

LOST AND FOUND.

I lost the book as it wound its way
Like a thread of silver hue;
Through green wood and valley, through
meadows gay,
'Twas hidden away from view;
But found it again a noble river,
Sparkling and broad and free,
Wild and fairer growing ever,
Till it reached the boundless sea.

I lost the tiny seed that I sowed,
With many a sigh and tear,
And vainly waited through sunshine and
clouds
For the young green to appear;
But surely after many long days
The blossom and fruit will come,
And the reapers on high the sheaves will
rise,
For a joyful, harvest home.

I lost the life that grow by my own
For one short summer day;
And then it left me to wander alone
And silently pass away;
But I know I shall find it further on,
Though not as it left me here;
For the shadow and mists will have passed
and gone.
I shall see it far and clear.

I lost the notes of the heavenly chime
That once came floating by;
I have listened and waited many a time
For the echo, though distantly;
But I know in the hills of glory it thrills,
Ever by day and night;
I shall hear it complete when its harmony
fills
My soul with great delight.

I lost the love that made my life,
A love that was all for me;
Oh! vainly I sought it amid the strife
Of the stormy, raging sea;
But deeper and purer I know it waits
Beyond wishful eyes;
I shall find it again within the gates
Of the garden of Paradise.

I shall lose this life? it will disappear
With some wondrous mystery;
Some day it will move no longer here,
But will vanish silently
But I know I shall find it again one more,
In a beauty no song hath told;
It will meet with me at the golden door,
And around me forever fold,

Neuralgia and Rheumatism.

A very simple cure for neuralgia is to boil a small handful of lobelia in a half pint of water till the strength is out of the herb, then strain it off and add a teaspoonful of fine salt. Wring cloths out of the liquid as hot as possible, and then spread over the part affected. It acts like a charm. Change the cloths as soon as cold, till the pain is all gone; then cover the place ever so as to prevent taking cold. Rheumatism can often be relieved by application to the painful parts of cloths wet in a solution of sal-soda in water. If there is inflammation in the joints, the cure is very quick; the wash needs to be lukewarm.

Thinking.

There is nothing which makes so great a difference between one man and another as the practice of calm and serious thinking. To those who have been unaccustomed to it, there is required at first an effort, but it is entirely in their own power to repeat this effort if they will, and when they will. It becomes every day easier by perseverance and habit—and the habit so acquired exerts a material influence upon their condition as responsible and immortal beings. In that great process, therefore, in which consists the healthy condition of any man as a mortal being, there is a most important step, of which he must be conscious as an exercise of his own mind. You feel that you have here a power, however little you may attend to the exercise of it. You can direct your thoughts to any object you please; you can confine them to objects which are before you at the time, or occurrences which have passed during the day—or you can send them back to events which took place many years ago. You can direct them to persons whom you are in the habit of meeting from day to day, or to those who are separated from you by thousands of miles. You can place before you persons who lived and events which occurred long before you came into existence, and you can anticipate and realize events which are not likely to occur until you have ceased to exist. Study these wondrous process of your mind; observe what power you have over them, and what consequences of eternal importance must arise from exercising them aright. If you can thus think of any subject you please, why not think of God—of his power, his wisdom, his holiness, in your heart, and in his revealed word? Why cannot you think of, and realize the period when you shall lie down in the grave, and that tremendous moment when all that are in the graves shall hear the voice of the Son of God, and they that hear shall live, and shall arise to judgement? Such truths as these, duly considered, or thought of, could not fail, under divine influence, to exercise a powerful effect upon all our habits of thinking and acting in this life.

The Greatest Medical Discovery since the Creation of Man, or since the Commencement of the Christian Era.

There never has been a time when the healing of so many different diseases has been caused by outward application as the present. It is an undisputed fact that over half of the entire population of the globe resort to the use of ordinary plasters.

DR. MELVIN'S CAPSICUM POROUS PLASTERS are acknowledged by all who have used them, to act quicker than any other plaster they ever before tried, and that one of these plasters will do more real service than a hundred of the ordinary kind. All other plasters are slow of action, and require to be worn continually to effect a cure; but with these it is entirely different: the instant one is applied the patient will feel its effect. Physicians in all ages have thoroughly tested and well know the effect of Capsicum; and it has always been more or less used as a medical agent for an outward application; but it is only of very recent date that its advantages in a porous plaster have been discovered. Being, however, convinced of the wonderful cures effected by DR. MELVIN'S CAPSICUM POROUS PLASTERS, they now actually prescribe them, in their practice, for such diseases as rheumatism, pain in the side and back, and all such cases as have required the use of plasters or liniment. After you have tried other plasters and liniments, and they have failed, and you want a certain cure, ask your druggist for DR. MELVIN'S CAPSICUM POROUS PLASTER. You can hardly believe your own convictions of its wonderful effects. Although powerful and quick in its action, you can rely on its safety for the most delicate person to wear, as it is free from lead and other poisonous material commonly used in the manufacture of ordinary plasters. One trial is a sufficient guarantee of its merits, and one plaster will sell hundreds to your friends.

Ask your druggist for DR. MELVIN'S CAPSICUM POROUS PLASTER, and take no other; or, on receipt of 25 cents for one, \$1 for five, or \$2 for a dozen, they will be mailed, post paid, to any address in the United States or Canada.
