THE DAILY EXAMINER

THE LEADING DAILY NEWSPAPER OF P. E. ISLAND. A special every afternoon, from the office of the EXAMINER PUBLISHING COMPANY, in the London House Building, Queen Street.

RATES OF SUBSCRIPTION. IN ADVANCE. ONE YEAR, \$2.00. THREE MONTHS, \$0.75. ONE MONTH, \$0.30.

ADVERTISING RATES. For small advertisements which are ordered for only one or two weeks the charge is cents per inch for the first insertion, and 6 cents for each continuation.

For larger notices inserted unless paid for at the rate of 10 cents per line, and under no circumstances will such paid notices appear in the local column.

Special discounts made on all advertisements connected with Church Fairs, Bazaars, Picnics, etc. No notices will be inserted with the same unless the regular rate of 10 cents per line is paid.

That THE EXAMINER is considered by our Merchants and Manufacturers to be the leading newspaper in P. E. Island, and consequently the most valuable advertising medium through which to make their announcements public, is abundantly proved by the fact that in order to accommodate our advertisers we have been compelled to enlarge the paper to its present size.

THE DAILY EXAMINER is for sale by the following agents: M. J. J. Walsh, Electric Bookstore, Summers Street, St. John's, Nfld.

W. S. Sturtevant, St. John's, Nfld. Hon. D. Gordon, Georgetown, N. S. D. A. Egan, St. John's, Nfld. A. J. McNeill, Stanley Bridge, N. S.

The Weekly Examiner is issued every Friday morning from the publishers' office. It is made up of matter which has appeared in the Daily editions, and is a first-class weekly newspaper—interesting and full of the latest news.

The subscription for THE WEEKLY EXAMINER, sent post paid to any part of Canada or the United States, is one dollar per year.

Advertising rates on the same scale as given above for THE DAILY EXAMINER.

ADVERTISE IN THE EXAMINER

Character Read in the Palms—By Studying the Features of Your Friends' Hands You May Learn their Characters—How It is Done.

Whether there is anything of truth in the art of palmistry or not is a question difficult of decision; however, for those who may care to send their wits in this direction, most of the principal points from a recognized authority have been gleaned.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectively cleansing the system, expelling acids, loosening and softening and permanently curing constipation.

It is sold in 75c bottles, but it is manufactured by the California Fig Syrup Co., only whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not be misled by any substitute if offered.

Shipped per steamer Northumberland Cameron master, for Point du Chene on 7th:

67 cases eggs, \$ 331 14 lbs potatoes, 1020 21 bags potatoes, 50 208 lbs do, 40 600 lbs neat leather, 192 256 lbs oysters, 768

Shipped on same date, per bk Charles E. Lafarge, Read, master, for Barbadoes:

40 horses, 3500 35 cases lobsters, 175 236 sheep, 775 6085 bags oats, 12000 50 bags barley, 100 35 pigs carrots, 25 8 boxes parsnips, 18 70 bush turnips, 18 320 ducks, 96 320 geese, 160 170 turkeys, 145 200 hens, 30 600 pressed hay, 600 1077 tons coal, 2500 850 crates potatoes, 300 Sundries, 21

Per Northumberland on 9th:

38 cases eggs, \$ 180 2 tubs butter, 22 50 lbs butter, 21 10 lbs potatoes, 21 25 bags potatoes, 3 6 bbls turpins, 3 27 lbs oysters, 831 3 carcasses pork, 45

Old for Boston, see Sadie, Backman, master, with 3750 bush potatoes, \$63, shipped by R T Holman; Ida M. McFadden, 1000 bush oats, \$30, shipped to New Castle by Schurman, Clark & Co.

NOTICE.

LAND SURVEYING, &c. The subscriber is now prepared to make surveys of land, and to draw plans, maps, and specifications of the properties of well-selected Colonies, Mr. Epps has provided for breakfast and supper a delicately flavored beverage which may save us many heavy coats' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease.

By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the properties of well-selected Cocos, Mr. Epps has provided for breakfast and supper a delicately flavored beverage which may save us many heavy coats' bills.

It is in accordance with natural laws. Rain and sunshine seldom appear together, and further, when nature waters vegetation the atmosphere is filled with moisture. Pool water and water are good for the garden, and soap suds are good for the laundry, and a little water only increases the heat and has a tendency to make the soil more compressed and drier than before.

The most of our soils are more or less calcareous, and the action of the sun's heat has the same effect on heat upon limestone. The carbonic acid is expelled, and when brought in contact with moisture heat is generated, and unless sufficient water is applied to overcome the heat vegetation suffers. A sprinkling of water never be used in time of drought, unless the soil around the roots of the plants is at the same time thoroughly soaked, and the watering should always take place after sunset, when the dew has begun to fall.

KNOWLEDGE

Brings comfort and improvement, and tends to perfect enjoyment, when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectively cleansing the system, expelling acids, loosening and softening and permanently curing constipation.

Hard hands love adventure and travel; soft hands are content to hear of these things; hard hands may be strong in their friendship or love without much show of tenderness, while soft hands, more demonstrative, will not be so firm of affection and violent passions.

Now having some idea of the size and texture of the hand we will next look to its shape. A hand with smooth pointed fingers has little order, but if smooth and square at the ends the very slight and idea of order is pleasing.

Knotty fingers indicate order, logic and a bit of suspicion in the character. —New York Advertiser.

TABLE MANNERS.

In the Old Days of Hard Eaters and Hard Drinkers.

Bread, milk, butter and cheese were the staple articles of food, bread being the chief. "A domestic was termed a man's 'half-oaten' or 'loaf-eater'."

Bacon was the principal flesh food, and other meats were also salted. Hence boiling was the common form of cooking. The seven boiled their guests. The knives of a late period resembled modern razors. One in the Cambridge Museum was labeled "A Roman razor."

After dinner the cloth was cleared, hands were washed, as before the meal, and all commenced drinking. King Edwy left the cup for the society of his newly made Queen, Dunstan forcibly dragged him back to the guests, because it was gross disrespect to leave off early after dinner. The cups were often of precious metal, curiously engraved and of much value, and were specially left in will. The Abbey of Ramsey thus received from the Lady Ethelgiva "two silver cups for the use of the brethren in the refectory, in order that while drink is served in them to the brethren at their repast my memory may be more firmly imprinted on their hearts."

In pledging they always kissed. Story-telling and singing in the humbler gatherings were partaken of by turns. In this way Caedmon, the Anglo-Saxon Milton, was first made aware of his poetical powers. Dancing was expressed by words meaning hopping, leaping, tumbling. It appears, therefore, to have been a somewhat violent exercise. The mirth among the men was often coarse to obscenity, and scenes occurred in the halls which may not be described. In some cases lands were granted to vassals on conditions which would degrade the roughest London costermonger. The ladies modestly retired early from these orgies, which frequently ended in quarrels and bloodshed, and in their tower, which was a chamber built separate from the hall, amused themselves undisturbed by the vassals.

The tower was furnished with a round table, stools and generally a bed. Chairs were for the great. The bed was a sack filled with straw and laid on a bench, hence the words bench and straw were commonly used for bed. When the bed was to be made, they took the bed sack out of the chest, filled it with fresh straw and laid it on the bench in the recess of the room, provided with a curtain. Bedsteads were rare, and only used by people of rank.—Westminster Review.

Watering gardens. As commonly practiced, is an absolute injury to vegetation, for the reason that it is not done plentifully enough. When the earth is dry and hot the application of a little water only increases the heat and has a tendency to make the soil more compressed and drier than before.

The most of our soils are more or less calcareous, and the action of the sun's heat has the same effect on heat upon limestone. The carbonic acid is expelled, and when brought in contact with moisture heat is generated, and unless sufficient water is applied to overcome the heat vegetation suffers.

A sprinkling of water never be used in time of drought, unless the soil around the roots of the plants is at the same time thoroughly soaked, and the watering should always take place after sunset, when the dew has begun to fall.
