FACTS, WITH-OUT COMMENT.
THE PUBLIC SHOULD KNOW THEM.
NEW YORK, October 10, 1852.
Mrs. Henders, No. 119, St. John's street, writes
us that she has been troubled with worms for
some five years, and that she used one vial of
Dr. M'Lane's Celebrated Vermifuge, which
brought them out in five large worms. Her usual
good health is immediately returned.
Mrs. Quigly, No. 182, Essex street, New
York, under date of November 23, 1852, writes
us, that she had a child much afflicted with worms
for better than two months. She procured a
bottle of M'Lane's Vermifuge, and administered
it. The child passed a large quantity of worms,
and in a few days was hearty as ever. It had
been, indeed, with such testimony before them,
should not hesitate, when there is any reason to
suspect worms, and lose no time in procuring
and administering Dr. M'Lane's Vermifuge. It
never fails, and is perfectly safe.
P. S. This valuable preparation, also Dr. M'
Lane's Celebrated Little Pills, can be had at all
respectable Drug Stores in this City.
Purchasers will please be careful to ask for,
and make none but Dr. M'Lane's Vermifuge. All
others, in composition, are worthless.

The Great American Hair Tonic.
Bogle's celebrated Hair Tonic, for the growth
and preservation of the hair, is well known to be effi-
cacious in all cases of baldness, and is the only
one that gives to the hair a permanent existence, since the
ingredients are all of a natural origin, and none
of which have been used, whilst Bogle's Hair Tonic
will fluid with a perspiration never obtained by any
artificial means, and is "cooling and soothing."
There is no itching, which our other Hair tonics
can be cured by this incomparable preparation. To
be used by invalids, and on children's heads, it has
been found to be a foundation of a good head of hair. It is now pre-
pared by the W. M. J. of the Great Britain,
and commands an extensive sale throughout Europe.
Bogle's Electric Hair Oil, used on the scalp
will impart a beautiful bloom or glow, the amount it
is applied, liberally drying the hair without staining
the skin and leaving the Hair soft and glossy without
injuring its texture in the least, a decided superiority
over all other Hair Oils.
Bogle's Ankle Lining compound renders that
usually unpleasant operation (shaving) a decided
luxury.
Bogle's Medicines remove Freckles and tan from
the face in the shortest possible time, and is acknow-
ledged to be the very best article for beautifying the
complexion.
To be had, wholesale or retail, of W. Bogle, 227
Washington street, Boston, U. S.

GILMAN'S HAIR DYE.
The best article ever used, as hundreds can testify
in all city and surrounding country. Read Gil-
man's Receipt for coloring the hair, and you will
change the hair to a brilliant jet Black or glossy
Brunet, which is permanent—does not stain or
dry the hair, and is not. No article ever inven-
ted will compare with it. We would advise
all who have gray hairs to buy it, for it never fails.

A POSE.—A calm, blue-eyed, self-
composed and self-poised young lady,
received a long call from a prying old
spinster, who, after prolonging her stay
beyond even her own conception or the
young lady's endurance, came to the main
question which had brought her thither—
"I have been asked a good many times, if
you were engaged to Dr. C.— Now, if
you folks inquire again, if you be or not,
what shall I tell 'em I think?" "Tell
them," answered the young lady, fixing
her calm blue eyes in unblinking steady-
ness upon the old spinster, "that you are
interrogator," "tell them, that you think
you don't know, and you are sure it is none
of your business."

SUMMARY OF NEWS.
The Swedish journal Svenska Tidningen, of
25th Sept., contains the following extract of a
letter from Lissa, on 1st Oct. at Novogorod, the
day after the bombardment closed. The destruc-
tion was frightful, and the aspect of the place
was unrecognizable. Only six houses remain-
ing standing. The monument of Evarest was
surrounded with fragments of shells, splinters of
stones, and fallen beams, but not one of it injured
the monument. A wonderful escape seems to
have occurred. This letter, written by a
Swede, most probably is pretty good proof of
the effect produced by the bombardment.

CHEMAN HONOURS.—Major general Hugh
Ross, C.B., who has since the commencement
of the war been H. M. J.'s principal commis-
sary at the headquarters of the French Army,
is awarded the rank of Knight Commander of
the Bath; and the Commission of the Bath
has been conferred on Lieutenant the Hon. St.
George Gore, second commissioner at the head-
quarters of the French Army, and Lieutenant-
Colonel, military commander at Paris, both of
whom have served with the French Army
throughout the greater portion of the Crimean
campaign.

We have reason to believe, that the Lords of
the Admiralty have decided upon recommending
to Her most Excellent Majesty, that a medal should
be forthwith issued for the services of the officers
and crew of the British ships, at the organization
of the army in the Crimea. The 50th, of
course, include the whole of the naval brigade,
which earned for itself an honorable renown in
the Crimea.

The Steamer *Orway* which arrived from
Newfoundland on Thursday morning, 2nd inst.,
is sorry to say, that a serious fire occurred at St.
John's on the evening of the 18th inst. It broke
out in Yarran's Town, and spread with great
rapidity. The *Orway* says—"It is impossi-
ble to ascertain the number of families render-
ed homeless by the fire. Upwards of 120 black
chimneys now standing, show that over 200
tenements were burnt, in most cases one chimney
serving two houses. We cannot therefore re-
member under 400 families burnt out, all of the
contents of a great many of the premises, and the
number of whom lost most of their furniture.
We cannot hope, something will be done by
the government to meet their immediate wants,
and that they can be otherwise provided for."
—Halifax Vestment.

Advance Payment for Newspapers.—No sub-
scriber who retaining will object to the pay in-
advance system. Those who wanted to read *De-
jany* which flow to pay in advance, and what
concerns the Editor, and what concerns the
which flow from Editorial pens? You can't take a
step in a railway coach, or fly from the track
in a railroad car, without paying in advance for
the risk you take. You can't attend a musical
concert, or literary lecture, or see Tom Thoms,
or the Niagara Falls, you must take down your
money, before you enter the door, and pay the
threshold. Nay, if any one has so little regard
for his own character, as to want to read Bar-
naby's auto-biography, he must first pay for it,
and then take it home, and only pay in ad-
vance for a paper for which at a price on the
very brink and utmost verge of prime cost.

CENTRAL AMERICA.—TRUXILLO news is to
Sept 17. Internal war continued at Rodas.
All the departments had submitted to President
Cabrera, except Oajaca and Yucatan. Gen. Al-
varez, with 500 troops had marched against the
revolutionists. A fight had taken place between
some of the inhabitants of Truxillo and a band of
robbers who had been told, and that place,
in which the robbers were defeated, and the
chief executed and shot. A meeting of Ameri-
can residents at Truxillo had been held, and the
U. S. government had been petitioned for a
man-of-war occasionally touch there for protection.

In some places on the Austrian military front-
iers, one fifth of the entire population has been
carried off by cholera, and in the village of
Luz, one-third of the inhabitants fell victims
to the disease.
