THE NEWLY-inducted rector of St. Paul's Anglican Church, Rev. Louis Elias with Mrs. Elias and their children Heidi and Kim are shown seated in their new home, the Rectory.

# Bishop Davis Inducts New St. Paul's Rector

Rev. Louis Elias was inducted as rector of St. Paul's Anglican Church, Charlottetown, last evening by Rt. Rev. W. W. Davis, bishop co-adjutor of Nova Scotia.

Mr. Elias, who assumed his duties here Sept. 1, succeeds Venerable J. T. Ibbott who retired after being incumbent for 19 years. Mr. Elias was formerly rector at Scotstown, P. Q.

The sermon was preached by Ven. T. J. Matthews, archdeacon of St. Francis diocese in Quebec province. Ven. J. R. Davies, archdeacon of P.E.I., and rector of St. Peter's Cathedral, Charlottetown, and Rev. Mark Ferguson, Summerside assisted in the service. Rev. A. E. Piercey, rector of St. John's Church, Milton, was bishop's chaplain.

Mr. Elias received his early education at Coaticook, P. Q., the town of his birth, and after training for a business career, he was employed in the department of statistics of an international paper company. Hearing the call to the ministry he entered Bishop's University and was later ordained deacon and priest in the diocese of Quebec.

After serving in the parish of Inverness he was selected by Archbishop Carrington for two important missionary assignments, the first involving supervision of the Quebec Labrador mission along the North Shore of the Gulf of St. Lawrence.

**IN MAGDALEN ISLANDS**

His second appointment saw him in charge of the century old Anglican Mission in the Magdalen Islands. His leadership in youth activities has brought him a prominent place in the church youth program in the diocese of Quebec.

Mr. Elias is married, and has two young children—Heidi and Kim.

Following the induction service a reception was held in the Parish Hall which was largely attended.

The receiving line was composed of Bishop Davis and Mrs. Davis, Archdeacon Matthews and the Rector and Mrs. Elias. Introductions were by the church wardens, Dr. F. W. Jelks and Kenneth Jenkins.

Refreshments were served by members of the AYPA under committee conveners, Mrs. W. R. Aitken and Mrs. M. W. Weeks. Mrs. F. W. Jelks and Mrs. W. R. Jenkins poured.

# Sherwood Sewer Line Link Refused By City

By RALPH CAMERON
Guardian - Patriot Staff Writer

Sherwood Village was refused permission to hook their newly-laid sewer line to that of the city at an emergency meeting of City Council yesterday.

The resolution, passed unanimously, stated, "that under the existing circumstances and future expectations, it is found impossible to permit connection by Sherwood sewerage with the City's combination line through Government Pond."

Councillor Elmer MacRae asked if it were possible to "leave the door open" for a future connection, but others agreed, generally, that this could not be done. Councillor Edmond Arsenault, chairman of the sewer and water liaison committee, said, "we must protect our own people. We cannot let them (Sherwood) enter a sewer line which is already overflowing."

Mayor A. Walthen Gaudet also opposed the suggestion, stating: "I feel if the door is to be opened in the future it should only be through amalgamation."

The Sherwood Village Commissioners yesterday refused comment, with chairman George Cheverie stating the matter would be discussed at a meeting of the commissioners. He indicated they "have other ideas" in mind.

While all details in connection with Sherwood's proposal have not been released, it is believed the Village Commissioners, some months ago, decided to lay the sewer line with the intention of hooking it to the city system. It is thought they were told by an engineering consultant firm that the plan was feasible, and that it was approved in principle by the Public Utilities Commission.

However, an application to city authorities for necessary permission was turned over to the Commissioners of Sewers and Water Supply, who promptly sent it to City Council, since the line to which Sherwood wished to hook on is a combination storm and sewer line. All such are installed and serviced by the City, with the Commission handling only the single sewer lines.

**FLOODING DIFFICULTY**

The line to which it was proposed to hook the Sherwood project is the same line with which local authorities have had much difficulty, owing to flooding during heavy rains and high tides.

Many complaints of the condition have been received from residents in the area of Churchill Avenue, and only this summer an extra overflow outlet was constructed at Victoria Park to handle the heavy runoff. In former years, water from heavy rains would sink into the ground, but paving of many new streets prevented much of this and forced the extra flow into the storm line

# LOCAL BRIEFS

**TEA HARVEST**

Pakistan's 1962-63 tea crop is estimated at 50,000,000 pounds, about the same as the previous season.

**RECENT GUESTS**

Mr. and Mrs. Frank Bath and Mrs. Percy Carter, Oshawa, Ont., have been recent guests of Mr. and Mrs. David Rennie, North Wiltshire.

**CORNEY FUNERAL** — The funeral for Ernest L. Corney was held yesterday afternoon from the Outcliffe Funeral Home. Service was conducted by Rev. L. R. Graves, assisted by Rev. Donald Nicholson. A solo "Beyond the Sunset" was sung by Mr. Nicholson. Pallbearers were John Gordon, Louis Gordon, Gordon Smith, Everett Lea, Stanford Gass, Samuel Condon. Flowerbearers were Ronald Cudmore, Bennett Sherren, Jack Condon, Archie MacQuarrie, John Gordon, Ray MacEachern and Lester Gass. Interment was in Appin Road cemetery.

## Scout Movement Expanding In Rural Areas Of Province

Members from three branches of the Women's Institutes of Stanhope, West Covehead and Covehead met recently with officials of the Boy Scout movement to plan for a Scout Troop and Wolf Cub Pack in that area. Hugh Lowry, district commissioner and the Provincial Executive Commissioner Gordon Kerr explained the methods used in starting rural troops and packs and pointed out that rural organization of scouting in this province has taken the place of the Lone Scout program in many areas.

In tracing the growth of rural scouting, they stated that the first rural troop and pack was started in Marshfield, York and Dunstaffnage about two years ago with ten boys. This troop and pack, under the sponsorship of the Women's Institutes, has grown to a membership of 40 boys.

The area from Fairview through to Wiltshire and Bonshaw is serviced by the Royal Canadian Legion Branch at New Haven. The membership now totals 65.

The Eldon Branch of the Royal Canadian Legion sponsor another rural troop and pack which covers the area from Wood Islands to Orwell Cove and Northam Cross. 13 school districts in all, and here over 60 boys turn out regularly some of whom travel as much as 17 miles to attend.

The most recent efforts to promote rural Scouting have been made by the Summerside District Council in the Port Hill area where one meeting has been held and it is planned to have Port Hill, Birch Hill, Arlington, Northam and Tyne Valley form another group.

Mr. Lowry assured the group at Covehead that the Provincial Council, Boy Scouts of Canada is very pleased to see the movement expanding beyond the towns and villages and hopes that many more rural areas will take advantage of this pattern of the Scout organization.

## Student Gets Scholarship

Mr. and Mrs. Martin Hynes, Summerville, recently received word that their son, Elmer, was awarded a $300 scholarship to McGill University, to be used during his studies for a science degree at MacDonald College, where he is a third year student.

Mr. Hynes is a graduate of Montague High School and Nova Scotia Agricultural College.

## United Fund Drive Makes Headway

The Charlottetown advance gift section of the Prince Edward Island United Fund has reached 73.3 per cent of its objective of $27,467 with 54 per cent of the cards turned in, it was announced last night. Approximately $21,301 has been collected.

The payroll division has reached 57.1 per cent of its objective of $46,000 with $26,302.66 collected. Only 22 per cent of the cards have been reported.

Twenty-five per cent of the objective of $7,000 or $1,751 has been collected in the Charlottetown local business division. One-quarter of the cards has been reported.

On the overall picture 31.1 per cent of the objective of $227,486 or $70,844.56 has been collected.

## Engineer To Visit Ont. Plants During Vacation

A previously planned trip by City Engineer Norman Stewart to inspect the operation and construction of civic incinerators in other cities was questioned this morning by Coun. H. E. Hyndman at an emergency meeting of the council.

The meeting had been called to discuss the application of the Village of Sherwood for permission to hook its new sewer line to that of the City of Charlottetown, and according to rule no other subject may be introduced without the unanimous consent of the Council. This was granted.

Coun. Hyndman opposed the spending of expense money on Mr. Stewart's trip and said it should only be undertaken as "a last resort' after available local information sources had been exhausted.

This view was opposed by Mayor A. Walthen Gaudet who was supported by Councillors Edmond Arsenault and John P. Nicholson. They contended Mr. Stewart already had a considerable amount of information and should have personal knowledge of the subject in order to be able to advise council when formal presentations were made by those interested in building an incinerator here.

Mayor Gaudet noted the procedure being followed by the public property committee under chairman Arthur Gormley was proper as they sought all information before making recommendations to council. Coun. Gormley said since Mr. Stewart was going on vacation in any event it provided an opportunity to "mix business and pleasure."

**SEWAGE DISPOSAL**

Asked following the meeting if he would also take time to inspect sewage disposal plants Mr. Stewart replied in the affirmative. He said arrangements had been made for him to examine such a plant on the outskirts of Toronto in a city comparable in size to Charlottetown.

The matter of a sewage disposal plant has come to the fore in recent months due to pollution of harbor waters and their closing to bathers by provincial health authorities. The provincial government is understood to be taking steps to correct a similar pollution of waters problem at its hospitals at Riverside and Beach Grove Inn through building a lagoon disposal system.

Mr. Stewart will leave on his trip shortly.

**SURVEY PLANNED**

Dr. Only Monday Health Minister Hubert McNeill, MD, announced that the provincial government had agreed to a sewage survey of Charlottetown harbor. Negotiations are continuing with three engineering firms for the survey which is expected to be completed by next spring.

The government will pay half the cost estimated to be in the vicinity of $9,000, Dr. MacNeill said.

## Crown Building Corp. To Meet

The board of directors of the Crown Building Corporation which was formed at the last session of the Legislature to handle details of the construction of a new provincial government office building has scheduled a meeting for Monday.

One of the items on the agenda will be the corporation's offer for the purchase of land in the West Kent School block area where the new building is to be constructed.

A member of the board said that offers have been made to 16 property owners. "We think," he said, "that our offers will be accepted."

## SDU Sophs Challenge PWC Class

The sophomores of St. Dunstan's University have challenged the fourth year students of Prince of Wales College to a blood donating contest to be staged during the coming Charlottetown blood donor clinics, Oct. 30 to Nov. 1.

The challenge was issued by the SDU students earlier this week, and is to be conducted on a percentage basis, and the class having the greatest percentage will be the recipients of a suitable trophy.

The sophomores will attend the clinic to be conducted by the Red Cross at the university on Oct. 30, while the PWC class will donate at the regular clinics being held in Zion Church Hall.

## Conference On Safety Is Planned

Plans are pretty well completed for the province's first conference on industrial safety to be held Thursday at the Charlottetown Hotel.

M.E. Campbell, secretary of the P.E.I. Workmen's Compensation Board, the body that is sponsoring the conference, said yesterday Frank Bellisward, safety supervisor for Canadian National Railways, Moncton, will "kick off" the conference with a series of safety films and a lecture.

"Response from Island Industry toward the conference has been very good," Mr. Campbell said. Some firms who plan to send delegates are Canada Packers, Maritime Electric Company Limited, Island Telephone Company Limited. The City of Charlottetown will send delegates as well as the local division of the federal department of transport, RCAF Station Summerside and some labor unions."

Scheduled for the conference are panel discussions, safety equipment exhibits, lectures and the showing of films.

## BLACK KNIGHTS HAVE VISITOR

The Royal Black Knights had a distinguished visitor at their meeting last night in the person of George Miller, Winnipeg, most worshipful grand master of the Royal Black Knights of British America. A presentation was made to Mr. Miller by James Crabbe, worshipful receptor of the Charlottetown Royal Black Perceptory 1302. Here Mr. Crabbe, second from right, makes the presentation while Davis Ward, left, right worshipful grand master LOL, and Gordon Ross, past grand master look on.

# Driver Is Fined $100 On Each Of 2 Charges

Convicted on two charges of driving while his abilities were impaired by alcohol, Donald Ivan MacLean, Charlottetown, was fined $100 and costs or 10 days in jail on each count, by Magistrate James B. Johnston, QC, at a special session of Queen's County magistrate's court held last evening.

Counsel for the defence was John P. Nicholson, while the cases for the Crown were conducted by Alan K. Scales.

In the first case to be heard, Cnst. Donald Sterns Webster, RCMP Halifax, told of following a 1962 black Pontiac car from Cornwall to the intersection of the Trans-Canada Highway and the Malpeque Highway.

During that time, which was on the evening of Sept. 19, the witness said that he observed the Pontiac several times travelling on the wrong side of the white centre line and narrowly missing collisions on a number of occasions, both with parked cars and with vehicles travelling in the opposite direction.

Cnst. Webster said that nearing the Malpeque Highway, he had met an RCMP patrol car and that he had signalled the driver to turn around and take over the chase.

**HIT GUARDRAIL**

He stated that the officer in the patrol car had stopped the Pontiac, and while the witness was identifying himself to the officer, the Pontiac had started to move ahead and after moving a few feet had struck the guardrail and stopped.

Cnst. Webster said that when the driver of the patrol car asked the accused to get out of his car and walk along the highway, he had noticed that MacLean was unsteady on his feet and staggered. The witness said he also detected a strong odor of alcohol coming from the breath of the accused.

Cnst. Donald Shears, RCMP Charlottetown, the driver of the patrol car, verified his being signalled by Cnst. Webster, and said that he had been unable to get immediately behind the Pontiac until reaching the Malpeque Highway due to heavy traffic.

At the intersection he pulled the patrol car in behind the Pontiac and during the quarter mile that he followed, he noticed it swerving from the centre of the highway and over to the right shoulder.

He also told of stopping the accused and of the Pontiac starting to move forward again until stopped by the guardrail. The witness also testified that the accused staggered when he walked and there was a strong odor of alcohol from his breath.

**SECOND CASE**

Cnst. Ian William Oland, RCMP Montague, who was stationed at Borden at the time of the second case to be heard, said that on the night of Sept. 8, he in company with Cnst. William Crane, was patrolling in the Victoria area, when passing through the village, a 1962 black Pontiac, had entered the highway from a side street, and in making a right turn had almost collided with the police car.

He had then followed the Pontiac, along the main street to the next turn-off where the accused had turned and proceeded one block along this street and turned left on another.

Cnst. Oland stated that he had stopped the Pontiac, and identified the accused as the driver. He said that when the accused got out of his car, when asked, he had staggered when walking to the police car, parked several yards away, and he had also detected a strong odor of alcohol from his breath.

The witness said that he had placed the accused in the patrol vehicle under arrest, and had then proceeded toward Charlottetown, but was met partway by Cnst. Currie, to whom he transferred the prisoner.

Cnst. William Joseph Crane, town constable at Borden, corroborated the majority of the testimony given by Cnst. Oland, and also spoke of the accused as being unsteady on his feet and smelling of alcohol.

Cnst. Norman Currie, RCMP Charlottetown, told of meeting the car of Cnst. Oland, and of taking the accused to Charlottetown and the Queens County jail in his car.

He testified that he had observed the accused as being unsteady on his feet and that at times he had to be assisted. He said that when the accused was seated in the back seat of the patrol car he could smell a strong odor of alcohol coming from the accused.

In both cases the accused declined the privilege of giving evidence on his own behalf and also declined to call any defence witnesses.

**HUSSEIN INVITED**

Science Now Shrinks Piles Without Pain Or Discomfort
Finds Healing Substance That Relieves Pain And Itching As It Shrinks Hemorrhoids
Toronto, Ont. (Special)—For the first time science has found a new healing substance with the ability to shrink hemorrhoids and to relieve pain and itching. Thousands have been relieved with this inexpensive substance right in the privacy of their own home without any discomfort or inconvenience.
In one hemorrhoid case after another, "very striking improvement" was reported and verified by doctors' observations
Pain was promptly relieved. And while gently relieving pain, actual reduction or retraction (shrinking) took place.
And most amazing of all—this improvement was maintained in cases where doctors' observations were continued over a period of many months.
In fact, results were so thorough that sufferers were able to make such statements as "Piles have ceased to be a problem!" And among these sufferers were a very wide variety of hemorrhoid conditions, some of even 10 to 20 years' standing.
All this, without the use of narcotics, anesthetics or astringents of any kind. The secret is a new healing substance (Bio-Dyne) — the discovery of a famous scientific institute. Already, Bio-Dyne is in wide use for healing injured tissue on all parts of the body.
This new healing substance is offered in suppository or ointment form called Preparation H. Ask for individually sealed convenient Preparation H Suppositories or Preparation H ointment with special applicator. Preparation H is sold at all drug stores. Satisfaction guaranteed or money refunded

ERROR PROOF DELIVERIES:
How to make sure you get every drop of heating oil you pay for
NOW SHELL Heating Oil is measured by government-inspected meters very much like those in gasoline pumps.
Our trucks are equipped with highly accurate meters that measure the exact amount of oil we deliver to your tank.
The meter prints the amount of oil delivered on a receipt. You get the printed receipt as a permanent record.
Metered deliveries are one of the many advantages we offer our heating oil customers.
For complete details, call us today.
