Civic Elections.

We have nothing to add or take from the remarks already made by THE EXAMINER concerning the elections in wards three and five, which take place tomorrow.

An Unfortunate Position.

The politician, as well as other men, has need to be careful in the choice of his associates. Mercier is as a millstone upon the neck of Mr. Laurier.

"At the request of my chief, Hon. W. Laurier, I come here to respectfully but firmly demand that you support the Opposition candidate in this struggle."

Leader of the Liberal Unionists.

It was expected that the Right Honorable Joseph Chamberlain would succeed Lord Hartington as Leader of the Liberal Unionists in the House of Commons.

THE MARKETS.—Considering the almost impassable state of the roads the attendance at the market to-day was large.

ENTERTAINMENT.—A grand musical and literary entertainment, under the auspices of the Young People's Society, will be given in the Hall, St. Peter's Road, on Thursday evening, 11th inst.

So Near and Yet So Far.

The interesting astronomical event of this month was the conjunction of Venus and Jupiter which occurred on the morning of the 6th.

During the night when they were beyond our view Venus approached Jupiter and at the time of the conjunction—about 5 o'clock on Saturday morning—they were so close together as to seem but one star.

CORSETS!

30 DIFFERENT MAKES

To Select From,

JAS. PATON & CO'S.

The Watchspring CORSET,

Sliding and Detachable Watch Springs,

Superior to Whalebone, Horn, Reed, Cord or any other compound of Mexican Grass.

This is the most PRACTICAL and COMMON SENSE invention of the present period.

The Springs are very FLEXIBLE, and LIGHTER and yet MORE DURABLE than any stiffer heretofore used in Corsets.

They are not fixed or fastened permanently in the pockets, BUT ARE SUSPENDED, yielding to every CONCEIVABLE MOVEMENT of the body—whether bending, sitting or stooping—and CANNOT PENETRATE the material of the Corset.

These Springs are UNBREAKABLE, of which any lady can convince herself by simply removing one of the SPRINGS and testing the same.

The Corset is so constructed that it can actually be STIFFENED or BONED by the wearer AT HER OWN PLEASURE. If the Corset should hurt on the side, a complaint so general to other Corsets, THE SPRING CAN BE REMOVED.

The WATCH SPRING, owing to the many superior advantages which it possesses, is to-day the CHEAPEST and MOST DURABLE Corset ever offered to the public, and one which is MOST ACCEPTABLE to the wearer.
