THE DAILY EXAMINER.

NOVEMBER 3, 1894.

NOTES AND COMMENTS.

—Toronto Globe: While the farmer is busy at his outdoor work the grain market will be neglected; and the country merchant will be, consequently, backward in placing his orders. It is safe to expect that the activity delayed during September and the earlier part of October will be more than counbalanced by the natural fall revival. It is evident that farming in Canada must adjust itself to the altered condition of the world's markets. Like all other commercial adjustments, it cannot be effected without disturbance and hardship. But the conclusion seems inevitable that wheat and barley will never reach the prices common in former years, and that our farmers must make the best of the situation.

—The Empire: While the present is undoubtedly a time when there is plenty of money offering in London for a good safe investment, the success of the loan must be attributed in large measure to the excellent way in which our finances are managed, and to the knowledge now widely circulated in Great Britain that the financial position of Canada is sound to the core. No better proof could have been afforded to the world of the healthy condition of Canada than this successful floating of her 3 per cents. The money now borrowed is to be used principally for paying off some outstanding liabilities, and for the capital expenditure on the canals, an expenditure approved by both Parliament and people as being a good investment since it will cheapen transportation and accrue to the general good. The new loan is the first made since the Government intrusted its financial operations in London to a Canadian institution, the Bank of Montreal, and vindicates this policy also.

—Ottawa Free Press: The Hon. Peter Mitchell, on a visit to the capital the other day, expressed his astonishment at the strides the city has made in material advancement since his residence here as a minister, and later as a private member. Not having driven around the city for some time, Ottawa's expansion was made more evident to him. "Business," said he, "is moving upwards as it is in Montreal. What in that city five years ago were residential streets of a high order are now stores, and I note that the same movement is going on in Ottawa." What is so evident to anyone absent for some time is often hardly observed by a resident, and what strikes Mr. Mitchell strikes others as well. The report of the local assessment commissioner which we gave in a recent issue gives additional emphasis to the views which Mr. Mitchell expressed. Ottawa is on the move and upward. Her advance in the past few years has been almost phenomenal, and it will doubtless continue so.

—The St. John Sun says: Mr. Laurier has returned from the Northwest, where he has accomplished the unparalleled feat of making 89 political speeches without disclosing his policy on a single political issue. The nearest that Mr. Laurier came to a declaration was when he said at Winnipeg on his way westward:

"To get the money which will be lost if we take off some of the present taxation, and to make up the deficit which will arise, it will be necessary to get an addition from some other sources. This will be attempted to be done in this manner; In the first place there will be a difference made in the present tax imposed upon raw materials to be used for manufacturing articles,"

But having reached this interesting point Mr. Laurier began to talk about something else. He never got back to the revenue question, and in the 88 speeches that followed never got as near to the subject again. So that all we know of Mr. Laurier's policy is that he proposes to increase the revenue by changing the tariff on raw materials. Whether he proposes to get more money by reducing the duty on raw materials, or intends to increase that duty will probably never be known. For Mr. Laurier will never be premier.

—In view of the crusade for cheaper bread inaugurated in a number of the cities including Washington, where the price has been reduced from five to four cents per loaf as a result of the crusade, the Agricultural Department has given out a bulletin on "The cost of bread" taken from the forthcoming report of Professor W. O. Atwater on the nutritive value of foods. It says: "In practice, one hundred of flour will make from 133 to 137 pounds of bread, an average being about 136 pounds. Flour, such as is used by bakers is now purchased in the Eastern States at not over $4 per barrel (196 pounds). This would make the cost of flour in a pound of bread about one and a half cent. Allowing one-half cent for the shortening and salt, which is certainly very liberal, the material for a pound of bread would cost not more than two cents. Of course, there should be added to this the cost of labor, rent, interest on investment, expense of selling, etc, to make the actual cost to the baker. In large cities competition has made bread much cheaper, but even there, the difference between the cost of bread to the well-to-do family, who bake it themselves, and the family of the poor man, who buys it off the baker, is unfortunately large." The report also goes into the chemistry and scientific features of bread-making.

—An English exchange remarks: There is an objection to the formation of a new Parliamentary party. We have seen the mischief of divided groups in Continental Legislative Chambers. These sections combine only when the ministry is on its trial, and their voice is always against every Government. The multiplicity of these groups is dangerous. But there are no strong objections to an independent agricultural party in the British Parliament, although, if this group became a potent and strong body, circumstances might arise which would make the agricultural party a mischievous group. The new agricultural party, purely in the interests of their constituents, might embrace a protective policy so far as wheat and other produce is concerned, or they might advocate bimetallism. We shall not attempt to discuss the merits of either proposal, although we may notice in passing that the principle of bimetallism is receiving considerable attention in agricultural districts. We learn also that one speaker at yesterday's meeting declared that Free-trade had been allowed to grow to a most iniquitous extent and he seemed to favour a small tax upon imported wheat. None can deny that farmers have been seriously effected by economical conditions; so much so that wheat has fallen from 46s. to 17s. a quarter. But the poor man has had his cheap loaf, and agriculturists have first to persuade the artisan to forego the advantage of securing cheap bread before a tax on wheat can be seriously entertained. It would be necessary for the agricultural party to steer clear of such economical questions if they do not wish to raise great opposition from the towns and boroughs.

CHILDREN'S DAY ON VERNON RIVER METHODIST CIRCUIT.

Sunday Oct. 14th, was "Children's Day" on the above Circuit. At 10.30 a. m., a large congregation assembled at Vernon River South. The Pastor, Rev. John Goldsmith preached a sermon to the Sunday School, from Prov. 14-13 using the blackboard freely during the discourse. The members of the school occupied the centre tier of pews and answered very readily the many questions put to them. They also sang several of their favorite hymns in a very pleasing manner. The afternoon and evening proving unfavorable, the services which were to have been held, were postponed until Oct. 20th. On that date the Cherry Valley Church was well filled at 2.30 p. m. After the opening exercises and a short address from the Pastor, in which he gave the report of the Local School, the following programme was very nicely given by members of the school: Recitations, "The Starless Crown," Eva Mutch; "True Life," Annie Hayden; "Grandpa's Way," Birdie Mutch; "A Child's Hymn," Geo Mutch; "True Faith," Jemima Irving; "At The King's Feast," Katie Mutch; "What Can Little Children Do," Six little girls; "The Call," Helen Mutch; "God Only is The Maker," Tillie Hayden; "The Best of Books," Minnie McLeod; A Child's Faith," Louisa Mutch; "My Jesus," Mabel Goldsmith; "Only A Little Child," Willie Mutch; "Time to Stop" Muriel Mutch. Solos given by Miss Janie Jenkins and Mr. F. Richards and several selections given by the choir, with Sadie A McLeod presiding at the organ contributed very much to the success of the services. A liberal collection was taken up in aid of the Local Sunday School.

At 6.30 p. m. a similar service was held at Vernon River South when the efforts of the school were rewarded by the attendance of a very large congregation. The pastor presided and gave a short address in which he stated that there were forty-nine scholars in the school with a staff of eight teachers, on the circuit there were 106 scholars and fourteen officers and teachers. Throughout the conference of N.B. and P.E. I. there were 13679 scholars and 1793 officers and teachers, while throughout the jurisdiction of the General Conference there were 252546 scholars and 30807 officers and teachers. The following programme was then effectively given, Recitation—"The old Hymnbook," Maggie Ferness; "The Drunkard's Child," Annie Lea, "Willie's last Prayer," Violet Goldsmith; "The old Teacher," Everett Lea; "Hoeing and Praying," Milton Ferness; "He gave you an Example," Mabel Goldsmith, "Like Jesus," Mattie Huntley; "Waiting," Katie Huntley. Solos by Mrs. Hayden Van Iderstine, and several selections by the choir with Miss May Hayden presiding at the organ were important items of the programme and were highly appreciatied by the congregation. After a liberal collection had been taken up, the services of the day were brought to a close, all feeling that the growing interest of other years had been increased and that such services will be even more popular and useful in the future.—Com.

Vernon River Bridge Nov 1, 1894.

HEROIC SERVICES.

We clip the following from the New Westminster, British Columbia, of last week:

"On the night of August 9th two men named James White and George Jackson had their boat filled and sunk by the breakers in the surf while salmon fishing in the Fraser River. They were in the act of taking in the net, which was filled with fish, and the sea was so rough that the boat filled and sank under their feet between one and two o'clock in the morning. After lashing themselves to the boat, they remained for five hours at the mercy of the breakers, which were making a clean sweep over the ill-fated skiff and unfortunate men. At daybreak a fishing boat, under low canvass, passed within hailing distance, but refused assistance; but fortunately, the wrecked men were picked up about seven o'clock a. m., by Captain Watkin Williams and taken on board his fishing boat. The captain kindly treated the half drowned men to a hot breakfast and towed their boat and net safely to land. As it happened, the rescued men proved to be countrymen of Captain Williams, and belonged to Murray Harbor, P. E. I. Mr. James White has a medal from the Dominion Government for rescuing fifteen perishing souls off the drift ice on the coast of P. E. Island on the 20th January, 1881, and it need not be said that he and his friend appreciated being helped while in distress by a man who has in his possession a gold medal and vote of thanks from the Humane Society, Liverpool, England, and a costly and valuable binocular glass from the Dominion Government for similar services.

Captain Watkin Williams is well known in New Glasgow as one of the rescuers of the crew of the barque Melmerby, and is a brother of Mrs. A. R. McQueen of this town.—New Glasgow Enterprise.

[Captain Watkin Williams is one of the family of the late William Williams, Esq., of Dakota, formerly of Cardigan, and has now had the good fortune on several occasions of saving human life from drowning. Captain Williams has passed nearly all his life on the sea, and is well-known in Charlottetown, he, at one time, having commanded the schooner Lady May trading to Pictou.]

In fact, they will order any make you want, and will guarantee you the lowest prices and latest styles in the city—James Paton & Co.

GENERAL TELEGRAPHIC NEWS.

NEW YORK, Nov. 1. A special from Guadlajara, Mexico, says that Juan Maria Sojores, the celebrated weather and earthquake prophet of Colima, made public the prediction five years ago that the Colima volcano would enter in an active state about the middle of November, 1894, and that this renewal of its eruption would be preceded by the severest earthquake shocks ever known on the Pacific coast of Mexico, resulting in great loss of life and property. As the time approaches for the fulfilment of this prophecy, the excitement among the poorer classes of the people living in the vicinity of the volcano is growing intense, and many are leaving their homes until the dreaded period is passed, Sojores claims his prophecy is based on scientific principles. He has removed to this city from Colima.

ST. LOUIS, Nov. 1.—A Chattanooga, Tenn., special to the Post-Despatch says: A sensation has been created by the announcement of the board of health that several cases of child murder here have grown out of the insurance of the lives of infants, which is being pushed among negroes by certain insurance companies. The work of these companies is denounced, and the board urges legislation to prevent such traffic.

TACOMA, Wash., Nov. 2.—A special to the Ledger from Victoria, B. C., says the flagship Royal Arthur and four other ships of the British squadron at that point have been ordered to Callao at once. The British consulate has been taken possession of by revolutionists and the consul made a prisoner. His wife and daughter have been killed and the consulate has been burned to the ground.

ST JOHN'S, Nfld., Nov. 1.—Sir Terrence O'Brien, Governor of Newfoundland, returned here to-day after a seven weeks visit to England, where he went for consultation with the British Government regarding the condition of the colony and the difficulties arising from the election trials. It is understood that he has the assurance of every support from the British Government in his endeavors to bring about reforms in the Government and the punishment of those who have violated the laws. He will absolutely refuse to dissolve the Legislature, as such action would remove the disqualification of those members who were convicted of illegal practices and would enable them to reenter politics. The Government met with a most enthusiastic reception on landing, being greeted by cordial cheers from thousands of citizens.

A Child Enjoys

The pleasant flavor, gentle action and soothing effects of Syrup of Figs, when in need of a laxative, and if the father or mother be costive or bilious, the most gratifying results follow its use; so that it is the best family remedy known, and every family should have a bottle on hand.

HAZELTON, Pa., Nov. 1.—A notice was posted in the Lehigh Valley shops at Weatherly this morning, informing the men that, commencing to-morrow, November 1, a reduction of 20 per cent. in their wages would be made. This is the third cut within a year in this shop.

A Prominent Lawyer Says:

"I have eight children every one in good health, not one of whom but has taken Scott's Emulsion, in which my wife has boundless confidence."

The public is becoming a little sceptical about waterproofed goods, whether for men or women. Claims have been made which were never substantiated. And at the very best they had a waterproofed look about them which was to often embarrassing. It is the distinguishing merit of Priestley's Cravenettes that they are precisely like the same goods not waterproofed. They are absolutely rain proof and yet porous, though there is nothing to show the rain repelling quality. Priestley's trade mark "The Varnished Board" will always be found in these goods.

VICTORIA, B. C., Nov. 1.—Tubercolosis has appeared to an alarming extent among cattle in this neighborhood. Over 60 are now in quarantine, including six entire herds, and two city milkmen are threatened with bankruptcy in consequence.

Rheumatism is primarily caused by acidity of the blood. Hood's Sarsaparilla purifies the blood, and thus cures the disease.

SPECIAL DESPATCHES TO THE EXAMINER

AN IMPORTANT CHANGE

Affecting the Manufactures of the Country.

The Minimum Amount of Claims for Drawbacks Reduced.

OTTAWA, Nov. 2.

An important step was taken by the Government yesterday as effecting the manufactures of the country. Recently Hon. Mr. Bowell made a promise that he would recommend concessions concerning drawbacks on the duties of articles entering into the construction of goods manufactured in this country for export, and at yesterday's meeting of the cabinet an order-in-council was passed, amending the regulations governing the payment of such drawback. The change is of the most liberal character, and extends to all articles imported, whether manufactured in the country or not, provided they enter into the construction of goods which are subsequently exported. Hereafter 99 per cent. of the duty paid will be refunded. Correspondingly the minimum amount of claim for drawback has been reduced from $50 to $25. The effect of this change will be to place the manufactures of Canada in the most favorable position to compete with the manufactured products of adjacent and other countries in the foreign markets.

The Turf.

PHILADELPHIA, Nov. 3.

Robert J. 2.01½, was sent against his record yesterday. The best he could do was 2.06. Prior to the trial Robert J. met John R. Gentry in a match race for a purse of $2000. Robert J. won two heats rather easily in 2.08 and 2.12¼. Then Gentry was drawn because of a cut on his foreleg. During the afternoon Munroe Salisbury sent Flying Jib and a runner, the pair hitched together, a mile in 2.06¼.

A Grit Caucus in St. John.

ST. JOHN, Nov. 3.

The Grits held a caucus here last night. Among those present were Hon. William Ross, Senator Power, Premier Fielding, Borden, M. P., Flint, M. P., Robert Drummond and John McLeod, from Nova Scotia; Davies, Laird, Robertson and Farquharson, from P. E. Island. Coles and Gilmour, M. P.'s; William George Rogers, of Albert; Hawke, of Moncton; and Ellis and Weldon, of St. John, were also present.

Professor Robertson Coming.

OTTAWA, Nov. 3.

Dairy Commissioner Robertson leaves for P. E. Island to-day to close up the season's business at the dairying stations and to make arrangements for selling or shipping the cheese or butter produced there this summer.
