

Goes Fishing On 101st Birthday

OSHAWA, Ont. (CP)—Known to everyone here as "Granny," Mrs. Jennie Wilson, played hockey from the formal festivities of her 101st birthday celebration to go fishing in Oshawa harbor.

Asked what luck she was having, Mrs. Wilson smiled. "I'm not worried about catching anything," she said. "I've already got 12 grandchildren, 11 great-grandchildren and three great-great-grandchildren."

As a young girl, she was so doted on by her mother that she predicted she would "never see 20." She attributes her long, and happy life to "keeping busy doing things."

She still plans the meals for the six adults and three children with whom she makes her home.

INDEPENDENT WORKER

"She gets her own breakfast, washes her own dishes, makes her own bed, and even goes shopping for a new dress, which she selects herself," said Mrs. Jennie Malloy, a 21-year-old granddaughter.

Mr. Jackson has made many successful concert tours in both the Maritimes and Quebec. More than one adjudicator has termed his performances as "brilliant and beautifully poetic in lyrical passages."

Mr. Allison Patterson of the faculty of Music at Mount Allison will accompany the concert party.

MOUNT A. CONCERT PARTY

Pictured are the members of the Mount Allison Concert party which will appear at Hertz Memorial Hall on Thursday night. They are Evelyn Hope Anderson, soprano; Stellarton, N.S.; Edward Eagles, violinist; Moncton; Dale Jackson, Magog, Quebec. They are being sponsored by the Scouts and Cub Scouts of Trinity Church, Charlottetown.

The group is described as "exceptionally personable young artists." Mr. Eagles is what might be termed the veteran of the group and his violin solos have been heard by many large audiences throughout the Atlantic Provinces. He has shown great promise in the mastery of the violin.

British Models Win Approval At Fashion Show In Moscow

MOSCOW (Reuters)—Six lovely British mannequins brought surprised murmurs from 1,000 Russian spectators at the opening here Saturday of a three-week display of British fashions.

Bulgarian Letter To St. Laurent Asks Canada Cut Down Arms

MOSCOW (Reuters)—Premier Nikolai Bulganin has sent a letter to Prime Minister St. Laurent urging Canada to follow Russia's example and reduce armed forces and the Soviet news agency Tass said Sunday.

To Study Radio Waves From Sun And Stars At U. of T.

(Prof. Donald MacRae referred to in this story from the Toronto Globe and Mail is a son of the late Dr. Donald A. MacRae, Dean of Cosmo Cove, P.E.I.)

Some odd-looking antennas and soup bowls reflecting will be put up around the David Dunlap Observatory at Richmond Hill this summer so that scientists will be able to tune in on radio waves from 600 million, million, million miles away.

The antennas will be the external section of a radio telescope for studying radio waves from the sun and stars.

The important new research project has been initiated by the departments of astronomy and electrical engineering at the University of Toronto. It will be financed by the National Research Council.

The project originated last fall with two young professors, Dr. Donald MacRae of astronomy and Dr. George Sinclair of electrical engineering.

Explaining the project, the professors said radio waves are similar to light waves, but much longer. Those to be studied are comparable in length with radar and television waves.

In some way not yet understood, the radio outbursts from the sun, and sunspots on its surface, are associated with the breakdown of long distance radio communication disturbances and cosmic rays. This makes the sun an important object of the research with the telescope.

Dr. MacRae said the visual examination of radiations from the sun gave only part of the story. The invisible radiations, including radio waves, are just as important as the visible ones.

Solar activity, which occurs in cycles, will reach a peak during 1957-58. The rise to the last peak was toward the close of the Second World War, when it was discovered that solar radio radiation was seriously interfering with radar, Dr. Sinclair said.

In addition to the peak of solar activity, the work will have added significance because it is expected to be underway this summer, almost a year before the beginning of the International Geophysical Year.

Dr. MacRae explained that the result will contribute to the world-wide effort to study the terrestrial phenomena.

The telescope will look like a cluster of television antennas mounted so they can swivel to follow the sun or the stars.

Dr. Sinclair said the antennas must be highly directional, to increase signal strength while eliminating local radio waves. Housed near the antennas will be extremely sensitive receivers and instruments to record the bursts of celestial radio static.

After the solar research has been started, it is planned to explore the strength of radio signals from more remote objects, the radio stars. One of the brightest of these is 600 million million miles away at the extreme limit of the reach of the 200-inch telescope. Others may be much farther away. Larger and more complicated radio telescopes are planned for this phase of the research project.

Claims Reds In U.S. Plan To Go Underground

WASHINGTON, (AP)—The House of Representatives committee of un-American activities said Saturday it has obtained documents showing that the Communist party in the United States plans to transfer its actual party power underground.

The committee said the Reds plan to strengthen their "legal" party organization as a facade but place actual control of Communist activities in the hands of little known undercover leaders.

Known Communist party members will be kept in the open party according to the plans, the committee said, and those not identified openly as Communists will staff the underground apparatus.

The plans call for creation of a complete underground press for publication of concealed Communist literature.

"At the same time, the underground apparatus will continue the party's program of subversion to destroy the U. S. government."

The committee said the Communist strategy is contained in a report entitled "The Communist Conspiracy" which the group is publishing soon. The report was described as a collection of source material on the strategy and tactics of world communism from the time of the Soviet revolution in 1917.

The particular document on going underground, the committee said, was drawn up in the 1930s in preparation for action if the time came.

The party now is putting the plan into effect, the committee said.

Announcement

W. J. Henning, Vice President of Robin Hood Flour Mills Limited, announces the appointment of Mr. Lorán W. Farris to the position of Maritime Sales Manager with headquarters at Moncton, New Brunswick.

Mr. Farris began his career with Robin Hood in 1934 and was appointed Maritime Assistant Sales Manager in 1946. He served with the Royal Canadian Air Force in World War II with the rank of Flight Lieutenant and was awarded the Distinguished Flying Cross.

LONGEST RIVER

The total length of the Nile river is reckoned at 4,145 miles, compared to 3,900 for the Amazon.

Happy Family Ends Mortgage Worries

New Plan Will Ensure Mortgage is Paid Off! Last summer, a young couple bought a home in a quiet suburban area for \$15,000. They paid \$5,000 down, with a 20 year mortgage for \$10,000. As things stand, they should have no trouble paying it off.

The husband is taking no chances. He has a Confederation Life Mortgage Insurance Plan, with a Total Disability Clause. For \$8.31 a month Confederation will pay off his mortgage in case of death. If he becomes disabled, the policy remains in force at no cost to him.

Yes, for less than 1% of your initial mortgage, based on age 35 or under, you can protect your family from foreclosure at the time of your death.

Features of the Confederation Life Plan

- 1. This Mortgage Insurance Plan may be purchased on a 15, 20 or 25 year basis.
2. The cost reduces in later years.
3. After the mortgage period you may continue the protection at reduced cost, or receive a cash payment.

Mrs. Annie Darrach Heads Zion Presbyterian W.M.S.

The annual meeting of Zion W.M.S. Auxiliary was held on Thursday afternoon with a good attendance. The President, Mrs. J. G. Dennis, treasurer Miss Ida MacDougall, message secretary, Mrs. A. G. King, H.H. Secretary Mrs. Miller MacFadyen assisted by Mrs. A. MacDougall and Mrs. S. MacLean; pianist, Mrs. J. Macinnis.

The study period was on what is stewardship? Those taking part were: Mrs. N. MacFadyen, Mrs. S. MacLean, Mrs. Dixon, Mrs. Larter, Mrs. Pickering, Mrs. A. MacDougall and Mrs. Ballingall.

Mrs. King commented on the work of the Mission Band and the leadership given by Miss Ferguson and Miss Irene Morrison. The splendid sum of \$226.49 was given to the W.M.S. for their work in spreading the gospel. No further business the meeting closed by singing hymn 481 and the Mizpah benediction.

The Presbyterian is to meet this year on July 10th in Murray Harbour North Church and the president hoped for a good attendance from Zion.

The annual reports were read as follows. The secretary's report read by Mrs. Larter; Treasurer by Miss Ida MacDougall; the mission band read by the secretary; The H.H. by Mrs. Sutherland MacLean.

Throughout most of the showing, however, the spectators were too busy making sketches of the dresses to display many outbursts of enthusiasm.

OFFICERS Mrs. White presided over the election of officers which were as follows: President, Mrs. Annie Darrach; 1st vice-president, Mrs. J. Martin; 2nd vice president, Mrs. A. White; secretary, Mrs. J. G. Dennis; treasurer Miss Ida MacDougall; message secretary, Mrs. A. G. King; H.H. Secretary Mrs. Miller MacFadyen assisted by Mrs. A. MacDougall and Mrs. S. MacLean; pianist, Mrs. J. Macinnis.

British Softens Middle East Peace Resolution

UNITED NATIONS, N.Y. (AP)—Britain softened its Middle East peace resolution Friday to meet objections by Russia, Iran and the Arab states. But the Arabs vowed they would continue to fight the proposal, Russia and Iran said Britain 'id n't go far enough.

The Western delegates were "frustrated at the heat with which Syria, Jordan, Egypt and Lebanon assailed the British resolution in Security Council debate. The West had regarded the solution simply as a measure endorsing Secretary-General Dag Hammarskjöld's peace mission to the Middle East and asking him to continue his "good offices." That means further efforts to lower tensions.

The Arabs, however, shot holes in it from the start and gained powerful support from Russia, Iran and Nationalist China. Sir "Ierson" Dixon of Britain agreed to make a minor change definitely holding truce observation teams to armistice boundaries. But "Ixon refused to delete a paragraph lifted partially from the British - Russian declaration of Khushchev visit in England. This paragraph is, eadly obnoxious to the Arabs. It cites the necessity of creating conditions in which peaceful settlement on a mutually acceptable basis of the dispute between Isra ' and the Arabs can be made.

The leader of the Arab opposition, Ahmed Shukairy of Syria, said Thursday the resolution would halt all efforts for peace by Hammarskjöld. He repeated his statement Friday and appealed to Dixon to revise his resolution.

Scholarships Awarded By Robin Hood

Robin Hood Flour Mills Limited has announced the award of four Robin Hood scholarships to sons and daughters of its employees.

The winners are Richard A. Elliott, Humberstone, Ontario, Barry W. Holt, Fort William, Jean P. Ruel, Quebec, and Allan L. Engler, Moose Jaw.

Each scholarship is for \$250.00 or as much larger as necessary to cover tuition fees up to \$500.00. The scholarship selections were based on a nation-wide competition and were made on the basis of scholastic ability, character and leadership. The selection committee comprised of prominent educators connected with Robin Hood Flour Mills Limited met in Montreal.

LONG LINK Successful wireless telephone communication between England and Australia was established in 1904.
