

QUEBEC, June 14.—The Rev. Mr. Dollard, of Fredericton, New Brunswick, was consecrated Bishop of that Diocese in the Roman Catholic Parish Church of this city on Sunday last. Monseigneur the Bishop of Quebec, the Bishops of Montreal and of Sydney, officiated.

June 16.—The 83d Regiment embarked on board the barques Countess of Loudon and Jamaica, this afternoon, which vessels sail immediately for Portsmouth.

(From the Royal Gazette.) On the 26th ultimo, a Meeting of the Diocesan Society took place at the Court House. His Excellency the Lieutenant Governor, Patron, in the Chair. His Lordship the Bishop, all the Clergymen of the Episcopal Church in the Island, and a number of Ladies and Gentlemen attended on the occasion.

Moved by the Chief Justice, seconded by the Rev. Dr. Wiggins. 1. That the present meeting gratefully acknowledges the important advantages which the Colony has already derived from the munificent liberality of the Societies for the Propagation of the Gospel and for the Promotion of Christian Knowledge, and they earnestly pray, that the friends of piety and good order, in the parent country, will not abate their zeal until the spiritual necessities of this Island be provided for.

Moved by the Hon. T. H. Haviland, seconded by the Hon. E. Palmer.— 2. That this Society pledges itself to use every effort, in conjunction with the Societies for the Propagation of the Gospel and the Promotion of Christian Knowledge, to promote the diffusion of religious instruction in this Colony.

Moved by Captain Swabey, seconded by J. Barrow Esq.— 3. That His Lordship the Bishop of the Diocese be requested to direct into whose hands the custody of the Conveyance of the Title Deeds of any Estates made over to the Venerable Society for the Propagation of the Gospel, for the use of the Church in this Island, shall be placed; and if His Lordship should deem that he has not authority at present to act definitely in this matter, that he will be pleased to sanction the appointment of a provisional Committee to undertake immediately the management of this business, in order that the lands may be leased, or otherwise disposed of in the manner most advantageous to the interests of the Church.

Moved by the Hon. J. M. Holl, seconded by J. D. Hazard, Esq.— 4. That the thanks of this meeting, and of the members of the Church in this Island, are due to those Proprietors who have signified their intention of conveying land to the use of the Church, and more particularly to such of them as have proceeded to carry their intention into effect, that as it is very desirable, where possible, that cleared lands should be selected for the Endowment of the Church, as has been done by Sir George Seymour and the Hon. C. J. Fane, the Committee which has been deputed to carry these objects into effect be requested to point out in their correspondence the advantages immediately derivable from grants of such a nature.

Moved by the Hon. Charles Hensley, seconded by S. Desbrisay, Esq.— 5. That this meeting experiences much pleasure in the presence of the Right Reverend Bishop, upon the present occasion, and it sincerely rejoices in the successful issue of his visit to this part of his Diocese; in the consecration of Seven Churches to the Divine Worship, and in the Confirmation of numerous Candidates, as Members of our Apostolic Church, and it humbly prays that the Holy Spirit will bless the work which has been thus happily accomplished.

Moved by J. Grubb Esq., seconded by H. Palmer, Esq.— 6. That the thanks of this Meeting be offered to His Excellency the Patron, for his dignified and efficient conduct in the chair. His Excellency said, it was always well to seize the present moment in doing good, and if others would follow, he would head a Subscription List immediately, to carry out so desirable an object as Church extension. A Subscription paper was prepared, and Ninety Pounds immediately subscribed on the spot.

Moved by the Hon. Charles Hensley, seconded by S. Desbrisay, Esq.— 7. That this meeting experiences much pleasure in the presence of the Right Reverend Bishop, upon the present occasion, and it sincerely rejoices in the successful issue of his visit to this part of his Diocese; in the consecration of Seven Churches to the Divine Worship, and in the Confirmation of numerous Candidates, as Members of our Apostolic Church, and it humbly prays that the Holy Spirit will bless the work which has been thus happily accomplished.

Moved by J. Grubb Esq., seconded by H. Palmer, Esq.— 8. That the thanks of this Meeting be offered to His Excellency the Patron, for his dignified and efficient conduct in the chair. His Excellency said, it was always well to seize the present moment in doing good, and if others would follow, he would head a Subscription List immediately, to carry out so desirable an object as Church extension. A Subscription paper was prepared, and Ninety Pounds immediately subscribed on the spot.

TO THE EDITOR OF THE COLONIAL HERALD.

Dear Sir, The contents of this letter will, I feel persuaded, be very interesting to all concerned in the remittance to which it refers, and as the best means of placing them within their reach, I beg leave to hand it to you for insertion at your convenience. The extract from our letter, to which it is an answer, is given below.

Respectfully yours, J. WADDELL, Cor. Secretary, P. E. I., A. B. Society.

Charlottetown, 20th June, 1843.

Enclosed you have a Bill for Eighty Pounds, Fifty-five to our purchase account, and Twenty-five to your free fund, with a special reference to the circulation of the Scriptures in China. It is our wish, should your Society have appropriated an exclusive fund for China, that this little sum should be added to it, as a slight token of our interest in extending the circulation of the sacred volume in that country, now providentially rendered more accessible to Bible and Missionary operations. A part of the sum thus devoted, which would have been much larger but for our efforts to increase our own domestic circulation, is from some of our corresponding Societies in the country, which have annually transmitted you their mite, in furtherance of the blessed work.—Should this little tribute be the means of directing the efforts of able Societies to a special provision for the object at which it aims, may it not prove as heaven among men!

It will be interesting for you to be told that our Legislature, in their last Session, enacted that Bibles and religious books, imported by Societies for distribution, should be admitted duty free.

British & Foreign Bible Society's House, London, June 3, 1843.

Dear Sir, The departure of the Halifax Packet, this evening, enables me to acknowledge, without loss of time, your letter of the 15th ult., and to send you the thanks of our Committee for your remittance of £25, as a free contribution, with special reference to the circulation of the Scriptures in China. You will have seen that we have given every encouragement to the Missionaries proceeding thither to expect supplies of the Chinese Scriptures from us, but as yet, although we have received remittances from various quarters, with particular regard to our objects in China, we have not thought it expedient to make an especial appeal to our friends on behalf of that country, from a consideration that we can only fairly begin our operations after the Missionaries have paved the way. The subject, however, will be again considered, in deference to the wishes of many subscribers, and you and other friends will, of course, be made acquainted with the result. We notice, with pleasure, that you received the last consignment of Scriptures from hence duty free. The act of your Legislature is a great boon, and deserves our united thanks.

Sincerely yours, J. JACKSON, Ass. Sec. B. & F. B. S.

Charlottetown, P. E. Island.

On Tuesday the 20th inst., the ceremony of laying the foundation stone of Indian River Catholic Chapel was performed by the Right Rev. B. D. McDonald. The Clergymen present were the Rev. Sylvanus Perry, Rev. C. Meville, Rev. James McDonald, Rev. Peter McIntyre. After a solemn High Mass, sung by the Rev. Mr. Perry, his Lordship pronounced, to a numerous and attentive auditory, a very eloquent and pathetic discourse. On the occasion, a collection was made, which, under circumstances so unfavorable, was characteristic of their well-known christian liberality, and expressive of their ardent desire for the completion of the undertaking. This will be the largest House of Worship (90 by 50, with the tower 88 feet from the base) ever yet erected on this Island for the service of God. It reflects the highest credit on the parishioners of Indian River—it is emblematic of their progress in virtue and morality, and will tell to a grateful posterity the untiring zeal and persevering industry of their pious forefathers.—Gaz. 27th ult.

The body of Mr. William Coffin, senior, of St. Peter's, whom we noticed last week as having been supposed to be lost at sea, was found on Monday the 19th, in the surf near Black Bush, fully twenty miles to the Eastward, of the spot where he had been fishing, and was buried on Wednesday last.—16

TO THE EDITOR OF THE COLONIAL HERALD.

Sir: ONE OF THE PEOPLE, I see, has at last ventured to make some inquiry about the affairs of the Central Academy,

and to express something of the surprise which everywhere prevails at the apathy with which that Institution has been and continues to be treated. Noise enough has been made about it in the Legislature, for years past, but few, I believe, of "the people" have ever troubled themselves to ascertain its real condition. Rumours have been spread to the prejudice of the constitution of the Academy, but I have never heard any real foundation stated for them. Reproach and obloquy have, in an indirect manner, been cast upon the Masters; but when investigation was made before the Legislature, it was proved to the satisfaction of all parties, that the Masters had been unwarrantably abused, and testimonials of the highest character have been given to them of the success with which they have contended with the disadvantages under which even the Trustees in both ends of the Legislative Building acknowledged they had laboured. Changes, however, have been called for, and to a certain extent, secured. At length, a board of Trustees has been appointed of honest and honorable men, whose care, no doubt, will be, to do justice to one and all of the parties concerned.

Your correspondent seems very anxious to ascertain who are to be the Masters, and it is, perhaps, natural enough to put the question; but he must leave that to the board, whose prerogative it is to make the appointments; and he must wait their time too, and be content with their mode of procedure. He asks if the present Teachers are to have no notice about quitting, or whether they are to be continued. What notice they may have had, it may be difficult for him to know, but it is not very likely that old and tried servants will be dismissed, to make way for new ones, without some good and valid reason. The present Masters obtained their situations under a permanent Act—gave up other situations on the faith of its continuance—struggled with all the difficulties with which an avowedly defective system was beset—endured desertion and neglect, where patronage and support might naturally have been expected—and it is not at all likely that, because under these circumstances they have not done all that those who did not know how they were situated might have expected from them, they will either have notice about quitting, or be continued in the lower departments, and a Head Master obtained. If there is force in the suggestion, that preferences should be given to other Teachers in the Town, much more forcibly does the suggestion apply to the Masters in the Academy, who, so far as evidence goes, have done the very best that could be done in their circumstances, and whom, probably, no Board of Trustees would be disposed arbitrarily and summarily to dismiss. It was not in the nature of things to suppose that the numbers of scholars would be kept up in the midst of so much outcry as has been made of late about the School, and so much uncertainty about its continuance; but I believe those who have kept their children at it are at least as well satisfied as those who have taken them away, or those who have supported other Schools. The working of the new system must test the merits of the alteration. The subdivision of the emoluments, and the large influx of scholars to be expected at half fees, are not likely to secure higher attainments, though they may extend the advantages of the Institution to a greater number—but much will depend upon the system of training that is pursued.

A PATRON. June 20th, 1843.

DISORDERLY DRIVING.—We have of late heard frequent complaints of the very disorderly manner in which some persons are to be seen occasionally driving through our streets. A few days since, an individual from the country was taken before a Magistrate, charged with driving furiously through the streets, in contravention of the law in that case made and provided, and the charge was clearly and distinctly proved. The plea brought forward, however, in palliation of the offence, being of a somewhat novel nature in a Court of Justice, we will just mention it, for the benefit of all whom it may concern—it was to the effect, that it had become notorious that a certain privileged class of individuals were almost daily in the habit of committing much greater breaches of the law in this respect than that of which he had been guilty, and that, consequently, it would be extremely unjust to punish a poor ignorant countryman for simply doing that, once now and then, which, it appeared to him, was not merely tolerated but approved of in others more fortunately circumstanced in life than himself—by persons, in fact, who style themselves gentlemen. A plea so forcible, and withal so full of sound logic, could not but produce the desired effect upon the mind of the good natured Magistrate, and our friend Hodge came off with flying colours. We merely mention the above circumstance, for the correctness of which we can vouch, simply as it occurred, and refrain from making any comments on it at present, in the hope that the bare mention of the subject will accomplish the end we have in view, viz., the putting a stop to a practice at once discredited to those who indulge in it, and endangering the lives of Her Majesty's liege subjects.

To be published in November next, A TREATISE

ON THEORETICAL AND PRACTICAL LAND SURVEYING.

DEMONSTRATED FROM ITS FIRST PRINCIPLES. Dedicated (by permission)

To the Hon. Amos Edwin Botsford, and the Land Surveyors of British North America.

CONTENTS: Decimal Fractions, Square Root, Elements of Geometry, Definitions, &c., Algebraic Definitions, Geometrical Problems, including the Nature and Use of Scales, Logarithms, Plane Trigonometry, Mensuration of heights and distances, Description and use of Instruments employed in Surveying, a simple and concise method of keeping a Field Book, Variation of the Compass, with particular observations on the different affections of the Magnetic Needle, a correct and simple method of running, tracing, and retracing Lines, Mensuration and Division of Lands by the Universal and other methods of Calculation, Location of Lands in almost every possible form, and with the least possible data.

The Problems will be illustrated by appropriate examples, and Diagrams interspersed through the body of the work.

In an Appendix will be added the investigation and demonstration of the rules contained in the body of the work, especially on the Mensuration and Location of Land, a collection of necessary and useful Promiscuous Problems, a concise system of Levelling, Tables of Logarithms, Nat. Sines, &c. &c.

The Treatise, it is hoped, will find exceedingly useful to Gentlemen of the legal profession conducting suits arising out of disputed surveys and to owners of landed properties, as well as to Practical Surveyors.

The work will be printed on good paper, with clear type. It will contain about 200 pages, 8vo. Price, half bound, 5s. 6d., bound 6s.

New Brunswick, May, 1843.

Editors of Newspapers in the Colonies giving two or three insertions to the above advertisement will be entitled to a copy of the work.

Subscriptions will be received by Booksellers throughout the Colonies.

MOFFAT'S

VEGETABLE LIFE PILLS AND PHENIX BITTERS.

THESE superlative Family Medicines have long since acquired an established reputation for direct and invariable efficacy in all the prevalent and ordinary diseases, as well as in many others of a peculiar and aggravated character. Their virtues are proved by the voluntary testimonials of the persons they have cured, and who accompany their certificates with their names and places of residence.

These certificates now amount to thousands, being hundreds to each particular kind of disease. They embrace the most frightful and inveterate cases of Scrophula, Piles, Dyspepsia, Jaundice, Bilious and Liver affections, acute and chronic Rheumatism, Asthma, Bronchitis, Scrophulous as well as Mucous Consumption, habitual Costiveness, Worms, Stomach and Bowel complaints of all kinds, headache, giddiness and nervous debility, eruptive diseases, and the clouded, sallow, unhealthy appearance of the skin, arising from various causes of ill health, Fever and Ague of every variety, settled pains in the side, back, organs and limbs, humors, ulcers, foul breath and inward fever, night sweats, and general weakness and loss of appetite, the mumps, swollen face and gums, affections of the bladder, kidney, spleen and pleura, and the sickness incident to females, together with very many other maladies which cannot be here enumerated. The certificates of cure in all these diseases are immense in number, and clear, direct and explicit in description, and coming as they do, in every case, from the persons cured, they are indisputable and conclusive in authority. These inestimable medicines should therefore be kept by every family and grown person in the Union, as they will be found to be not only the best remedies for disease, but also its most certain preventatives, and the surest renovators of sound, cheerful and elastic health. They are singularly mild and agreeable in their operation, and though perfectly effectual, never occasion even the temporary prostration and nausea which always follow the use of coarse drastic purges and the use of calomel. Prepared wholesale and retail by Dr. Wm. B. Moffat, 375 Broadway, New York. For sale also by the agents—NEW YORK, May 30.

COOPER & BREMNER, Agents for Prince Edward Island.

These valuable Medicines may also be had on application to Mr. George Farley, Searleton, Bedeque; Mr. George Wigginton, Crapaud; and Mr. Edward Henry, Lot 13. Charlottetown, August 12, 1842.

PROSPECTUS OF A LIBERAL NEWSPAPER.

To be published in Charlottetown Twice a Week. To the People of Prince Edward Island.

GENTLEMEN; The subject upon which we have to address you is one that so closely concerns the common interests of us all, that we do not hesitate to approach you with all the familiarity of a friend—all the boldness and manliness of spirit inseparable from an integrity of purpose and firm attachment to the truth. We have to address you on the propriety of establishing in this Colony a FREE and INDEPENDENT PRESS; and in doing so, we shall avoid the indulgence of that sippant flattery and servile dissimulation so common to a Prospectus, which is as useless as it is disgusting.

To assert that you have no such Press, is to assert that which you all know. It is notorious that the whole population of this Island—save a miserable, arrogant and purse-proud faction, draining the life-blood of the country, and insulting its emaciated form—have not the power of proclaiming their injuries and degradation, and establishing the tyranny and infamy of their rulers. That tyranny has existed for years, and still exists in more than its original deformity, and no journalist in the Colony has been found fearless and honest enough to expose and condemn it.

When you have to appeal to the Press of another Country to assert your rights and chastise your oppressors, there can be little doubt of the partiality, venality and corruption of your own, or, rather, that which calls itself yours. There can be little doubt, that truth and justice have been bartered for the smiles of place and the patronage of power, and that perfidy and apostasy by some are regarded with higher favour than constancy and integrity. To render such appeals unnecessary, we purpose to establish in this community a Semi-weekly Periodical, under the title of

The Palladium.

To this step we are encouraged by your friends—the People's friends—whose solicitations and assurances of support are too urgent and flattering to be disregarded or unacknowledged. The object of this paper will be, emphatically, the defence of your rights, and the promotion of your interests. "This is not the cause of party, or of faction, but the cause of every man in Britain." It will be its object to investigate and assail, if not remedy, the evils which have grown out of the Landowner System, a system whose principle is "monopoly," whose effect is oppression; and wherever fraud or corruption may be found to exist, THE PALLADIUM will show itself its most uncompromising enemy.

To the Government, as at present constituted, THE PALLADIUM will present an opposing front, because it is unconstitutional and un-British—because it is the Government of an Oligarchy, and not that of a FREE PEOPLE, subsisting rather on the exercise of Military power than on the affections of the Colonists—and because it is a living lie on the system of Colonial Policy conceded by Her Majesty to her Provinces in America. We believe—we are sure—you desire an Administration based upon the uncorrupted principles of the British Constitution; and you have as good a right to such an Administration as the Provinces of Canada, Nova Scotia or New Brunswick. Though not so extensive in territory as either of her elder Sisters, the Island of Prince Edward has all the elements of national importance, in common with them; and the time has arrived when she should assert her claim to that position among these Colonies which her resources entitle her to maintain. And if we have life to execute the purpose we have in view, those claims shall not want an asserter or defender.

AGRICULTURE AND THE FISHERIES.

We are aware that the full development of the Agricultural and Fishing Resources of the Island is essential to its wealth and prosperity; and, in the discharge of our Editorial duties, these subjects shall often occupy our consideration.

NEWS.

A primary object of the PALLADIUM will be, to give a ready abstract of the latest News, from all parts of the world, as soon as it may reach our shores; and whenever it may be inconvenient to afford it through the columns of the regular publication, a Supplementary sheet will be employed.

LITERATURE, &c.

The lovers of *les Belles Lettres* shall ever find an amusing and instructive Miscellany in those columns usually devoted to such matters.

THE PALLADIUM will be printed on a sheet nearly as large as any of the Island Papers, and will be issued twice a week, on the mornings of Monday and Thursday. The annual subscription will be Fifteen Shillings—exclusive of incidental expenses—payable half yearly in advance. Thus it will be the cheapest Paper ever published in the Colony.

The necessary Printing Materials will be received in the course of a few weeks; and as little delay as possible will then be made before the issue of the first number.
