

Poetry.

[The following was written by Colonel C. W. Grant, of the Bombay Engineers, during his passage to India, in the "Owen Glendower," in the month of January last.]—

THE SONG OF THE SHIP.

(AFTER HOOD.)

With features pallid and wan,
With colourless cheek and lip,
A lady sat on the quarter-deck,
Watching the heaving ship,—
Pitch—pitch—pitch,—
As her bows in the water dip,
In a tremulous voice with a nervous twitch,
She sung the song of the ship.

Roll—roll—roll,—
When the sun is shining bright;
And roll—roll—roll,—
In the pale and clear moonlight.
It is far better to be a slave,
Or to marry a turban'd Turk,
Than to pass one's time on the briny wave,
At this pitching and tossing work.

Roll—roll—roll,—
Till the head goes swimming round;
And roll—roll—roll,—
To the water's ceaseless sound.
Rope, and rudder, and mast,
Mast, and rudder, and rope;
With the sea all round and the sky above,
There is nothing left to hope.

Roll—roll—roll,—
In the muggy rain and heat;
And roll—roll—roll,—
When the pitch sticks to our feet,
Whilst underneath the waves,
The sharks and dolphins glide,
Till I almost wish that I were a fish,
Swimming about by their side.

Oh! for a walk on shore,
A stroll through the meadows green,
Far from the ocean's roar.
Where the waves are never seen.
Oh! but for one short hour,
To be able to stand upright,
To sit at ease—lie down to rest,
And not to dread the night.

But this I may not have;
Not even a moment's rest;
I lie with my heels above my head,
And my knees stuck into my chest.
In vain I try to sleep,
For the noise of the wind and the sea;
With a lurch of the ship, I roll on the deck,
A woeful sight to see.

Roll—roll—roll,—
Till the masts and timbers creak;
And roll—roll—roll,—
Till the pigs and poultry squeak.
And oh! that horrid sound,
Of the cuddy's ceaseless bell,
That rings for meals, when one squeamish feels
There are no words to tell.

Ring—ring—ring,—
Each hour throughout the day,
There is something or other going on,
In the eating or drinking way:
Stew and mutton and fowl,
Fowl and mutton and stew,
They eat and drink till they make one think,
They have nothing else to do.

Oh! Captain bold and true,
Oh! Captain gallant and kind,
Oh! stop the ship for a few short hours,
To ease my weary mind.
Pitch—pitch—pitch,—
No rest by day or night;
Killing at once by a double death,
Of sea-sickness, fear and fright.

But why do I talk of death?
It has no terrors for me,—
Sea-sickness, I am sure, is hard to bear,
And it's death to be at sea.
It's death to be at sea,
And worse than a felon's fare,
Oh! that tossing about so common should be,
And a little motion so rare.

Roll—roll—roll,—
Oh! who can count the time?
And roll—roll—roll,—
As if to rest were crime.
Mast and rudder, and rope,
Rope and rudder, and mast,
If she would not roll, but were quiet and still,
I am sure she would sail as fast.

Oh! if for one short hour,
The vessel would cease to roll,
The blessed relief from pain and grief,
Would cheer my wearied soul.
A little sea-sickness would do me good,
And might my complexion clear;
But every day to be sick, I say,
Is paying rather dear.

No convict works so hard,
When he trends it round the mill,
As I labor to dress with my cabin floor
On a slope like the steepest hill;
Mast and rudder, and rope,
Rope and rudder, and mast,
I am tossed about from side to side,
And fall flat on my back at last.

With features pallid and wan,
With colourless cheek and lip,
A lady sat on the quarter-deck,
Watching the heaving ship,—
Pitch—pitch—pitch,—
As her bows in the water dip,
In a tremulous voice with a nervous twitch,
She sang till she gave herself the stich,
This doleful song of the ship.

Varieties.

A QUEER SUBJECT FOR A SERMON.—Bryant, in his "Letter of a traveller, relates that while at Glasgow he attended one of the free churches, and listened to a sermon from Dr. Lindsay. At the close of the exercises the preacher announced that there would be a third service in the evening—"The subject will be the thoughts and exercises of Jonah in the whale's belly."
He that does good works for praise or secular ends, sells an inestimable jewel for a trifle; and that which would purchase heaven for him, he parts with for the breath of the people, which at the best is but air and that not often wholesome.
TAR AND FEATHERS.—The use of tar and feathers in the punishment of crime is one of great antiquity. Richard I, in his voyage to the Holy Land, ordained thus—"If any one is convicted of theft, let his head be shaved like Champion's; let melted pitch be poured on it, and feathers be stuck over it, that he may be known; and let him be set ashore at the first land to which the ship approaches."
A good conscience is a marvellous restorative; one soon learns to look with hope to the future when one can feel justified in turning with pride to the past.
Let no modesty take away the courage in a good cause, but let not thy courage incline to imprudence in a prosperous one.
Happiness depends upon the prudent constitution of the habits.

NEW GOODS! NEW GOODS!!

Extensive importation of FALL GOODS, NO. 3, QUEEN STREET, near the QUEEN'S WHARF, J. W. C. DECHMAN,

HAS received his large and extensive supplies of Fall and Winter GOODS, which are now opened to the Public for inspection. The Stock has been carefully selected expressly for this market, and adapted to the season. The attention of purchasers is respectfully invited to the following staple Goods:—

PATENT ARTIFICIAL SLATE, And Unchangeable Metallic Paints; PROOF AGAINST FIRE & WATER!

Manufactured by the Patentee, in Colchester, Nova Scotia.
THE ARTIFICIAL SLATE is the product of a mixture of mineral substances known to be the best non-conductors of heat as well as the most indestructible; the Chemical affinity of which converts the surface of materials covered, into a Coating of Actual Slate—Proof against FIRE and WATER. Thus the laws of nature are made to accomplish results as surprising as they are useful, by rendering Wooden fabrics as durable as brick or Stone, and less pensive to moisture, and consequently preventing decay and destruction from corroding influences hitherto supposed unattainable.

The principal ingredients are Alumina, Silica and the Oxides of Iron. The adhesive quality of the latter not only binds and attracts the particles together, but the substance covered also. The longer exposed to the weather the more powerful the attraction, and consequently the harder the Slate. As various shades of colour are obtained, Brick buildings may be made impervious to moisture, and the fashionable colours of either Free Stone or Granite. The oil must be evaporated by the action of the weather before it is Fire proof, which will take from nine to twelve months.

THE METALLIC PAINTS, Purple and Red, are offered as Weather and Water Proof solely. Their base being Iron, secures them from Galvanic action so fatal to lead and other Paints on Iron work—and their chemical combination makes it impossible, that any change should take place from atmospheric influence or the action of Salt Water and Sulphureted hydrogen so prevalent in Sea Ports and Tidal Harbours. They surpass all Points yet discovered in Cheapness and Durability, which render them pre-eminently adapted to the covering of all kinds of Iron work, such as Shipping, Mills, Bridges, Steam Machinery, Railway Cars, and Iron Railing. The METALLIC PAINTS have been analysed by Professor Hays of Boston. The following is an extract from his Certificate—"As a permanent pigment, this mineral must rank with the most indestructible and unchangeable bases. For covering Metallic Ware, its composition shows that it is eminently fitted."

Directions.—Artificial Slate. Mix the powder with pure Boiled Lined Oil and a little Spiritus Turpentine to the consistency of very thick Paint, and apply with a common Brush, being careful to keep the mixture well stirred while putting it on. One pound will cover ten square feet with two coats.
If Shit-jes have been on for years, it will be necessary to sweep off the moss and lint with a stiff broom; two or three coats of this material will make a perfect Slate Roof, proof against Fire and Water.

The METALLIC PAINTS are mixed and put on like an ordinary paint. JOHN ROSS, Patentee. FREDERICTON, N. B., Nov. 13, 1850.

Mr. J. W. IRISH.
DEAR SIR,—Please send us two more barrels of your Artificial Slate. We have seen some of the good effects of it at the last fire. Some of the Roofs covered with it did not catch at all, and when the walls were burnt some of the roofs came down in one piece, and others were the means of saving the building, especially one roof alongside of the Bank B. N. A., which also was one means of saving the Bank.

Please see that it is on board of the first boat, as it might be neglected and stored. Your obedient Servants, STEWART & NEILL.

ST. JOHN, N. B., July 20, 1850. JOHN ROSS, Esq., Patentee of the Purple Metallic Iron Paint.

SIR,—I have just painted a new Ship with your Metallic Iron Paint, and I have much pleasure in stating that I never painted a Ship with so small a quantity of Paint and Oil, and look so well. From its adhesive qualities and the manner it covers the wood, I have no doubt but it will be more durable and much cheaper than any other paint used for such purposes, and would recommend it to the public generally.

Yours, &c. ROBERT G. MORAN.

ROSS' METALLIC PAINTS.—We have already called public attention to the high estimation in which the Metallic Paints, manufactured by John Ross, Esq., Truro, are held by those who have had occasion to use them. Certificates of a highly satisfactory character in praise of these articles of Provincial manufacture appear elsewhere, in this issue, and from information afforded by parties who have similarly applied them, we can safely endorse the opinions therein contained.—Halifax Sun.

Agents for Prince Edward Island, GEO. T. HAZARD, Queen Square, KENNETH M'KENZIE, Pownal Street, Charlottetown, Oct. 8, 1851.

Important Notice to persons purchasing Sarsaparilla.

WHEREAS a quantity of Sarsaparilla, bearing the name of "S. P. Townsend," but which not having been manufactured by J. R. Chilton, is of inferior quality to that sold under the agency of the latter gentleman. The Public are hereby warned, that the only kind of Sarsaparilla safely to be relied on has two labels, one in green, with the words following:—"This is to Certify, That the Compound Extract of Sarsaparilla, contained in this bottle, is prepared under my direction and supervision, from the Original Recipe of Dr. S. P. Townsend, and that it is composed of ingredients purely vegetable, and without Mercury."

The only true kind is on sale at the Medical Warehouse of M. W. SKINNER, where all necessary information may be obtained. P. S. In addition to the above safeguard, look carefully for the following: SPECIAL NOTICE.

This is to certify, that the within Compound Extract of Sarsaparilla is manufactured by us expressly for the New York Proprietor of the Townsend's Sarsaparilla Depot, 61 Hollis Street, Halifax, N. S., and that he is our Sole Agent for the British Provinces. Each bottle of the Genuine Article has this Certificate with our signature, as at foot.

NOSTRAND & BACH, Successors to Clapp & Townsend, and Sole Proprietors of Dr. S. P. Townsend's Sarsaparilla Office, 82 Nassau Street, New York.

The original and Genuine Dr. Townsend's Extract of Sarsaparilla is now manufactured under the immediate direction of the well-known Chemist and Physician, JAMES R. CHILTON, of New York, whose Certificate, Printed on Green Paper, will be found on the Outside Wrapper of each Bottle. This will prevent the possibility of any mistake or question as to its Genuineness.

A fresh Supply of the above Sarsaparilla, just received from the Manufacturer, New York, via Halifax, for Sale, Wholesale and Retail, at SKINNER'S Medical Warehouse.

Wonderful cure performed by S. P. Townsend's Sarsaparilla!

To M. W. Skinner, Agent for S. P. Townsend's Sarsaparilla. SIR: This is to certify that I was, for this last 12 months, troubled with Fits; and from their very severe attacks, thought each one would terminate my existence; and, in addition to the Fits, I was reduced to a mere skeleton, and was extremely weak and nervous. I heard a great deal about S. P. Townsend's Sarsaparilla, for which you are Agent. I was advised to try it. And strange and wonderful to relate, before using the contents of one bottle, was greatly benefited. Indeed, so rapid and effectual was the cure, that it appeared to me to be almost miraculous. And I think that, in justice to the public and suffering humanity, I am bound to make the above statement, and say, that a greater blessing, in my opinion, than S. P. Townsend's Sarsaparilla never came to this Island.

(Signed) MARY LOWE, Bungay, New Glasgow Road. Sworn to, before me, this 14th June, 1851.

CHARLES DEMPSEY, J. P. The public will please bear in mind, that the above cure was made by the Sarsaparilla manufactured by J. R. Chilton, M. D., whose certificate, in green paper, is on the outside wrapper of every bottle, and be cautious not to buy any wanting this.

M. W. SKINNER. Charlottetown, June 13. Agents—DANIEL GORDON, Georgetown, THOMAS CAIRNS, Green's Shore, Bedeque, MOSES RYAN, Malpeque.

Encourage Home Manufacture.

PARTIES having Cloth which they wish DYED or DRESSED in a superior style, may send it to the Agent for Curney's Mills, where it will be finished equal to any done either in Nova Scotia or New Brunswick, and at equally low rates. Information as to prices may be obtained, and patterns seen, at the Agents, Upper Side Queen Square, Charlottetown. E. L. LYDIARD, Agent. Sept. 22. Tel. & Adv.

CURES FOR THE UNCURED!

HOLLOWAY'S OINTMENT.

AN EXTRAORDINARY CURE OF SCROFULA OR KING'S EVIL. Extract of a Letter from Mr. J. H. Aliday, 209, High Street, Cheltenham, dated the 22d of January, 1850.

To Professor HOLLOWAY. SIR,—My eldest son, when about three years of age, was afflicted with a Glandular Swelling in the neck, which after a short time broke out into an Ulcer. An eminent medical man pronounced it a very bad case of Scrofula, and prescribed for a considerable time without effect.—The disease then for four years went on gradually increasing in virulence, when, besides the ulcer in the neck, another formed below the left knee, and a third under the eye, besides seven others on the left arm, with a tumor between the eyes which was expected to break. During the whole of the time my suffering boy had received the constant advice of the most celebrated medical gentlemen at Cheltenham, besides being for several months at the General Hospital, where one of the surgeons said that he would amputate the left arm, but that the blood was so impure, that if that limb were taken off it would be then even impossible to subdue the disease. In this desperate state I determined to give your Pills and Ointment a trial, and after two months' perseverance in their use, the tumor gradually began to disappear, and the discharge from all the ulcers perceptibly decreased, and at the expiration of eight months they were perfectly healed, and the boy thoroughly restored to the blessings of health, to the astonishment of a large circle of acquaintances, who could testify to the truth of this miraculous case. Three years have now elapsed without any recurrence of the malady, and the boy is now as healthy as heart can wish. Under these circumstances I consider that I should be truly ungrateful were I not to make you acquainted with this wonderful cure, effected by your medicines after every other means has failed.

(Signed) J. H. ALIDAY. CURE OF ACUTE RHEUMATISM OF FOUR YEARS' STANDING.

Extract of a Letter from Mr. John Pitt, Dudley, 19th Jan. 1850, To Professor HOLLOWAY.

SIR,—It is with the greatest pleasure that I write to thank you for the benefit I have received from your Pills and Ointment, which have completely cured me of the Rheumatism, under which I suffered for this last four years, at times I was so bad as hardly to be able to walk. I had tried every kind of medicine that was recommended without receiving any benefit. In my last thought I would give your medicines a trial and purchased from Mr. Hollis, Chemist of this Town, two boxes of Pills and two of Ointment, and in three weeks through them and the blessing of God, I was restored to health and strength, and am now as well able to walk as ever I was in my life. I am well known in this parish, having been sixty-five years in it, with an exception of ten years I served in the 24th Regiment of Foot.

(Signed) JOHN PITT. CURE OF A BAD LEG OF MORE THAN SIXTY YEARS' STANDING.

Mr. Barker, of No. 5, Graham's Place, Drypool, near Hull, had ulcers on his leg from the age of eighteen until upwards of eighty, and although for many years he had sought the first advice in the country, nothing was found to cure them. He very often suffered most excruciating pain for long periods together, which incapacitated him from attending to his business. He had given up all hopes of getting a cure when at last he was persuaded to try Holloway's Pills and Ointment, which he did, and however wonderful it may appear, the leg was thoroughly healed by their means, and by continuing to use the Pills alone after his leg was well, he has become in health so hale and hearty as now to be more active than most men of fifty.

N. B.—The truth of this extraordinary statement can be vouched for by Mr. J. C. Reinhardt, 22, Market Place, Hull. February 20th, 1850. CURE OF A DESPERATE CASE OF RINGWORM, OF SIX YEARS' STANDING.

Lima, 13th November, 1849. One of the most eminent Surgeons in Lima (the Capital of Peru) had a child covered with Ringworm for more than six years; in vain he exhausted all his art in his endeavours to effect a cure. Not succeeding, he consulted among his brethren, the most celebrated medical practitioners of the City, but nothing was found to do the child service. When he was persuaded by Mr. Joseph P. Hague, the English Chemist and Druggist, residing at 74, Calle de Pallacio, to try Holloway's Pills and Ointment, which was done, and after using six large Pots of the Ointment, with a proportion of the Pills, the child was radically cured, to the surprise of the whole medical profession. The name of the parent, from motives of delicacy is withheld.

The Pills should be used conjointly with the Ointment in most of the following cases:— Bad Legs, Chiefo-foot, Fistulas, Sore throats, Bad Breasts, Chillsains, Gout, Skin diseases, Burns, Chapped-hands, Glandular, Scoury, Bunions, Corns (Soft), Swellings, Sore heads, Bites of Mos- Cancers, Lumbago, Tumours, chetoes and Contracted & Piles, Ulcers, Sand-Flies, Stiff joints, Rheumatism, Wounds, Cocca-Bay, Elephantiasis, Scalds, Yaws, Sore Nipples.

Sold by the Proprietor at 244 Strand (near Temple Bar) London, and by GEO. T. HAZARD, Agent for P. E. Island, in Boxes and Pots, at 2s, 5s, 8s, and 20s each. There is a very considerable saving in taking the larger size. N. B. Directions for the guidance of Patients are affixed to each Pot or Box.

DR. EVANS'S PAIN KILLER.

NO Medicine has been discovered that is so happily adapted to use internally as drops to be taken, and yet perform such wonders when applied externally as a wash, bath, or by friction. USE IT IN THIS MANNER.

For Common headache, simple bathing will answer. For sudden colds and hard coughs, [to cure immediately] put one teaspoonful in four of molasses, and take three spoonfuls of the mixture as often as you cough. Bathe the neck, breast and sides with it to cure soreness of a cough.

Asthma, Phthisis and sore breasts—for speedy relief, 30 drops in molasses, and bathe freely with it clear, and keep on fannel wet in it. For bowel complaint, cholera morbus, cholera and diarrhoea,—a teaspoonful in a gill of milk and molasses, well mixed; if the pain is severe, bathe the bowels with it, and in cholera repeat the dose every hour.

For Dyspepsia and sick stomach, 20 to 30 drops in sweetened water, morning, noon and night, till all symptoms yield, and you are restored to perfect health. For all rheumatic complaints, lame neck, swelled face, sore throat and toothache, 60 drops as above, three times a day; bathe the parts well, rub with a warm cloth, and take a teaspoonful of mustard seed nightly, in milk or molasses, at bed time.

For burns, scalds, and all sores, pricks, stings or old sores, bathe well and often the parts afflicted. For sudden colds or croup, 30 drops in Molasses, every hour, and bathe freely with it. For canker, sore mouth and stomach, chicken pox, or measles, 30 drops, twice a day in sweet milk.

ASK FOR EVANS'S PAIN KILLER, AND TAKE NO OTHER. A VOICE FROM NOVA SCOTIA.

DOCTOR EVANS'S PAIN KILLER, being fully tested in localities where it has been in general use, I deem it my duty to the public to annex a few of the many Certificates now in my possession, that all may know and be possessed of this VALUABLE MEDICINE. C. V. POOR, Druggist, 19, Tremont Row Boston, Sole Proprietor.

This will certify I was afflicted with severe rheumatic Pain in my legs, proceeding from a severe cold, so much so, I could not walk without the aid of crutches, and by the use of one bottle of Evans's Pain Killer, I, to the surprise of my neighbours was completely cured, Lunenburg, N. S. J. RILEY, Shoemaker.

This is to certify that I have used Evans's Pain Killer in my family and found it to be an excellent medicine, superior to any of the kind I ever used. FENTON TOMLINSON, Hants County. Wilmot, 3rd January, 1850.—This is to certify, I have for some time past sold several of the different kinds of Pain Killer, and have found none give so good satisfaction as Evans's, as manufactured by C. V. Poor, 19, Tremont Row, Boston.

JAMES A. GIBBONS, Merchant. Bridgeton, March 21, 1850.—This is to certify I have for some time past sold several of the different kinds of Pain Killer, and have found Evans's, as manufactured by C. V. Poor, Boston, to give more general satisfaction than any in use. AVERY B. PIPER, Druggist.

This 'PAIN KILLER' may be used with a success that will astonish the beholder, in such cases as the following: Distressing Dysentery, Pain in the Side and Stomach, Corns, Cuts, and Bruises, Cholera Infantum, Bronchitis, Healing Sores on arm or breast, Children Teething, Raising Blood, Hoarseness, Quinsy in a few hours, Children Teething and Frosted Feet, Spasms, prevent a blister from Burns, Broken Breasts, Measles, Cramps, Hurts, Scratches, or torn Flesh, Bites or Stings. Sold at Charlottetown by T. DESBRISAY, Apothecaries' Hall, and M. W. SKINNER, Medical Warehouse—Agents for P. E. Island.

Printed by JAMES D. HAZARD, at his Office, Queen Square, Charlottetown.
