down to the real job ahead. Look forward to some interesting experiences during the summer—especially where travel or change of living environment are concerned. It is possible, too, that you may be drawn into public life—with most enjoyable results.

A child born on this day will have an exceptional sense of values, integrity and an idealism bordering on the altruistic.

Circumstances beyond your control may result in some emotional tension on Monday, but try not to be disturbed. There is a tendency to discord and wrangling, but if you make up your mind to ignore it in others, you can go about peacefully in the realization that, unless you allow them to, these disturbing factors cannot affect either your domestic or your business life.

It is not a good day in which to make vital decisions or to engage in financial speculation. Stick to the routine where business is concerned and, in social or domestic matters, go out of your way to do a kindness. It will more than offset the tensions and conflicts

about you.

If It Is Your Birthday

If Monday is your birthday, the year ahead may offer some conflict, but it need not be serious. Plans you have made may meet with some opposition, but a program of "give and take" should resolve such opposition. Compromise where you find it feasible, but do not yield on any point which involves integrity or a definite principle.

You have an innate sense of values, but sometimes your over-confidence antagonizes others. Try to see the other fellow's viewpoint and enmity turns to friendship. Following such a program, you should find your goals much nearer by late summer.

Late fall and early winter should be excellent periods where finances are concerned. Family relationships should be unusually pleasant throughout the year.

A child born on this day will be mentally brilliant, full of self-confidence, but inclined to be tactless in dealing with others.

sioned with him for his "inhumanity to" woman; could have cheerfully have taken him across a knee and spanked him—and his sex — for every heart-ache and disappointment of women-kind, suffered on their behalf.

"They're gone!" he announced. "Come out and play!" A shy and happy smile wreathed her features; the crayon dropped; jacket and kerchief were donned and overboots.

"What do you say," he proposed with what Pat would term "the swatest smile," to having another look in at the lamb! Aren't they" and his tone was like honey, "four of the prettiest things!"

Yes... wait and forgive... And even after my course is run. And even after my return to "whites"... who knows?

"I shall walk gently dear; In shoes as soft as cobwebs, I shall tread The airy spaces to your side. Swifter than starlight and as sure, I'll come. Yet, lest some sudden sound betray My coming — lest some unquiet step of mine Should give you fright, I shall walk gently, quietly, Beside your path tonight.

I shall speak gently, dear, In tones that are as one with wind and rain; Lest in suddenness of voice, your heart Should be alarmed, I shall refrain From saying overloud, my eager word. Yet, hearing wind in leaves, know then that I Once more have journeyed to you through the sky."

BARBARA ELLIS
Cream nail polish remover, according to Barbara Ellis, is the most wonderful invention since nail polish. It is called Heluan. Miss Ellis, leading Canadian fashion model, claims that Heluan is a complete cosmetic... a time saver too. It softens cuticle, conditions nails, removes polish and forms a polish base, all in one operation. It's really revolutionary! Best 50¢ investment Miss Ellis ever made. You'll find Heluan at most drug and cosmetic counters.

away from the children all day and cannot hold children to him as can the mother.

Of the total number of cases (170) only 25 per cent had graduated from high school, about 10 per cent had attended college for some time.

Although these narcotic clinics have only been in existence for a short time, eleven months, even with this limited experience it has been shown, to date, that 82 per cent of the persons treated in the clinics has not returned to the use of narcotics.

As with alcoholism, there is some slight, or, perhaps, large inadequacy in the make-up of the constitution in narcotic addicts that induces them to take the "easy" road out of their difficulties instead of fighting or working their way out.

This percentage of cases reclaimed from narcotic addiction is about the same as that reported by Alcoholics Anonymous whose members, realizing that while they do not lack brains (many have a very high Intelligence Quotient), they do recognize their constitutional lack or inadequacy.
