

Bagnall - McCreedy Wedding

A pretty wedding of wide interest was solemnized in St. Anne's Parish Church, Fredericton, when Joan Frances McCreedy, daughter of Mr. and Mrs. J. E. McCreedy, of Saint John and Rousesay, became the bride of Richard Herbert Bagnall, son of Mr. and Mrs. Andrew B. Bagnall, Charlottetown, P. E. I.

The bride was unattended and was wearing a softly tailored afternoon frock of charcoal grey with a gathered skirt and short sleeves. Her white hat was trimmed with red cherries, her accessories were white, and she carried a bouquet of cherry red carnations.

Following the wedding ceremony an informal buffet luncheon was served at the home of the bride's parents, University Avenue, when the bride and groom were joined by the bride's mother, Mrs. W. E. Foster, rothesay, presided at the coffee cups and those assisting included two of the bride's aunts, Miss Joan Foster and Miss Charlotte Foster, Rousesay, and her four sisters, Miss Barbara McCreedy, Miss Pamela McCreedy, Miss Anne and Miss Carol McCreedy.

A number of relatives of the bridegroom attended the wedding and reception including his parents, and his sister, Mrs. G. P. Rogers. Mr. Rogers and two daughters, Miss Patricia and Miss Paula. Other out-of-town guests included Mrs. L. H. Muttart, Mr. and Mrs. Ralph G. McInerney, and Miss Mary Claire McInerney, Rousesay, Mrs. H. L. Crocker, Miss Anne Streeter, Rousesay, and Miss Jane Brennan, Saint John.

Mr. and Mrs. Bagnall left for a motor trip and will be spending their honeymoon at summer resort in the eastern United States. They will later reside in Fredericton where the groom is a plant pathologist at the Dominion Experimental Station. He is a graduate in science from McGill University and received his M. A. from MacDonald College, Quebec.

CENTRAL GUARDIAN

This column is reserved for news of local interest, but advertising of a new nature may be inserted at five cents a word, strictly payable in advance.

JIMMY'S TAXI - Phone 525. HOWARD MACINNIS FOOTWEAR at 175 Queen Street.

"PRESCRIPTION SERVICE" - Giggley's Pharmacy.

HUGHES DRUG STORE open this afternoon and evening.

MRS. JOHNSTON'S LADIES' WEAR, Clearance sale, coats, suits, dresses.

HI, FOLKS! Come to Brackley School, Thursday evening, July 31. Ice cream and cake of sandwiches. Oatmeal. In aid of Brackley W. I.

RELINQUISHES BERTH - The Swedish owned M/V Selman Thorden, Capt. G. Gustrin which after having unloaded a cargo of Fertilizer was detained here pending orders, moved into the river off Victoria Park yesterday to permit the berthing of the Minesweeper H. M.C.S. Brockville at the Railway Wharf.

LEAVES FOR TORONTO - Mr. Leaman MacLeod, Murray River, who has been employed at the Experimental Farm here for the past three years as a carpenter, is leaving to take up residence in Toronto. Last night the staff at the Farm held a farewell party for him and presented him with a well filled purse on behalf of all the employees. The party took the form of a wieners roast and singing at Stanhope Beach.

FUNERAL YESTERDAY - The funeral of the late Donald MacLean MacAusland was held from the MacLean Funeral Home yesterday afternoon. The services were conducted by Rev. J. T. Irvin, Rev. T. A. Wilson and Rev. J. M. Sproule. Interment was in the People's Cemetery. The pallbearers were, Percy Down, J. W. MacGregor, Robert Duncan, William MacLeod, William MacAusland, Harry MacAusland.

VISITED CITY - Mr. J. A. Bellisle, superintendent of the Experimental Farm Station, Charlottetown, in the Lake St. John District, Quebec, was a recent visitor to this city. Mr. Bellisle had attended the regional meetings of the Agricultural Institute of Canada in Fredericton, N. B., last week and took the opportunity of visiting the various Experimental Farm stations in the Maritimes. Besides calling here he also went to the Farms at Kentville and Nappan, Nova Scotia.

BLIGHT DANGER LESSENER - The type of weather that has prevailed in most districts during the past week, states the Weekly Potato Bulletin, has not been conducive to the development of the late blight organism. With the exception of certain coastal areas where fogs may occur, applications of fungicidal sprays may be suspended until moist conditions return. The weather however is favourable for the development of potato insects and it may be necessary to apply a straight DDT spray to keep them under control.

PERSONALS - His Honour Lieutenant Governor Frowse is at present undergoing a checkup in the P. E. Island Hospital.

Mr. Richard B. Johnston, attorney of Boston, a son of the late Mr. J. J. Johnston, K.C., of Charlottetown, has arrived on a Charlotte visit and is staying with his brother, Mr. Gerald Johnston and Mrs. Johnston, Rochford Street. Mr. Johnston is accompanied by his wife and young son, James. They will spend several days here.

Mr. Charles Campbell of Wollaston Mass., accompanied by his grandson Charles, left on return yesterday morning after having enjoyed three weeks vacation with relatives and friends on the Island. Mr. Campbell, who is a former resident of Colville Road, was accompanied as far as Moncton by Mrs. W. H. Beaton of the city.

TWO AIRMEN KILLED When Plane Crashes - TORONTO, July 29 - (CP) - A chartered plane crashed and burned today bringing the death of two airmen. The plane successfully landed at the airport village of Malton. The plane crashed 200 yards from the village, 10 miles north of here.

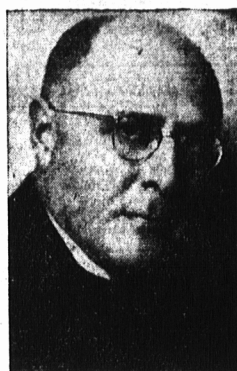

Killed were the pilot, Cyril Fairhurst, 35, of suburban North York and formerly of Windsor, Ont., and co-pilot Robert George Tomlin, 27, of suburban Willowdale. One engine coming was seen to fall off soon after the take-off. The twin-engine Cessna hit hydro wires and plummeted to earth amid a series of explosions.

Half an hour after the crash the plane was still burning. The plane was owned by Sanderson Aircraft Limited, Malton, who employed both men.

IN MEMORIAM - In loving memory of my dear Father Duncan Campbell, who passed away June 6, 1951.

Deep in our hearts is a picture. Worth more than silver and gold. It is a picture of our dear Father whose memory will never grow old.

Will Give Keynote Address At Rural Life Conference

Right Rev. Monsignor L. G. Ligutti, (above), of world-wide reputation in rural life work, will give the keynote and closing addresses of the Catholic Rural Life Conference to be held at St. Dunstan's University on August 5 and 6.

This 57 year old priest has been active in rural life work for over twenty-five years and, since 1940, has been called upon to assist in government rehabilitation work in countries all over the world.

Already this year he has been to Mexico and Central America (where he has had a leading role in seminars on rural life problems), has made an extensive survey of Near East land projects and reforms, a survey of Sicily and Southern Italy land reform needs, and has given the major address at the International Catholic Migration Commission meeting held in Spain. President Truman has recently ratified his appointment as consultant to the director of the United States Point Program, State Department.

As a member of the commission representing War Relief Services, Monsignor Ligutti has visited Germany, Austria, Italy, Switzerland, France, Belgium, and England, and assisted in distributing \$50,000 worth of seed given through the Christian Rural Overseas Program. Monsignor Ligutti will arrive in Charlottetown on August 4th, and will deliver the keynote address in St. Dunstan's University auditorium at 8:00 p. m., Tuesday evening, August 5th.

Swimming Tests At K. of C. Camp In North Rustico

The second K. of C. Camp at North Rustico held Red Cross Swimming and Water Safety tests on Friday, July 25, at 2 p. m. Mr. George MacGulgan was the water-front director assisted by Mr. Dick Noonan. Tests were conducted by the Misses Felice Arsenault and Lois Arsenault of Charlottetown.

The following thirty-two boys passed the tests: Elementary: Louis MacDonald, Kenny Burke, Wendell MacDonald, Walter Burke, Wilfred Gaudet, Byron Cutcliffe, Bob Shaw, Mike MacDonald, Desmond DesRoches, John MacNeill, Garry MacDonald, Billie Delghan, Roddie MacLeod, Bobbie McInnis. Junior: Tom Mooney, Ernest Gormley, Tony MacDonald, George Fraser, Billie Delghan, Clarence Campbell, Ivan Harper, Jimmie Morris, Bobbie McInnis, Kelvin Fraser, Billie Kelly. Intermediate: Bobbie Irving, Bernard McCabe, Denzie Richards, Sandy MacDonald. Senior: Colin MacMillan, Bernard MacNeill, Charlie Hickey.

Famous Mountie

Continued from page 1. never has been the real leader. The real leaders of the Canadian Red movement are unknown to the average Canadian. He declined to name them.

In the interview, he harked back across the 40 years since he came to Canada and went home-steading in the Peace River country of Alberta. He talked about his years in the Red movement from 1912 to 1928, about how he was invited to become a charter member in Regina and how he believes he finally was caught when a former Mountie inadvertently dropped a hint at a California beer party attended by Reds that the man the Reds called Jack Esselwell was really an R. C. M. P. agent.

IN DEMONSTRATION - In 1927 Leopold participated in a Red demonstration in Toronto and was arrested by police who didn't suspect who he was.

He was expelled from Toronto and for three years served as an orthodox Mountie in the North. In 1931 he was called to Ottawa to help prepare the cases against eight Red leaders, including Buck, and to testify against them on charges of belonging to an unlawful organization.

Modern Plant Extension Now Nearing Completion At Canada Packers Ltd.

Mr. G. E. Hartlen, manager of Canada Packers Limited is well pleased with the progress that is being made in the expansion of the company's plant, Grafton Street East. "With the additional 224,000 cubic feet of space in which to operate, I am confident that we will be able to take care of all business offered," Mr. Hartlen said yesterday.

Mr. L. White, supervising engineer of the Company, explained the new set-up, which he believes will be completed and in full operation early in October, when it is hoped that provision can be made for a public inspection of this modern plant which is expected to play a major role in the future economy of the Province.

Beginning at the top floor, the hot beef is taken to the "cooler" where a temperature of 45 degrees is maintained. When sufficient time has elapsed to obtain the desired effect, the beef is transferred to the "beef sales cooler" which is an adjoining room where a temperature of 36 degrees is called for.

The beef, which arrives at this stage of production as "sides", is here quartered, wrapped and weighed. The "hog cooler" is a room 40 x 40 where the hogs are conveyed right off the floor into a room to remain in a temperature of 36 degrees for the required period to be further processed in the pork cutting room situated in the original part of the plant, on the same floor.

Bacon comes from the cutting room to the smoke room, after which it is hung "hot" in the 20 x 20 freezer room at a temperature of 26 degrees.

The next move in the process of providing a tempting and appetizing breakfast is made by the girls in the bacon slicing room. This is a well lighted, conveniently designed place with long tables at which the girls weigh and wrap the bacon, after it has been sliced by a high-speed rotating cutter and conveyed to each wrapping position on a conveyor belt.

In this room, the temperature must be maintained at 55 degrees, and as a result the girls sometimes require to wear a sweater under the long white aprons which are regarded as essential in handling of the meat being processed.

The floors, sidewalls and ceilings of all these rooms are naturally treated to conserve "cold", and in this connection, all the trim which is open to view conceals a cork insulation preparation two inches thick. This preparation is applied in sheets, followed by a cement surface and finally, in most cases, white tiles.

The second floor contains the cooling room, and mixing and cooling departments where sausages, wieners and bologna meats are subject to the necessary cutting, grinding and mixing process by equipment specially designed for the purpose.

Three air operated "stuffers" inserted through the walls of this room, carry the prepared product to the next room where nozzle controlled fixtures inject the meat into the casings. Sausages are then taken to an adjoining chilling temperature of 30 degrees, and are finally taken to another room where they are weighed and packed ready for the trade. Bologna is treated differently as they are placed on "sticks" arranged on a cart and taken to the cooking tank, after which they are waxed and placed in the "wiener-bologna" cooler room.

Overhead conveyors are used almost entirely for the transport of the meats from one process to another and in the handling at every stage, the utmost care is exercised to produce an article of uniform quality and spotless cleanliness.

Will Aid Britain

Continued from page 1. rupy, Britain had halted purchases of Canadian bacon, eggs and cheese and cut imports of Canadian manufactured goods.

Even so, purchases from Canada climbed to \$313,200,000 in the first five months of 1952, up more than \$100,000,000 from \$213,000,000 in the corresponding period last year.

Sales To Canada Down - Sales to this country, on the other hand, eased to \$129,800,000 from \$184,600,000, enlarging Britain's balance-on-payments gap with Canada to \$183,400,000 from \$138,200,000.

The Canadian feeling is that Britain should relax various import controls to create a greater incentive to competition among British industries.

The Canadian view is that the controls tend to protect industries which otherwise would not be able to stand on their feet and to maintain inflationary prices because of lack of competition from other countries.

Canada likely will make her views known at a preliminary meeting of senior Commonwealth financial officials in London sometime during the next eight weeks.

Squall Hits City With Heavy Rain

Nearly one inch of rain fell during the squall which took more than an hour to pass over Charlottetown last evening. The exact figure, as registered by the recording instruments at the Radio Range Station, Department of Transport, was .84. The thunder recorded was of forty-five minutes duration and the wind velocity at times reached 30 miles per hour.

During the storm, which appears to have developed its greatest fury near the city, the house of Mr. Louis Bryenton at Central Royalty was struck, but fortunately without serious results.

Mr. Bryenton's two young daughters Gladys and Clare were in the house alone at the time, but were uninjured by the flash which demolished the radio and passed out through the roof, leaving a jagged and charred hole and a slight blaze which the heavy rain quickly damped preventing further damage.

During the storm anxiety was aroused over the possible fate of two young men who were known to be canoeing on the harbour. Enquiry at the R. C. M. P. brought the re-assuring news that they had reached shore safely.

Elementary: Leo McCabe, Laura Mizina, Linus Mizin, Cyril Rhadiki, Susan Wright, Ronnie Johnston, Rickey Henry, Tommy Kelly.

Senior: Suzanne Shaw, Evelyn MacTague, Janet Williams, David Wright, Margaret Hagerman, Bonnie Hurley, Joan Boyles. Intermediate: Edith Misener, Beryl MacLean, Barbara MacMillan, Charles Lorway. Senior: Fiona Martin.

Work On Wading Pool Is Under Way

The Kiwanis Wading Pool at Victoria Park is expected to be completed and in operation within two weeks, according to information available yesterday. The pool will be thirty feet by fifty feet with a foot high wall enclosing the whole area. A 12 foot stretch of pavement will run out from a place on which the children may rest.

Excavation for the pool was begun on Monday by Mr. H. Hewitt, technical adviser of the Donald Company who is giving his services gratis in the interest of the project, which is sponsored by the Kiwanis Club. Children up to ten years of age will be granted the privileges of the pool.

Red Cross

Continued from page 1. Russians have been successful in making the conference its more than a propaganda machine for their charges against United Nations action in Korea. Defeated on every vote, they have managed to monopolize the floor while conference leaders, fearing a Soviet-bloc walkout which they believe would cut off the last non-diplomatic link between East and West, have leaned over backwards to give them a "fair" hearing.

Some progress in Red Cross business was made at the relief commission. After two years of efforts of the World Red Cross Federation to confer with North Korea on relief shipments to that country, a start was made when North Korea Red Cross and government officials met with leaders of the League of Red Cross Societies.

The precedent-setting conference was on an informal level, and took place between Kim Min and North Korean Red Cross and government delegation chief, and Judge Emil Sandstrom, chairman of the league.

But it was the attacks of the Russians which held the main interest. At one point, Mr. Franconer, who held a "personal" statement which he said "might enlighten the Soviet delegation on how the rest of the assembly feels about the international committee.

The I.C.R.C. he said, "is for us, our mother. The national societies are the daughters of this mother."

"In most countries it is not thought that daughters should eat their mothers."

This was in reference to the Soviet attempt to scrap the international committee as "not international" and reply on the league of Red Cross Societies, made up of 10 national societies of 71 countries.

Later, the Czechoslovak delegate, Frantisek Vavrika, prefaced his contribution to the general Soviet barrage with this reply to the chairman: "In other countries it is no more customary than mothers assassinate their young girls."

The Swiss Government delegate, Dr. Victor Nef, took strong exception to the allegations against the committee. "I believe," he said, "that there is no other international body in existence today which could have worked better in two world wars than the I. C. R. C. has done."

DERBY, England - (CP) - Most Rev. Geoffrey Fisher, Archbishop of Canterbury, told a congregation here: "Because at the present time we can do almost everything but pray and calls his failings by almost every other name but sin, the Church of England is faced with a super-human task."

Will Discuss Educational Problems Here This Week

A conference between the Ministers of Education, and their Deputies, of the four Atlantic Provinces is expected to get under way here this afternoon with the arrival of representatives from Nova Scotia and New Brunswick. Here at present are Hon. S. J. Hefferton, Minister from Newfoundland, and his deputy minister, Dr. G. A. Frecker.

Representing this Province will be Premier J. Walter Jones, Minister of Education, and Dr. L. W. Shaw, the Deputy Minister and Director of Education.

Plans for the conference were first made nearly two years ago when Hon. F. A. Large was Minister of Education here. However, difficulties arose and it was shelved until this summer when Nova Scotia officials revived it. Dr. Shaw said last night that he believed the idea of such a meeting was well worth while as much could probably be gained by those in charge of education in the smaller provinces if they could meet and discuss mutual problems.

It is not expected that there will be any concrete decisions reached at the meeting as no formal agenda has been prepared. However, it is believed that the proposed talks will give all Atlantic Provinces officials a better understanding of conditions and provide a basis for future discussions.

Expected to come up for discussion are matters relating to the curriculum and text books. It has been felt that uniformity in text book would lead to lower costs for those having to purchase them as the standardized books could be bought in larger quantities by four provinces. It would also make matters easier for children leaving their home province to enter school elsewhere. There would be no unnecessary disruption in their studies if the four provinces had a uniform set of texts.

The talks by the educational leaders are expected to last for at least two days.

SYDNEY, Australia, July 27 - (Reuters) - Nearly nine inches of rain fell here during Friday and Saturday, flooding suburban homes, interrupting traffic and washing out sports events. Winds of cyclonic force along the New South Wales coast have forced shipping into shelter.

From Toronto they proceeded to Philadelphia where Dr. and Mrs. Purdie stayed with their son Rev. J. Arnold Purdie, his wife and children. Arnold, who went to school in this city now holds an important position in the Episcopal diocese of Pennsylvania.

From there they journeyed on to Wheaton, Ill. some 25 miles north west of Chicago to visit Rev. Dr. and Mrs. Cairns and their son Bruce. Mr. Cairns was formerly a student at the University of Toronto and attended public school here, also Prince of Wales College and Mt. Allison Ladies' College. Dr. Cairns is head of the history department in Wheaton College, an institution nearly a century old which has about 1700 students on the campus.

Dr. Purdie has just concluded a strenuous preaching mission in Lennoxville, P. Q. and surrounding districts.

IN MEMORIAM - MISS NELLIE MacDONALD - The death of Miss Nellie MacDonald of Glenfinnan occurred at the home of her sister Mrs. Charles MacLellan, Spring Valley on May 24th. The deceased who had been in failing health for a year, was frequently visited by her pastor Rev. Louis Callaghan who fortified her with the last rites of the Roman Catholic Church.

"Ellie" as she was familiarly known was a valued member of the community of Glenfinnan where she resided all her life and was ever ready to assist her neighbours in time of sickness.

She leaves to mourn one sister Mrs. Charles MacLellan, Spring Valley, and six brothers, Daniel, Alban, John W. of Glenfinnan, Leo J. of Mermaid, James V. of Borden and Alphonso of Roxbury, Mass.

The largely attended funeral took place on Tuesday morning, May 27th, from the residence of her son, Rev. Louis Callaghan, of the Roman Catholic Church, Fort Augustus, where Solemn High Mass of Requiem was celebrated by Rev. Louis Callaghan, D. D., assisted by Rev. Allan MacDonald as deacon and Rev. T. P. Butler as sub deacon. Present in the Sanctuary was Rev. George MacDonald. Services at the grave were conducted by Rev. T. P. Butler. The choir was under the direction of Martin Power.

The pall-bearers were Daniel MacDonell, Charles MacLellan, Donald MacDonald, J. J. MacDonald, John MacEachern and Dennis O'Shea.

May her soul rest in peace.

Card Of Thanks - The family of the late Miss Nellie MacDonald wish to thank their neighbours and friends for the many Mass Cards and messages sent them.

LONDON - (CP) - Philip Wayne, high school headmaster, told a meeting that boys of today do not think for themselves as much as boys did 20 years ago. He said: "Lack of mental enterprise may be due to films, television and lack of discipline. Visual education is a growing menace to mental effort."

Eaton Shorthorns To Be Exhibited

Six head of the best Shorthorn cattle from the Cyrus Eaton Farm at Deep Cove, N. S. will be shown at the Provincial Exhibition in Charlottetown next month, according to information received from Dr. J. P. Lantz, President of the Exhibition.

Although it is permissible under the Class A Fair regulations to enter cattle from other provinces the privilege is rarely taken advantage of and the entry of the Eaton Cattle will mark an unusual circumstance in Island showing. During the past few years, cattle from this farm have made a good impression at the Amherst Winter Fair. President Lantz advises that the cattle judging will be extended over a period of 3 days this year to eliminate some of the crowding which has been experienced in the past, when only two days were set aside for such judging.

The following employees of the Island Division of the Canadian National Railways have been awarded the Imperial Service medal:

Mr. Thomas Ambrose Doyle, 31 Grafton Street, Charlottetown, who entered the service as a machinist's helper in June 1918. He retired as a locomotive engineer in February of last year after 33 years of service.

Mr. Benjamin Franklin Sentner, New Wiltshire who joined the railways as a sectionman at Milton in May, 1916. He retired on pension in May, 1951, after 35 years service.

Mr. Duncan MacDonald, 385 Cedar Avenue, Summerside, began as a sectionman at Hunter River in January, 1911, and retired as section foreman in April last year.

Mr. Daniel Charles McAuley, Cardigan, started as a sectionman in his native village in 1917 and retired last year with a record of 34 years of service to the Railways.

Mr. Purdie was Principal of Western Bible College, Winnipeg, from 1925 to 1950 when he resigned and since has been engaged in a travelling ministry throughout Canada and U. S. A. From this college over five hundred went into Christian ministry.

During his 25 years in the College Dr. Purdie gave his services over week-ends, when at home, as honorary assistant to Rev. Canon Glover, Rector of St. Margaret's Evangelical Anglican Church in Winnipeg.

Last fall Dr. Purdie spent 79 days west of Winnipeg conducting preaching missions and speaking to students in colleges of various communions, which entailed in all preaching and lecturing 72 times. From January to May Mrs. Purdie accompanied her husband on a gospel tour which covered Toronto, Ottawa and other cities in Ontario as well as Montreal and Quebec City.

From Toronto they proceeded to Philadelphia where Dr. and Mrs. Purdie stayed with their son Rev. J. Arnold Purdie, his wife and children. Arnold, who went to school in this city now holds an important position in the Episcopal diocese of Pennsylvania.

From there they journeyed on to Wheaton, Ill. some 25 miles north west of Chicago to visit Rev. Dr. and Mrs. Cairns and their son Bruce. Mr. Cairns was formerly a student at the University of Toronto and attended public school here, also Prince of Wales College and Mt. Allison Ladies' College. Dr. Cairns is head of the history department in Wheaton College, an institution nearly a century old which has about 1700 students on the campus.

Dr. Purdie has just concluded a strenuous preaching mission in Lennoxville, P. Q. and surrounding districts.

ASK JOE! He'll tell you all about the SPORT COAT LENGTHS of genuine HARRIS TWEED MATERIAL in the Men's Wear Department. There are a number of smart patterns from which to choose and this selection includes a soft, attractive check design suitable for both men and women. The lengths are 4 yards, single width and the price per length is just 20.00. Our American friends from across the "line" really go for these Sport Coat Lengths - And they're easy as pie to mail home - Just "ASK JOE" - he'll tell you all about how to go about the necessary procedure. You'll find the genuine Harris Tweed Sport Coat Lengths and Joe in the Men's Wear Department at Holman's.

IN my "Snoop" around this morning I came upon a package in the 5 and 10 Department this morning. This cellophane package contains TWO WONDERWIFE DISH TOWELS, and believe me they do look like "Wonder Wipes". Made of sturdy woven cotton sheeting, they're pre-laundered and ready for instant use - there'll be no lint deposit on your gleaming dishes. The convenient size is 17 by 33 inches. . . . And the price for the 2 in a package is just 65 cents. The package says that these Wonder Wipes may be put in many other household duties besides being dish towels. Get a package of Wonder Wipe Dish Towels today from the 5 and 10 at Holman's.

Rich in titanium and heavy-bodied linseed oil. Produces tough, high-gloss, elastic, waterproof film for greater hiding, better coverage and years of extra wear. Self-washing - whiter white - stays new-looking longer. Also in 9 fade-proof colors.
