BOUND FOR ADVENTURE

Bachelor Jack Norris, 50, and his two attractive crew-members set sail for the south seas last weekend. Donna Bjornson, 21, and Cathy Hagen, 22, (left), both psychiatric nurses saved for a year for their share of the $2,000 needed for the trip. Norris built the 18-ton 43-foot schooner Aria in seven years. When the trio's money runs out the girls will go ashore to work while Norris will charter the Aria for fishing trips. (CP WIREPHOTO)

GLEAMING NEW SCHOOLS AWAIT ARRIVAL

100-Year Tradition To Be Broken As City Students Resume Studies

BY STAN BOWLES
Guardian - Patriot Staff Writer

With the opening, next Tuesday, of the 1962-63 school year Charlottetown residents will see a tradition which has stood for close to 100 years, broken.

This old tradition is the formation of schools whereby in two of the city's elementry schools, enrolment was either restricted to all girls or all boys. The schools in question are Rochford Square, for girls, Queen Square, for boys.

At the former, this change will not effect all grades, but accommodation will only be provided for boys in grades one and two. At St. Jean, which has been built to replace Queen Square, the intergration will occur in all grades, from one to six.

Some 200 girls will attend St. Jean under this new system, up to grade six. In addition due to the crowded condition of Birchwood High School, a number of grade seven girls from that establisment are to be provided with classroom accommodation at St. Jean.

NEW SURROUNDINGS

For the majority of the city's school population the return to studies will mean their entering into completely new, bright and airy surroundings.

This is the result of long studies and a full reassment of the cramped, crowed and in several places poorly lit classrooms which existed in at least three of the older teaching establishments.

The three schools, all between 80 and 100 years old, Prince Street, Queen Square and West Kent, have been replaced by modern up-to-date buildings, two on new locations, and each costing in the vicinity of $350.000

FIRST REPLACEMENT?

The first school to be replaced was Prince Street, here the students have been provided with a two-storey, fireproof, steel and masonry building. In the main portion of the building, 14 classrooms have been provided, and four more will soon be ready in the wing being erected at the southeast corner.

This new school, which is located on the orginal school property north of the old school, was opened last January. The official laying of the cornerstone is scheduled to take place at 2 p.m. Tuesday, with a former, now retired, principal, C. L.P. Lowther doing the honors.

St. Jean School located at the intersection of Stewart and Upper Queen Streets, will officially welcome some 700 students into its 32 classrooms on Tuesday morning. Here the laying of the cornerstone will take place at 10 a.m. and will be preformed by a former principal of Queen Square, Lt. Col. Leo F. MacDonald.

To all the students, except for the grade one newcomers, the new surrounding is going to present a far more pleasing atmosphere that they experienced in the older inadequate schools.

READY IN OCTOBER

For the students destined to attend West Kent, for the first couple of months they will be forced to put up with their old surroundings.

But according to officials, by the end of October the classroom section of the new West Kent School will be ready for use.

This new school located on Viceroy Avenue, between Goodwill Avenue and Brighton Shore, will provide 18 classrooms. The assembly hall, teachers study and other service rooms, will not be completed for several weeks latea.

At these new schools the principals will be those who held similar positions in the schools they replace. At Prince Street it is Miss Matheson, St. Jean, Reginald MacDonald and West Kent, C.F. Hines.

Bridge Meeting Is Deadlocked

A tie for first place developed in Monday night's session of the Charlottetown Duplicate Bridge Club, held at the Charlottetown Hotel, with seven tables on hand.

Mrs. St. Clair Trainor and G. Poole ended in a deadlock for first place with Mr. and Mrs. T. F. Grant of St. John's, Newfoundland, both with 60.4 per cent.

SUMMARY

By THE CANADIAN PRESS

Toronto: Market higher; trading extremely heavy.

New York: Market higher; selected issues firm.

Montreal: Market sharply higher; trading light.

CURRENCY

MONTREAL (CP)—The U.S. dollar closed at a premium of 7 23-32 per cent in terms of Canadian funds, unchanged from Thursday's close. Pound sterling closed at $3.01¾, down 1-16.

NEW YORK

NEW YORK (AP)—A surprising late rally on the eve of the Labor Day weekend brought the stock market its only gain of the week Friday—and a substantial one.

At the end of a week which was wrapped in extreme caution over prospects, a wave of speculative buying, accompanied by a late ticker tape, boosted the averages well ahead.

Motors, savings-and-loan holding companies, chemicals, and the "growth" stocks in various categories went ahead swiftly. Even some of the badly battered steels snapped back from recent losses.

Security analysts had various theories for the rise. One was that most of the pre-Labor Day offerings were well absorbed in the lackluster sessions earlier this week and that Friday's buyers found a relative scarcity of stock for sale.

The Dow Jones industrial average advanced 6.86 to 609.19.

Volume rose to 2,830,000 shares from 2,260,000 Thursday.

The Associated Press 60-stock average rose 2.2 at 225.2.

International Nickel, ahead 1⅜, was outstanding in the Canadian section. Canadian Pacific and Dome Mines gained ¼ each. Hudson Bay Mining was off ¼ and Distillers Seagrams ⅛.

American Exchange prices also rallied. Scurry Rainbow Oil was up ½ and Shawinigan ¼ while Preston and Fargo Oil each tacked on 1-16. Brazilian Traction and Jupiter Corp. eased ⅛ each.
