mr. and Mrs. Brent Gillis and family, St. Peter's; Mr. and Mrs. Kaveri, St. Peter's; Mr. and Mrs. Frank MacKinnon, Morell; Mr. and Mrs. James MacIsaac, St. Peter's; Miss Edna MacKinnon, St. Peter's; Mr. and Mrs. David Lewis, St. Peter's; Mr. and Mrs. James MacAulay, St. Peter's; Mr. and Mrs. Joseph H. Macinnis and family, St. Peter's; John D. MacAulay, St. Peter's; Mrs. Alice Hughes, Bear River; Francis MacAulay, St. Peter's; Mrs. Irene Wilson and family, St. Peter's; Mrs. Catherine MacDonald and girls, Pisiquid; Miss Florence Peters, Gowan Brae; Mr. and Mrs. Joseph Wood, Lake Verde; Mr. and Mrs. Alphonse MacLellan and family, Grand River; Mr. and Mrs. Thomas Ledwell, St. Peter's; Mr. and Mrs. John MacKinnon and girls, Marathon; Mr. and Mrs. Clarence Coffin (Jr.) and family, Pisiquid; Albert MacKinnon, St. Peter's.

Mr. and Mrs. Eugene MacAulay, Charlottetown; Mr. and Mrs. James Pitre, Charlottetown; Miss Susan Wilson, Medford, Mass.; Mrs. Clara Jamieson, Medford, Mass.; Miss Mary Wilson, Medford, Mass.; Mrs. Thomas E. MacDonald, Charlottetown; Mr. and Mrs. Michael MacKinnon, Kensington; Mrs. Joseph Barrett and Bernard, Mt. Stewart; Mr. and Mrs. James Kickham, Souris; Mrs. Mary Ann MacDonald, St. Margaret's Rectory; Miss Phyllis Morrison, Montreal; Mr. and Mrs. Joseph Gallant, Bear River; Mr. and Mrs. Joseph Paquet, Charlottetown; Mr. and Mrs. Albert Quigley, St. Peter's; Miss Mary Gillis, Morell; Mrs. Ada Gillis and family, Charlottetown; Mr. and Mrs. Bertram MacKinnon, Mt. Stewart; Mr. and Mrs. Angus MacDonald, Brooklyn, U.S.A.; Mr. and Mrs. Reginald MacAulay, St. Peter's; Mr. and Mrs. Ray Sanderson, Burlington, Ont.; Mr. and Mrs. Sandy MacSwain, Ontario; Mrs. Douglas MacDonald and boys; Mrs. Mary MacKinnon and Francis, Pisiquid; Miss Penelope MacAulay, U.S.A.

Mr. and Mrs. James Thomas, daughters Rhonda and Shelley, accompanied by Mr. and Mrs. Albert Lewis, Coleman, recently spent a few days in Moncton, N.B., visiting their relatives, Mr. and Mrs. Elmer MacConnell and Rev. Alton and Mrs. Vincent.

Mr. and Mrs. Ross MacWilliam, North River were recent Sunday guests of their friends Mr. and Mrs. Bruce Carruthers.

Friends of Mr. Winston Raynor are sorry to learn he is confined to his home with the flu.

Mr. and Mrs. Eldon Hardy, Toronto who were recently married, spent their vacation visiting relatives and were the guests of Mr. and Mrs. Rustin MacNeuin and Mrs. Major Hardy, Summerside, Mrs. Hardy is the former Joyce MacNeuin of Cascumpec.

Mr. and Mrs. Bruce Carruthers were recent visitors to Summerside and Charlottetown.

AWARDED SECOND PLACE

The residence of Randolph Manning, 191 North River Road, was second place winner in the 'light up for Christmas' contest sponsored again this year by the Electric Service League. Lynn Manning,

created and designed the distinctive window decorations which captured the prize. She created designs from cellophane to give a stained-glass effect. Presenting Lynn with a clock radio are LEFT, C. W. Buchanan and W. W. Brown.

The purpose of the contest is to provide an incentive to home-owners to help make their community one of the brightest and cheeriest on the Island, at the same time displaying the true Christmas spirit.

Pearson Expected To Fill 10 Economic Council Posts

By JAMES NELSON OTTAWA (CP)—Prime Minister Pearson is expected to confer with Finance Minister Sharp before filling 10 vacancies which have fallen open in the 25-member Economic Council of Canada.

The council, which also is expected to make public its second annual review shortly was appointed in December, 1963, under the chairmanship of John J. Deutsch to keep the economy under surveillance and make periodic recommendations.

It is a cross-section of academic, business, labor, and consumer interests. Many of the members whose terms expired last week may be re-appointed but new appointments will be watched for any shift of emphasis they might presage.

Wingspear, Higgins, Stevenson and Doane, chartered accountants, Edmonton.

Others who continue as members include: Claude Jodoin, president of the Canadian Labor Congress, Ottawa; R. M. Fowler, president of the Canadian Pulp and Paper Association, Montreal; David L. Kirk, secretary-treasurer of the Canadian Federation of Agriculture, Ottawa; and William O. Twaits, president of Imperial Oil Ltd., Toronto.

Expansion of the technique, which involves detailed analysis of the temperature and moisture of clouds to pick the right time for seeding, could hasten the day when scientists will be able to modify weather, Hoeler said.

Pension Plan Overpayments Might Result In Rebates

By JAMES NELSON OTTAWA (CP)—Revenue department officials are seeking a way to allow rebates to employers on overpayment of their shares of Canada Pension Plan contributions.

But a spokesman for the department indicated there isn't much hope of success in the search. Social security administration officials in the United States have been trying without success for 30 years to work out such procedures.

The problem arises with employees who move from job to job or work for more than one employer. Under the law, employees started Jan. 1 to deduct 1.8 per cent of employee incomes between \$600 and \$5,000, and to match the deductions with their own contributions to the Canada Pension Plan.

Currently engaging the council's staff are preparations for a closed conference next month in Banff, Alta., on the ramifications of international trade on Canadian agriculture, and a lengthy and detailed study of inter-relationships between prices, supply and demand and employment.

The revenue department, which collects payroll tax deductions as well as contributions to the Canada Pension Plan, would be violating the secrecy of income tax returns if it tried to apportion between two employers the amounts they should rightfully contribute to the pension plan on behalf of one employee.

He said in seven tests in the last three years in Pennsylvania his forecast accurately predicted whether clouds could be made to release rain.

REVENUE DEPARTMENT QUESTION: How can I clean and remove soot from the fire brick inside the fireplace? ANSWER: Fire brick, being soft and absorbent, will be difficult to clean completely. Brush off as much of the soot as possible with a stiff brush. Then experiment in an obscure corner with the following method: Wet the brick with clear water and scrub with mechanic's hand soap containing fine sand and plenty of hot water. Or try roughly with clear water. Or try a cleaning and etching preparation, following label directions carefully. If results are not successful, it may be necessary to go over the dry brick surface with coarse sandpaper. (Note: All correspondence should be addressed to: Roger C. Whitman, Toronto Star Syndicate, 80 King Street, W., Toronto, Ontario.)

ANSWER: Use any top quality fast-drying enamel, not containing lead, in either brush type or in spray cans; follow manufacturer's label instructions for application carefully. If you spray paint on, be sure to protect surrounding surfaces from spatters.

ANSWER: If possible, try airing the cabinet outdoors in the sun for several days. Or try placing a saucer of white vinegar inside the cabinet. This is frequently successful in getting rid of this kind of odor.

ANSWER: Free plans are available from Masonite Corporation, 111 W. Washington St., Chicago, 2; request Plan No. AE-313 "Playhouse". Joseph-Arthur Courlet of Montreal, general administrator of the federated co-operatives of Quebec when he was appointed for a three-year term, died this year and has not yet been replaced.

The two-year appointments which expired last week were held by a number of prominent business, labor, farm and consumer spokesmen.

One of them, A. P. Gleave, president of the National Farmers' Union, resigned late in the summer to run as a New Democratic Party candidate in the Saskatchewan riding of Rose-Town-Biggar. He was defeated in the Nov. 8 general election.

Other two-year term appointees were: Roger Charbonneau, director of the Ecole des Hautes Etudes Commerciales, Montreal; P. A. Chester, director of Continental Oil Co., Winnipeg; Francois E. Cley, president of Cley and Tinker Ltd., Huntingdon; Que. W. C. Koerke, chairman of Rayonier Canada Ltd., Vancouver; W. Ladyma, International vice-president of the International Brotherhood of Electrical Workers, Toronto; Stanley A. Little, national president of the Canadian Union of Public Employees, Ottawa; Mrs. A. F. W. Plumtree, national president of the Consumer's Association of Canada, Ottawa; and Francis G. Wingspear, senior partner of

Rockville Centre, N.Y. (AP)—Ralph C. Ruggles, 76, a veteran newspaper publisher's representative, died Friday after suffering a heart attack. Ruggles, who began his career in Battle Creek, Mich., in the advertising and merchandising division of the old Postum Cereal Co., came to New York City in 1918 with that firm.

ADD MAN DIES

ROCKVILLE CENTRE, N.Y. (AP)—Ralph C. Ruggles, 76, a veteran newspaper publisher's representative, died Friday after suffering a heart attack. Ruggles, who began his career in Battle Creek, Mich., in the advertising and merchandising division of the old Postum Cereal Co., came to New York City in 1918 with that firm.

Drug Administration Errors Revealed By Research Teams

By ALTON BLAKESLEE BERKELEY, Calif. (AP)—Many more errors occur in giving drugs in hospitals than is commonly assumed, a research team said here.

and in Boston, a total of four persons died from medication errors. Dr. Barker said. "From the published reports of the Michigan deaths, it appears that someone put either a bottle labelled 'syrilal'—just 'temporarily'—of course. However, our observers confirmed that such carelessness with labelling is common, and so, such needless deaths will continue to occur."

They range from serious or occasionally fatal mistakes to errors of giving a prescribed drug at the wrong time, or giving a different brand of the same-brand drug, said Dr. Kenneth Barker of the University of Arkansas medical centre in Little Rock.

At the Arkansas medical centre, the new experimental unit-dose dispensing system has been in operation two months.

A study six years ago in a Florida hospital showed that "at least every sixth dose administered was in error" in some way.

Under the new system, each dose of drugs is delivered to the nurses in pre-measured, packaged, labelled and ready-to-administer form.

"Since the average patient received roughly six to eight doses a day, this was a ratio of approximately one error per patient a day," Dr. Barker said.

COMPUTERS HELP Computer-controlled systems of medication also could help reduce error, he said.

HELPS REDUCE ERRORS Similar rates of error have been found in other studies, he said, but a new experimental system in Arkansas of controlling drug administration has, in early testing, "cut the overall error rate by more than half."

Most errors probably were not even known to anyone, including the nurses who made them. The Arkansas study did not find evidence to support the idea of an error-prone nurse, he said, but some nurses may be prone to making "just one particular kind of error."

Money, Incentive Needed To Control World's Rainfall

By RALPH DIGHTON BERKELEY, Calif. (AP)—All that men need to control the world's rainfall is money and incentive, a weather expert said.

Dr. Charles L. Hoeler of Pennsylvania State University told the annual meeting of the American Association for the Advancement of Science his group had achieved 100-per-cent accuracy in predicting when cloud seeding would bring rain.

Expansion of the technique, which involves detailed analysis of the temperature and moisture of clouds to pick the right time for seeding, could hasten the day when scientists will be able to modify weather, Hoeler said.

Dr. Morris Neiburger of the University of California, Los Angeles, who appeared with Hoeler at a press conference on weather control, suggested meteorologists start "thinking big."

VW Reports Biggest Year

WOLFSBURG (AP)—West Germany's biggest car manufacturer, Volkswagen last week reported its biggest year ever.

A company announcement said a record 1,600,000 vehicles rolled from assembly lines this year. In 1964 the total was 1,410,715 units.

More than two-thirds of the production was exported, with the United States by far the top purchaser, with 360,000 cars. Holland was next with 58,300.

Sales also reached a new peak, "well over 9,000,000 marks" (more than \$2,250,000,000) in 1,000,000 marks.

The company said its four plants in West Germany turned out more than 700 cars a day.

Prior to his posting in Edmonton about a year ago, Mr. L. Morgan managed the CNR's hotel in Charlottetown. He was transferred to Edmonton following the hotel's sale.

Harold L. Morgan Retiring In Alta.

EDMONTON (CP)—Harold L. Morgan has retired as assistant manager of the Macdonald Hotel following 40 years service with the Canadian National Railways.

Born in Lisburn, Ireland, he came to Canada in 1923 and joined CN hotels as clerk at the Chateau Laurier in Ottawa, where he became assistant manager in 1930.
