Yank Bombings Boost Morale In N. Viet Nam

TORONTO (CP) - Michael Myerson, an American recently returned from North Viet Nam, said Sunday night American bombings of North Viet Nam are having the same effect in that country as the German blitzkrieg had on England during the Second World War.

He told a meeting of about 500 persons at the University of Toronto that morale has never been higher in North Viet Nam than since the bombings began.

Mr. Myerson, a former graduate at University of California, was originally invited to present the North Vietnamese view at a session on "Viet Nam—Revolution and Intervention" at the University of Toronto's Teach-In on "Revolution and Great Power Conflict."

The Teach-In committee said he was dropped from the program because of "commitments to other speakers," but refused to give other details. A group of students staged a sit-in Sunday afternoon at Varsity Arena, where the Teach-In was held, in an attempt to pressure the committee into explaining exactly why Mr. Myerson was not on the program.

The students were ejected by police.
Mr. Myerson said he was told he was dropped from the program because Prof. Robert Scanlon, of the University of California political science department, would not appear on the same platform with him.

Mr. Myerson said he went to North Viet Nam with three other Americans during the last week of August and the first week of September this year.

He said that next to the United States, Canada was the country most hated by the North Vietnamese because the Canadian team on the International Control Commission allegedly refuses to notice violations by South Viet Nam and the United States of the Geneva agreements of 1954.

"It's their (the North Vietnamese) impression that the Canadian members of the commission have been bought and paid for by the State department."

BELGIAN MINISTER ILL
BRUSSELS (AP) - Because of ill health, Belgian Foreign Minister Paul-Henri Spaak has postponed a trip to the United Nations for the second time in a week. It was announced Tuesday. Spaak originally was scheduled to go to New York last Saturday. Details of his illness were not given.

FIND OLD MONUMENTS
GRANBY, Que. (CP) - When a local house was moved here, three old tombstones were discovered underneath. One is inscribed "John Ranaald, 1834," a second marks the grave of three-year-old Moses Scott in 1871, and the third bears only a poem, with no name or date.
