bless him in all his problems. The result is that we meet in an atmosphere of friendliness and confidence. I have often noticed that we are strangely attuned. Naturally sales result often far beyond my expectations. New accounts come to me in amazing and unexpected ways. Moreover, I have been privileged to help people whom otherwise I would never have contacted. It lifts business above money-making to the plane of human understanding. Several years ago I visited a western city to see the president of a large manufacturing corpora-

tion regarding a business transaction of thousands of dollars. Three weeks before he had flatly rejected a proposal I had outlined in a letter. I had utmost confidence that my plan was sound in principle; therefore, in the journey west I prayed with faith about it. I asked God to direct me, to put the mind and heart of this man in a receptive attitude to reconsider his decision; and I actually believed that he would do this for me.

Changed His Mind

Five minutes after I entered his office, the president of the company suddenly reversed himself and said: "All right, I'll go along with you on this, and I'll leave it up to you to carry out the details."

Fifteen minutes before my arrival he had advised the general manager that he was still opposed to my plan. Of course the corporation's officers were simply amazed at this sudden change of mind. To them, it was a miracle. To me, it was a direct answer to my prayers. This and many similar experiences have given me great faith in the practical results of prayer. They give me courage and self-confidence. Prayer relieves me of tension; it enables me to think clearly and to maintain a calm and confident attitude toward life. Prayer has made me more tolerant of other folks. I have learned to expect and find the good in them. This has helped me to work more in harmony with my assoc-

iates. I find that now they put more confidence in me. As God reveals Himself and His power to me more and more every day, I truly believe that I have found the secret of life. He keeps me cheerful, happy, confident, forward-looking, and free from negative thoughts. Of course, one must play fair with God when asking favors of Him; and that I have tried to do. TOMORROW — J. Edgar Hoover, head of FBI, tells what he thinks is needed in this country to turn potential young criminals toward the right. LOBSTERS RAMBLE

VICTORIA, B. C. — (OP) — Lobsters imported from the Maritimes several years ago and planted on the east coast of Vancouver Island are mighty hard to keep track of. Leslie Eyres, minister of fisheries, told the legislature they have developed successfully "but they have been constantly on the move and their present location is doubtful."

BETTER DRIVING

During 1948, 464 miles of improved surfaces were added to Ontario's highways.
