

THE DAILY EXAMINER.

MAY 21, 1890.

Mr. Welsh Again.

LAST session a Select Committee of the House of Commons was appointed to consider the Bill introduced by Mr. Taylor with reference to the performance of labor in Canada by "foreigners and aliens."

Mr. Welsh—I do not know, but this bill might affect the Maritime Provinces seriously. Suppose the mining interest in Nova Scotia, in Pictou and in Nova Scotia, all through, supposing the miners there combined and struck, what position would the mines be in, the mining industry of Nova Scotia? They would not be allowed to send away and employ other laborers.

Dr. Wilson (Elgin).—There is a provision there excepting domestics. The coachman would come under the term "servants."

The Contest in Nova Scotia.

This is election day in Nova Scotia. The contest will likely be a warm one. The probability, however, is that the Government will be defeated, as the right-thinking people have long since become disgusted with the manner in which Premier Fielding and his colleagues have managed the affairs of the Province.

Notes and Comments.

Recent advices state that the Highland Land Court has announced a decision regarding the Duke of Argyll's estates in the Islands of Mull and Iona.

Quebec is anxious to obtain the trade of shipping live cattle and a letter has been received by the secretary of the Dominion live stock association asking that a deputation be sent to Quebec to inspect wharf accommodations there with a view to utilizing that port instead of Montreal for the cattle trade.

The completion a few weeks ago of the Delagoa Bay railway to the Transvaal frontier naturally again drew attention to points of international dispute in connection with the line. The latest statement on the subject—that the Portuguese foreign minister, Senhor Ribeiro, had informed Dr. Loring the United States minister at Lisbon, that his Government would accept the principle of arbitration suggested by Mr. Blaine—seems to have given satisfaction.

They Divided It Up.

A REMARKABLE CASE IN EQUITY AT ST. JOHN, SUDDENLY ENDS.

A most remarkable case in the equity court was settled by agreement at St. John on the 17th. In December, 1885, George W. Anning died in that city. In the following May his sister Maria also died. Both died intestate. They had lived in extreme squalor and filth, but left property valued at nearly \$50,000.

Queen's University, Kingston, Ont.

ISLAND BOYS TO THE FRONT.

THE several examinations in connection with the closing of the session of 1889-90 took place during the past five weeks. The medical examination took place first. The Island is represented in this Faculty by Mr. F. C. Lavers, of Georgetown, who made a grand record, passing with honors in eight subjects, viz: Analytical Chemistry, Histology, Practical Chemistry, Anatomy, Physiology, Materia Medica and Therapeutics, Sanitary Science and Medical Jurisprudence, winning, besides, an honor diploma as Demonstrator of Histology and Pathological Physiology.

The Faculty of Arts is well represented by Messrs. Donald Cameron, of Caledonia, and Charles McLeod, of Eldon, P. E. I. Both of these gentlemen made a good showing at the recent examinations, Mr. Cameron passing in Junior and Senior Philosophy and Senior English, and winning, besides, the Junior Foundation Scholarship in Natural Philosophy. Mr. McLeod did well in his subjects, being first year work.

The Faculty of Divinity is ably and well represented by Rev. P. A. McLeod, B. A., of Dundas, P. E. I., who has been successful in winning his degrees as Master of Arts and Bachelor of Divinity. He also won the Rankin prize in Apologetics. Dr. McLeod's record in the University is a very brilliant one, having won prizes in some departments ever since he entered. Last year, he won the gold medal in Natural Philosophy. Queen's, with the energetic and enthusiastic Principal Grant, of continental fame, at its head, is one of the best universities on the continent.

The Jubilee Singers.

THE famous Fisk Jubilee Singers, under the management of Mr. B. W. Thomas, gave their opening performance in the Lyceum last evening to a large and delighted audience. The programme was carried out in an excellent manner, and most of the selections were encored. Neither time nor space will admit of an extended criticism of the different selections; but we cannot help referring to the singing of Miss Jennie Gatewood, whose clear, bell-like notes charmed all present. In the "Class Meeting" she appeared to great advantage; and her rendition of "Jesus Lover of My Soul" was so good that she was twice encored. Mr. Harris gave "Jonah and the Whale," in good style; and Mr. Chavers' "Basso Profundo" was very amusing. Mr. M. A. Chambers' tenor singing was greatly appreciated; and Miss Gilliam displayed her elocutionary powers to advantage in the two recitations with which she favored the audience. The choruses and melodies were all well sung, and deservedly applauded. In short, as has already been intimated, the performance throughout was excellent. Those who were so unfortunate as to miss last night's performance should make a point of attending to-night. The admission to the body of the hall (with the exception of a limited number of front seats) will be 25 cents, and the gallery will be reserved at 50 cents.

A Startling Story.

BISMARCKIAN MAXIMS PUBLISHED IN FRANCE.

Paris, France publishes nearly two columns of Bismarckian maxims communicated by one of Prince Bismarck's intimate friends, who never before was entrusted with interpreting to the world the thoughts of the ex-Chancellor. Figaro prints Prince Bismarck's utterances without changing a word.

The following are some of the more striking remarks of the ex-Chancellor:—"I have lived for the nation, it is now time that I should devote myself wholly to my family."

Speaking of the Emperor, he says:—"I pity this young man. He is like a young hound (un chien de chasse) that barks at every body, that smells everything, that touches everything and that ends by causing complete disorder in the room in which he is, no matter how large it may be. I think he is the victim of a current of history which he might have curbed by a reign of tranquility, and by allowing Germany to enjoy its advantages gained in 1870. If one stone is moved all the stones in the edifice will fall, and a degenerate will ensue that nothing can check."

Supporting his claim that the greatness of Germany is necessary for the tranquility of Europe, Bismarck asserts that the hereditary enemy in the true sense of the word, is in the east. It is Russia.

Suppose there should be a war in which France should crush Germany. Russia would at once put herself in motion to crush France. This is the law of history. Emperor William is fond of history. He wishes to make history, he wishes to live in history, but he does not know nor understand the spirit of the great laws of centuries. He has plenty of strength to begin with, but he walks too fast: he will lose his breath on the way that he thinks he has marked out.

I don't know what the future will be. When once a ball is fired, it follows its course, and so do events move on, and nothing can stop them.

LETTERS TO THE EDITOR.

The Election Act.

Sir,—The Royal Gazette of the 17th inst., contains a portion of the Election Act passed at the late session of the Local House. One of the qualifications of an elector, so far as Charlottetown and Georgetown are concerned, is declared to be as follows:

"Every person shall be entitled to vote (c) In the electoral district of Charlottetown, Common and Royalty, and the electoral district of Georgetown, Common and Royalty; (who) is the owner of a freehold estate for his own use and benefit, or is in the bona fide use and occupation or actual possession of his own use and benefit of and in one whole water lot, common lot, town lot, or pasture lot, situate within the electoral district of the clear yearly value of six dollars."

What is the meaning of this enactment? Does it really mean what it says, that to qualify as an owner or occupier, a person must own or be in possession of "one whole water lot, common lot, town lot or pasture lot?"

I understand that a town lot in this city consists of a piece of land 84x160, while a common lot or pasture lot contains acres of land, and if under this new law a person must own one or the other before he can vote, the result will be that nearly all of the former electors of Charlottetown and Common who qualified as owners or occupiers have been disqualified.

The Commissioners who drafted the above section should explain what they mean by it. Of course their opinion cannot alter the law, but it would be as well to have it.

FORMER ELECTOR.

The Ingres-Coutillier School of Languages.

We are glad to hear that so far it is likely that a branch will be established here for the summer. However, to-morrow's meeting will decide whether a teacher will be sent here or not.

The Ingres-Coutillier method was adopted for the public schools by the Board of Education of New Brunswick in November, 1888. The school has had charge of the French department of Mount Allison College, Sackville, for the last year, and in other educational institutions of New Brunswick and Nova Scotia,—everywhere with the most satisfactory results.

It is to be hoped that sufficient encouragement will be shown here to have, if not a permanent, at least a regular summer school.

The Emperor Napoleon very rarely wrote a letter by his own hand, and those few which do exist are mostly in Italian. He usually dictated to a secretary at such a rapid rate that the amanuensis had to fill up gaps from memory, and it is a funny fact that most of his love letters to Josephine were thus dictated.
