NASAL BALM

SOOTHING, CLEANSING, HEALING.
Instant Relief, Permanent Cure, Failure Impossible.

Many so-called diseases are simply symptoms of Catarrh, such as headache, loss of sense of smell, foul breath, hawking and spitting, general feeling of debility, etc. If you are troubled with any of these or kindred symptoms, you have Catarrh, and should lose no time procuring a bottle of NASAL BALM. Be warned in time, neglected cold in head results in Catarrh, followed by consumption and death. Sold by all druggists, or sent, post paid, on receipt of price (50 cents and $1. by addressing FULFORD & CO. Brockville, Ont.

NEVER FAILS

CURES COLD IN HEAD AND CATARRH

GRATEFUL—COMFORTING

EPPS'S COCOA

BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Civil Service Gazette

Made simply with boiling water or milk. Sold only in packets, by grocers, labelled thus:

THE DAILY EXAMINER.

JANUARY 7, 1892.

Notes and Comments.

—Chili is a peculiarly shaped country, being 2,500 miles in length, and only from 40 to 200 miles in width. A large percentage of the country is mountainous and practically waste land. It is divided into sixteen provinces, embracing a total of 256,399 square miles. Its population in 1885 was only 2 524,476.

—Since the election law against bribery was made strict and given to the courts to enforce, sentence of disqualification has been pronounced against six members of parliament found guilty of personal corruption. Five of these were Liberals. They were:

Mr Hughes, M P for Niagara.
Mr Walker, M P for London.
Mr Joduin, M P for Chambly.
Mr Cushing, M P for Argenteuil.
Mr Purcell, M P for Glengarry.
Mr German, M P for Welland.

Still the "Liberals," with Mr. Mercier in the van, pose as they party of purity!

—The New York World draws a picture which is not likely to enamour Canadians of American institutions. It says:

"The prevalence of crime is at no time a pleasant topic to dwell on, but there are times when the open and unpunished defiance of law renders it a duty to call public attention to the situation. It is not pleasana to think that five notorious criminals convicted by the courts of this state are at large under stays granted by an accommodating judge; that dives flourish unchecked in New York city; that tarring and feathering of a young girl is possible within a few miles of this city, and that our railroads laws and building laws are insufficient to secure ordinary safety to human life The daily news reports of the papers are evidence that we need not only many improvement in our punitive legislation, but much more vigor and energy in enforcing the existing laws."

—Sir George Baden Powell, who inspected the transportation train which recently conveyed the marines from the Pacific to the Atlantic, recognizes the enormous value of this means of conveying troops from one portion of the empire to another, and in a letter to the London Times he says:—

"Mr. Goschen's far-sighted action in securing on the Pacific the new Empress line of armed merchantmen, which can cross to Yokohame in 11 days, now enables us to reinforce our China squadron within 22 days from England should need arise. The present troubled outlook in China is alone sufficient to make us grateful that this possibility has been opened out to us betimes. The pioneer trooper train has proved it to be feasible to transfer crews of ships on the Pacific station to England within 15 days. Until this very week such transference necessitated a 50 days' passage round Cape Horn or via Suez. We may hereby save the material expenditure and waste of time of several weeks' travel for every seaman and officers going to and from the Pacific. This accomplished fact proclaims eloquently the enormous advantages we secure from the co-operation of our great Canadian Dominion in the defence of the Empire, and in our ability to support the United States in upholding the interests of civilization in these remote parts of the world. We thus gain, together with a saving of expense, new and invaluable strategic advantage.

Temperance.

An open lodge meeting, under the auspices of the Templars of Keefer Lodge, I. O. G. T., took place on New Year's night in the Hall at Lower Montague. The Hall was filled by a very respectable, intelligent and appreciative audience, and the spirit that seemed to pervade indicated that the cause of temperance has a large place in the hearts of the people, which augurs ill for the nefarious liquor traffic. The speakers of the evening were Messrs. Annear, Martin and Creed, the latter delivering an admirable address which cannot but have a good and lasting effect on the minds of those present. The programme for the evening was carried out in a manner reflecting credit on those who took part in the proceedings. The programme was as follows:

Speech	Thomas Annear
Vocal Duet	Misses Ross and Peters
Reading	Carrie McLure
Recitation	Mabel Poole
Music—organ and violin	Winnie Poole and Mrs L Poole
Recitation	Laura Robertson
Song	Boys
Essay	D J Stewart
Reading	Minnie Cameron
Song	J G Stewart and G Peters
Reading	Harry Cameron
Song—Gaelic	John Rose
Music—organ and accordeon	Winnie Poole and Mrs L Poole
Music—instrumental	Alice Rose
Dialogue	Ladies and Gentlemen
Solo	Alice Ross
Reading	Arthur Aitken
Reading	Evelyn Peters
Speech	George Creed

On motion of Herbert Martin, seconded by A. Young, a vote of thanks was tendered to the G. T. and members of the Lodge, which met with a suitable response from Thomas Annear. After singing God Save the Queen, the audience dispersed, well satisfied with the entertainment and stimulated to fight to more effect against the rum traffic.

NATIVE.

Jan. 5, 1892

LET there be no mistake about this, that the "Myrtle Navy" tobacco is manufactured from the very finest Virginia leaf. No higher quality of leaf can be purchased for any tobacco made. It is selected with the very greatest care, and treated with the most approved processes for preserving the flavor of the tobacco.

News.

It is calculated that 21,000 people sleep nightly aboard the steamers on the Thames.

There has been twenty-seven cases of insanity in the Bavarian royal family during the last 100 years.

Recent improvements in telegraphy enables certain companies to transmit 100 words for twenty-five cents and realize a handsome profit.

An electric flying machine was recently made to rise to a height of 70 feet and fly about 400 yards.

By the use of the camera, with powerful telescopes, a new and very large crater has been shown on the moon's surface.

A French electrician has gotten up a device by which he can send 150 type-written words per minute over a single wire.

It has been estimated recently by a shoeman that the people of the United States spend $45,000,000 annually for shoes.

A housewives' union has been formed at Vienna with the object of boycotting the butchers' ring, which has raised the prices of meat 15 per cent.

The late W. L. Scott, of Erie, Pa., who left an estate valued at $15,000,000, bequeathed it all to his family except $15,000 to the family housekeeper.

The sensational story of the discovery of a conspiracy among the Russian refugees in Paris to blow up the Chamber of Deputies proves to be absolutely baseless.

Electrician Nikola Tesla says the time will soon come when a ship will be able to telegraph to either shore of the sea she is traversing without cable, or, indeed, any direct connection.

A New York lunatic, who rejoices in the name of Prince Von Michaels, has written to a life insurance agent of that city, whose acquaintance he made several months ago, and unfolded a plan for abducting Jay Gould's daughter Helen in the hope of receiving a million dollars ransom.

A movement is on foot among the members of the fire department of Amherst to open up a room in the vicinity of the fire engine house where they could meet together in the evenings either for social intercourse, reading the papers or discussing matters for the improvement of the department.

The Midland railroad of Indiana, extending from Anderson to Waiveland, 68 miles, is tied up. Its engines are chained to the tracks by sheriffs for non-payment of taxes. A month's pay is due the trainsmen. The railroad is heavily mortgaged. It is indebted for small articles to merchants all along the line and owes taxes in every county through which it runs.

The British are acting with great vigor in Asia. The capture of the town of Hunza and the intention to construct a railway from Gilgit to the Pamirs, and another from Cashmere to Gilgit, are a warning to Russia that she will not be permitted to seize upon the disputed territory of the Pamirs without a fight. Great Britain is guarding the approaches to her Indian possessions jealously and acts with prompt determination whenever they are threatened.

Wm. O'Connor, the champion oarsman of America, has deposited $500 to bind a challenge to row any man in either hemisphere three miles, either straightaway, or with a turn, for $2,500 to $5,000 a side, and the championship of the world. He will be ready to row any time in June or July. The challenge is particularly directed at Teemer, Gaudaur and Hosmer, and ought to lead to a match with one of the first two named.

St. John Telegraph: While harvesting was in progress, a few months ago, a daughter of Mr. Judson Hunt, three years old, of Anagance Ridge, had a foot and arm nearly severed by a mower, her father being behind the horses at the time. Several hours elapsed before physicians could reach there, in response to telegrams sent to Sussex and Petticodiac. Both limbs were amputated, and as the child lost a great quantity of blood before she had medical aid there was but slight hopes of her recovery. She lived through it all and has been brought to town, as there is a prospect of obtaining an artificial foot, a man here having expressed his ability to furnish one that will be of use to the girl.

Entertainment at Cornwall.

Quite a treat was in store for the large number who attended the entertainment and basket social at Cornwall School on Tuesday, 29th ult. The large class-room was tastefully decorated with evergreen, which, on a back ground of paler green, gave a very pleasing effect.

The entertainment, which was given by the members of the Temperance Division, assisted by some friends, began at 7 p. m., and consisted of a choice selection of readings, recitations, dialogues, etc., varied with vocal and instrumental music. As to the rendering of these selections it would not be fair to particularize, as those who took part, though only amateurs, well deserved the hearty applause they received from an intelligent audience. After the musical and literary part of the programme was ended, Mr. Henry Howard mounted the auctioneer's stand and sold the baskets of good things the ladies had provided. For the time being the class-rooms were converted into dining halls, where all enjoyed the contents of the baskets, except perhaps those whose purse-strings were a little too tightly drawn.

Quite a handsome sum was realized, and that at no distant date we may have the pleasure of attending another such enjoyable affair is the wish of

ONE WHO WAS PRESENT.

THE originator of Estey's Emulsion spent several years of his life in perfecting this preparation. Not a bottle of it was put on the market until he was satisfied that it was the best ever introduced for the cure of coughs, colds, bronchitis and all wasting diseases. Thousands of bottles have been sold, and he has never heard a complaint regarding it. jan2 1m d&w
