7,000 Miles.

IN MANY KINDS OF WATCHES the combined number of revolutions of all the wheels exceeds 180 MILLIONS each year, and their combined travel is OVER SEVEN THOUSAND MILES. Railway and other carriages are oiled after every long journey. Some Sewing Machines are oiled whenever used, other machinery often, and should not the continuously running Watch receive more attention in this matter than it does.

We advise that all Watches should be oiled and examined to see if they need cleaning at least ONCE A YEAR. By this means the liability to wear is lessened, and the Watch will last longer and give better satisfaction.

WATCHES, CLOCKS, CHRONOMETERS, BAROMETERS and MUSICAL BOXES cleaned and repaired.
